9. Training — Schooling:

(a) The Provincial Apprenticeship Board recommends that apprentices spend time in the practical aspects of their trade prior to entering their annual school term. In this case, as the probationary period for apprentices is Three (3) months, apprentices will not enter school

prior to the completion of their three month probationary period.

10. Thereafter, entry into school will depend on the schedule of school sessions set up by the Apprenticeship Board. The Company will make up the difference between the Canada Manpower Training and Assistance Program Allowance and the employee's normal earnings (based on his regular straight time hourly rate multiplied by 40 hours per week) for the duration of the school term. Upon completion of each period of training in an approved vocational school, apprentices will be required to pass examinations set by the Apprenticeship Branch. Persons presently employed as Journeymen who do not wish to become certified, or who take the technical qualifications examination and fail shall continue to be employed as journeymen, and if a person presently employed as a journeyman fails to pass the test for a voluntary Technical Qualifications certificate, he can then become indentured as an apprentice.

Once started in the Apprenticeship Program, subject however to the provisions of the Collective Agreement, the apprentice shall have the right to continue providing he passes all prescribed tests as provided for by the apprenticeship regulations, and work is available to him. Upon completion of his first year of apprenticeship an apprentice shall not be affected by operational curtailment as it applies to other employees exercising their seniority.
