The successful applicant shall be the highest seniority qualified applicant. Hereafter, where the terms “temporary vacancy” or “temporary job opening” are used in Article 5, they are deemed to be the same. Provided the Company has the necessary information regarding the estimated period that an employee will be absent, the Company will estimate the length of time it expects a temporary vacancy to last. This is for informational purposes only and will not form part of the job posting documentation.

The successful applicant for a temporary job posting will assume the shift schedule of the temporary vacancy being filled in accordance with Letter of Understanding # 37 – Weekly Scheduling Procedure.

- 5.2.1 All seniority employees in that department, except those laid off from work and except those employees recalled under 9.8.1, are eligible to apply in writing for temporary vacancies or temporary job openings in accordance with Article 5. - 5.2.3 As a result of any initial temporary vacancy, not more than two (2) positions will be posted, the original vacancy and the position vacated by the successful applicant.
- 5.2.4 Successive subsequent vacancies will be filled by a qualified departmental employee who desires to fill the position. The Company will canvass employees in order of seniority to determine whether they wish to fill the position. Seniority and qualifications will be the deciding factors should more than one (1) employee wish to be considered.
- 5.2.5 Should a temporary vacancy exceed six (6) months, it will be reposted as a temporary vacancy.

In this event, the Company will place the most junior qualified employee in the Department in the vacancy on a temporary basis until it can be fulfilled by the successful applicant.
- 5.9.0 An employee may only hold one (1) permanent and one (1) temporary job at the same time. An employee who is holding a temporary job vacancy may not apply for another temporary job vacancy until he/she has completed the first temporary job assignment, unless:

5.10.1 These postings will be for the shutdown period only and will be open to all Non-Skilled Trades seniority employees, except those laid off employees not at work. Employees will be allowed to apply for any or all Non-Skilled Trades postings for which they are qualified. The applicants will be given their choice of the posted job classifications by seniority, beginning with the most senior applicant.

All employees who posted to a new position as a result of the original posting shall be returned to their previous positions.

5.11.2 An employee returning to work following an absence will commence working on their regular job and scheduled shift, once they have completed any required re-orientation. In this event, the displaced employee will exercise his seniority on a job for the balance of the week.

- 5.12.0 Employees failing to qualify for the position shall return to their former positions within thirty (30) days and shall retain their seniority. An employee successfully posting to a job in a different department will be allowed to resign the position and return to their former position within five (5) working days, and shall retain their seniority.

An employee successfully posting to a permanent job within the same department for which he is not qualified will be allowed to resign the position and return to their former position within five (5) working days, and shall retain their seniority.

- 5.12.1 When an employee is returned to their former position pursuant to Article 5.12.0, all employees who posted to a new position as a result of the original posting shall be returned to their previous positions. - 6.1.1 The normal hours of work are stated solely for the purpose of calculating overtime and shall not be construed as a guarantee of any minimum nor as a restriction on any maximum number of hours to be worked. For the purpose of payment, time shall be calculated to the nearest interval of six minutes worked.

6.1.2 For the purpose of shift premium only, the following shifts are defined:

A day shift is a shift scheduled to commence between 4:00 a.m. and 11:59 a.m.

6.10.0 An employee may, with the approval of the Company, arrange for a change of shift with another employee, in the same Department, provided such change does not result in additional overtime pay. Each employee involved in the exchange of shift shall work on the regular Monday to Friday job classification and hours of the other employee, or the scheduled overtime job classification and hours of the other employee, provided he/she is qualified to do the work involved. Such a change shall not unreasonably be withheld.

The right of an employee to switch shifts is subject to the hours of work limitations prescribed in article 7.17.0, which prohibits an employee from working more than sixteen (16) hours in any twenty-four (24) hour period or more than twenty-four (24) hours in any forty-eight (48) hour period.

With respect to calls for boat/barge loading overtime, the Company is only required to advise the employee of the time and overtime assignment being offered on the first call only and will not be required to call the employee back for subsequent boat/barge overtime opportunities until the employee phones back to the Company.
- 7.1.2.1 In the event the boat loading/barge loading start time is delayed or moved two (2) hours or more, the Company will restart the process for offering the boat loading/barge loading overtime opportunities.
- 7.1.3 If an employee alleges that he/she has been bypassed in administering equal opportunity, and such allegation is substantiated, he/she shall be paid an amount equal to the amount he/she would have earned had he/she worked overtime on the missed opportunity.
- 7.2.0 The Company shall pay time and one-half calculated to the nearest interval of six (6) minutes worked for all hours worked in excess of eight (8) hours in any continuous period of twenty-four (24) hours, excluding Sunday. If the employee accepts the overtime assignment and if the overtime is to commence at any time up to one (1) hour after the employee's shift, he/she will commence working the overtime assignment immediately following his/her shift so as to not exceed the hours of work restrictions prescribed in Article 7.2.0.

If the employee accepts the overtime assignment and if the overtime assignment is to commence more than one (1) hour following the end of the employee's shift, he/she will be required to punch out and return to work at the commencement of the overtime assignment.

However, it is understood that if an employee is given permission by supervision to be off on either or both of the above days, this will count as time worked for the purpose of qualifying for holiday pay. - 14.5.0 The Company will print the Employee's Handbook in the back of the Collective Agreement booklet. The Handbook will not, however, form part of the Collective Agreement. The Collective Agreement will be printed in a unionized shop.
- 14.6.0 In the event of the death of an employee or pensioner, the Company agrees to continue to pay the premiums for applicable health insurance coverage for a dependent surviving spouse and eligible dependents, for a maximum of eighty-four (84) months, unless the person qualifies for premium free coverage or coverage through another employer before that time.
- 14.7.0 The Company will continue to pay all benefits under the industrial relations plans covered in the Collective Agreement for an employee on short term leave, not to exceed two (2) months in a calendar year, provided there is no duplication of any benefits while on such leave and provided the Local Union gives the Company written notice of the leave of absence, where practical.

- 15.2.0 Any further employment in the Skilled Trades occupations after the signing of this agreement shall be limited to Journeypersons, except that during the period when Journeypersons are unavailable, it is agreed that non-journeyperson employees, whose duties shall be to assist Journeypersons, may be reclassified on a temporary basis to supplement the work force in a Skilled Trades classification. Such non-journeyperson employees shall be classified as supplemental employees. Vacancies for supplemental employees shall be posted plantwide and filled in accordance with the applicable provisions of Article 5.

Applications will only be accepted from employees who qualify under Article 15.4.0, in the same classification as noted in the posting. The most senior tradesperson will be the successful candidate. An employee successfully posting to a job in a different department will be allowed to resign the position and return to their former position within five (5) working days, and shall retain their seniority. The next most senior qualified applicant will then be awarded the position.
- 15.3.1 The successful candidate shall be placed on the job within fourteen (14) days from the posting termination date. Any permanent Skilled Trades openings not filled in accordance with Article 15.3.0 shall be filled as follows:
- (a) by the most senior laid off employee qualified in the classification required;
  - (b) by a new hire;

Prior to hiring, the Skilled Trades Committeeperson shall be given an opportunity to review the credentials of candidates claiming Journeyperson status.

- 15.3.2 When a Journeyperson becomes available either by hire or transfer, in a skilled classification to which a supplemental employee has been assigned, such Journeyperson shall replace the supplemental employee who shall then be laid off or returned to his/her original department.

**TEMPORARY JOB POSTINGS/ASSIGNMENT**

- 15.3.3 When a temporary Skilled Trades vacancy, or job assignment within a classification occurs for any reason other than casual absence (herein defined as any absence up to seven (7) calendar days) the Company will post the vacancy, or job assignment within a classification in the Maintenance Departments simultaneously for a period of twenty-four (24) hours unless the posting takes place on a Friday when it will be posted for thirty-two (32) hours. The most senior tradesperson in the classification in the department where the vacancy or job assignment within a classification occurred who desires the position will be the successful applicant. Should there be no applicant from that Department the successful applicant will be the most senior tradesperson in the classification from the other Maintenance Department who applied for the vacancy.
- 15.3.4 The successful applicant will assume the shift schedule of the vacated position. The Union will be notified in writing of the successful applicant as the result of the posting. If no one desires the position, it will be assigned to the most junior tradesperson in the classification in the Maintenance Departments, or cancelled at the option of the Company. There will be no requirement to post the opening created by such assignment.
- 15.3.5 A Skilled Trades employee will be permitted to hold a permanent job and one temporary job in the same classification.
- 15.3.6 When the Company elects to fill a vacancy on a shift within a Surface Maintenance Skilled Trades classification for any reason other than casual absence, the Company will canvass for the position to be filled by seniority.

- (a) Labourers in the Maintenance Department shall continue to assist Skilled Tradespersons by performing non-skilled work associated with the work of the Tradespersons.
- (b) Members of one Skilled Trade shall continue to assist members of another Skilled Trade, when so required.

However, when modified Maintenance crews are working on overtime, the Company shall utilize two members of a Skilled Trade to perform the work rather than having a member of one Skilled Trade assist a member of another Skilled Trade when so required, where there is no possibility of work being required in more than that trade. This paragraph does not apply to Skilled Trades employees in Skilled Trades classifications with only one employee.

The Company will also keep a Skilled Trades employee on to work overtime at the end of his/her shift (other than to replace an employee who is absent on the following shift) to assist a member of the same skilled trade where there is no possibility of work being required in more than one trade. This paragraph does not apply to Skilled Trades employees in Skilled Trades classification with only one employee.

  - 15.6.1 Furthermore, the parties agree that with the introduction of new techniques and technologies, it is important that advance planning be made to anticipate skills, needs and training required so that Skilled Trades employees can perform the duties of their trade.
  - 15.6.2 The Company agrees to continue its present practice of affording the workers affected by the introduction of new technologies the opportunity to apply themselves to the new skills and the new technology so that they can perform the duties of their trade.
  - 15.6.3 The Company will continue to pay the cost of the training to afford Bargaining Unit employees (who have the basic knowledge and ability to be trained) the opportunity to keep current with new methods, tools, machines, and new technology affecting their work and job security.
  - 15.6.4 The Company will notify the Union ninety (90) days in advance of any introduction in new technology and will notify the Union in advance of the introduction of new techniques so as to give the affected Bargaining Unit employee (who has the basic knowledge and ability to be trained) the opportunity to become acquainted with the new skill needs so that he will be available to perform the work when needed.
  - 15.6.5 During his/her regularly scheduled work week all hours involved on training shall be considered as hours worked and the Company agrees to pay the employees attending such courses the appropriate rate of pay as outlined in Article 7.2.0 and approved expenses, less any monies received from other sources.

- 15.6.6 Should such training take place on the employee's day(s) off, he/she shall be paid straight time wages for the hours spent at such training except when he/she would have been called to work overtime in which case he/she will be paid in accordance with Article 7.3.0.
- 15.6.7 Hours spent on training off the Mine site will be paid a maximum of eight (8) in any calendar day.
- 15.7.0 The Company will deduct, from the pay of each Journeyperson, as defined in Article 15.4.0 the annual Skilled Trades dues, as directed by the Union. - 15.8.0 The Company shall supply metric and specialized tools for use by Skilled Trades employees when required in the performance of their work.
- 15.8.1 The Company will continue its past practice of repairing or replacing employees' tools that have been damaged while performing assigned maintenance work. Lost tools will also be replaced by the Company at no cost to the employee if such loss is reported to the employee's supervisor within a reasonable time and with a reasonable explanation as to the circumstances surrounding the loss.
- 15.8.2 The Company will reimburse Skilled Trades employees up to a maximum of \$100.00 per calendar year per person, for Skilled Trades license(s) that they require in the performance of their duties. Trades persons will be required to show their licence or proof of payment. If amount payable is for 2 or 3 years, then this payment is cumulative.
- 15.9.0 Only properly instructed and qualified Skilled Tradespersons shall work on and perform the regular inspections of the hoists and sign the required record books. As well, in the event the Company requires the services of an outside contractor to work on the hoist, only contractors that are qualified to do the required work on the hoist will be utilized.
- 15.10.0 The Company agrees to continue its present coverall service, a seven (7) pair cycle, for all classified Skilled Trades employees at no cost to the employees.

- 15.11.0 The seniority of Skilled Tradespersons shall be established by separate seniority lists for each classification listed in section 15.1.0. Present employees in these classifications shall retain their present seniority date. The seniority date of future new employees shall be established in accordance with the provisions of Article 4.1.0 of this Agreement. The seniority date of an employee who is reclassified from a nontrades classification to a Skilled Trades classification shall be the date of reclassification.

- 15.12.1 The employees affected shall be given preference in filling new vacancies in unskilled classifications, but shall not be permitted to carry their seniority into these classifications.
- 15.12.2 In the event the employee laid off in one classification is qualified under paragraph 15.4.0 as a Journeyperson in another Skilled Trades classification, the employee shall be permitted to displace a junior employee in the other classifications. Such employee shall return to his/her former classification on recall or shall take date of entry seniority into the new classification and shall forfeit any recall right to his/her former classification.
- 15.12.3 Should a classification be discontinued or eliminated, the employees affected shall be permitted to exercise their total company seniority in displacing junior employees in other classifications provided the employee is willing and qualified to do the work available.

### **RECALL**

- 15.13.0 Recalls in any Skilled Trades classification shall be in reverse order of layoff by classification provided the employee is willing to do the work available. The provisions of Articles 9.5.0, 9.7.0, 9.8.0, and 9.8.2 also apply to Skilled Trades employees.
- 15.14.0 A Skilled Trades employee who has worked two consecutive forty-eight (48) hour weeks will be permitted to be absent with permission one day within the following week provided he/she notifies his/her supervisor by Friday of the preceding week, and provided further that such employee will not be required for any weekend work because of hoisting or boat loading requirements.

  - (b) In the event a classification is left vacant and the Company requires an employee to perform the duties of the classification for one (1) or more days during the regular work week (including posted full production weekends) the Company will:
    - (i) First, offer the work to qualified departmental employees who have been otherwise displaced under clause 4.7.0. (1) or (3) or (5) ; or
    - (ii) If no one has been otherwise displaced under clause 4.7.0 (1) or (3) or (5), offer the work departmentally as overtime pursuant to the provisions of Article 7 of the collective agreement; or
    - (iii) If no qualified employee volunteers to work overtime pursuant to (ii) above, the Company can utilize the provisions of Article 4.7.0 to assign a qualified employee to perform the work.
  - (c) If the Company elects to post the classification as a temporary vacancy and no qualified employee applies, the Company will assign the junior qualified employee to perform the work pursuant to the collective agreement.

**LETTER OF UNDERSTANDING NO. 40****TEMPORARY JOB CANCELLATION**

- 1) If an employee is the successful applicant for a temporary vacancy and that posting is not cancelled by the Company prior to the actual starting time of the commencement of the temporary vacancy, the successful applicant will be considered as still holding the temporary vacancy (including if the employee is assigned elsewhere as junior qualified employee pursuant to Article 5.2.2) and the temporary vacancy will be considered “shut down” for the purposes of Article 4.7.0.
- 2) In the event the Company cancels a temporary posting prior to the commencement of the Temporary vacancy, the employee who had previously been awarded the temporary vacancy will not be considered as holding the temporary vacancy and the position will not be considered “shut down” for the purposes of Article 4.7.0.
- 3) A temporary posting will only be considered cancelled after it has been awarded to an employee, in the event an employee becomes absent, thereby requiring a change in the schedule.
- 4) In the event an employee becomes absent after the successful applicant has commenced the temporary vacancy, the employee’s posting will not be cancelled until the end of that week. Thereafter, the provisions of Paragraph 1 of this document will apply.

**LETTER OF UNDERSTANDING NO. 41****WORKPLACE HARASSMENT**

The Union and the Company recognize the issues related to sexual and racial harassment in the workplace and are committed to ending it. Harassment is not a joke. It is cruel and destructive behavior against others that can have devastating effects.

It is an expression of perceived power and superiority by the harasser(s) over another person, usually for reasons over which the victim has little or no control: race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, age, record of offences, marital status, same-sex partnership status, family status or disability.

Harassment on any of these grounds can be made the basis of a complaint to most provincial and federal human rights commissions.

Harassment can be defined as any unwelcome action by any person, whether verbal or physical, on a single or repeated basis, which humiliates, insults or degrades.

“Unwelcome” or “unwanted” in this context means any actions which the harasser knows or ought to know are not desired by the victim of the harassment.

Sexual harassment is any unwanted attention of a sexual nature such as remarks about appearance or personal life, offensive written or visual actions like graffiti or degrading pictures, physical contact of any kind, or sexual demands.

Racial harassment is any action, whether verbal or physical that expresses or promotes racial hatred in the workplace such as racial slurs, written or visually offensive actions, jokes or other unwanted comments or acts.

The experience of harassment can be overwhelming for the victim. People often react with shock, humiliation and intense anger. Therefore, the victim of harassment may not always feel comfortable going through the normal channels for resolving such a problem.

Because of the sensitive personal natures of harassment complaints, especially racial and sexual harassment, the victims may prefer initially to seek other assistance. This could be by any local Union elected person or official. This person could assist the harassment victim in bringing the incident(s) to the attention of the local Union leadership.

The local Union president and the unit chairperson must contact the CAW national representative, and if necessary, they will meet with a senior Company representative(s) to carry out an investigation. The issue must be handled with confidentiality, and is to be resolved expeditiously. The investigation will be conducted with Union involvement in accordance with the Company’s Respect In The Workplace Policy.

Where an investigation determines that harassment has occurred, any resolution of such a harassment complaint must reflect the serious nature of such acts and send a clear signal that they will not be tolerated.

**LETTER OF UNDERSTANDING NO. 42****OVERTIME DISPARITY**

Within 60 days following ratification of the collective agreement, and at 90 day intervals thereafter as necessary, the Company and the Union will meet to discuss the issue of disparity in overtime hours among employees within certain Skilled Trades classifications with the objective of identifying the cause(s) of these issues and solutions to same.

**LETTER OF UNDERSTANDING NO. 43****SURFACE MAINTENANCE OUTSIDE STACKER**

Any work involving maintenance or repair of the Outside Stacker will be performed by two (2) Surface Maintenance Skilled Trades employees. In some instances a Maintenance Skilled Trades employee may be accompanied by a supervisor or a non-skilled Maintenance Department employee.

**LETTER OF UNDERSTANDING NO. 44****PAY CONTINUANCE**

The Company will pay the members of the Union for unpaid union business from work for business arising out of the collective agreement that is not covered elsewhere in the agreement or for business related to duties associated with the Executive of Local 1959. The Company will then submit a bill to Local 1959 for timely reimbursement of any monies paid as described herein.

## **5. Vested Pension**

An employee who has completed two years of service with the Company on or after January 1, 1987 acquires a Vested Interest of 100% in the pension plan.

Before January 1, 1987 Minimum Vesting of 5% occurs after six years of recognized service, progressing at the rate of 5% for each additional year of recognized service when the employee acquires 50% vesting. Vesting then continues at a rate of 10% per year until the 20th year of recognized service when full vesting takes place.

Where applicable Provincial Government Pension legislation is in excess of the Company rules governing vesting, the Government legislation will prevail.

Where the vested monthly pension payable at age 65 is less than \$25.00 per month, the employee will usually receive a lump sum settlement, calculated on an actuarially equivalent basis, payable twelve months after the date of termination.

The spouse will then receive a pension equal to 60% of the deceased members pension, until death.
