#### Special Provisions Guaranteed Rate

The Employer reserves the right to place any part of the Woods Operations on a piecework basis, excluding the cookery, and the piecework rate to be paid for such work will be based on the conditions affecting the work. However, in placing any part of their Operations on a piecework basis, the Employer agrees that the Hours of Work Article will apply and that over a settlement period not less than the rate for the classifications affected will be paid. If there is no rate, the general labour rate shall apply. This does not apply to cutting under Schedule C, the rates for which are in the Agreement and for which there is no guaranteed daily rate.

An employee cutting under Schedule C rates or incentive bonus system, who works overtime at his regular job, shall be paid on the basis of his regular rate and for overtime shall receive, in addition, half time at the hourly rate for the work being performed. If there is no rate for the work, the general labour rate shall apply. This shall be kept separate and apart and shall be shown thusly on memo slips.

The Employer agrees that there will be no lumping of established classifications, i.e. when a financial remuneration is provided for

in the Agreement, it shall be kept separate and apart and shall be shown thusly on memo slips. It is understood that any work covered by a guaranteed daily rate will be considered as a classification, and the rate set for the rental of owner-operated or employee owned equipment shall be considered a classification for the purpose of this paragraph.

The Employer will set a rate for the rental of each piece of mechanical equipment that is owner-operated or owned by an employee and this rate or rates shall not be lumped with any other financial remuneration provided for in the Agreement, but shall be solely for the rental of equipment and shall not be a variable rate, i.e. the financial remuneration of an employee shall in no way whatsoever be taken from the earnings of the owner-operated or employee-owned equipment.

Commuting allowance and walking and riding time shall not be lumped with any other rate.

If hauling is on piecework, the rates to be paid shall be determined by the Contractor or Foreman. In determining such rates, due consideration shall be given to:

- (a) the price ranges established for piecework
- (b) the conditions affecting the work for hauling.

#### Scaling

- (a) For the purpose of this Agreement, a "cubic metre" shall mean the solid wood content of a pile of pulpwood scaled on a stacked basis and converted to solid measure using a factor of .6641 in the case of 1.25 m. length pulpwood and a factor of .6250 in the case of 2.50 m. length pulpwood.

(b) It is agreed a piececutter is entitled to know the amount of wood he has cut before it is removed and conditions become such that it is impossible for him to check the accuracy of his scale. To this end, all cut and piled wood shall be scaled on the strip. All cut and bunch wood shall be scaled on the landing to which it is forwarded. The cutter will be given reasonable time to check his scale before the wood is removed. The present practice with respect to the scaling and reporting of pallet wood shall continue.

On tree length operations, the employee shall be notified how much wood he has produced before conditions are such that he is unable to check the accuracy of his scale. On commuter operations, information will be posted on the bus or in the lunch shelter.

Employees will be notified as soon as possible after their scaling tables are changed.

#### Retroactivity

Unless specified elsewhere in this Agreement, any changes made to prior Agreements and shown herein shall not be retroactive.
