An employee who has attained age 57 and who suffers a proven and certified medical disability but is not eligible to receive benefits under the Company's Long Term Disability Plan, or who has attained age 57 and is displaced as a result of a workforce reduction, may be granted the right to retire early on the first day of any month prior to age 65 and shall be entitled to receive his/her accrued normal retirement income benefits without actuarial reduction. This benefit will also be supplemented from this Plan to place the pension payable from Standard Life under the Former Plan on the same unreduced basis as is provided under this Plan.

Effective September 1, 1998 each such member who, at the date of his/her special early retirement, has completed at least 20 years of continuous service will also receive a bridging supplement commencing on his/her early retirement date equal to thirty dollars (\$30.00) per month for each full year of continuous service with the Company to a maximum of 30 years, reducing to fifteen dollars (\$15.00) per month for each full year of continuous service (to a maximum of 30 years) on the first of the month next following the employee's 60th birthday. 2313 EMPLOYEE CONTRIBUTIONS

Effective September 1, 1998 an eligible employee who is a member of the Plan will contribute each year, an amount equal to:

If the number of hours in a particular pay period for which a member is compensated at his/her basic rate of pay is less than 25 hours, the Company will not deduct his/her contribution installment otherwise required under the terms of the Plan. The amount of such contribution not deducted will be deducted from his/her pay in subsequent payroll periods in the same Plan Year unless the employee notifies the Time Office within a reasonable time that he/she wishes to forego the missed contributions and related pensionable service.

If the amount of such installment in any payroll period is greater than the member's pay for the period, the Company reserves the right to defer the deduction of such amount from wages to subsequent payroll periods in the same Plan Year.

2314 DISABILITY ACCRUAL

While receiving benefits under the Company's Long Term Disability Plan, a member will continue to accrue Pensionable Service and continuous service. During such a period of disability accrual, the member will not be required or permitted to contribute to the Plan. His/her Earnings as of each September 1st that falls in such period of disability accrual will equal his/her rate of Earnings in effect at the September 1st immediately prior to the date he/she became eligible to receive payments under the Long Term Disability Plan, subject to any adjustments made prior to September 1, 1998, and subject to the following further adjustments.

Each member at September 1, 1999, 2000, 2001, 2002, and 2003 who is and has been in receipt of benefits under the Company's Long Term Disability Plan for at least four (4) continuous years immediately prior to that date, will have the rate of Earnings recomputed with effect from each of those dates to reflect the general wage increases at September 1, 1999, 2000, 2001, 2002 and 2003 respectively.

Employees who qualify for Long Term Disability on or after January 1, 2000, and who retire will have their pension calculated based on the greater of:

- Or
- The base rate in the Mill (Labourer rate) in each of the years used to calculate his/her pension

- (c) If the member had previously terminated his/her employment prior to January 1, 1988, and left his/her contributions plus interest on deposit in the Plan, the beneficiary will receive the sum of such required contributions which were left in the Plan with interest. If the member had previously terminated his/her employment on or after January 1, 1988 and left his/her contributions plus interest on deposit in the Plan, the beneficiary will receive the death benefit as determined under paragraph (b) above.

- (d) If the member dies while on postponed retirement, he/she will, for the purpose of this Plan, be deemed to have retired on the first day of the month in which his/her death occurs, and retirement benefits will be paid to his/her beneficiary or joint annuitant, if any, in accordance with the normal or optional form of benefit elected by the member.

2316 INTEREST

The rate of Interest under this Plan shall be equal to 4.5% per annum from January 1, 1981 to December 31, 1986, and 6.5% per annum thereafter or at such other rate as is established as the minimum required for continued registration of the Plan with the regulatory authorities. Effective January 1, 1987, Interest shall be credited from the end of the month in which each employee contribution is made and shall be compounded annually to the beginning of the month in which payment is made or in which a determination is required.

2317 BENEFITS ON DEATH AFTER RETIREMENT

Retirement Income Benefits are payable for the remaining lifetime of a retired member with the guarantee that, if the member dies before a total of sixty (60) monthly benefit payments have been made, the balance of such payments will be continued to their beneficiary or provide for commutation of the benefits for the balance of the guarantee period to the estate. Prior to his/her date of retirement, a member may, however elect to have his/her retirement income benefit paid in optional form and in such event, the benefits, if any, payable following the death of the member will be determined in accordance with the terms and conditions of such optional form

Optional forms available under the Plan include:

- (a) a lifetime benefit with no guarantee, which provides an income somewhat higher than the normal benefits described above for the member's lifetime. Payments cease upon death.
- (b) a lifetime benefit with 120 or 180 month guarantee, which provides an income somewhat lower than the normal benefits described above. If the member's death occurs within the guarantee period, payments will continue to be made to his/her beneficiary for the balance of the 120 or 180 month period.

- (c) a joint and survivor option, which provides a reduced pension payable for the member's life. Upon the member's death his/her pension will continue in whole or in part, as he/she may elect, to his/her named spouse or beneficiary.
- (d) a level income option which may be elected only in the case of early retirement. This option provides an increased pension during the period before Canada Pension Plan and Old Age Security benefits commence and a reduced pension after these benefits commence in order to provide a reasonably level pension from all sources throughout retirement. This option is available only for members selecting a single life form of pension. Optional forms of pension will be paid in the actuarial equivalent of the normal form of pension.

In the event the member retires on or after January 1, 1988, and has a spouse at the date of retirement, the automatic form of payment will provide that, in the event the member predeceases his/her spouse, 60% of his/her pension will continue to the spouse for the remainder of his/her lifetime. The member's pension will be actuarially reduced at the date of retirement to provide for this spouse pension. An alternative form of payment may be elected if both spouses agree to the change in writing.

2318 BENEFITS ON TERMINATION OF EMPLOYMENT

- (a) On termination of employment prior to January 1, 1988, a member may elect to receive a lump sum refund of his/her required contributions to the Plan, with Interest, or he/she may elect to accept a deferred retirement income benefit commencing at his/her normal retirement date. Such deferred retirement income benefit will be in the amount which can be provided by the sum of the member's own required contributions to the Plan, plus a vested portion of the remainder of the retirement income benefit accrued or granted to him/her to the date of his/her termination of employment. In this regard, the vested portion of such remaining retirement income benefit will be equal to 50% after five (5) years for participation in the Plan and the Former Plan, scaling up by 10% per year to 100% after ten (10) years of such participation.

He/she will also be entitled to any benefit payable on termination of employment by The Standard Life Assurance Company under the Former Plan.

The vesting and locking-in provisions of the Pension Benefits Act of Ontario will, however, apply at all times if termination of employment occurs after a member has completed ten (10) years of continuous service and has attained age 45.

- (b) On termination of employment on or after January 1, 1988, the member will receive the following benefits:

Such deferred retirement income benefit will be in the amount which can be provided by the sum of the member's own required contributions to the Plan made during such period, plus a vested portion of the remainder of the retirement income benefit accrued or granted to him/her for Pensionable Service prior to January 1, 1987. In this regard, the vested portion of such remaining retirement income benefit will be equal to 50% after five (5) years for participation in the Plan and the Former Plan, scaling up by 10% per year to 100% after ten (10) years of such participation.

He/she will also be entitled to any benefit payable on termination of employment by The Standard Life Assurance Company under the Former Plan.

- (ii) In respect of Pensionable Service on and after January 1, 1987, the retirement income **benefit** accrued on and after January 1, 1987 will be fully vested after completion of two years of Pensionable Service including Pensionable Service prior to January 1, 1987. If the member **terminates** before completing two years of Pensionable Service, he/she will receive a refund of his/her contributions plus Interest made after January 1, 1987. If the member terminates after completing two or more years of Pensionable Service, he/she will be required to leave his/her contributions on deposit in the Plan in exchange for a pension commencing at his/her normal retirement age equal to the retirement income benefit accrued for Pensionable Service after January 1, 1987.

In the event the member dies, terminates employment or retires on or after January 1, 1988 after completing two or more years of Pensionable Service, it is guaranteed that no more than 50% of the Commuted Value of the benefits accrued for Pensionable Service on and after January 1, 1987 or granted on or after January 1, 1987 will be financed by the member's required contributions plus Interest made on and after January 1, 1987.

If the member's required contributions plus Interest made on and after January 1, 1987 exceed 50% of the Commuted Value of such pension, the excess will, at the member's option, be either:

- (a) refunded to the member; or
- (b) used to increase the **benefits** payable under the Plan

- (iii) For purposes of this Plan, "Commuted Value" means the lump sum actuarial equivalent value of the retirement income benefit under consideration, determined according to the rules and regulations of the Pension Benefits Act of Ontario.

2319 PORTABILITY

If a member terminates employment on or after January 1, 1988 and prior to their attainment of age 55, he/she may elect, provided such election is filed in a form satisfactory to the Company, within 60 days of his/her date of termination, to transfer the Commuted Value of his/her vested pension under the Plan to either:

- (a) the pension plan of their next employer, if such employer will accept the transfer; or
- (b) to a personal locked-in registered retirement savings plan, as defined in the rules and regulations under the Pension Benefits Act of Ontario; or
- (c) purchase a deferred life annuity from an insurance company.

Notwithstanding the foregoing, such transfer or annuity purchase may be limited to comply with the solvency requirements under the Pension Benefits Act of Ontario.

maximum increase of 5%. The increase in the Consumer Price Index is calculated during the twelve-month period that ends with October of the year preceding the year in which an increase is to become effective.

The Pension Increases will be payable on the same form of payment that applies to the member's pension already in the course of payment.

For purposes of this section, "Consumer Price Index" means the Canada all-items Consumer Price Index (1981 = 100) as published by Statistics Canada.

If, by reason of law or guideline established by a Government Body, the Company is required to provide increases in pension for retired employees, the Company will only be required to increase pensions under this section such that the resulting pension equals the greater of:

All eligible employees will be enrolled in the Weekly Indemnity Benefit Plan. Eligibility requirements are as follows:

Permanent employees are eligible on the first day of the month following the completion of three (3) months of continuous service.

An employee employed on the "call crew" will become eligible on the first day of the month following completion of a three (3) month period of employment, provided that during the three (3) month period he/she has worked at least fifty-seven (57) days and has not been laid off for more than thirty (30) successive days.

(b) Effective Date of Coverage

The coverage of an employee who became eligible to join the Plan will commence on the first day of the month following his/her completion of the eligibility requirements provided he/she is actively at work on that day, if an employee is absent due to disability, coverage will commence with his/her return to active full-time employment.

Any present or future eligible employee absent from work due to lay-off or authorized leave of absence on the day his/her insurance is due to commence will be enrolled:

- If absence is due to lay-off - upon recall and replotting to work;
- If absence is due to authorized leave of absence - on return to his/her regular employment.

(c) Commencement of Benefit Payments:

Benefits under the Weekly Indemnity Benefit Plan shall commence on the first day of absence due to non-compensable accident and on the earlier of the fourth day of absence or the loss of twenty-four regularly scheduled hours, due to illness. The employee must consult a licensed doctor of medicine during the first three (3) days of absence. Otherwise, the first day of absence will be established as being two (2) days prior to the date that the doctor was consulted. However, if the employee is hospitalized during the first fourteen (14) days of a continuous period of absence, benefits will commence from the first day of absence provided the employee was continuously disabled from the same or related disability from the first day of absence to the date of hospitalization, the first day of absence being established as indicated in the preceding sentence.

(d) Definition of Disability:

- (e) Any employee on Weekly Indemnity who is determined qualified by a doctor as fit for modified work and no such work is available shall remain on Weekly Indemnity Plan benefits. When assigned modified work, he/she will be paid the rate of the job to which he/she is assigned or card rate, whichever is greater.

- (f) Amount of Benefit:

The amount of benefit shall be seventy per cent (70%) of an employee's weekly pay. An hourly employee's weekly pay shall be determined by multiplying the rate for the employee's permanent job classification at the time disability commenced by forty (40) hours for a day worker and forty-two (42) hours for a tour worker. (The daily rate of payment for each eligible calendar day of benefit shall be one-seventh (1/7th) of the weekly amount of benefit.) There shall be no maximum dollar limit.

Benefits under this Plan will be reduced by the primary amount of benefit received under the disability provisions of the Canada or Quebec Pension Plans or similar provision in any other government plans for disability for which the employee is receiving an amount of disability benefit under this Plan, except for war disability pensions and Workplace Safety and Insurance Board disability pensions.

- (g) Benefit Period:

Benefits under the Weekly Indemnity Benefit Plan will be payable up to a maximum of fifty-two (52) weeks. An amount of disability benefit under the Plan shall not be paid in the event the absence is a result of pregnancy-related disabilities when an employee is on pregnancy leave of absence or could be placed on such leave by the Company, in accordance with the pregnancy leave provisions of any relevant provincial or federal legislation.

An amount of benefit will not be paid for those days for which an employee is eligible to receive holiday pay, vacation pay, or more than one half day's regular pay from the Company.

No employee may draw vacation pay in lieu of taking his/her vacation. However, if an employee is absent from work because of illness or accident at the end of a calendar year and has not exhausted his/her total vacation

entitlement, the remaining day(s) of vacation will be carried over to the next year. Vacation pay for such days of vacation shall be equal to the pay he/she would have received had they taken time off before year-end.

Such deferred vacation must commence within thirty (30) days of return to active employment.

For employees who fail to qualify for pregnancy leave of absence because of failure to meet the length of service requirements in the relevant provincial or federal law, any leave of absence agreed upon by the employer and employee will be considered a normal leave of absence for legitimate personal reasons.

Exception -- Weekly Indemnity Benefits limited to four (4) weeks when an employee is under the care of a chiropractor.

If an employee who has returned to active full-time work with the Company is disabled from the same disability as previously or from a related cause within thirty (30) calendar days of such return, the recurrence will be treated as the same period of disability. If such recurrence should occur after thirty (30)

calendar days, the second period of disability will be treated as a new period of disability.

If an employee receives benefit payments for a particular disability under the Long Term Disability Plan, he/she will not be eligible again for benefits under the Weekly Indemnity Plan for such disability or a related cause unless the disability concerned is classed as a new disability according to section (H) of the Long Term Disability Plan.

(j) Lay-Off:

If employees are laid off, the following conditions shall pertain to disability benefits under the Weekly Indemnity Benefit Plan:

- i) If an employee is already receiving Weekly Indemnity Benefits when lay-off occurs, benefits will continue provided that the employee remains disabled and verifies this by providing evidence satisfactory to the Insurance Company.
- ii) If after lay-off occurs an employee makes a claim for Weekly Indemnity benefits for a disability which commenced prior to lay-off, such claim will be eligible provided that the employee can establish to the Insurance Company's satisfaction that the disability commenced prior to lay-off and absence due to such disability was continuous until the date of lay-off. Benefits will continue after the date of lay-off provided the employee remains disabled and verifies this by providing evidence satisfactory to the Insurance Company.

Any periods of disability that arise as a result of the following will not be covered by this Weekly Indemnity Benefit Plan:

- i) Any compensable disability;
- ii) Any injury or illness resulting from insurrection or war, whether war is declared or not, or from participation in riot or civil commotion.

If an employee covered by Weekly Indemnity suffers a disability which is in dispute with the Workplace Safety and Insurance Board, Weekly Indemnity payments will be made retroactively if requested by the employee and provided he/she has been off work for at least one (1) month due to the disability without the Workplace Safety and Insurance Board having accepted the claim and providing the employee is subject to the same rules and regulations covering the Weekly Indemnity Plan. If the Workplace Safety and Insurance Board claim is subsequently established, the employee will then repay the Weekly Indemnity payment(s) received to the appropriate fund or insurance company.

The Company and/or Insurer reserves the right to require periodic physical examinations throughout the duration of the employee's absence due to disability. Such examinations shall be conducted by a physician or physicians designated by the Company and/or Insurer. The cost of such examinations, transportation and appropriate out-of-pocket expenses related thereto will be paid by the Insurer.

A third physician can be appointed by the employee's doctor and the Company and/or Insurer's physician if these two doctor's cannot agree on the employee's condition.

(m) Administration:

It shall be the obligation of the employee to notify the employer immediately of his/her absence due to disability, following which the employer will provide the necessary initial claim forms.

APPENDIX "C"
ATTACHMENTS & QUALIFIERS

1. Widths:

Widths of machines are definitely established. Starting with 100 inches and up to, but not including 110 inches is a group unit called Class 1. Starting with 110 inches and up to, but not including, 120 inches is a group unit called Class 2. This same rule applies all the way across the width differential line.

Speeds:

Starting with 400 feet and up to, but not including 450 feet, is a group unit called Class 1. Starting with 450 feet and up to, but not including 500 feet, is a group unit called Class 2. In the speed line, the classification of machines will advance if the speed is increased sufficiently to put them over the 50 foot differential line into higher classes.

A 100-inch machine is established as the minimum width for all machines less than 100 inches in width. Fourdrinier widths shall be determined by the face width of the breast roll.

2. Speed will be measured at 6th Dryer Section
3. Company will retain present 400 fpm minimum.
4. Stock Prep. Operator rate shall equal the # 2 Machine Tender's rate.

Stock Prep. Assistant I Operator rate shall equal the Back Tender rate on No. 2 Machine.

Stock Prep. Assistant II Operator rate shall equal the Machine Tender rate on No. 1 Machine.

5. Boss Machine Tender will receive thirty-five (35) cents per hour per machine higher than the rate paid to the highest paid operating Machine Tender over which he has charge.

6. **Speed Adjustments:**

Frequency to be quarterly and changes will go into effect at start of first new pay period thereafter.

7. When calculating speed adjustments, the newsprint Papermakers' Wage Schedule will be used and adjusted upwards by two (2) classes.
8. The Company will delete trial runs for new grades when calculating speed average for the first two (2) runs of that grade.
9. Where the common labour or base rate is higher than the applicable class rate, the common labour or base rate will be applied.
10. Boss Machine Tender will receive twenty-five (25) cents per hour for duties related to supervision of the roll wrapping system.

APPENDIX "I"
JOB CLASSIFICATION PLAN

It is agreed that all jobs under the jurisdiction of the Communications, Energy and Paperworkers Union of Canada, except jobs in the mechanical trades and related occupations, Woodlands and/or jobs properly covered by the Paper-makers' Wage Scale, the clerical jobs and supervisory jobs, will be classified using the Pulp and Paper Manufacturers Job Classification Plan, Explanatory Booklet dated June 1, 1974, as amended.

IMPLEMENTATION

1. The Job Classification Plan is the basis for determining the job class applicable to any existing jobs, and newly created jobs or any jobs which have changed.
2. The Wage Rate Structure established for the various job classifications is set forth in the "Schedule of Wage Rates", which forms part of this Agreement.
3. (a) In the event that new jobs are created or significant changes occur in existing jobs, the employee or employer may request through the Mill Committee, the preparation of a new job description for submission to the Joint Classification Committee for evaluation.

(b) The Joint Classification Committee will evaluate the job and inform the Mill Committee of the applicable job class.

(c) In the event that agreement on the evaluation cannot be reached by the Joint Classification Committee, the question shall be referred for final resolution to the Senior Committee.

- (d) The incumbent of a job **will** receive the rate applicable to the job class, determined as outlined above. An upward rate adjustment, if applicable, will be effective from the date the new job was created or the date that a revised job description was requested pursuant to 3(a). A downward rate adjustment, if applicable, will be effective from the beginning of the next weekly pay period following notification to the Mill Committee by the Joint Classification Committee.
4. The Job Classification Plan will be implemented and upward adjustment will be effective on March 1, 1983.
 5. Upon initial implementation of the Job Classification Plan where the evaluation resulted in a rate lower than that in effect prior to the dates applicable in 4. above, the rate will be maintained as a "Red Circle" rate and will be applicable only to the incumbent on that date and employees who were used as replacements during the twelve month period prior to the date of implementation of the Plan at each location. Employees hired, transferred, or posted to another department after the dates referred to in 4. above will receive the class rate of the occupation they are hired for, transferred to, or accept through job posting.

Red Circle will disappear through attrition and promotion.
 6. General increases will apply to all occupations.
 7. Adjustments to the scale will not apply to employees whose rate are red-circled except in the case where the difference between the "red-circled" rate and the "class" rate is less than the total adjustment. In such a case, the difference will be applied and the "Red Circle" will be discontinued.

8. The Mill Committee will meet as required.
 9. The Joint Classification Committee will meet as required.
 10. As a condition of continued participation in the plan by Weyerhaeuser and in consideration of the Company's agreement to adhere to the general principles of the Job Classification Plan, the Union agrees that it will not cause or be party to the modification of any essential element of a Job Classification Plan in any other pulp and paper company in the Eastern Canadian industry to which the Union is a party, unless such modification is agreed to by all participating companies.
- II. On the principle that, in implementing the Job Evaluation Plan, no employee will receive less favourable treatment on any job than he/she did at any time prior to February 28, 1983, the following will apply:

If movement occurs downwards through lines of progression because of curtailment, individuals affected will revert to the rates they formerly enjoyed on the lower jobs to which they are transferred or the evaluated rate for the job at that particular time, whichever is the higher.

Conversely, in the case of reverting to a higher level of operation, when individuals move back up through their lines of progression they will be paid the rates they formerly enjoyed on the higher jobs to which they are transferred, or the evaluated rate for the job at that particular time, whichever is the higher.

DENTALPLAN

The following is a summary of the Dental Care Plan coverage by the benefits carrier.

You, your spouse and your unmarried dependent children under age 21, or age 25 if attending trade school or university on a full-time basis, are eligible for coverage on the day following your completion of 90 working days of continuous employment provided that you are not absent from work due to disability, leave of absence or lay-off. If you are away from work because of disability, leave of absence, or lay-off on the date that coverage for you and your eligible dependents would otherwise become effective, benefits will not start until you return to work.

Any mentally or physically disabled child who was covered up to the maximum age shall remain covered beyond such age, provided the child upon reaching the maximum age and thereafter, is incapable of self-sustaining employment and relies upon the employee for support and maintenance.

DENTAL CARE PLAN

The plan provides you, and eligible dependents with reimbursement of:

- (a) 100% of the cost of Class I covered expenses, and
- (b) 50% of the cost of Class II and Class III covered expenses based on the 1998 Ontario Dental Association Schedule of Fees.
- (c) Effective September 1, 2000, 50% of the cost of Class II and Class III covered expenses based on the 1999 Ontario Dental Association Schedule of Fees.
- (d) Effective September 1, 2001, 50% of the cost of Class II and Class III covered expenses based on the 2000 Ontario Dental Association Schedule of Fees.

- (e) Effective September 1, 2002, 50% of the cost of Class II and Class III covered expenses based on the 2001 Ontario Dental Association Schedule of Fees.
- (f) Effective September 1, 2003, 50% of the cost of Class II and Class III covered expenses based on the 2002 Ontario Dental Association Schedule of Fees.

Effective September 1, 1999, the maximum benefit per calendar year is one thousand, five hundred dollars (\$1,500.00) per insured family member for Class I and II covered expenses. The lifetime maximum benefit is one thousand, live hundred dollars (\$1,500.00) per insured family member for Class III covered expenses.

COVERED EXPENSES

Class I Procedures:

- Oral examinations, including scaling and cleaning of teeth
- Topical application of sodium or stannous fluoride
- Oral hygiene instruction
- Dental x-rays
- Extractions
- Oral surgery, including excision of impacted teeth
- Amalgam, silicate and plastic composite fillings
- Anaesthetics administered in connection with oral surgery or other covered dental services
- Injections of antibiotic drugs by the attending dentist
- Treatment of periodontal and other diseases of the gums and tissues of the mouth
- Endodontic treatment, including root canal therapy
- Pits and fissure treatment

Class II Procedures:

- Initial installation (including adjustments after three (3) months following original insertion) of partial or full removable dentures to replace one or more natural teeth

- Replacement of an existing partial or full removable denture or the addition of teeth to an existing partial or full removable denture to replace extracted natural teeth, but only if evidence satisfactory to the benefits carrier is presented that the existing denture cannot be made serviceable.
- Repair or relining of dentures

Class III Procedures:

- Orthodontic treatment, including correction of malocclusion

Services and supplies, in the case of each dental expense, must have been rendered and dispensed by a legally qualified dentist except that:

- i) Cleaning or scaling of teeth may be performed by a licensed dental hygienist if such treatment is rendered under the supervision and direction of such dentist, and
- ii) installation, adjustments, repairs and relining of complete dentures may be made by a dental mechanic or denturist legally practicing within the scope of his licence, but any charges in excess of the amount specified for such services and supplies in the dental mechanics' or denturists' tariff of the Province where such services and supplies are received will be disregarded.

PRE-DETERMINATION OF BENEFITS:

Before starting extensive dental work, your dentist will tell you what he/she intends to do and the charge. If the cost of a course of treatment planned by the dentist for a covered family member is expected to exceed two hundred dollars (\$200.00), the proposed course of treatment must be filed with, and approved by, the benefits carrier prior to the commencement of treatment. The necessary forms are available from the Personnel Department. After reviewing the proposed course of treatment, the benefits carrier will notify both you and your dentist of the estimated payment under the Plan. Because

of the difficulties of determining the necessity for the types of services involved after treatment has been received, failure to file and obtain approval may result in benefits of a lesser amount than would otherwise have been payable.

A patient may select a more expensive procedure, rather than a suitable alternate procedure. In such cases, reimbursement will be based on the least expensive procedure which, as determined by the benefits carrier, will produce a professionally adequate result.

Disabled employees on Workplace Safety and Insurance Board will be eligible for benefits up to twelve (12) months **after** the date of disability.

INTEGRATION:

The Plan will not provide like benefits where such are currently being provided by Federal or Provincial legislation. If during the life of this Agreement, Federal or Provincial Governments shall introduce legislation to provide benefits already covered by the Plan, the Plan shall be amended so as to eliminate said benefits.

HOW TO CLAIM:

After you or one of your dependents have made an appointment with the dentist, obtain a claim form from the Personnel Department. The completed claim form should be returned to the Personnel Department as soon as possible, for submission to the benefits carrier for processing.

In the event that the dentist demands payment from the claimant upon completion of treatment, it will be the claimant's responsibility to pay the dentist and then claim reimbursement from the benefits carrier. It will be **necessary** for the claimant to secure a completed claim form from the dentist.

APPENDIX "N"
TRADES AND OPERATOR FLEXIBILITY

FLEXIBILITY CONCEPT

The company and the union, **realizing** that the long term security of our employees will be enhanced by improved productivity, agree to implement flexible work practices.

A committee consisting of company and union executives will meet to establish methods of implementing flexibility and resolve problems or concerns which may arise as a result of flexibility implementation.

It is not the intent of the company to make tradesmen out of operating employees and operating employees out of tradesmen.

MAINTENANCE - FLEXIBILITY

1. Flexibility will not result in the elimination of any trade currently in existence in the **Dryden** operation.
2. Trades employees working alone or on a team will **perform** all required maintenance, repair, and related work for which they have the ability, regardless of trade.
3. Upon full implementation of flexibility, day tradesmen will receive the additional **\$.50** premium. This premium will not apply to shift tradesmen currently receiving the **\$.50** premium as provided in the collective agreement.

OPERATING - FLEXIBILITY

1. An employee's basic work assignment will be tasks associated with their classification and department.

2. Operating personnel above the bottom job in a line of progression will not be assigned to work in another department while their department is operating. Operating employees in a bottom position may be assigned to another department within their jurisdiction, as necessary.
3. When a department is not operating, in whole or part, any assignments that may be required to another department within their jurisdiction will first be made to junior employees.
4. Employees will be paid at the rate of their regular occupations [card rate] or at the rate of the job to which they are assigned, whichever is greater.
5. Temporary vacancies at the bottom position in lines of progression will be filled at the discretion of supervision.

GENERAL

1. Any task or work which does not require a specialized competency or extensive training can be performed by any unionized employee. This includes operators doing minor maintenance or repairs on equipment within their jurisdiction, and tradesmen providing casual assistance to operators in order to prevent production stoppages, to reduce loss of production and to ensure that production equipment resumes operation in a safe and expeditious manner.
2. When necessary, arranged overtime and/or call-ins will be done by the primary trade/operator. Call-ins will occur only when there is no one available in the mill to perform the required work safely.

TRAINING

1. The Company will provide the necessary training as agreed to by the implementation committee to ensure flexibility practices will be implemented safely and productively.
2. Whenever possible, such training will be delivered by the trainers as established by the Dryden Operations Training Committee.

EMPLOYMENT SECURITY

No employee will be laid off as a direct result of the application of flexibility. Thus, any manpower reduction resulting directly from flexibility will be achieved by attrition only. Any employee hired after the date of ratification is not protected by these employment security provisions.

The employment security applies to manpower reductions occurring during the life of the collective agreement and which result directly from the application of the work assignment flexibility. Manpower reductions caused by technological change, market conditions, reduction of the operating levels, a total or partial shutdown of a piece of equipment or the mill, etc., are not covered by the employment security provisions except if such protection is specifically provided by other provisions of the collective agreement.

This flexibility agreement in no way alters any provision of the collective agreement, letters of understanding, practices either verbal or written, except for those which contravene or prevent the application of flexibility as agreed to.

SPECIAL EARLY RETIREMENT

Effective upon ratification, the Company is prepared to implement a special early retirement program for all employees who are at least 55 years of age and whose age and service total at least 80.

Any eligible employee who elects to retire will receive:

Upon converting to the new schedule and during the first week under it, no premium hours shall be paid to any employee for the sole reason of transferring from one (1) shift schedule to another shift schedule. In the case of reversion to the previous shift schedule, this same rule shall apply upon reverting and during the first week of reversion.

The implementation and continuation of the compressed workweek will be on the condition that there will be no extra cost to the Company and that the efficiency of any department or departments will not suffer.

position. If a tour worker does not report for his/her regular shift, the mate shall notify the foreman. He/she shall remain at their post until a substitute is secured to a maximum of four (4) hours.

Management and/or the Boss Machine Tender and/or Shift Engineer will contact the possible relief employees; if he/she is unsuccessful in obtaining relief, then the most senior employee available must report for duty.

It is clearly understood by both parties that replacements must be available for relief purposes when required and that these replacements must come from employees on their scheduled days off.

Employees on the twelve (12) hour shift schedule who work more than one hundred and sixty-eight (168) hours, in any one four (4) week period will be paid premium time for all hours worked in excess of one hundred and sixty (168) hours during that period.

Clause 2402 (f) of the Weekly Indemnity Plan shall apply to the twelve (12) hour shift schedule.

ELIGIBILITY FOR BENEFITS:

Employees on the twelve (12) hour shift schedule shall be considered to have worked one and one half (1½) days per twelve (12) hour shift in calculating the ninety (90) working days for eligibility to join the Dental Care Plan and the Extended Health Care Plan.

This calculation will also be used in calculating the fifty-seven (57) days for call crew eligibility for Weekly Indemnity.

RULES OF CONDUCT:

Reporting after an absence will be as per the Collective Agreement for day shift and be 12:00 noon for the night shift.

OPERATION OF ESSENTIAL SERVICES:

REGULATIONS, **RE:** SHIFT RELIEF/ CALL CREW

For **Shift Relief Call Crew** employees not scheduled to work a full work week in accordance with an established twelve (12) hour schedule, the following hours of work will constitute a full work week:
