All grievances must identify the Article, Clause or Clauses of this Agreement which are claimed to have been violated. No grievance will be invalidated for not meeting the requirements of this provision and will be processed on its merits once the grievance has been properly completed.

(B) On a group complaint, the Steward shall first discuss such complaint with the immediate Supervisor. Either party may request that one or more employees be present during such discussion. If the complaint remains unsatisfied, the Steward may then reduce the complaint to writing and signed by the aggrieved employees, it shall then constitute a grievance.

7.05 Step IV. In the event that arbitration of a grievance which has been properly processed through the Grievance Procedure is desired by either party, then the other party shall be notified in writing not later than fifteen (15) working days after receipt of the reply given in writing on the grievance under Step III.

Such grievance may then be referred to the appropriate impartial umpire listed in 7.07.

7.06 Grievances appealed to arbitration will be presented to the Arbitrators hereinafter. Following the giving of such notice the Manager - Industrial Relations and the Local National Representative will meet in an attempt to agree to an

Arbitrator to be added as replacement. However, if agreement cannot be reached within five (5) working days the parties agree to request the Minister of Labour of Ontario to appoint an Arbitrator.

7.08 If an Arbitrator is unable to specify a date agreeable to both parties for the arbitration hearing within seven (7) days from the date the grievance is submitted to him/her, the parties will agree to request another Arbitrator to provide such a date.

7.09 The Arbitrator shall not have the jurisdiction or authority to alter or modify any of the provisions of this Agreement, or substitute any new provisions in lieu thereof, or to give any decision inconsistent with the terms and provisions of the Agreement, except as noted in 8.04 of the Agreement.

7.10 The decision of the Arbitrator shall be final and binding upon the parties and any employee affected by it.

They will be paid as outlined in Clause 6.19 of this Agreement.

However, if the circumstances of the case made it impossible for the employee to know that he/she had grounds for such claim, prior to that date, the claim shall be limited retroactively to a period of twenty (20) working days prior to the date the claim was first filed in writing.

(B) When an employee receives back pay on a grievance he/she shall be paid on a separate direct deposit, (provided the back pay is more than \$100.00), within five (5) working days of the final disposition unless the circumstances make it impossible in which case he/she shall be paid within fifteen (15) working days unless mutually agreed otherwise. The Union will be given a memo noting the amount of back pay and the date such payment will be made to the employee. The employee will also receive a memo on a back pay of less than \$100.00.

(C) An employee will receive the actual earnings he/she was deprived of at the time of the grievance. When unable to determine actual earnings, an employee will receive the rate of the job plus COLA on a grievance related to non-incentive, or his/her average earnings plus COLA if related to incentive. It is agreed there will be no duplication on payment of COLA.

(D) When a grievance is resolved that affected an employee's average earnings, the back pay will be calculated into the employee's average earnings at the time the back pay is made.

7.17 The Union hereby agrees the Company has the right to file a grievance against the Union. Such grievance will commence at Step III.

7.18 The Plant Committee Chairperson may file a Policy Grievance with the Manager - Industrial Relations or his/her designate. A Policy Grievance is defined and limited to one which alleges misinterpretation or violation of a provision of this Agreement, and which could not otherwise be resolved at a lower step of the Grievance Procedure because of the nature and scope of the subject matter of the grievance.

Such grievance will be referred to the grievance procedure commencing at Step III and shall be dealt with at the next agenda meeting or sooner, by mutual agreement between the parties.

When a Policy Grievance has been upheld, the Company will be required to make back pay as per Clause 7.16 where necessary.

7.19 Group grievances will be processed in the normal manner and will be signed by the employees so affected commencing at Step I.

7.20 It is hereby agreed that a Chief Steward or Committeeperson may file a grievance on behalf of the Union if there exists an alleged violation of the Collective Agreement but an individual or group grievance doesn't take place as per Clause 7.01 or 7.02. Such a grievance will be processed in the normal manner commencing at Step I. When such grievance has been upheld, the Company will be required to make back pay as per Clause 7.16 when necessary.

This Clause shall not apply to Work Standard Grievances except when a job is only being run by probationary employees, then this Clause may be implemented to abide by the time limits as per Clause 7.01.

7.21 Any grievance resolved or withdrawn and that decision is subsequently appealed through the Appeals Procedure established by the C.A.W. constitution or any other Appeals Procedure, and such appeal is upheld, the grievance shall be considered timely and will be processed to the next step of the Grievance Procedure.

ARTICLE 8 - DISCIPLINARY ACTION

8.01 The following procedure will apply when a seniority employee is to be suspended or discharged.

(A) The Company will notify the employee and the Union of their intention within two (2) working days of the alleged violation becoming known to the Company **and will provide the employee with a 'hearing request form' that may be completed in the event the employee wishes to attend a disciplinary hearing prior to the discipline being imposed. The Company and Union will document the specifics of the alleged violation at this step.**

(B) **Within 10-days of the completion of (A), the employee will be required to serve the appropriate disciplinary penalty as determined by the Company.**

(C) The Union will be permitted the period of time between (A) and the date of disciplinary penalty to investigate the alleged violation and arrange a hearing with the Company based on the employees completed 'hearing request form' between the Manager - Industrial Relations and the Plant Chairperson or his/her designate, and one (1) Committeeperson unless otherwise mutually agreed. The employee, his/her Steward and the Supervisor may be present at such hearing if deemed necessary by either party.

8.02 However, 8.01 shall not apply when the alleged violation may endanger the safety of himself/herself or other employees, or be of such a nature that it would be inadvisable to retain the employee in the plant.

In such case, the Company may immediately remove such employee from the premises.

A hearing will be arranged as in 8.01 (C) after the fact and such hearing will be held within one (1) working day of such action being taken and only if the Company's disciplinary action is beyond the shift in which he/she was sent home.

8.03 If the employee suspended or discharged in 8.01 or 8.02 feels he/she has been unjustly dealt with he/she may file a grievance within two (2) working days of such action being taken, and the grievance shall commence at Step IV of the Grievance Procedure.

8.04 It is mutually agreed that the Arbitrator shall have the right to modify penalties in suspension and discharge cases only.

8.05 A probationary employee who maintains he/she has been unjustly dealt with shall have the right to have his/her case reviewed by the Manager - Industrial Relations.

It is understood that the said employee's Steward or Committeeperson may be present at such review.

8.06 A copy of all warning notices will be given to the employee and the Union by the conclusion of two (2) regular shifts following the shift on which the alleged violation occurred. Such notice shall become a part of the employee's personnel record. A warning notice or suspension will remain in effect for a period of not more than twelve (12) months from the date of such warning or suspension. It is further agreed that once a warning or suspension has expired, that other related offenses will be reduced in status accordingly, and all outdated warning notices will be returned to the employee upon request.

8.07 The Company shall ask an employee if he/she wants his/her Steward and/or Committee person in attendance when he/she is taken to an office for an interview concerning discipline, or prior to being sent home as per 8.02.

ARTICLE 9 - SENIORITY

9.01 (A) An employee shall be regarded as a probationary employee until he/she has been in the employ of the Company for **ninety (90)** calendar days during any twelve (12) consecutive months. After completion of the above probationary period, the employee shall then be assigned a seniority date crediting him/her with **ninety (90)** days of service.

(B) When students are hired, they shall not accumulate seniority but shall be considered as probationary employees

Students will receive **\$18.00 per hour while working in non-incentive classifications and 68% of base rate while working in incentive classifications** as stipulated in Appendix "A" of this Agreement.

(C) Students shall only be eligible for overtime after all employees on the shift in the department have been requested to perform such overtime assignment as per Clause 11.10.

9.02 The termination of a probationary employee shall be considered for just cause unless the termination is contrary to the provisions of the Ontario Human Rights Code, or if the termination is arbitrary, discriminatory, or in bad faith.

The Company agrees to provide a proper evaluation of probationary employees including advising them of what the Company's expectations are of all employees.

Seniority Date and Lists

9.03 (A) When an employee is hired or rehired to start work between Sunday 11 p.m. and Monday 11 p.m., such employee will be credited with a Monday start date. **In the event that Monday is a holiday, employees hired or rehired to start work between Monday 11 p.m. and Tuesday 11 p.m. will be credited with a Tuesday start date.**

(B) When two or more employees attain seniority on the same date, they will be placed in alphabetical order on all seniority lists. The status of their seniority shall not decrease or advance because of a name change.

9.04 A master seniority list of all employees in the Bargaining Unit will be furnished to the Local Union every thirty (30) days.

9.05 The Company will keep the seniority list for each department up to date and will post an updated seniority list every month. This list will indicate each employee's badge number, name, classification, department and Company seniority. Five (5) copies of such lists and five (5) copies of the Bargaining Unit seniority lists and one departmental list by classification will be given to the Plant Committee Chairperson weekly.

Two (2) copies of the master seniority list for Skilled Trades will be given to the Skilled Trades Committeeperson in December of each year.

The term "seniority" shall be defined as the status of the employee based upon his/her established unbroken length of service with the Company from the date of last hiring by the Company.

In all instances within this Collective Agreement where the term "job" is used in reference to job ownership, it will also mean cell.

Seniority shall be first by job, when applicable, then within the classification within the department, then within the classification within the Bargaining Unit, then within the Bargaining Unit. Newly hired employees shall be assigned the classification that they are hired into. They shall begin to accumulate seniority in the job classification once the posting procedure is completed.

No new employee shall be hired while employees with seniority and the present ability to do the work required are still on the laid off list.

9.06 Upon request a seniority employee will be given preference of a shift, based on seniority, prior to vacancy being filled or a new employee hired, provided the employee has claim to the job or classification, in the case of no job ownership, as per other clauses of the Agreement. When it is required to re-arrange employees on shifts, the employees involved will have preference of shift based on seniority. **This clause will also apply prior to employee transfers under 9.07(B), 9.08, 9.20 and 9.22.** The Union will co-operate with the Company in order to maintain a balance of work force among the shifts.

Employees will be required to revert to their previously held shift following any shutdown period.

Temporary Work Assignments

9.07 Temporary work assignments shall be defined as the movement of employee(s) within the classification or from one classification to another classification and/or one department to another department, created by:

- (i) the need to utilize an employees skill and ability to perform work in the 014, 015, 100, 110, 111, 112, 125, **130**, 132, 133, 140, 147, 149, 156 and the S.O.A. classifications.
- (ii) Samples, experimental work and sample die, jig and machine try out:
- (iii) Training.

For the purpose of temporary work assignments, all day shifts shall be considered as being the same shift. The same procedure shall also apply to the afternoon shifts.

(A) For periods of thirty (30) calendar days or less, the opportunity will first be given by seniority to employees within the affected classification in the department on the shift who are not presently working on their normal jobs.

If all employees are working on their normal jobs, the opportunity will then be given by seniority to employees within the affected classification in the department. The opportunity to accept temporary assignments in the 140 classification in Department 29 and 39 will be offered to the employees in the 140 classification from the department of the Company's choosing. When the vacancy is within a cell, the opportunity will be given by seniority to employees in the affected classification within the cell only. Employees accepting assignments as per this paragraph will be paid the rate of the job.

The Company will fill the resultant vacancy, if any, from the classification of their choosing on the shift within the department by seniority, provided the employee is able to satisfactorily perform the work to be done. **The junior qualified employee will be required to accept the assignment. Employees who are no longer willing to accept temporary work assignments will have one opportunity annually to make their intentions known to the Company. This election may be made anytime during the last week of June.** This completes the cycle of transfers under the temporary work assignment procedure, and the Company will take such steps as may be required to fill the remaining vacancy, if any.

When a vacancy is filled as per "Letter No. 11 A" due to absence of an employee, it will not be construed as a temporary work assignment, provided such assignment doesn't circumvent the employee's job ownership seniority rights.

For (ii) above, the opportunity will first be given by seniority to the employee who normally performs the job then by seniority within the affected classification in the department provided the employee is satisfactorily able to perform the work. For

(iii) above, the opportunity will be given by seniority to qualified Job Instruction Trainers within the affected classification.

Employees accepting assignments as per this section will be paid the rate of the job.

Any abuse of clause 9.07 will result in payment of average earnings to the effective employee.

An incentive employee will receive his/her average hourly earnings or the rate of the job to which he/she is temporarily assigned, whichever is the greater for (ii) and (iii) above.

(B) **(i)** For periods of over thirty (30) calendar days temporary work assignments will be restricted to Leaves of Absence, excluding vacations, Clause 10.05 and 10.07 and Business Leaves, and in addition extension to other temporary work assignments may be granted by mutual agreement between the Company and Union. The Company will post the necessary assignments on the posting board in the department section and will fill the vacancy from the department by seniority, provided the employee is able to satisfactorily perform the work to be done and is able to start the job posting within 5 days.

This completes the cycle of transfers under the temporary work assignment procedure and the Company will take such steps as may be required to fill the remaining vacancy, if any.

(ii) Where it is established that in all probability an employee will not be returning to work from a leave of absence, the job will be posted as a permanent position. The successful applicant will be subject to Article 9.15 (A) and (B). If however the employee does return, he/she will return to his/her former job, classification and department seniority permitting.

As per this Section, employees accepting assignments will be paid the rate of the job except for those assignments covered under Clause 14.08(B). An employee on a temporary work assignment over thirty (30) calendar days shall also be included for the purpose of distributing overtime. Employees on temporary work assignments under thirty (30) days will be eligible for overtime in their regular classification.

(C) All temporary assignments of less than thirty (30) calendar days will be applied as per (A) above except that an employee working in the department on the shift retaining recall rights as per Clause 9.22(A) will be given the first opportunity to accept the assignment but an employee refusing the transfer will still retain seniority

rights to the job. Employees in classifications 014, 015 and 240 assigned as per Letter #34 will experience a 1 day delay. Employees retaining recall rights as per Clause 9.22(A) **must return to** temporary assignments of more than thirty (30) calendar days. **These assignments will be re-posted as temporary assignments if required when there is a need to increase in the classification.**

Temporary assignments shall not be used to avoid job posting or circumvent seniority rights. The appropriate Steward will be informed of all temporary assignments of less than thirty (30) calendar days prior to the transfer being made. The appropriate Committee person will be informed of all temporary assignments of over thirty (30) calendar days prior to the transfer being made and also the accepted employee on the assignments shall be identified as such on **the weekly 106 employee transfer report.**

(D) The temporary transfer provisions above shall not apply to an employee temporarily assigned to a job replacing an employee on vacation and he/she will be paid the rate of such job.

(E) Employees transferred under 9.07 (B) will have the option to return to such jobs provided they have not been displaced for more than 20 working days. If he/she declines the option the job will be re-posted.

(F) For periods of over thirty (30) calendar days temporary work assignments in Department 60 will be filled as follows:

- (i)** The Company will post the necessary assignments on the posting board in the department section and will fill the vacancy from the department by seniority, provided the employee is able to satisfactorily perform the work to be done.
- (ii)** The resultant vacancy will be offered by seniority to the employees who are pre-qualified to perform the work to be done.

Job Postings

9.08 In the event the Company requires to fill a vacancy, the Company will post such vacancies as prescribed in this clause in each case for a period of forty-eight (48) hours excluding Fridays, Saturdays, Sundays, and holidays.

(A) The Company shall post the vacancy on the posting board in the Department section and all eligible employees within that classification within the department will be allowed to apply. The successful applicant shall be the employee with the greatest seniority.

(B) The Company shall post the resultant vacancy on the posting board in the Bargaining section and all eligible employees within that classification will be allowed to apply. The successful applicant shall be the employee with the greatest seniority.

(C) The resultant vacancy in the department will then be posted on all posting boards in the department section. The successful applicant shall be the employee with the greatest seniority provided he/she is able to perform the work

(D) The resultant vacancy in the department will be posted on the posting board in the Bargaining Unit section. All eligible employees in the bargaining unit may apply. The successful applicant shall be the employee with the greatest seniority provided he/she is able to perform the work. This completes the cycle of transfers under the posting procedure, and the Company will take such steps as may be required to fill the remaining vacancy, if any.

(E) A job posting will be terminated at any step of the job posting procedure where there is no longer a need for more employees in the classification. The resulting vacancy, if any, will be filled by job posting to the regular employees in the classification within the department **first, and then by offering any resultant vacancy by seniority to employees within the classification without job ownership.**

(F) An employee who has become the accepted applicant on more than one job posting at the same time will have (1) working day to decide which job he/she wishes to accept.

(G) An employee who has accepted a posting shall have until 3 hours prior to the end of his/her next shift to decline such posting.

9.09 (A) The Company will use forms of four (4) different colours for posting notices under clause 9.08 (A), (B), (C) and (D).

(B) An application may be submitted for an employee who is absent from work for any reason provided it contains the signature of the Committeeperson or Chief Steward. If such employee is the successful applicant and is unable to return to work within five (5) working days following the date of notification by the Company, (except an employee on vacation), he/she shall not be eligible for such posting. This period of time may be extended by agreement between the Company and the Union.

(C) The Committee people, Local Union Time Study Representative, Local Union **Benefits/W.S.I.B. - E.A.P.** Representative and Plant Committee Chairperson will be eligible for job postings as per this Article and will be retained on day shift.

(D) An employee that is the successful applicant and has been offered the job with ten (10) working days of becoming eligible or forty (40) working days in the event of an introduction of a major new product line, but has not started the posting because he/she is off work for any reason (except for reasons of vacation) for more than five (5) consecutive working days, shall be termed ineligible for such posting.

The Company will then ask the next qualified applicant and continue with the normal posting procedure to fill the job opening.

(E) An employee on a Modified Work Program may accept a posting provided he/she is able to start the job posting not later than 6 weeks from the date he/she became eligible for the posting.

9.10 The Company will give the Union a copy of the job posting with the name, badge number and department of the applicants listed thereon and the successful applicant will be underlined.

The Company will notify the successful applicant with four (4) working days of being the successful applicant of the job posting, unless mutually agreed otherwise.

9.11 Each posting notice will define the department, classification, the rate of pay and the job, if applicable.

9.12 The employee accepted, pursuant to this article, given appropriate job training, shall demonstrate his/her ability to perform the job efficiently within five (5) working days within classification or ten (10) working days outside of classification. This period of time may be extended by agreement between the Company and the Union.

An employee's trial period may be waived when it is obvious to the Company and the Union that the employee is able to perform such job.

The employee will receive payment for the trial period as follows:

(A) Incentive jobs out of their classification will receive a minimum of 150% of the base rate for five (5) working days and the rate of the job for the remainder of the trial period except that those applying for MIG welding jobs will receive a minimum of 150% for ten (10) working days.

Employees applying within their own classification will be paid the rate of the job.

(B) Non-incentive jobs will receive ten cents (10) per hour below the classification rate. Upon acceptance on the job, the employee will be paid the regular rate of the job.

The trial period for employees posting into the following classifications will be up to twenty (20) working days. This period of time may be extended by agreement between the Company and the Union.

- (a) Auditors
- (b) Set-up people
- (c) Set-up, operate and adjust operators
- (d) MIG welders
- (e) Towmotor operators
- (f) Crane operators
- (g) Tool crib
- (h) Receiver**

Employees posting under (a), (b), (c), (g) and (h) will be required to successfully complete qualifying tests to be considered for these positions.

(C) (i) The employee will have the right to decline a job at any time during his/her trial period and will revert back to his/her former job and rate of pay by the end of the week following the week of notification or by the end of the current week if the Company is notified by Tuesday. Such trial period shall count as a job posting in clause 9.13. The opportunity will then be given to the next bidder with the highest seniority.

(ii) Should the employee not qualify in accordance with Letter #10, he/she will revert to his/her former job and rate of pay. Such trial period shall not count as a job posting in clause 9.13. The opportunity will then be given to the next bidder with the highest seniority.

9.13 An employee shall be eligible to a maximum of four (4) job postings within one (1) calendar year of which no more than two (2) will be outside of their classification. **An employee's annual maximum eligibility will be reduced each time he/she becomes the eligible candidate for any posting applied for.**

9.14 The Company has the right to maintain a balance of experienced employees in a job group, so that the operation of the job group will not be unreasonable restricted, when moving or transferring accepted job applicants except that the Company must transfer an accepted applicant within ten (10) working days (or forty (40) working days in the event of a major new product line) of his/her being accepted on a job posting unless mutually agreed otherwise.

For the purpose of this clause and other clauses of this Agreement, the successful applicant shall begin collecting seniority in such position as of the day he/she becomes eligible.

9.15 (A) An employee transferred under Clause 9.08 shall have seniority rights immediately within the classification and department upon acceptance as per 9.12. If there is a layoff in the job or classification within the department in excess of five (5) continuous working days within a sixty (60) calendar day period after the job posting **and no open position within the classification and department exists, the posting** will be nullified and all transferred employees must revert to their former position and such transfer shall count as a movement for the purpose of Clause 9.13.

(B) If within sixty (60) calendar days of the job posting being nullified and there is a need to increase again, the original job posting will be reactivated and the employee(s) will be given the option to return to such job(s).

(D) If he/she fails to report to work when recalled from layoff within five (5) consecutive working days following notice to report by the Company by registered mail, to his/her last known address. However, if his/her failure to report for work is due to sickness, accident or other cause beyond his/her control, he/she shall not forfeit his/her seniority rights if he/she notifies the Industrial Relations Department of the Company within the said five (5) working days after receipt of such notice and if he/she reports to the Company for work immediately after the cause for his/her absence is removed. It is understood that an employee shall not lose his/her seniority if evidence satisfactory to the Manager - Industrial Relations for such failure to report is furnished upon his/her return to work. If the disposition made of any such case is not satisfactory, the matter may be referred to Step III of the Grievance Procedure.

(E) When an employee is absent from work for three (3) consecutive working days, excluding premium days, without a valid reason.

The Company will accept as a satisfactory reason under Clauses 9.16 (D) and (E) for absence up to one hundred and twenty (120) days, an employee's detention under Highway Traffic Legislation, including detentions for minor offenses under the Criminal Code, which may be extended by the Company for extenuating circumstances.

(F) If he/she accepts other employment while on leave of absence, except with the express permission of the Company and Union.

(G) When he/she is retired except as provided under the Disability Retirement Section of the Company Pension Plan.

Layoff and Recall

9.17 (A) Whenever there is a reduction in the work force, the Company will give notice of layoff to the employee and Steward affected by Wednesday of the work week or earlier if possible. In the case of layoff affecting more than one department, the layoff will be discussed with the Plant Committee. The Company will supply the Union with three (3) copies of a list of the employee affected by the layoff.

(B) In the event of emergencies involving more than one (1) day of layoff the Company will give twenty-four (24) hours notice of layoff to the Steward of the department and the employee affected by departmental layoff. In the case of layoffs affecting more than one department, the layoff will be discussed with the Plant Committee twenty-four (24) hours prior to such layoff.

(C) In the event of a layoff of one (1) day or less, the Company will notify the Steward and employees(s) involved within a reasonable period of time.

9.19 (A) In the event of a temporary or permanent transfer of an operation from one classification to another and/or to another department, and in the event of a transfer of one department to another, the employee(s) who normally perform the operation(s) will have the opportunity to transfer with the operation, seniority permitting. This will also apply to replacement work for an existing product line. Employees accepting temporary transfers will revert to their former positions at the conclusion of the assignment.

(B) All transfers will be discussed with the Bargaining Committee prior to implementation.

9.20 In all cases of layoff and recall, incentive/day rate classes and non-incentive classes shall be defined as the opposite work group.

Whenever a reduction in the work force is due to any other cause than is stated in clause 9.18 and 9.19 of this Article, the following will apply:

Employees will be transferred to the open position prior to displacing a junior employee at all steps of the layoff procedure.

(A) Probationary employees will be laid off first.

(B) Employees performing the work in the department to be affected by the layoff **will displace the junior employee in the classification, seniority permitting. The junior employee laid off from their classification from the department shall immediately be transferred to the work performed by the junior employee in the classification within the bargaining unit, seniority permitting.**

(C) Prior to being laid off from their classification within the department, employees will be required to displace the junior position within the department presently assigned as per 9.07 B to an employee who retains no rights to that classification. The junior employee displaced from the classification within the bargaining unit will displace the junior position in the bargaining unit presently assigned as per 9.07 B to an employee who retains no rights to that classification

Employees who exercise their seniority on a position presently assigned as per 9.07 B or on any open position may be displaced should the 9.07 B posting be nullified or should the open position be posted as per 9.08 E of the Collective Agreement.

(D) The junior employee(s) laid off from the classification in the Bargaining Unit will be transferred to the work being performed by the junior employee(s) in the Bargaining Unit, seniority permitting by the first work day of the second week following the week of the classificational layoff.

(E) An employee transferred to the work performed by the junior employee in the Bargaining Unit will have the option to displace the junior employee in the opposite work group within the Bargaining Unit within six (6) working days of attaining thirty (30) calendar days seniority in the department, seniority permitting, provided he/she is able to perform the work to be done.

(F) Employees shall have the option at all steps of the layoff procedure including the Letter of Intent Re: Able to perform to accept layoff, with the exception of (A), and within the classification.

An employee accepting layoff will only be eligible for recall based on the restrictions he/she accepted at the time of layoff except as follows:

An employee must accept recall when there are no longer employees with seniority laid off and there is a need to increase the work force, except as per Letter of Intent: Able to Perform.

(G) When more than one employee is involved in any step of the same layoff or recall procedure, employees will be given the choice of jobs involved by seniority.

(H) The Company shall explain the various options available as per this clause at the time the employee is notified of layoff. An employee absent will be considered to have been notified. An employee so notified shall be required to inform the Company of their intent prior to the conclusion of the shift he/she was notified provided such employee was notified within three (3) hours of the conclusion of their shift. An employee who does not notify the Company of their intent after being given proper notification shall automatically be placed by the Company and the only option that will remain shall be the option to accept layoff.

9.21 (A) When there is a layoff of less than five (5) full working days, employees will have the option to be laid off according to the inverse order of the classification seniority, in the department, on the shift, providing the remaining employees are able to satisfactorily perform the work to be done. The senior employee will be given the opportunity to accept the layoff.

This clause will also apply to all employees who were transferred to the department on Temporary Work Assignments over thirty (30) calendar days.

For the purposes of this clause layoffs of less than five (5) full working days employees in classification 110 will be restricted to the area the employee(s) normally works in and the same opportunity to accept layoff as per above will also apply.

In the event of a reduction in the workforce in a classification which an employee has entered on a temporary work assignment under thirty (30) days, such employee will return to his/her former position. If there is a layoff in their former classification, they will remain on the temporary work assignment until it is completed.

9.22 (A) Any seniority employee laid off or displaced must return to any vacancy which occurs within one (1) year in his/her former job, **or his/her former department and classification** seniority permitting, except that an employee who successfully posted to another position **as per Article 9.08** shall have the option of remaining on such position or returning to his/her former position. Any employee who refuses recall rights shall forfeit such recall rights.

In the event that the employee has insufficient seniority to return to the vacancy in his/her former classification, the vacancy will be declared a vacancy and posted as per clause 9.08. Any employee accepting a job posting as a result of an employee having insufficient seniority must put in thirty (30) calendar days employment in such job prior to having seniority rights in such job and the job posting shall be nullified and all transferred employees must revert to their former positions if during such thirty (30) day period the regular employee has sufficient seniority to return to his/her

former classification within his/her former department. Such transfer shall not count as a movement for the purpose of 9.13.

(B) Any employee transferred through layoff shall have full seniority rights in such classification or department.

9.23 When there is an increase in the work force, employees will be recalled in the reverse order of clause 9.20 within the time limits as outlined in 9.22 provided they are able to perform the work to be done and not on layoff as per 9.20 (F).

When all laid off employees have been recalled to the Bargaining Unit, the junior employee still on layoff as per 9.20 (F) must accept recall to the open position in the Bargaining Unit.

9.24 (A) It is agreed that at no time shall any employee be able to exercise seniority over any seniority employee in the following classifications unless the employee affected by the layoff is able to satisfactorily perform the work to be done except as provided below:

(i) Set-up

(ii) Set-up, Operate and Adjust the following:

- Tube Mills
- Slitter
- Automatic Feed Blanking Presses
- Wire Straightener

(iii) Tool Crib Attendant

When one of the above jobs represents an employees proper placement but he/she is unable to satisfactorily perform the work, the employee will exercise his/her seniority over the next junior employee. In the event that an employee working on one of the above jobs has insufficient seniority to work in the Bargaining Unit, his/her layoff may be deferred for a period of up to sixty (60) calendar days while the Company is training a new employee on such job. The Company may, by mutual agreement, extend the sixty (60) calendar day period as needed in order to secure a successful replacement. The job will be recognized as a vacancy within ten (10) working days after the time the employees layoff was deferred and it will be posted within the Classification within the Bargaining Unit with all eligible employees in the classification within the Bargaining Unit able to apply. The resultant vacancy will be filled as per the normal recall procedure. The successful applicant on the job must put in thirty (30) calendar days employment prior to claiming seniority in such classification.

(B) It is further agreed that the Company will have the right to maintain MIG welders out of line of seniority for a period not to last more than ten (10) working days. If the layoff is expected to last more than ten (10) working days, the training outlined below will be implemented immediately. Such ten (10) working day period will be extended if required to ensure that production requirements are met. During such extended period the Company must provide training to as many seniority employees as possible up to an equal number of employees out of line of seniority who shall replace such welders as soon as they are able to meet the production requirements. Such number shall be mutually agreed to between the Company and the Union. Prior to any such extension the Company shall review the production requirements and the need for such extension with the Plant Committee.

(C) Former Company qualified MIG welders not presently working in the MIG Classification, with more seniority than employees presently working in the MIG Classification, shall be maintained out of line of seniority provided the employee makes it known to the Company prior to being laid off.

(D) When an employee without MIG experience is required to exercise his/her seniority over a MIG welder, such employee will have the option of displacing the MIG position or exercising his/her seniority over the junior position which is not a MIG operation, excluding the jobs in (A) above.

The displacements in (D) above will follow the guidelines outlined in Article 9.20.

Seasonal Layoff for Model Change

9.25 At the discretion of the Company, layoff by departmental seniority may be used for a period of thirty (30) calendar days from the time when the first model change layoffs occur except where otherwise provided in this clause. This thirty (30) calendar day period will include the posted divisional vacation period. The timing of the model change will be posted on the bulletin boards each year.

Recall to work during this thirty (30) calendar day period shall be by departmental seniority, provided the employee is able to perform the available work to be done. If all employees are recalled to their department and additional employees are still required in that department the additional employees shall be recalled in accordance with their Bargaining Unit seniority provided they are able to perform the available work to be done.

Employees shall have the option to exercise their Bargaining Unit seniority over probationary employees provided they are able to perform the work to be done. The recalling of employees shall be handled in the same manner.

When the time allocated for model change has expired, adjustments and recall, increases and layoffs in the working force will take place according to Bargaining Unit seniority.

An employee who is unable to regularly perform their normal job as a result of an illness/injury sustained through the course of employment may be temporarily or permanently re-assigned to a new or open job by agreement between the Company and the Union.

In the event of a reduction in the work force, an employee assigned under this clause shall be retained on such job provided he/she has sufficient seniority to remain in the classification. When the employee does not have enough seniority to remain in the classification he/she shall displace the junior employee in the department or the bargaining unit, provided they are able to perform.

If satisfactory medical evidence is provided to the Company, he/she will be eligible for future job postings, provided he/she is able to perform the work.

To apply for department postings, such employee is eligible in his/her new department only.

If the employee is accepted on a posting he/she will no longer be classified under clause 9.30.

An employee under 9.30 status will be required to update their medical evidence, at least once a year.

The medical evidence will then be reviewed by the Company and the Bargaining Committee. Employees removed from Article 9.30 status will remain on such job, seniority permitting, or exercise his/her classification, departmental or bargaining unit seniority.

(B) Should the parties fail to reach an agreement as to the employee's capabilities, then arrangements will be made with an independent medical specialist who will assist the parties in making a determination under this Clause.

The employee returning to the bargaining unit will be permitted to replace the junior employee in the bargaining unit, seniority permitting.

Supervisors without seniority in the bargaining unit will not be allowed to transfer into the bargaining unit.

10.06 Employees returning from Union office or Public office leaves shall notify the Company of their availability and desire to return to work and the Company shall have five (5) working days to return the employee following such notice, to his/her former classification, seniority permitting, and then within the Bargaining Unit.

10.07 An employee with one (1) or more years seniority wishing to further his/her education by full time attendance at a recognized college, university, trade or technical school, shall be granted a leave of absence for up to one (1) year under the following conditions:

(A) Before receiving the leave, or an extension, the employee shall provide the Company with satisfactory evidence he/she has been accepted as a student by the recognized college, university or school.

- (i)** While attending a course of instruction not meeting the requirements of (D) above, seniority will not accumulate and all Company paid benefits will cease. However, the employee may elect to pay for benefits as provided under the Insurance Plans.
- (ii)** Employees returning from such leaves shall notify the Company of their availability and desire to return to work, and the Company shall have five (5) working days to return the employee to work following such notice, with seniority rights only in the Bargaining Unit.

ARTICLE 11 - HOURS OF WORK

11.01 This Article is intended to define the normal hours of work and shall not be construed as a guarantee of hours of work per day or per week, or of days of work per week.

11.02 The regular shifts are defined and designated as follows:

(A) <u>Description</u>	Regular Work <u>Week</u>	Consecutive Hours		Starting <u>Period</u>	Lunch
		<u>Lunch</u>	Excluding <u>Time</u>

(B) The Company will have the right to change any afternoon shift on a two shift basis to five (5) eight (8) hour shifts, Monday to Friday, provided the change is necessitated by just-in-time shipping and/or production requirements.

Prior to making such change the Company must meet with the Plant Committee and they must adopt any alternatives proposed provided the Company is able to meet their just-in-time shipping and/or production requirements and providing it does not increase costs. Overtime will not be considered as an alternative.

11.03 (A) Shifts for 24 hour operations.

<u>Description</u>	<u>Regular Work Week</u>	<u>Consecutive Hours</u>		
		<u>Including Lunch</u>	<u>Starting Time</u>	<u>Lunch Period</u>
Rotating:				
Day Shift	Five Consecutive Days	8 Hrs.	7:00 a.m.	20 min paid

- (i) A non-incentive employee will receive his/her own rate.
- (ii) A day rate employee will receive his/her day rate.
- (iii) An incentive employee will receive his/her average earnings.

11.04 It is recognized that the Company has existing regular shifts with starting and/or quitting times that vary from the above to facilitate production. Such shifts may be maintained during the term of this Agreement.

11.05 (A) Any changes of starting and quitting time of a regular shift shall be discussed with the Union prior to implementation.

(B) Prior to any shift change implementation except for (A) above the Company will notify the Steward and employee(s) involved by Wednesday of each week or earlier if known by the Company. **Employees who are not notified of their shift change during the regularly scheduled work week will not be obligated to accept such change.**

11.06 (A) When employees are engaged on either two (2) shift or three (3) shift jobs or classifications that normally rotate, all employees engaged shall equally share the regular shift rotation unless mutually agreed as defined below.

(B) When two (2) employees within a department from the same classification who share the same job and are engaged in a two (2) shift operation (or three (3) employees in the case of a three (3) shift operation) agree to work in another manner consistent with the hours of work and regular shifts, the Company will so arrange it provided the arrangement was mutually agreed upon by seniority on the opposite shift. If such agreements are subsequently canceled the employee(s) involved will revert back to their normal shift by reverse seniority.

Off-shift employees may not displace an employee working on their regular shift from their workstation or jig, however all of the other provisions of the Collective Agreement will be administered by seniority as defined in clause 9.05, regardless of shift placement. This clause shall not apply to employees working in the classification, who do not have classification rights.

(C) If an employee is required to change shift, either for his/her own convenience or because of necessity, such change will be mutually agreed upon by the Company and the Union.

Overtime

11.07 For the purpose of computing overtime compensation, an employee's work day shall be the twenty-four (24) hour period beginning at the regularly scheduled starting time of the shift to which he/she is assigned. The Company will review with the Plant Committee the advancement or retardation of the regularly scheduled starting time of a shift for one or more employees for a temporary period, in which case the altered

starting time shall be considered to be regular starting time for purposes of computing overtime compensation.

11.08 (A) Time and one-half will be paid for all time worked beyond an employee's normal quitting time in any day in the regular work week. Double time will be paid for all time worked in excess of twelve (12) consecutive hours in any twenty-four (24) hour period.

(B) Time and one-half shall be paid for all time worked on Saturday as such in the work week and double time after eight (8) hours.

(C) Double time shall be paid for all time worked on Sunday as such in the work week, regardless of the number of hours worked during the regular work week.

(D) Overtime premium will not be paid to any employee who is absent from work for any reason (excluding medical leaves covered under Weekly Indemnity, W.S.I.B., or contractual time off) for 10 shifts including overtime shifts within a rolling 12 month period unless that employee has worked their 40 regular hours in the work week.

11.09 (A) In the event a regular shift ends on Saturday or starts on a Sunday the employees will not qualify for such Saturday or Sunday overtime on such shift.

(B) An employee working on the 2B and 2BA shift will be paid time and one half (1 1/2) and double (2) time after eight (8) hours for work performed on Friday and double time (2) time rate for all work performed on Saturday, provided the employee has performed overtime on Friday.

(C) An employee working on the C shift will be paid double (2) time for work performed after 7:00am Saturday provided the employee has worked the 11:00pm to 7:00am Friday overtime shift.

11.10 (A) When reasonably possible the employee shall be given twenty-four (24) hours notice or thirty-six (36) hours in the case of weekend overtime. Such notice shall also be given to the Steward representing the employee concerned, and whenever he/she is available he/she shall be notified before the employees.

(B) As far as reasonably practicable, overtime will be equitably distributed by classification in the department on the shift the overtime occurs. If the Company is unable to obtain sufficient employees among those employees in the classification the opportunity will be given to the employees with the least amount of overtime on the same shift in the department, who are capable of performing the work to be done without training.

If the Company is still unable to obtain sufficient employees among those employees on the same shift in the department, the opportunity will then be given to employees on the **previous** shift in the department who have not been offered overtime on their shift, first within the classification and then within the department or the department of the Company's choosing on the same shift, and the opportunity will be given to the employees with the least amount of overtime, first within the classification and then within the department, who are capable of performing the work to be done without training. Only employees who have agreed to work their own overtime shift will be permitted to accept additional overtime.

It is agreed that in all instances above when two or more employees have an equal amount of overtime that the most senior employee will have the first opportunity to work the overtime.

(C) An employee who refuses to work overtime provided he/she has been notified as per "A" above shall be charged with the overtime hours so scheduled and the opportunity to work overtime shall be passed on to the next employee. An employee who rejects overtime on a job outside his/her classification or shift shall not be charged with such hours.

(D) An employee who is absent from work for any reason when overtime is being distributed and who would have been requested to work, shall be charged with the overtime hours so scheduled. **Employees telephoned at home for overtime who are unavailable or decline the opportunity will not be charged with the overtime hours so scheduled.**

An employee who has accepted an overtime assignment and fails to report for work, shall be charged an additional number of hours equal to the number of hours originally scheduled.

(E) Any violation of this Clause and Clause 11.18 by the Company will result in payment to the affected employees for overtime hours lost at the applicable overtime premium provided the employee and/or Steward raised the objection prior to the overtime being worked.

(F) For the purpose of distributing weekend overtime all day shifts shall be considered as being the same shift. The same procedure shall also apply to the afternoon shifts. All day shifts shall be considered as being the same shift for early starts during the regular work week.

(G) For the purpose of determining the least amount of overtime as defined in (B) above, the Company will use the computer report "TA0301P Overtime Pre-authorization" issued each Tuesday which will include all overtime up to and including Monday. This report will be used from Wednesday to the following Tuesday.

(H) Employees on a modified work plan shall not be eligible for overtime unless authorized to do so by their Doctor **or until they have returned to full regular duties for at least one full shift prior to the overtime being worked.** They shall be charged with all hours they would have otherwise have been eligible to work.

11.11 The Company will maintain up-to-date records of the overtime worked in each department and these records shall be posted by Wednesday and these records shall be consistent throughout the Bargaining Unit. The Steward in each area of representation shall receive a weekly copy of the overtime records in his/her area and he/she shall receive weekly notification of all employees charged but not having worked overtime. Overtime hours will be returned to zero (0), January 1 and the first Tuesday of July in each year.

Any employee entering the classification shall take the highest hours of overtime in the classification in the department on the shift for the purpose of equitable distribution. Employees who perform overtime work in other than their regular classification (specifically in the 111, 140, 125, 156 and the 101 class) will be identified for the purpose of establishing the appropriate overtime hours for other employees entering into their regular classification. The Steward and/or Committeeperson and the Supervisor and/or General Supervisor will review the overtime hours, as necessary, to establish what the actual overtime hours worked in each class is and apply this number of hours to employees entering into the classification.

If there are no employees on the shift, the employee entering a classification will take the high hours in the classification in the department and if there is no one else in that classification they will assume high hours in the department on that shift. This clause will also apply as per article 9.12.

The regular work week for the purpose of distributing overtime shall run from Monday to Sunday **except for weeks immediately following a shutdown period where the regular work week for the purpose of distributing overtime shall run from Sunday to Saturday.**

11.12 An employee shall not be asked to work overtime for a period of less than one half hour (1/2), except where short periods of overtime are part of an employee's normally recurring duties. If the overtime assignment is completed in less than one half hour (1/2) and the employee wishes to go home, he/she may obtain a pass from his/her Supervisor accordingly and shall be paid for time actually worked.

An employee who accepts and performs overtime work at the conclusion of his/her regular shift shall be guaranteed work or payment as per Clause 11.19 in lieu of work for the number of hours actually scheduled.

11.13 Overtime shall be voluntary, except where it is necessary to schedule production of a department(s) to meet an emergency situation due to short-term increase of customer schedules.

In such situations the Company agrees to meet with the Plant Committee to discuss such overtime assignment and the necessity to have the overtime worked. The Company will give as much advance notice as possible.

Where an employee required to work is unable to be present for personal reasons he/she will be excused, provided that the cumulative excuses in any one department do not restrict the scheduled production in that department. The Plant Manager and the Divisional Committee people will determine the restrictive effect of such absences.

If the Company is unable to obtain sufficient employees to perform the required work the Union will agree to co-operate with the Company to obtain the necessary work force.

11.14 An employee may decline the opportunity to work overtime, but once having accepted and signed for the overtime, he/she shall be expected to work as scheduled, and if he/she fails to report, unless he/she can provide a good reason for his/her absence, he/she shall be considered an absentee and shall be subject to plant rules.

11.15 An employee accepting an overtime assignment shall be paid at the rate of the job which is to be performed in overtime, regardless of his/her normal rate of pay during regular hours.

11.16 A Steward shall be given the opportunity to work whenever the number of employees working overtime in his/her area of representation, and on the shift he/she normally represents, equals or exceeds five (5) employees, regardless of the department or shift from which such employees are selected to perform the overtime assignment, and provided he/she is able to perform the work available. If the Steward is ineligible to work on his/her own job or classification, the work available shall be the open position or the job being performed by the employee with the highest number of hours scheduled to work. He/she shall be paid the rate of the job to which he/she is assigned. If he/she cannot perform the available work or declines the opportunity, the Union may appoint one of the employees scheduled to work as acting representative for the period of absence of the regular Steward and shall advise the Company accordingly.

11.17 Where practical and seniority employees are on layoff and the Company has the equipment available to perform the work on any shift, the Company will be required to recall such laid off employees prior to any overtime being scheduled in such department.

11.18 When overtime is scheduled on manufacturing processes that would normally require process and/or product auditing and the majority of such processes are scheduled to work, an Auditor will also be scheduled to work. An Auditor shall also be scheduled to work if the total workload exceeds 50% but is less than 100% of the workload normally performed by one Auditor. A similar formula as above will be adopted when more than two Auditors are required. Individual circumstances may create a situation whereby it would be desirable to utilize an Auditor when less than 50% of the workload is present. Situations of this nature will be resolved through mutual agreement between the Company and the Union. In areas where Auditors are assigned to work other than auditing manufacturing products and/or processes, a mutually acceptable system will be established to ensure equitable distribution of overtime.

In the event that the scheduled overtime assignment is such that a fork lift operator would be normally and historically assigned to cover the equipment scheduled to work, then a fork lift operator will be included in the assignment. The parties agree that scheduling fork lift operators to work overtime is contingent upon the amount of work that would be required of a forklift driver during the overtime shift. This does not preclude the Company from assigning additional tasks to the fork lift driver in order to minimize duplication and fully utilize any inherent idle time.

It is further agreed that the Company and the Union will establish mutually acceptable systems within a department to ensure that overtime is equitably distributed among other non-incentive groups.

Reporting in Allowance

11.19 An employee called to work or permitted to come to work but for whom no work or less than four (4) hours work at his/her regular job is available will be offered at least four (4) hours employment, for which he/she will be paid his/her earning on that job, such earnings being not less than his/her base rate for non-incentive and 120% of his/her base rate for incentive employees; or at the Company's option, send the employee home who will be paid four (4) hours at his/her base rate for non-incentive and 165% of base rate for an incentive employee (plus the current Cost-of-Living Allowance). However, if the employee refuses such offered work for which he/she is qualified, then no payment shall be made.

An employee when first reporting for work following illness or inexcused absence, shall not be eligible under this Clause unless following the period of illness or inexcused absence, the Company instructed the employee to report for work on a particular day.

An employee who is eligible under this Clause who fails to report for work on time shall be eligible only for four (4) hours' pay or four (4) hours' work, as the case may be, less the time he/she was late.

When an employee reports for work on overtime, he/she shall be paid as above plus the applicable overtime premium.

There shall be no liability under this Clause when such lack of work is due to a labour dispute, fire, flood or other causes beyond the control of the Company.

Call In Allowance

11.20 All hourly rated employees who are called to report to work less than twelve (12) hours prior to the start of a scheduled shift will qualify for payment as defined in this Clause.

When an hourly rated employee has left the premises, either after completion of his/her normal shift or after having discharged the special duties which he/she has agreed to perform for the Company and is called upon to return to the plant for emergency duties, prior to the time regularly scheduled for him/her to resume his/her duties, he/she shall receive pay as follows:

(A) For the first hour, or any part thereof so worked, he/she shall receive four (4) hours pay at his/her regular hourly rate for non-incentive employees. Incentive employees will receive four (4) times their earnings including the Add-On in Appendix "A".

(B) For all time worked in excess of one (1) hour he/she shall receive pay at his/her regular hourly rate, subject to overtime, holiday, or Saturday or Sunday premiums where applicable.

In instances covered by this Clause, the provision of Clause 11.19 shall not apply.

Rest Periods and Wash-up

11.21 (A) A ten minute paid rest period for all employees shall be scheduled each half shift (three (3) on the 2B and 2BA shifts (4 x 10) hours).

(B) There will be a ten minute paid rest period immediately prior to the commencement of overtime at the end of a regular scheduled shift and also prior to the start of a regular scheduled shift, provided the overtime will be at least two (2) hours, a ten minute paid rest period at the end of two (2) hours, providing the overtime extends beyond such two (2) hours; and a twenty minute paid lunch period four (4) hours after

the commencement of such overtime, provided the overtime is in excess of four (4) hours.

12.04 The vacation year shall be from July 1 through June 30. Vacation time off must be taken during the current vacation year and cannot accumulate to be taken in any subsequent vacation years.

Any employee may request his/her vacation four (4) months prior to the vacation year provided he/she makes written application with his/her Supervisor fourteen (14) calendar days in advance, such request will be granted in conjunction with the second paragraph of Clause 12.08.

The provisions of clause 12.04 will not apply to employees who retire prior to July 1.

The request will be granted provided it does not cause a production problem. In the event more than one (1) employee requests time and all requests can not be granted, seniority will prevail.

ARTICLE 13 - DAY RATES

13.01 The Company agrees to establish day rates on all day rate jobs. These day rates shall be established using any of the current accredited Industrial Engineering techniques and will be expressed as 125% efficiency, which is equivalent to 250% efficiency under Article 14. In the event of a dispute on any day rate, the stop watch method or predetermined time system will be used for verification.

The Company, in establishing day rates, will do so on the basis of fairness and equity in that such day rates shall be based on reasonable working capacities of normal experienced employees working at a reasonable pace producing quality work using prescribed methods.

13.02 Before the Company observes or studies any job, the worker who works on the job and the Union's representative shall be notified in advance and shall be told the purpose of the observation or study.

(A) Where a job is being studied for the purpose of establishing a day rate, it shall be the Company's responsibility to establish and instruct the operator in the prescribed method prior to the study being made. The operator to be studied shall be mutually agreed upon by the parties and shall be an operator who normally performs the job.

(B) The operator shall not be serviced or assisted by anyone except those whose job it is to service and assist.

(C) The study shall be taken under the conditions and circumstances that normally exist on the job, using stock and materials the operator can expect to receive based on these existing conditions and circumstances.

(D) The Union Time Study Representative shall take a study at the same time as the Company Time Study Representative and at the conclusion of such study they shall compare their studies. The day rate shall be established by the Company.

13.03 Upon request of the Plant Chairperson or his/her designated representative, the Company will provide copies of all the relevant records required for investigation by the Union of a day rate.

13.04 The Company shall post all day rates on the respective jobs and machines and keep them clear and up to date. This sheet will also show all elements of the job .

13.05 The day rate shall include an allowance of fifteen per cent (15%) which shall include rest periods and wash-up for personal relief, fatigue, and unavoidable delays.

13.06 A day rate once established shall not be changed except in the case where the Company makes a substantial change in the materials, tools, machines, method or design of an operation, unless it is found through investigation of a grievance presented by the Company or the Union that there is a clerical error or an error in computation.

(A) A change shall be considered to be substantial when it changes the time per piece in the time study which existed prior to the change by five (5) percent or more.

(B) Procedure for determining whether a change in the time per piece amounts to five (5) percent or more shall be as follows:

1. A time study shall be made of only those elements of an operation which are directly affected by the change.
2. After a time study as indicated in (1) above has been made, a comparative data sheet shall be set up showing the elements of the operation which have been affected by the change, how the change affected them, and the time for each element that existed prior to the change and the proposed time after the change.
3. The Company shall examine the data sheet and determine if the difference in the time for those elements of the operation which are affected by the change reduces the time per piece which existed prior to the change by five (5) percent or more.
4. If the difference in (3) above is determined to change the time per piece which existed prior to the change by less than five (5) percent, then under no circumstances shall the time per piece be changed. However, if at some future date, additional changes are made, all elements which were previously changed but not used to change the day rate because the time did not amount to five (5) percent or more will be used, but the five (5) percent rule shall still apply.

5. If the difference in (3) above is determined to change the time per piece which existed prior to the change by five (5) percent or more, then the time for those elements affected by the changes as determined by the time study indicated in sub-section (1) above, if any, shall be placed in effect and the old time study and day rate re-computed with the new figures. The Company will give a copy of the revised day rate to the Union simultaneously to issuance of the day rate.

(C) Whenever the Company makes a change in product, day rates for operations that existed prior to the change and are still performed on the changed product shall not be changed. On operations where a change has occurred, the procedure for changing day rates will be followed.

(D) Any change to the day rate due to quality checks shall be reflected in the day rate.

13.07 Day rates shall be expressed in standard hours per hundred (100) units produced.

13.08 All correction pay slips will be given to the employee by their Supervisor.

Work Measurement

13.09 In order to enable an accurate assessment of the nature and degree of any changes, all time studies used in developing a day rate shall show all elements into which the operation has been broken down, the element end points, the sequence of elements, the method, a general sketch showing the location of tools, equipment and stock applicable to the particular group or type of operations, and all other conditions and circumstances under which the operation was studied.

13.10 Machine or process controlled elemental time will be recorded as observed while running according to the prescribed method. Rheostats and controls shall be at the settings as designated by the Company.

13.11 (A) All machine controlled, cycle controlled, production controlled or any other restricted time in a job shall be inserted in the day rate by leveling the machine, cycle, production or other controlled time so as to yield output on the same basis as manual time in the same job.

(B) All such controlled time in a job on any new or changed job will be leveled to yield output of 125%, but only for the time he/she is working on the day rate.

(C) Employees required to work with off-standard material or malfunctioning machinery, tools or equipment will be required to perform

any necessary work including restarting/resetting the equipment, returning the equipment to home position, repositioning components and/or inserting missing components in order to maximize machine up-time. This necessary work will be reviewed and approved by The Joint Health & Safety Committee Co-chairs and appropriate training will be provided as applicable.

13.12 Manually controlled elements will be leveled to one hundred (100) percent of normal performance.

All machine control time will be leveled to one hundred (100) percent of normal performance and rated as per Clause 13.11.

13.13 Elements that occur at less than one for one will be entered as per occurrence.

13.14 When establishing or revising a day rate on MIG Welders, the Company will set the rate to yield 125% at an appropriate wire speed.

13.15 Observed time for elements of manual work, including those which may be performed internally or externally in conjunction with machine or process controlled elements will be performance rated using walking three (3) miles per hour and dealing twenty-six (26) cards in fifteen (15) seconds as normal or 100%. Performance ratings will be recorded in increments of five (5) percent.

Employees are expected to maintain at least 125% efficiency of the established day rate.

13.16 When manual elements of work and a machine controlled element occur simultaneously, the controlling time to be used as the elemental allowance time will be determined after the times are leveled and fatigue and personal factors applied. However this Clause will not restrict the Company to one person - one machine operations.

Disputes on Day Rates

13.17 Any disagreement with a day rate shall be processed in the following manner:

(A) The grievance shall be appealed directly to the Manager - Industrial Relations. The Local Union Time Study Representative, the Divisional Committeeperson and the Company Industrial Engineer shall review the day rate and jointly observe the operation unless agreed otherwise. It is agreed that the Plant Chairperson may be in attendance during the review.

(B) At any stage during this Grievance Procedure, including arbitration, the Union may request a representative from the National Union's Engineering Department and he/she shall be allowed to study the operation in dispute.

(C) If the grievance is not resolved within two weeks of the date of the grievance, it shall be referred to a mutually agreed arbitrator as quickly as possible and his/her decision will be final and binding on all parties.

13.18 (A) An employee working on a disputed (grieved) day rate will continue to work against the day rate until such time as the grievance is settled and he/she shall be expected to maintain at one hundred and twenty-five (125%) percent efficiency based on the day rate established by the Company. Failure to meet this 125% efficiency will be cause for disciplinary action up to and including suspension or discharge, however such disciplinary action will not be served until the day rate has been resolved.

The above is based on the procedure outlined in Clause 13.17 having been followed and completed.

(B) The day rate must be on the job at least five (5) working days except on a short run job which must be run for five (5) working days or three (3) production runs whichever comes first.

Day Rate Arbitrators

13.19 The Company and Union have mutually agreed on one (1) person for the purpose of reviewing day rates under grievance. If the Company or Union find cause for dissatisfaction, the person selected could be terminated by either the Company or Union and a replacement will be selected by mutual agreement.

ARTICLE 14 - STANDARDS AND INCENTIVE RATES

14.01 The Company agrees to establish work standards on all incentive jobs. These standards shall be established using any of the current accredited Industrial Engineering techniques. In the event of a dispute on any standard, the stop watch method will be used for verification.

The Company, in establishing work standards, will do so on the basis of fairness and equity in that such standards shall be based on reasonable working capacities of normal experienced employees working at a reasonable pace producing quality work using prescribed methods.

14.02 Before the Company observes or studies any job, the worker who works on the job and the Union's representative shall be notified in advance and shall be told the purpose of the observation or study.

(A) Where a job is being studied for the purpose of establishing a work standard, it shall be the Company's responsibility to establish and instruct the operator in the prescribed method prior to the study being made. The operator to be studied shall be mutually agreed upon by the parties and shall be an operator who normally performs the job.

(B) The operator shall not be serviced or assisted by anyone except those whose job it is to service and assist.

(C) The study shall be taken under the conditions and circumstances that normally exist on the job, using stock and materials the operator can expect to receive based on these existing conditions and circumstances.

(D) The Union Time Study Representative shall take a study at the same time as the Company Time Study Representative and at the conclusion of such study they shall compare their studies. The standard shall be established by the Company.

14.03 Upon request of the Plant Chairperson or his/her designated representative, the Company will provide copies of all the relevant records required for investigation by the Union of a work standard.

14.04 The Company shall post all existing work standards on the respective jobs and machines and keep them clear and up to date. This sheet will also show all elements of the job and approximate stock locations.

14.05 The work standard shall include an allowance of fifteen per cent (15%) which shall include rest periods and wash-up for personal relief, fatigue, and unavoidable delays.

An additional allowance of ten percent (10%) shall be applied to all new or revised jobs in which the production process is totally machine controlled.

14.06 A work standard once established shall not be changed except in the case where the Company makes a substantial change in the materials, tools, machines, method or design of an operation, unless it is found through investigation of a grievance presented by the Company or the Union that there is a clerical error or an error in computation. A work standard once established shall not be changed merely because of a change in feeds or speeds (except to utilized inherent idle time) name, symbol, or number of any materials, tools, machines, or operations.

(A) A change shall be considered to be substantial when it changes the time per piece in the time study which existed prior to the change by five (5) percent or more.

(B) Procedure for determining whether a change in the time per piece amounts to five (5) percent or more shall be as follows:

1. A time study shall be made of only those elements of an operation which are directly affected by the change.

2. After a time study as indicated in (1) above has been made, a comparative data sheet shall be set up showing the elements of the operation which have been affected by the change, how the change affected them, and the time for each element that existed prior to the change and the proposed time after the change.

3. The Company shall examine the data sheet and determine if the difference in the time for those elements of the operation which are affected by the change reduces the time per piece which existed prior to the change by five (5) percent or more.

4. If the difference in (3) above is determined to change the time per piece which existed prior to the change by less than five (5) percent, then under no circumstances shall the time per piece be changed. However, if at some future date, additional changes are made, all elements which were previously changed but not used to change the work standard because the time did not amount to five (5) percent or more will be used, but the five (5) percent rule shall still apply.

5. If the difference in (3) above is determined to change the time per piece which existed prior to the change by five (5) percent or more, then the time for those elements affected by the changes as determined by the time study indicated in sub-section (1) above, if any, shall be placed in effect and the old time study and work standard re-computed with the new figures. The Company will give a copy of the revised work standard to the Union simultaneously to issuance of the work standard.

(C) Whenever the Company makes a change in product, work standards for operations that existed prior to the change and are still performed on the changed product shall not be changed. On operations where a change has occurred, the procedure for changing standards will be followed.

(D) Any change to the work standard due to quality checks shall be reflected in the standard.

14.07 It is understood employees are expected to follow prescribed methods established for incentive jobs in the Company's plants. However, employees through their own skill and effort will be allowed to alter such methods to increase their earnings including the increase of feeds and speeds. It is understood that where such alternate methods, feeds, and speeds, are inaugurated by employees, the safety, equipment and quality requirements specified by the Company will be adhered to. These safety requirements will include the safe operating procedures for tools and equipment. Such alternate methods shall not be interpreted as a job change as defined in Clause 14.06.

14.08 (A) An incentive worker shall be paid 165% of base rate when any one of the following conditions exists, and he/she is instructed to continue working on his/her normal job, or act in a capacity away from his/her normal job:

- (i) To perform under non-standard conditions;
- (ii) To perform with off-standard material;
- (iii) Malfunctioning machinery, tools or equipment.

Employees required to work under non standard conditions will be required to perform any necessary work including restarting/resetting the equipment, returning the equipment to home position, repositioning components and/or inserting missing components in order to maximize machine up-time. This necessary work will be reviewed and approved by The Joint Health & Safety Committee Co-chairs and appropriate training will be provided as applicable.

Employees will be required to submit production representing a minimum of 100% of the production standard for all time submitted under this provision.

(B) An employee working on incentive shall be paid 175% of the base rate to perform on a job which is being revised from the time the revision is put into effect or on a new job which has no work standard for a period of sixty (60) calendar days. If the work standard is still not established at the end of a sixty (60) day period he/she will be paid 190% of the base rate.

14.09 During the work day, provision for payment of actual downtime at 125% of the base rate shall be provided, except downtime in excess of one hour in any one work day payment of downtime shall be 145% of the base rate. The employee will record such downtime on his/her production card at the time of such occurrence, and have it signed by his/her Supervisor. Any employee moving from one job to another during the work day shall not be paid downtime unless the employee is down at least three (3) minutes.

Employees going to first aid for other than an injury received on the job, or for any other non-job related reasons for which he/she has the permission of his/her Supervisor, will be paid 120% of his/her base rate for such time lost from production during his/her shift.

Employees who are assigned during working hours by the Company to have medical tests and/or examinations shall be paid average earnings.

14.10 Work standards shall be expressed in standard hours per hundred (100) units produced. Standards will be established to provide an operator of average skill and ability working at a steady incentive pace the opportunity of earning two hundred and

twenty (220) percent of the published standard but only for the time he/she is working against the standard.

14.11 All incentive workers shall have their incentive earnings computed on the basis of their incentive performance on each job performed during the workday. The Company shall provide all employees with a record of their actual earnings on each job on the second work day following.

All correction pay slips will be given to the employee by their Supervisor.

14.12 Incentive earnings shall be calculated on a daily basis. An employee's weekly average earnings shall be calculated on the basis of his/her total earnings, excluding overtime, night shift premium and Cost-of-Living Allowance, but including the add-on in Appendix "A" for the four (4) week period, ending two (2) work weeks previous. The Union will be supplied weekly with one copy of the employees average earnings.

Work Measurement

14.13 In order to enable an accurate assessment of the nature and degree of any changes, all time studies used in developing a work standard shall show all elements into which the operation has been broken down, the element and points, the sequence of elements, the method, a general sketch showing the location of tools, equipment and stock applicable to the particular group or type of operations, and all other conditions and circumstances under which the operation was studied.

14.14 Machine or process controlled elemental time will be recorded as observed while running according to the prescribed method. Rheostats and controls shall be at the settings as designated by the Company.

14.15 (A) All machine controlled, cycle controlled, production controlled or any other restricted time in a job shall be inserted in the work standard by leveling the machine, cycle, production or other controlled time so as to yield earnings on the same basis as manual time in the same job.

(B) As of August 21, 1980 all such controlled time in a job on any new or changed job will be leveled to yield earnings at 220%, except in jobs where it is mutually agreed to apply a straight cross referral. Relative to current base rates, for an employee of average skill and ability working at a good incentive pace, 220% is recognized as being a reasonable earnings opportunity, but only for the time he/she is working against the standard.

14.16 Manually controlled elements will be leveled to one hundred (100) percent of normal performance.

All machine control time will be leveled to one hundred (100) percent of normal performance and rated as per Clause 14.15.

14.17 Elements that occur at less than one for one will be entered as per occurrence.

14.18 When establishing or revising a work standard on MIG Welders they shall be studied with the wire feed set at a speed of 550 inches for .035 wire on a 250 AMP power source and will be rated as per Clause 14.15.

Additional tables shall be established for other wire sizes and power sources, such tables will be relative to the table in this Clause.

14.19 (A) Observed time for elements of manual work, including those which may be performed internally or externally in conjunction with machine or process controlled elements will be performance rated using walking three (3) miles per hour and dealing twenty-six (26) cards in fifteen (15) seconds as normal or 100%. Performance ratings will be recorded in increments of five (5) percent.

(B) For performance exceeding the work standard, the full premium shall be paid, i.e. 1% of actual performance exceeding the 100% established by the production standard with a minimum guarantee of 120% of the production standard.

Employees are expected to maintain at least 195% efficiency of the established work standard.

14.20 When manual elements of work and a machine controlled element occur simultaneously, the controlling time to be used as the elemental allowance time will be determined after the times are leveled and fatigue and personal factors applied. However this Clause will not restrict the Company to one person - one machine operations.

Disputes on Work Standards or Incentive Rates

14.21 Any disagreement with a work standard shall be processed in the following manner:

(A) The grievance shall be appealed directly to the Manager - Industrial Relations. The Local Union Time Study Representative, the Divisional Committeeperson and the Company Industrial Engineer shall review the standard and jointly observe the operation unless agreed otherwise. It is agreed that the Plant Chairperson may be in attendance during the review.

(B) At any stage during this Grievance Procedure, including arbitration, the Union may request a representative from the National Union's Engineering Department and he/she shall be allowed to study the operation in dispute.

(C) If the grievance is not resolved within two weeks of the date of the grievance, it shall be referred to a mutually agreed arbitrator as quickly as possible and his/her decision will be final and binding on all parties.

14.22 (A) An employee working on a disputed (grieved) standard will continue to work against the standard and be paid accordingly until such time as the grievance is settled and he/she shall be expected to maintain at one hundred and ninety-five (195%) percent efficiency based on the standard established by the Company. Failure to meet this 195% efficiency will be cause for disciplinary action up to and including suspension or discharge, however such disciplinary action will not be served until the standard has been resolved.

If additional wages are due to operators who have worked on the job because the standard has been increased as a result of the grievance settlement, they will be paid retroactive to the date of the grievance.

The above is based on the procedure outlined in Clause 14.21 having been followed and completed.

(B) The standard must be on the job at least five (5) working days except on a short run job which must be run for five (5) working days or three (3) production runs whichever comes first.

Production Standards Arbitrators

14.23 The Company and Union have mutually agreed on one (1) person for the purpose of reviewing standards under grievance. If the Company or Union find cause for dissatisfaction, the person selected could be terminated by either the Company or Union and a replacement will be selected by mutual agreement.

ARTICLE 15 - SKILLED TRADES

The provisions of the General Agreement shall apply to employees in the Skilled Trades classifications except as altered by the provisions of this Article.

15.01 Skilled Trades, for the purpose of this Agreement, shall be outlined in Appendix "B".

15.02 Seniority in the Skilled Trades departments shall be by non-interchangeable occupations or trades within a department or group of departments. There shall be a

separate seniority list by basic trades or classifications for Skilled Trades employees. Such employees will not be listed on departmental seniority lists. Such lists shall be available every four (4) months.

15.03 Employees presently working under classifications listed under Appendix "B" as of April 7, 1968 shall have their total seniority in their trade classification.

Future employees entering a trades classification shall have date of entry seniority in the Skilled Trades as listed in Appendix "B".

15.04 (A) Production workers will not carry seniority into the trades or classifications listed under Appendix "B".

(B) When more than one bargaining unit employee transfers into a skilled trades classification on the same day, their bargaining unit seniority will only be used to determine their order on the skilled trades seniority list.

15.05 Should a Skilled Trades employee become medically unfit and unable to follow his/her skilled trade, both the Company and the Union will co-operate in endeavoring to place such an employee on a job he/she is capable of performing. In the event that an employee removed from a Skilled Trades classification is subsequently cleared, by medical examination, to return to such classification he/she may elect to exercise his/her total accumulated Skilled Trades seniority as defined in Clause 15.03 to return to such classification provided he/she exercises such election within fourteen (14) calendar days of his/her receipt of medical clearance.

15.06 The term "Journeyman/Journeywoman" as used in this Agreement shall mean any person:

(A) Who presently holds a Journeyman's/Journeywoman's classification in a Skilled Trades occupation, or;

(B) Who has served a bona-fide apprenticeship (4 years - 8,000 hours) and holds a certificate which substantiates his/her claim of service, or;

(C) Who has eight (8) years of practical experience in the Skilled Trades Classification in which he/she claims Journeyman's/Journeywoman's designation and can prove same. A CAW/UAW Journeyman's/Journeywoman's card will be accepted as proof.

(D) Who holds an Ontario License, Certificate of Qualification issued by the Ministry of Colleges and Universities, provided he/she qualifies under (b) or (c) above.

(E) Prior to an employee's starting date, the Company shall present to the Skilled Trades Committee person documented proof of the respective trade that the new employee is applying for.

15.07 Any further employment in the Skilled Trades occupation in the Bargaining Unit shall be limited to Journeymen/Journeywomen and apprentices, except as outlined below.

15.08 (A) During any period when Journeymen/Journeywomen are unavailable, it is agreed that non-Journeymen/Journeywomen employees may be hired or reclassified on a temporary basis to supplement the work force in a Skilled Trades classification. They shall be known as supplemental employees for present employees and new supplemental employees for new hires.

(B) The opportunity to work as a supplemental employee shall be offered first to seniority employees; second to any laid off employees with seniority who have the present ability or an adaptable skill to do the work; if there are no laid off employees eligible, new employees may be hired on a temporary basis.

(C) When a Journeyman/Journeywoman becomes available either by hire, transfer or graduation of an apprentice in a skilled classification to which a supplemental employee has been assigned, such Journeyman/Journeywoman will replace the supplemental employee who shall then be laid off or returned to his/her original department.

(D) A supplemental employee shall not accumulate seniority within the Skilled Trades classification but shall accumulate Bargaining Unit seniority to return to his/her former job, or to apply for vacancies in the plant, as provided elsewhere in this Agreement.

(E) Supplemental employees shall receive ten (10) cents per hour below Journeyman's/Journeywoman's rate of the classification or trade.

(F) Supplemental employees shall not be permitted to work overtime until all the Journeymen/Journeywomen in the trade or classification being supplemented are given the first opportunity.

(G) A supplemental employee will have seniority in respect to other supplemental employees assigned to a given classification.

(H) Any regular supplemental employee shall work out of a Skilled Trades department.

(I) Supplemental employees will not be used for Skilled Trades work unless a meaningful discussion has been held with the Skilled Trades Committeeperson or his/her designate. The period of the supplemental employee will be defined by a starting date and finishing date with extension privileges after meaningful discussion with the Committeeperson or his/her designate and the employees will be identified by the Company prior to the start of work.

15.09 In the event of an increase or decrease in the work force in any Skilled Trades classification as designated in Appendix "B", and the flow chart below, the following procedure shall apply.

(A) First - supplemental, second - probationary, employees will be laid off from their Skilled Trades classification.

(B) If any further employees are to be reduced from any skilled trades classification as listed in Appendix "B" such employees will be laid off or transferred in order of their seniority from such Skilled Trade classifications. At this time senior employees will have the option to use inverse seniority to take the layoff. After sixty (60) days the employee will have the option to return at any time.

(C) Employees affected by a layoff or cutback in the workforce as per (A) and (B) above may exercise their total Bargaining Unit seniority as per 9.20 (D).

(D) Employees declining the opportunity to exercise their total Bargaining Unit seniority as per (C) above shall only retain recall rights in the Skilled Trades classification. It will not be construed as cause for disqualification under the S.U.B. program.

(E) Recalls shall be made in reverse order of layoffs.

15.10 (A) Promotions or transfers within a Skilled Trade to a higher paid job or better job with equal pay shall be based upon the qualifications (must have Journeyman/Journeywoman status), experience and further developed skills of the respective applicants. When these factors are considered to be equal, the employee with the greatest seniority will be given the preference.

(B) If a promotion or transfer within a related skilled trade requires a skill not possessed, but appropriate training is available, the interested senior applicant will be given the opportunity to gain the needed skill within a reasonable period of time before help is hired.

(C) Data transfer and PLC logic programming including adding, deleting, changing and trouble shooting on the plant floor is the responsibility of skilled trades subject to the Company's direction, supervision and approval. The implementation of new systems of receiving and delivering information (fibre optics or any other new technology) in the future will not alter the intent that this is normally and historically Skilled Trades work.

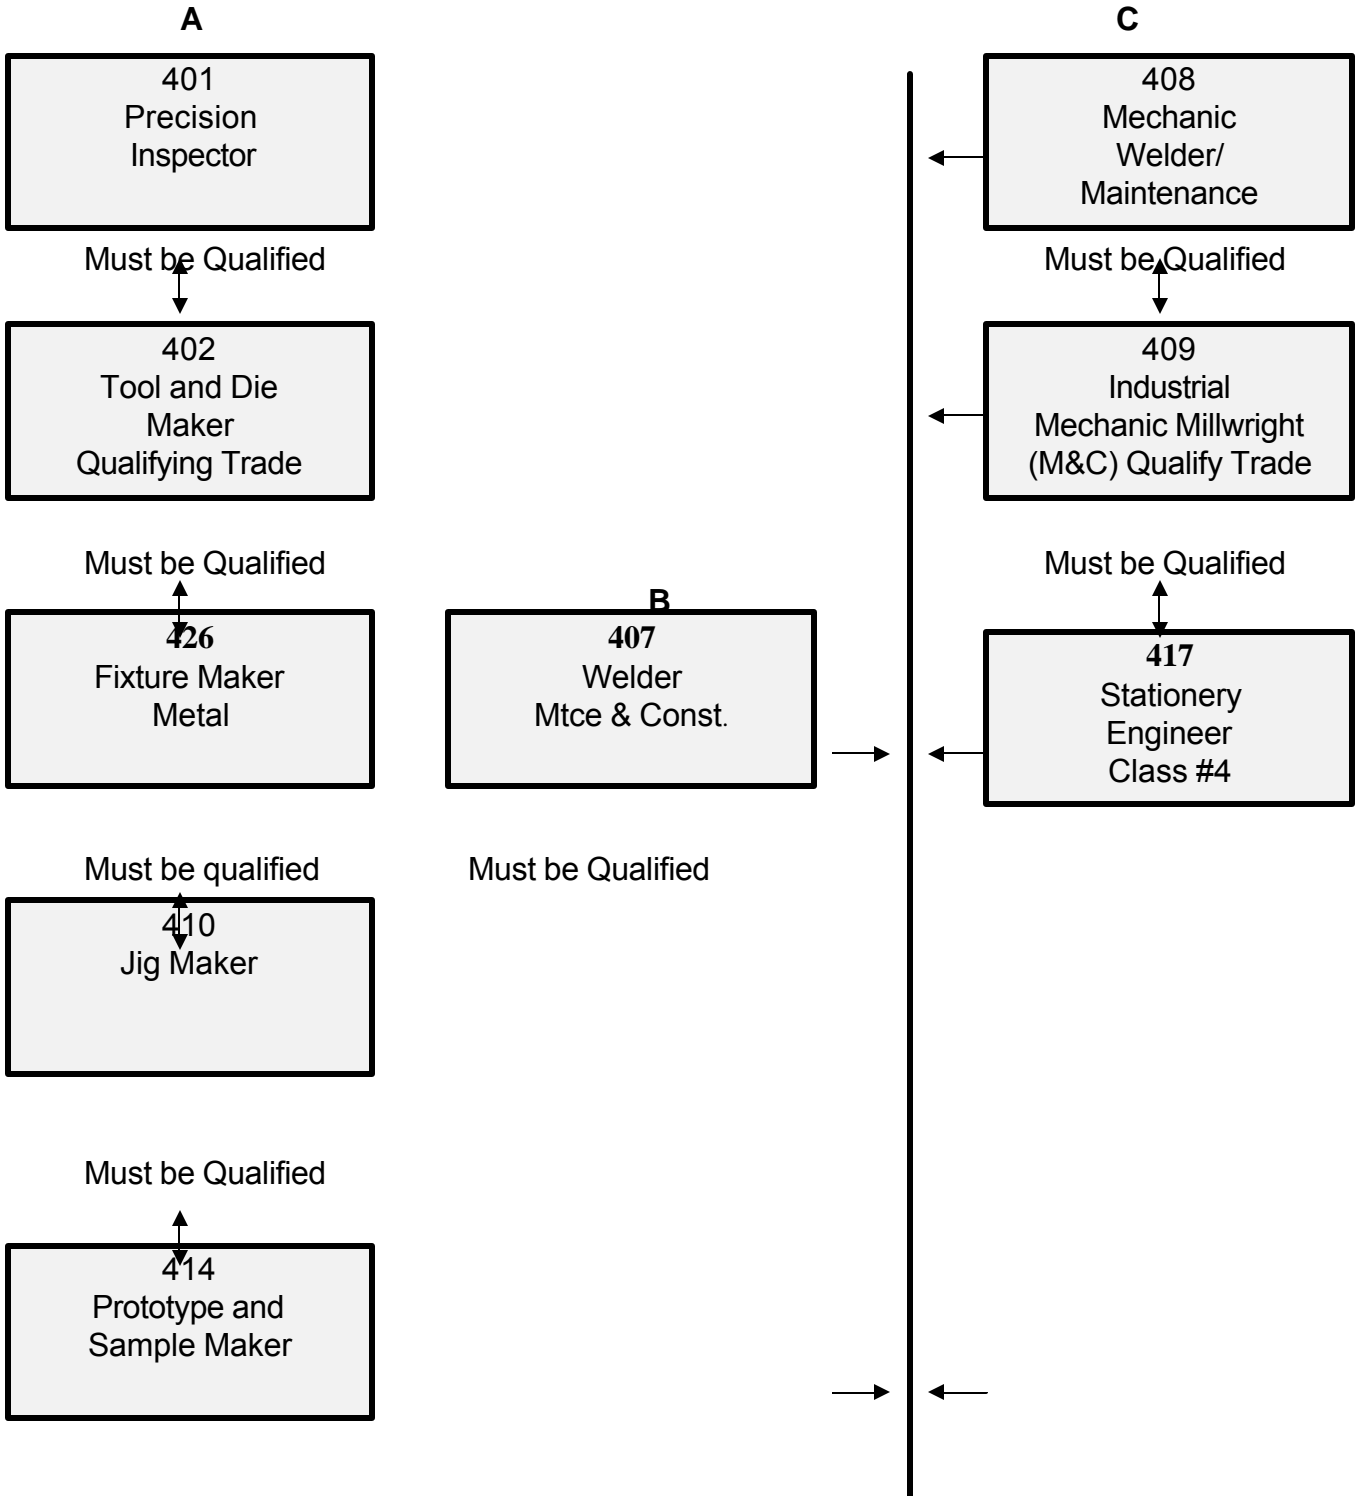

It is understood that on new equipment (including new PLC systems) during the first two months the responsibility to debug and trouble shoot the programs will be the responsibility of management. It is also understood that during major model changes this two month period covered above may be extended by mutual agreement of the parties.

(D) It is agreed by the parties that normal warranties excluded, the Company will not purchase extended warranties or service contracts from outside vendors to perform work normally performed by the bargaining unit.

(E) Layoff within the Flow Chart

In the event of a layoff, bumping within the flow chart shall be in either direction. The employee must have journeymen/journeywomen status in the respective trade and will take his/her seniority with him/her to his/her related classification within his/her trade. He/she will replace the low seniority employee within the qualifying trade section of the flow chart.

If the low seniority employee being displaced is in classification 417 – Stationary Engineer 4Th Class, he/she may be retained for up to two weeks in order to provide necessary training to the employee who has displaced him/her.

(F) Seniority Within the Flow Chart

On any move up or down on any opening within a section of the flow chart, the employee will take his/her seniority with him/her if in the related classification - he/she must be qualified.

All openings must be posted within the appropriate section of the flow chart first, then plant wide.

15.11 Should a Skilled Trades employee, possessing Journeyman's/Journeywoman's qualifications in another trade as listed in Appendix "B" request a transfer, through job postings, or be transferred from his/her present classification into another non-related Skilled Trade Classification he/she shall retain seniority in his/her former classification for thirty (30) days, after which he/she will forfeit his/her seniority rights in his/her former Skilled Trades classification from the date of entry. This transfer shall not apply to layoff or recall and is limited to once yearly.

15.12 The Company and the Union agree to implement an Apprenticeship Program for the Skilled Trades of Industrial Mechanic Millwright (M & C), Electrician (M & C), Tool and Die Maker, Welder (M & C). While completing his/her standard contract of 9,000 hours the Electrical Apprentice will have the option to take the electronic control course, if available. The apprenticeship standards as agreed to shall be considered as an inseparable part of this Agreement.

15.13 When the Company appoints a lead hand of Skilled Trades employees, he/she shall be a Skilled Trades employee, who, while engaged in his/her regular Skilled Trade occupation, leads or processes the work of two or more employees.

Only a journeyman/journeywoman shall be considered as a lead hand in his/her respective trade, on the understanding that this does not prohibit such lead hand from leading other Skilled Trades groups.

A lead hand shall receive fifty (50) cents above his/her own classification rate of pay.

15.14 (A) The Company agrees to provide fire and theft insurance to cover recognized tools of the trades for Skilled Trades Employees. This coverage will be at replacement value with a \$10.00 deductible provision per claim.

No coverage will apply to tools not recorded in the forms provided to the Company and the Union or tools that are continually taken off Company property.

Claims processed under this provision will be subject to a thorough investigation.

(B) The Company shall provide a form to be filled out for the purpose of recording the employee's tools. The employee shall be responsible for ensuring that this form is properly filled out, including all additional tools.

This form shall be photocopied by the Company.

The employees shall retain one (1) copy of this form and one (1) copy shall go to the Union and the third copy will be retained by the Company.

15.15 All work performed in the Skilled Trades by Bargaining Unit employees shall be done by Skilled Trades employees and/or apprentice employees and/or supplemental employees as covered in this Article of the Agreement.

15.16 (A) The Company agrees that shifts in the Skilled Trades will be on a rotating basis and shall be equally shared with the exception of probationary employees or unless mutually agreed otherwise. Skilled trades employees will retain the right to the use of 11.06.

(B) The Company will give a one (1) week notice to the Union and employee(s) involved prior to any shift change implementation.

15.17 There shall be no numerical or alphabetical classifications within the Skilled Trades and equal rates will be paid throughout the Bargaining Unit for equivalent classification covered by this Agreement.

15.18 In the event the Company may acquire some advanced type of machinery or equipment that would call for special servicing, or operation by an employee of the appropriate skilled trade, it is agreed that such employee will be given the advantage of taking instruction as may be needed, in order that the employee may become familiar with the necessary repair and maintenance and operating techniques required. **The Company will post the training opportunities to the skilled trades within the affected classification and will select the candidates by seniority from those who have successfully met the qualifying criteria for such training.** The training will be conducted by qualified instructors at a satisfactory location.

The Company agrees to pay the cost of lost wages, if any, for such training.

15.19 (A) Where an employee desires to further his/her knowledge in his/her particular Skilled Trade by taking courses related to his/her trade, the Company

agrees to assist him/her with such training when he/she complies with the following procedure:

- (i) Submits an application for tuition refund at least three (3) weeks prior to the commencement of the course.
- (ii) Received the approval of the Manager - Industrial Relations or his/her designate before proceeding to take such course.
- (iii) Satisfactorily completes such courses.

(B) Reimbursement for tuition and required text books will be made, after the employee provides satisfactory evidence of successful completion of the course as follows:

- (i) For courses with tuition and required text books of three hundred dollars (\$300.00) or less, the Company will pay the full amount.
- (ii) For courses with tuition and required text books of more than three hundred dollars (\$300.00) to a maximum of fifteen hundred (\$1500.00), the Company will reimburse the first three hundred dollars (\$300.00) and eighty (80) percent of the amount in excess of three hundred dollars (\$300.00).

(C) Such courses must be taken during the employee's non-working hours. Employees working on afternoon shift shall have time off from work to attend classes without pay. Approval under this Clause will be for up to one (1) year with extensions if necessary, provided each section is successfully completed.

Successful completion of courses under this Clause will be recorded on the employee's personnel record.

15.20 (A) The Company agrees to deduct dues as may be authorized by the Canadian Region Skilled Trades Council C.A.W. from employees hired, re-hired, re-instated or transferred to a skilled trades classification or trades as listed, upon receipt of individual authorized cards signed by such employees. Such deductions shall be made at the same time as regular union dues and thereafter on an annual basis in the month of January. These deductions, along with the names of the employees, and their respective trade shall be remitted to the financial secretary of the local union on a separate list.

(B) The deduction of the Skilled Trades Council dues shall be a condition of employment in the Skilled Trades.

15.21 Skilled trades work will be equally divided among the employees in each classification **except as follows:**

- (i) Employees participating in a zone coverage system jointly designed by participating employees and management.**
- (ii) Employees assigned to specific areas in order to maximize machine uptime and resolve chronic equipment problems.**
- (iii) Employees who have received specialized training as outlined in clause 15.18.**

15.22 (A) Overtime will be equitably distributed among employees in their classification in their respective department. Any employee or employees working on a job which is not completed in the regular shift or overtime working hours, shall be permitted to continue the job but not to exceed five (5) hours. Overtime on a day to day basis shall continue to be offered to the lowest person in the classification. Any deviation from normal overtime practices shall be discussed by the Supervisor with the Steward. As of January 1st each year, all overtime hours charged will be reduced by an amount equal to the lowest hours charged within the affected classification. It is also understood that by mutual agreement this adjustment may be made at other times throughout the year.

(B) When the number of employees working overtime in the Trade equals or exceed five (5) employees regardless of department or shift from which the employees are selected to perform the overtime assignment, the Steward will be given the opportunity to work provided it is in his/her own classification and provided he/she has the lowest hours in that classification. Failing the above, the Union may appoint one of the employees scheduled to work as Acting Representative for the period of absence of the regular Steward and shall advise the Company accordingly.

(C) When overtime is scheduled in a production area not already covered by Skilled Trades the Company will endeavor to schedule the appropriate Skilled Trades people to perform those necessary assignments that are likely to occur.

(D) Overtime will be recorded in the following manner; all time worked at time and one-half will be charged at one and one-half the hours worked. All time worked at double time will be charged at double the hours worked. During the regular week, no hours will be charged to an employee who agrees to work unscheduled overtime

provided that all of the employees within the classification have previously declined the opportunity.

(E) The following procedure will be followed when scheduling overtime in the skilled trades area.

- 1. The Company will provide an overtime sign-up document to each employee that lists the shifts that will be required for weekend overtime coverage on Monday or Tuesday of the week.**
- 2. Employees wishing to work overtime will select those shifts which they are available to work, sign the document, and submit this completed sheet by 8 am on Wednesday (Tuesday in the case of a long weekend). Employees who fail to submit this completed document will be deemed ineligible for any weekend overtime and will be charged for any overtime hours that they would have otherwise been eligible to work.**
- 3. Upon completion of the overtime schedule, the Company will confirm these overtime assignments with those skilled trades employees who are eligible to work and notify those ineligible for each of the scheduled shifts. The Company shall post the finalized overtime schedule in the department. Employees who subsequently decline this opportunity at this step will be charged at double the number of overtime hours scheduled for each shift declined and the Company may fill these vacancies with the employee who would have been eligible for this overtime without recalculating the hours based on Article 15.22A.**

15.23 The Company will provide coveralls, shop coats, aprons with pockets and cloth hand wipers, upon request for all Skilled Trades people.

15.24 (A) Work normally and historically performed by Bargaining Unit employees will not be performed by outside contractors, if the Company has the workforce, skills, equipment, and facilities to do such work.

(B) No Bargaining Unit employees with the present skill and ability shall be laid off while work belonging to the Company is being performed by outside contractors, providing such work can be performed by such employees.

(C) When sub-contracting involves work in the plant, the employees in comparable classifications within the Bargaining Unit or those Bargaining Unit employees who work with employees of outside contractors shall be scheduled to work at least the same number of hours as those worked by the outside contractor's

employees **provided that there is a legitimate learning/training opportunity applicable to their classification and function within the plant and provided further that there is meaningful discussion between the Company and the Skilled Trades representative.** When sub-contractors are involved with the installation of new equipment, dies, fixtures and jigs or alterations to present equipment, dies, fixtures and jigs Bargaining Unit employees in comparable classifications shall be assigned to assist or observe in the installation or alterations. If a Bargaining Unit employee notices flaws in equipment, dies, fixtures and jigs, he/she shall report same to his/her Supervisor.

(D) The Company agrees there shall be meaningful discussion between the Company and the Union prior to soliciting bids and prior to any job being sub-contracted out. If the Company finds it necessary to contract out Skilled Trades work performed by its own employees, the Company will notify the Union in advance of such work being performed and the Company will describe the general nature and scope, including estimated trades and workforce involved, approximate dates within which the work is to be performed and why the service of outside contractor(s) is being contemplated at such time.

The Company will examine any alternatives proposed by the Union, and if they are competitive and within time limits, the Company will adopt these alternatives rather than have the work contracted out.

(E) The Company now agrees that the manufacture of new dies in addition to the refurbishing of dies shall be considered as coming under the scope of work normally and historically performed by bargaining unit employees subject to the following:

1. When outside contracting of either new or refurbished dies is to take place, then meaningful discussions shall occur as provided in Section 15.24 (D) of the Collective Agreement.

2.(a) The Company will explain the business exigencies that make the services of an outside contractor necessary based on such factors as equipment, skill and time limitations.

(b) The word "Equipment" refers to the physical ability and capacity of equipment; the word "skills" is defined to mean the building of dies; and the word "time" refers to the customer delivery time within which the Company must have the die.

3.(a) When determining whether or not new tooling can be built in-house the parties recognize that the normal maintenance requirement of the tool room must first be maintained.

(b) The Union will have the opportunity if they so indicate at the meeting, to reply within a reasonable period of time as to the grounds upon which they believe the work can be done in-house in accordance with item 2 and 3(a) and why the perceived limitation factors are not applicable.

4. If the work can be done in-house on regular and overtime hours in accordance with item 2 and the above noted limitations are inapplicable, then the work shall be done by the skilled trades employees of the Company in the Tool room and not by an outside sub-contractor.

15.25 The Company agrees to pay a tool allowance of four hundred **and fifty** dollars (**\$450.00**) to each Skilled Trade employee in the following classifications:

402 403 404 408 409 410 412 414 426

This allowance will be paid in one installment of four hundred **and fifty** dollars (**\$450.00**) with the first pay in September of each year for the life of the Agreement.

In addition the Company agrees to pay the cost of license renewals for skilled trades when required by law.

15.26 Overtime sheets will be given to the Steward the day following the overtime, with the exception of weekend overtime, which will be given on Monday.

Lines of Demarcation

15.27 Where disputes have been resolved pertaining to normal duties and responsibilities in the Skilled Trades area, they will be recorded and used in the future as guidelines for resolving any future disputes of the same or similar nature.

15.28 The Company and the Union agree that when there are complaints and grievances pertaining to Skilled Trades employees, any discussions and resolves that involve the Union will include the appropriate Skilled Trades Union representative(s).

ARTICLE 16 - COST-OF-LIVING ALLOWANCE

16.01 All employees in the Bargaining Unit shall be granted a Cost-of-Living Allowance. The Cost-of-Living Allowance will be determined in the following manner:

During the calendar years **2005, 2006 and 2007** the Cost-of-Living Allowance will be adjusted for fluctuations in the Consumer Price Index (CPI), published by Statistics Canada (1986 = 100).

Effective Date of Adjustment -First Pay Period Beginning on or After	Based on CPI Published in	Deviation to Yield one cent
April 15, 2006/2007	April	.073
July 15, 2006/2007	July	.073
October 15, 2006/2007	October	.073
January 15, 2007	January	.073

The above deviation shall be that accumulated by the CPI during the three months preceding the date of adjustment.

In computing the adjustment of Cost-of-Living Allowance due in **April 2006** and after, a table will be constructed using the index number published by Statistics Canada in **January 2006**, using a starting base of **\$1.37** cents per hour.

16.02 The amount of any Cost-of-Living Allowance in effect at the time shall be included in computing overtime pay, holiday pay, call-in pay, vacation pay, bereavement pay, jury duty pay.

16.03 In the event that Statistics Canada does not issue the Consumer Price Index on or before the beginning of any pay period referred to above, any adjustment in the allowance required by the Index shall be effective at the beginning of the first pay period after the Index has been officially published.

16.04 No adjustments, retroactive or otherwise, shall be made due to any revision that may later be made in the published figures for the Consumer Price Index for any month on the basis of which the allowance has been determined.

The Company will set up a training program for employees utilizing the "Lock Out System". The Committee will monitor the effectiveness of the "Lock Out System" annually.

21.12 Any machine or device which is found to be in an unsafe or hazardous condition shall be "Locked Out" with the prescribed locks by the Supervisor in the presence of a Union representative and remain so until made safe.

Locks will not be removed without a Union representative being informed.

21.14 (A) If an employee is injured on the job, he/she will be paid average earnings (including the current Cost-of-Living Allowance), for the balance of the first shift on which he/she has been sent home or to a hospital or doctor by the medical staff of the Company because of such injury. This shall also apply for time that an employee requires to be treated by the Company's medical staff.

(B) If an employee is injured in the plant and the Company wishes to place him/her on a job within his/her capabilities, the employee shall be paid average earnings for incentive employees, day rate for day rated employees and his/her own rate for non-incentive employees or the rate of the job, whichever is the greater.

(C) Employees returning from Workers' Compensation, while still partially disabled, shall be paid as per (B) above except that, when the Worker's Compensation Board is still providing the employee with partial benefits, he/she shall receive the rate of the job.

(D) If required, the Company will supply and pay for transportation to the hospital or doctor's office and then back to the plant or to the employee's home.

It is further agreed that an employee will be paid for the time lost due to subsequent treatments related to an industrial accident, during his/her regular working hours, when such treatments are pre-arranged with the Company.

21.15 Every year on April 28, work will stop on each shift in order that one minute silence can be observed in memory of workers killed or injured on the job. **The flags will be flown at half staff on this day.** The Bargaining Committee will meet with management to recommend a method of accomplishing this memorial in an appropriate manner. **The flags will be flown at half staff on this day of mourning, December 6 and on the occasion of a co-workers untimely death.**

- (D) "Apprenticeship Agreement" shall mean a written Agreement between the Company and the person employed as an apprentice and his/her parent or guardian (if he/she is a minor) which Agreement shall be approved and signed by the Chairperson and Secretary of the Committee and registered with the Registration Agencies and the Local Union.
- (E) "Apprentice" shall mean a person engaged in learning and assisting in the trade to which he/she has been assigned under these standards and who is covered by a written Agreement providing for his/her training in accordance with these standards of apprenticeship and who is registered with the Registration Agencies.
- (F) "Committee" shall mean the Joint Apprenticeship Committee organized under these standards.
- (G) "Apprentice Co-ordinator" shall mean the person employed by the Company or the person assigned the responsibility to perform the duties outlined in these standards of apprenticeship.
- (H) "Standards of Apprenticeship" shall mean this entire document, including these definitions.
- (I) "Journeyman/Journeywoman" as used in Article 8 hereof, means employees in a specific trade and shall not be construed to include Journeymen/Journeywomen employed in other trades.

ARTICLE 2 - APPLICATIONS

1. Seniority Employees (Restricted Pool)

(A) Notice of apprenticeship openings will be posted on the Company's bulletin board.

(B) Applications for apprenticeship will be accepted by the Personnel Department from seniority employees (employees within the Bargaining Unit) who consider themselves eligible under this program of training.

(C) A numbered application blank will be filled out and each applicant will sign a register noting that he/she has received and filed an application.

(D) Applicants meeting the minimum eligibility requirements as outlined in Article 3 will be turned over to the Joint Apprenticeship Committee for approval or disapproval.

2. Outside Applicants

(A) When apprenticeship openings exceed the number of qualified seniority employees, the Company shall give the sons and daughters of seniority Bargaining Unit employees the available openings. If the openings at this point still are available the Company shall notify the local school board and public employment service by mail of the available openings, the minimum qualifications for eligibility, the closing date for application and where to file.

(B) After a preliminary check of each application by the Personnel Department, those meeting the minimum eligibility requirements outlined in Article 3 will be turned over to the Joint Apprenticeship Committee for approval or disapproval.

ARTICLE 3 - APPRENTICESHIP ELIGIBILITY REQUIREMENTS

Selection of apprentices under this program shall be made from applicants on the basis of qualifications and seniority. When all qualifications and related training are equal, seniority will be the ruling factor without regard to race, creed, colour, national origin, sex or occupationally irrelevant physical requirement. In accordance with the objective standards which prevail, review after full and fair opportunity for application, this program shall be operated on a completely non-discriminatory basis.

In order to be eligible for apprenticeship under these standards, the applicant must have Grade 12 education or its equivalent.

Exceptions to these requirements may be made by the Joint Apprenticeship Committee for applicants who have unusual qualifications which may apply to the apprenticeship.

Any decision of the Joint Apprenticeship Committee is not subject to any grievance or appeal.

ARTICLE 4 - CREDIT FOR PREVIOUS EXPERIENCE

Credit for previous related experience in an apprentice training program or a Skilled Trades classification in any plant, may be given up to the total time required on any phase of the apprentice shop training or related training schedules not to exceed a maximum of two (2) years credits. Credits for such previous experience shall be given the apprentice at the time he/she has satisfactorily demonstrated that he/she possess such previous experience and is able to do the job. Related training credit shall be given the apprentice at the time that he/she has demonstrated that he/she possess the educational knowledge for which he/she is requesting credit under the related training schedule.

At the time such credit is given, the apprentice's wage rate shall be correspondingly adjusted within the apprentice rate schedule based on the amount of credit given toward completion of the shop training schedule.

ARTICLE 5 - TERM OF APPRENTICESHIP

The term of apprenticeship shall be as established by these apprenticeship standards in accordance with the schedule of work processes and related instructions as outline in Appendices attached hereto.

Each phase of the scheduled hours of shop training will be considered complete if it is within (plus or minus) 10 percent of the figure shown in the Appendix. Not more than 5 percent of the total time may be assigned to optional work as set forth in the standards. Deviations from the limitations of this paragraph may be approved by the Joint Apprenticeship Committee.

ARTICLE 6 - GRACE PERIOD

The first 500 hours of employment for every apprentice shall be a grace period. During this grace period the apprentice, if he/she is a seniority transferee, may elect to return to his/her previous occupation and his/her Apprenticeship Agreement will be canceled by the Joint Apprenticeship Committee. The Registration Agencies shall be advised of all such cancellations.

In no event shall an apprentice acquire seniority until he/she has acquired seniority as a Company employee.

ARTICLE 7 - HOURS OF WORK

An apprentice shall work the same hours during the contractual work week and be subject to the same conditions as the skilled workers of his/her trade employed by the Company. Apprentices may work overtime hours providing that all skilled workers of that trade in that department have been given first opportunity. In case an apprentice is required to work overtime, he/she shall receive credit on the term of apprenticeship for only the actual hours worked.

The Joint Apprenticeship Committee may limit the hours of overtime work of an apprentice where excessive work schedules interfere with his/her related training.

ARTICLE 8 - RATIO

The ratio of apprentices to Journeymen/Journeywomen shall be one (1) apprentice to each eight (8) Journeymen/Journeywomen employed in a respective trade. In trades where there are less than eight (8) Journeymen/Journeywomen, one (1) apprentice may be assigned in that trade. In the Machine Trades, the number of Journeymen/Journeywomen on which to base the number of apprentices shall be the total of Journeymen/Journeywomen classified in the specific trade as (a) tradesperson; (b) operators of basic and promotional machines and/or operations.

When there are no Journeymen/Journeywomen laid off or available in a trade, the Joint Apprenticeship Committee may mutually agree to add apprentices over and above the one (1) to eight (8) ratio.

When a reduction in force occurs in a trade where apprentices are employed, apprentices first shall be laid off until the ratio of apprentices to Journeymen/Journeywomen is one (1) to eight (8) or major fraction of eight (8). Thereafter, apprentices shall be laid off proportionately to maintain such ratio.

In the event that the ratio at the time of layoff is less than one (1) apprentice to eight (8) Journeymen/Journeywomen, then the ratio existing at the time of layoff shall be maintained, based on the major fraction principle until all Journeymen/Journeywomen in their respective trade are recalled.

The apprentices will exercise their seniority in their own group. For example, if there are four (4) apprentices in any specific trade and a reduction in this number is required due to lack of work, the first hired shall be the last laid off and the last laid off shall be the first to be reinstated.

In the event the reduction in force is due to unusual circumstances, including but not confined to, a transfer of or discontinuance of an operation, major technological developments, the elimination or consolidation of classifications, the discontinuance of a shift, or a drastic reduction in the level of work resulting in a heavy reduction in the skilled work force, the parties locally shall mutually agree to an acceptable layoff and recall plan. Such a layoff plan may provide for reducing the ratio below one (1) to eight (8), or for laying off all apprentices in a particular trade.

An employee having seniority in the plant who enters the Apprentice Training Program shall, during the period of his/her apprenticeship retain his/her accumulated seniority in his/her former seniority group and if laid off or dismissed from the Apprentice Training Program, he/she shall be returned to his/her former seniority group in the plant in line with such established seniority in his/her former seniority group.

When the work force is increased in a trade, apprentices must be recalled according to trade apprentice seniority when the Journeymen/Journeywomen increase permits the maintenance of the ratio used at the time of the layoff.

Thereafter, all apprentices in a trade shall be recalled before any new Journeyman/Journeywoman shall be hired.

ARTICLE 9 - DISCIPLINE

The Committee shall have the authority to discipline an apprentice and to cancel the Apprenticeship Agreement of the apprentice at any time for cause pertaining to his/her apprenticeship such as:

(A) Inability to learn.

(B) Unsatisfactory work.

(C) Lack of interest in his/her work or education which shall include failure to attend classroom instructions regularly.

This shall not limit the right of the Company to discipline an apprentice for cause for matters not related to his/her training as an apprentice. Such discipline by the Company shall be subject to the Grievance Procedure.

ARTICLE 10 - WAGES

Apprentices in each of the trades covered by these standards shall be paid a progressively increasing schedule of wages as follows:

- 1st 1000 hours - not less than 65% of the Journeyman's/Journeywoman's wage rate.
- 2nd 1000 hours - not less than 70% of the Journeyman's/Journeywoman's wage rate.
- 3rd 1000 hours - not less than 75% of the Journeyman's/Journeywoman's wage rate.
- 4th 1000 hours - not less than 80% of the Journeyman's/Journeywoman's wage rate.
- 5th 1000 hours - not less than 85% of the Journeyman's/Journeywoman's wage rate.
- 6th 1000 hours - not less than 90% of the Journeyman's/Journeywoman's wage rate.
- 7th 1000 hours - not less than 95% of the Journeyman's/Journeywoman's wage rate.
- 8th 1000 hours - not less than 95% of the Journeyman's/Journeywoman's wage rate.

If the apprentice is sent to a community college or trade school or a specific course deemed necessary by the Company for any period of time, the Company agrees to make up the difference in pay he/she would have received had he/she remained in the plant.

The Company agrees to pay, on behalf of apprentices covered by this Agreement for books, registration fees and/or tuition required in connection with related training under the Apprentice Program.

If the apprentice is laid off, he/she may elect to continue school classes. Tuition and books will be paid upon the return of the apprentice to the Apprenticeship Program. Tuition and book receipts will be presented to the Company by the apprentice.

The apprentice shall also receive the applicable percentage of the annual improvement factor and the full amount of all cost-of-living increases that are accorded all plant employees.

Hours spent in classroom instruction shall not be considered hours of work in computing overtime.

Apprentices who are given credit for previous experience shall be paid upon signing the Apprenticeship Agreement, the wage rate for the period to which such credit advances them.

Bargaining Unit employees whose starting rate or credit level under the Apprenticeship Program would place them at less than their present rate, will remain at 80% of the Journeyman's/Journeywoman's rate until normal advancement within the Apprenticeship Program places them at a higher rate. Employees whose present rate is higher than the regular apprenticeship starting rate but less than 80% of the Journeyman's/Journeywoman's rate will be given their present rate until normal advancement within the Apprenticeship Program places them at a higher rate.

When an apprentice has completed 8000 hours of training, he/she is to receive not less than the rate paid to skilled Journeymen/Journeywomen in the trade in which he/she has served his/her apprenticeship after approval of his/her completion of training by the Joint Apprenticeship Committee.

ARTICLE 11 - RELATED INSTRUCTION AND SCHOOL ATTENDANCE

(A) Each apprentice shall enroll and attend classes for not less than a minimum of three and one-half (3 1/2) hours weekly and for a total minimum number of related instruction hours as outlined in the Appendix for each particular trade, according to instructions by the Joint Apprenticeship Committee. Each apprentice, after enrollment in such classes, shall be registered with the Board of Education as an apprentice student if applicable.

(B) Approval of Classroom Instruction - The location and quality of the classroom instruction shall meet with the approval of the Joint Apprenticeship Committee. The schedule of related instruction shall be outlined in Appendices attached hereto, or as may be supplied by the community college or the local Board of Education wherever applicable.

(C) Enforcement of School Attendance - In case of failure on the part of any apprentice to fulfill his/her obligation as to school attendance, the Joint Committee may suspend or revoke his/her Apprenticeship Agreement, and the Company hereby agrees to carry out the instructions of said Committee in this respect. The apprentice and his/her parent or guardian, hereby agree to abide by any such determination of such Committee.

The Registration Agencies and the Local Union, the local Board of Education and the C.A.W. shall be notified of any such cancellation as this terminated the eligibility of the apprentice as a student.

ARTICLE 12 - JOINT APPRENTICESHIP COMMITTEE

There is hereby established a Joint Apprenticeship Committee as defined in Article 1. This Committee shall be composed of seven (7) members, three (3) of whom shall represent the Company and four (4) of whom shall represent the Union (where practicable - one (1) from each of the apprenticed trades who will participate and one from manufacturing who will observe only). The Committee shall elect a Chairperson and a Secretary. When a Company member is a Chairperson, a Union member shall be Secretary and vice-versa. The Committee shall meet at least once a month or on call of the Chairperson or Secretary or any three members of the Joint Committee. The Union shall appoint Journeypersons from the plant as members of the Joint Apprenticeship Committee.

Each Union member of the Joint Apprenticeship Committee will be paid his/her regular rate for time spent working on official business of the Joint Apprenticeship Committee for the hours he/she would otherwise have worked in the plant.

It shall be the duty of the Committee:

(1) To see that each prospective apprentice is interviewed in conjunction with the Apprentice Co-ordinator and impressed with the responsibilities he/she is about to accept, as well as the benefits he/she will receive. This will allow the Committee to designate whom they choose as interviewer, not necessarily a Committee member.

(2) To accept or reject applicants for apprenticeship after preliminary examination by the Personnel Department of the Company.

The acceptance or rejection of applications for apprenticeship shall be governed by the standards established herein and shall not be subject to review through the Grievance Procedure.

(3) To place apprentices under Agreement.

(4) To hear and decide on all questions involving the apprentices which relate to their apprenticeship.

(5) To work out with the local Board of Education the form, content, and schedule of the course or courses on instruction to be provided. The Committee will also co-operate with the school authorities in coordinating the related classroom instruction with the apprentice's basic schedule of work experience.

(6) To offer constructive suggestions for improvement of training on the job.

(7) To certify the names of graduate apprentices in accordance with Article. 17. No certificates will be issued unless approved by the Committee.

(8) The Company will see to it that the minutes of Committee meetings will be furnished to and approved by the Joint Apprenticeship Committee.

(9) In general, to be responsible for the successful operation of the apprenticeship standards in the plant and the successful completion of the apprenticeship by the apprentices under these standards.

ARTICLE 13 - CO-ORDINATION OF APPRENTICES

Apprentices shall be under the general direction of the Apprentice Co-ordinator and under the immediate direction of the Supervisor of the department while working with a Journeyman/Journeywoman to whom assigned. The Apprentice Co-ordinator is authorized to move apprentices from one department to another in accordance with the predetermined schedule of work training. No apprentice may be retained on a scheduled work process for the period longer than the time scheduled for such work process unless permission is granted in writing by the Committee.

The Apprentice Co-ordinator, or an individual charged with this responsibility, in consultation with the Joint Committee, shall prepare adequate record forms to be filled in by the Supervisor under whom the apprentices receive instruction and experience. Supervisors shall make a report at least every thirty days to the Apprentice Co-ordinator on the work and progress of the apprentices under their supervision. These reports shall be submitted to the Joint Committee for its approval or disapproval.

If the Apprentice Co-ordinator finds that an apprentice shows lack of interest or does not have the ability to become a competent tradesperson, he/she shall place all the facts in the case before the Joint Committee for its decision. Under these circumstances an apprentice may be permitted to continue in probationary status, required to repeat a specific process or series of processes, or his/her Agreement may be terminated. The Registration Agencies and the Union shall be advised of all terminations and the reasons therefore.

ARTICLE 14 - CONSULTANTS

The Committee may request interested agencies or organizations to designate a representative to serve as consultant. Consultants will be asked to participate without vote in conference on special problems related to apprentice training which

affects the agencies they represent. This provision shall not be construed to compel any changes in these standards.

Should any dispute arise which cannot be satisfactorily settled within the Committee, either party may ask the Registration Agency to consider the matter.

ARTICLE 15 - SENIORITY

When two or more apprenticeships are started at the same time, seniority will be by alphabetical order of surnames (A-Z) and layoffs will be by reverse order of same (Z-A) except as defined in clause 15.04 (B).

Upon satisfactory completion of the Apprenticeship Program, the apprentice will be given 100% of time on course seniority in the plant or Company where the apprenticeship is completed as a Journeyman/Journeywoman.

ARTICLE 16 - APPRENTICESHIP AGREEMENT

Every Apprenticeship Agreement entered into under these apprenticeship standards shall contain a clause making the standards part of the Agreement, with the same effect as if expressly written therein. For this reason, every applicant (and his/her parent or guardian if he/she is a minor) shall be given the opportunity to read the standards before he/she signs his/her Apprenticeship Agreement.

The following shall receive copies of the Apprenticeship Agreement:

- (1) The apprentice
- (2) The Company
- (3) The Joint Apprenticeship Committee
- (4) Registration Agencies
- (5) The Local Union

ARTICLE 17 - CERTIFICATE OF COMPLETION OF APPRENTICESHIP

Upon completion of the apprenticeship under these apprenticeship standards, the Joint Apprenticeship Committee will request the Industrial Training Branch of the Ontario Department of Labour that a certificate signifying completion of the apprenticeship be issued to the apprentice. No certificates will be issued by the Industrial Training Branch of the Ontario Department of Labour unless approved by the Joint Apprenticeship Committee.

Upon receiving the certificate, the Chairperson and Secretary of the Joint Committee will sign the certificate before issuing it to the graduate.

ARTICLE 18 - MODIFICATION OF STANDARDS

These apprenticeship standards may be amended or new schedules added at any time upon agreement of the Joint Apprenticeship Committee.

ARTICLE 19 - TOOL ALLOWANCE

Tool Allowance shall be paid as contained in Article 15.25 of the Collective Agreement.

ARTICLE 20 - APPROVAL

These standards or any changes or amendments to these standards will be submitted to the National Skilled Trades Department of the C.A.W. for approval before becoming effective.

APPENDIX "E"

This is Appendix "E" referred to in Article 20 and forming part of this Agreement, made between Lear Corporation, Kitchener Plant and the National Automobile, Aerospace, Transportation and General Workers Union of Canada (CAW-Canada) and its Local 1524, dated this **16th** day of **December, 2004**.

LETTERS

Agreed to by

LEAR CORPORATION

KITCHENER PLANT

And the

NATIONAL AUTOMOBILE, AEROSPACE,

TRANSPORTATION AND GENERAL WORKERS

UNION OF CANADA (CAW - CANADA)

And its

LOCAL UNION NO. 1524

#1 – Local Union Time Study Representative

It is understood and agreed that the services to provide a Local Union Time Study Representative will continue during the term of this Agreement as follows:

- (1)** Said representative will be paid by the Company for the time which it is necessary for him/her to lose from his/her regular duties, in order to attend Time Study Training Courses jointly approved by the Company and the Union.

Fees for such approved time study courses and the expenses relating thereto will be borne equally by the Company and the Union.

- (2) The Local Union Time Study Representative must be able to successfully complete a basic grade ten (10) mathematics test or have previous time study experience as to his/her ability to successfully perform the time study job prior to his/her appointment. Upon his/her appointment the Company will then initiate a training program for the said Local Union Time Study Representative.
- (3) When necessary, the Local Union Time Study Representative shall have access to such Company time study records that are required in the performance of such duties.
- (4) The said Representative shall have preferred Bargaining Unit seniority during his/her term of office.
- (5) The Company and the Union agree that the said Representative will remain an active member of the Bargaining Unit and that neither party will in any way induce or coerce him/her to leave the Bargaining Unit or the Company as long as he/she retains his/her position as the Local Union Time Study Representative.
- (6) At the request of the Union to the Supervisor Industrial Engineering, the Local Union Time Study Representative will be excused from his/her regular duties to investigate and study standard grievances, attend meetings that involve violation of incentive standards and attend time study training courses.

#2 – Union Representation time Off-the-Job

It is the intent of the Union to use the allotted hours per representative in the Agreement on the basis of working to the minimum and only when necessary using the maximum time allotted. The Union agrees to co-operate with the Company in the correction of any abuses of lost time for Union activity.

#3 - Sub-Contracting Non-Skilled

It is the intent of the Company for the duration of this Agreement, that work normally and historically performed by Bargaining Unit employees will not be performed by outside contractors, if it has the workforce, skills, equipment and facilities to do such work.

No Bargaining Unit employees with the present skill and ability shall be on layoff while work belonging to the Company is being performed by outside contractors, providing such work can be competitively performed by such employees.

The Company agrees there shall be meaningful discussion between the Company and the Union prior to any job being sub-contracted out.

During the current negotiations, the parties discussed sub-contracting and its impact of the Union's members and the parties agree that discussions and reviews regarding such matters can bring into sharper focus, in specific instances, factors which can impact such decisions and provide the opportunity for meaningful Union input before such decisions are made.

It is recognized such decisions are dependant upon the Company's ability to be cost competitive, technologically competent, and upon the degree to which the Company's resources can be allocated to further capital expenditures which might be required.

Accordingly, the Company will meet with the Plant Committee to provide a means of regularly addressing mutual concerns which pertain to sub-contracting decisions and their potential impact upon the work force.

It is understood that discussions regarding sub-contracting may involve information which must be kept confidential until the Company consents to its release.

#4 – Dept. # 39

In emergency overtime situations where work would not exceed one (1) hour and employees who normally perform the job are not available, the Company will assign another employee as per Clause 9.07.

In cases where the Company was aware of the situation prior to the conclusion of an employee's shift and the assignment occurs within one (1) hour after the conclusion of the shift this letter shall not apply.

#5 – Employee Assistance

The Company and the Union recognize that there are individual and family problems that can be successfully treated when properly identified and referred to a professional counselor. This is true when the problem is one of physical illness, mental or family distress, alcoholism, drug abuse or other concerns.

The Company and the Union recognize the disease of alcoholism or drug addiction as a treatable behavioral /medical illness. Substance abuse affects the family, fellow workers and the Company's operation.

This in no way negates the Company's right to discipline nor the Union's right to the grievance procedure.

- Section 1 The Company recognizes the importance of a continuous co-operative effort between its' management, Union Representatives and its' members in this regard. It is appropriate for the Company and the Union to review and discuss these problems from time to time, with a view to providing assistance to addicted employees, consistent with these employees attitudes towards their problems.
- Section 2 The recognized W.S.I.B./E.A.P. Representative will be permitted a reasonable amount of time with pay during his/her regularly scheduled shift to provide necessary assistance to employees in accordance with article 6.16 (e)
- Section 3 The W.S.I.B./E.A.P. representative will ensure confidentiality of employees using the program.
- Section 4 The Company will provide normal group insurance benefits or such other provider services the employee and/or family member may be eligible for while under a medically prescribed course of treatment.

#6 – Employee Involvement In Court Proceedings

It is agreed that an employee charged in a court of law either under the criminal code or otherwise will be permitted to continue working pending the outcome of the trial unless the charge is related to his/her employment with the Company, in which case the normal procedure outlined in Article 8 may be applied.

The Company will endeavor to assist any employee detained as the result of a conviction of a minor offense under the criminal code and Highway Traffic Violations in an effort to obtain an arrangement that will allow the employee to work while detained.

#7 - Physician Fees

The Company will not pay for physicians fees for completion of the initial U.I.C. or Insurance carrier medical forms.

Any additional medical evidence after the first submission, being requested by the Company or the Carrier, will be paid by the Company, provided that the initial claim form has been completed as required. If the employee cannot meet the return to

work date or there is no return date specified, as indicated on the disability form, any request for additional medical evidence will be paid by the employee.

The Company agrees to pay for the completion of Lear W.S.I.B. claim related forms when required.

8 – Metric Tools

The Company will make available necessary metric tools and calibrated measuring instruments to Skilled Trades employees when required in the performance of their work. Such tools will be available in the tool crib and charged out to Skilled Trades employees when they have need for them.

9 – Small Tool Repair

Employees who have received proper training and tools will be required to do some small tool repair.

MIG Welders - Changing cables and barrels of wire as required. A pre-determined time standard will be established for these activities and the set-up rate will be paid for such time.

- Changing diffusers, nozzles and tips will be incorporated into the work standard as per Article **13.02 or 14.02**.

Table/Gun Welders - The replacement of points (as needed) will be incorporated into the work standard as per Article **13.02 or 14.02**.

Operators - - Changing diffusers, nozzles and tips on robotic welding cells will be incorporated into the work standard as per Article **13.02 or 14.02**

#10 – Able To Perform

Able to perform is interpreted to mean the employee's ability to perform the duties of his/her position after proper training and trial period. Normal performance would include the employee's physical ability to meet standards of production, quality and quantity generally accepted as adequate for employees in other like jobs.

(A) The Company shall explain the job(s) available as per this Letter at the time the employee is notified of layoff.

(B) They will be explained the requirements normally expected of the job.

(C) They will be given the normal training and trial period and will be subject to the same conditions expected of all employees.

(D) If the employee is unable to perform the job following the trial period or if the employee refuses the option it will not be construed as cause for disqualification under the S.U.B. program.

(E) Employees placed on layoff under this letter because of physical limitations will have access to the opposite work group bump as defined in clause 9.20 (E) provided they make their intention to bump known at the time of layoff.

11 – Job Ownership

The Company will utilize an employee's experience on the job(s) he/she normally performs by keeping such employee(s) on such job(s) while it is able to run on his/her shift. When overtime is scheduled, the employee working the overtime will not circumvent the seniority rights of any employee working his/her regular shift .

If an employee is late and his/her job has been assigned to another employee before he/she arrives or if an employee has scheduled a 4 hour increment of paid vacation at the start of his/her shift, he/she will be required to accept the job assigned him/her within his/her classification within the department, seniority permitting, for that shift. Assignment to his/her job will be made if needed and if the accommodation is not disruptive.

(a) Prior to the beginning of the shift, employees who are not required to work on their job ownership or who maintain classification rights only will be assigned to work on available jobs within the classification and this will be their normal job for the shift. When there are excess employees within the classification prior to the beginning of the shift, the low seniority employees will be removed from the classification and will be offered available work by seniority.

(b) In an instance where an employee with restrictions will not be working on his/her normal job, he/she will be assigned available work inside or outside of his/her classification that is within his/her restrictions.

(c) When there is a lack of work in an employee's normal job during the shift due to production scheduling, machine breakdown or lack of parts, the employee(s) will be assigned available work within the classification and department. If there is insufficient available work within the classification within the department, the affected employee(s) may displace the junior employee in the classification within the department, seniority permitting, or accept any other work available. When more than one (1) employee is being assigned at the same time, employees will be given the choice of available jobs by seniority.

(d) As per (c) above, an employee(s) who accepts available work outside of his/her classification will forfeit his/her classification rights within the department for the balance of his/her shift and he/she must accept any other available work to which he/she is assigned. If work becomes available in his/her classification within the department, employees will be returned according to the inverse order of their seniority.

As per (a) above, if work becomes available within the classification and department, employees will be returned to the classification by seniority and assigned such work.

(e) Employees transferred under all sections above will be paid the rate of the job to which he/she is assigned.

(f) The Company will assign work by seniority when more than one (1) employee has claim to a particular job. It is not the intent of the Company to circumvent the senior employees job ownership rights. Production will be scheduled to ensure senior employee(s) with job ownership have the work, except in emergency situation(s), machine breakdown, planned equipment maintenance, build ahead for product change or where unexpected increase(s)/decrease(s) in customer requirements have been a factor. The Union will be informed of such emergency situations, machine breakdown planned equipment maintenance, build ahead for product change or of increase(s)/decrease(s) with validation supporting the movement of employees as soon as possible. When there is a decrease in customer requirement (validated) during the last half of the shift and the senior shift is operating, they will be allowed to finish the shift on their normal job. Any abuse of this Clause will result in payment of average earnings to the affected employee and the affected employee is expected to produce at a minimum of 195% during these periods.

(g) In order to maximize our workers time on their own jobs the Company and Union agree to meet on as frequent basis as may be necessary to review the production requirements and through discussion provide the work to the most senior workers whenever possible. The parties agree to recognize individual seniority on the shift when there is a shortage of work within a cell where there are individual work stations.

(h) When a job consists of two or more operators, on the same shift, the employees involved on such job, shall equally rotate within the job unless otherwise mutually agreed upon.

(i) The Company and the Union, in certain situations, may have to establish working policies concerning work station rights.

(j) Movement of Employees on Different Shift Rotations

When there is a lack of work within a classification during the shift, employees will be given the option to available work in or out of the classification as follows:

1. Where no job ownership exists or the employees job ownership is not running, employees on a three-shift rotation will have the choice of jobs within their classification on jobs running on a three-shift rotation.
2. Similarly, employees working on a two-shift rotation will have a choice of jobs within their classification on jobs running on two-shift rotation.
3. Open work stations will not be defined as belonging to either shift and will be offered by seniority
4. Should an employee on a three shift rotation not have sufficient seniority to displace a three shift operator in his/her classification, then prior to leaving the classification, he/she may exercise his/her seniority over the junior employee on a two shift operation, seniority permitting. If that bump is into a group operation, the employee bumping in must accommodate the employees in that group for break periods. The same shall apply for an operator on a two-shift rotation bumping into a group on a three shift rotation.

Business leaves will only be considered for employees with at least 5 years seniority.**

The Company will make every effort to grant personal leaves of absence provided it is feasible, based on sufficient employees being available and production scheduling.

Any employee applying for a personal leave of absence will be informed whether it has been accepted or denied as soon as possible. The reasons for the denial will be explained on the Application for Personal Leave.

An employee returning to work from a business venture leave of absence shall have seniority rights only in the Bargaining Unit, except a Skilled Trades employee who will have seniority rights to his/her former classification.

#15 – Advance Payments Against Future E.I., Compensation and Insurance Carrier Disability Benefits

- 1.** The Company will advance **\$520.00** to an employee for each week that he/she is entitled to a E.I. or Insurance Carrier Disability Benefit payment, until he/she has received his/her initial E.I. or Insurance Carrier Benefit cheque, beginning with the second Friday following the last Company pay cheque. A partial advance will be paid on request, should the last Company pay-cheque not equal the amount of the advance.
- 2.** The Company will advance **\$520.00** per week to an employee who is claiming Workplace Safety & Insurance Board benefits. An eligible employee may receive an advance the week following receipt of his/her last pay cheque provided he/she submits the appropriate E.I. and Insurance Carrier Disability Benefit application forms and he/she applies in writing to the Personnel Department by Tuesday of that same week that he/she is requesting an advance. He/she will continue to receive an advance each week until the earlier of the employees return to work or the receipt of his/her initial E.I, Insurance Carrier or Workplace Safety & Insurance Board cheque.
- 3.** If after the employee has received his/her initial E.I., Insurance Carrier or Workplace Safety & Insurance Board cheque(s) he/she experiences a delay in receiving any subsequent E.I., Insurance Carrier or Workplace Safety & Insurance Board cheque(s) for a period of more than seven (7) days beyond the date such benefit is normally received and the delay is not due to his/her own negligence, the Company will advance **\$520.00** to the employee, on his/her request, for each week such delay continues, provided that each week for which the advance is given is a week for which the employee is entitled to receive a E.I., Insurance Carrier or Workers' Compensation benefit cheque.
- 4.** Repayment of E.I., Insurance Carrier or Workplace Safety & Insurance Board advances may be made by any one of the following:
 - (A)** Cash or personal cheque;
 - (B)** Sign over E.I., Insurance Carrier or Workplace Safety & Insurance Board cheque(s) to the Company.

When a decision has been received that the employee's claim is not eligible for E.I. or W.S.I.B. benefits, the insurance carrier will determine whether the employee is

eligible for Weekly Indemnity benefits. If the claim is determined to be eligible, the employee will continue to be eligible for benefits. If the claim is not eligible, benefits will cease immediately and the employee becomes responsible for repayment of any monies received.

If the advance is not repaid within two weeks of receipt of E.I., Insurance Carrier or Workplace Safety & Insurance Board cheque, or from the date of the notification which disqualified the employee from receiving benefits, the Company may deduct the outstanding amount from any monies owed to the employee including accrued vacation pay and/or up to a maximum of \$180.00 for each weeks wages or by any other means deemed necessary. In response to the concerns expressed, it was agreed to establish a committee, comprised of three (3) representatives from the Company and three (3) representatives from the Union.

The committee will decide on the frequency of meetings necessary.

The Company will ensure there are management personnel on the committee who are thoroughly conversant with technological plans.

Sufficient advance notice will be given on the contemplated changes in order for the committee to have adequate time for discussion regarding training plans for the necessary work force.

The New Technology Committee will review training needs and research training opportunities to meet identified needs through internal and external programs and/or training that may be delivered by internal trainers. The New Technology Committee's recommendations will be forwarded to management and to the Bargaining Committee for consideration.

#17 - Joint Anti-Harassment Policy

During the current negotiations, the parties discussed Human Rights issues in the workplace. The parties have committed to implementing the procedure for the benefit of Lear Corporation Canada Ltd. (Kitchener) employees in Kitchener. In addition, the parties agreed to outline the procedure within the context of this Appendix.

Lear Corporation Canada Ltd. (Kitchener) and the CAW and its local 1524 are committed to providing a harassment free workplace. Providing fair and equitable treatment for all employees is best achieved in an environment where all individuals interact with mutual respect for each other's rights.

The policy and procedure outlines the commitment of Lear Corporation Kitchener and the CAW and its Local 1524 to ensure a harassment free workplace as required under applicable Human Rights Legislation and will act as a guide to employees in adhering to legal and social guidelines regarding the recognition and prevention of harassment.

This policy exists to underline the seriousness of workplace harassment and to establish that there is no acceptable level of harassment at Lear Corporation Canada Ltd. (Kitchener) Employees who feel that they are being harassed are encouraged to seek protection under this policy.

WORKPLACE HARASSMENT DEFINED

- Refusing to work or share facilities with another employee because of the other's gender, disability, sexual orientation, racial, religious or ethnic background.
- Backlash or retaliation for the lodging of a complaint or participation in an investigation.

OBLIGATION OF EMPLOYEES

Employees are obligated to bring any complaint of harassment to the attention of the Human Rights representative for the company or the union as soon as possible. If the company / union is not made aware of any issues of harassment, they may be unable to address such issues.

WHAT HARASSMENT IS NOT

Properly discharged supervisory responsibilities including disciplinary action, or conduct that does not interfere with a climate of understanding and respect for the dignity and worth of Lear Corporation Ltd. employees are not considered harassment. Neither is this policy meant to inhibit free speech or interfere with the normal social relations that are a part of life in Lear Corporation Canada Ltd. (Kitchener)

If an employee believes that he/she has been harassed on the basis of any of the grounds stated above, that employee should:

- Tell the alleged harasser(s) to stop, if possible;
- Document the event(s), complete with the time, date, location, names of witnesses and details of each event, if possible.

- If the harassed employee does not feel able to approach the alleged harasser(s) directly, or if, after being told to stop, the alleged harasser continues, the harassed employee should:
- Lodge a complaint either directly through a person on his/her behalf with any company or union representative.

INVESTIGATION

In minor cases, the company and union agree that the union and the company may try to resolve a harassment complaint informally using the Internal Procedure without a full investigation when so requested by the complainant. All cases of harassment will be handled by the Human Rights representative for the union or the company. The outcome of this attempted resolution will be communicated to both the union and the company. If the complainant disagrees with the attempted resolution, or if the complaint involves more than minor issues there will be a joint investigation of the complaint according to established methods. Once informed of a complaint requiring joint investigation, the Human Rights representative will immediately inform his/her counterpart and together these two will conduct a thorough joint investigation according to established methods. Where the complainant is a woman and the complaint involves sexual harassment or gender discrimination, the joint investigation team will include at least one woman.

The joint investigation will include an interview of the complainant and may include interviewing the alleged harasser, witnesses and other persons named in the complaint. It is the intention of the union and the company that, in most cases, the investigation will take place within five (5) days and shall be concluded fifteen (15) days of the lodging of the complaint. An extension to the time limits may be granted by mutual agreements.

The interview timing and location will recognize the need to maintain confidentiality. The identity of the complainant, the alleged harasser(s), and the nature of the complaint will be kept confidential and only persons with a need to know will be informed of the complaint. Records of the investigation, including interviews, evidence and recommendations will be securely maintained in the offices of the Company Human Rights representative and the Union Human Rights representative.

RESOLUTION

Upon completion of their joint investigation, the investigators will present their report to the Manager of Human Resources and unit chairperson. The company agrees that 10 days after receiving the joint investigation report, the harassment complaint will be resolved.

Violation of this policy may lead to discipline up to including termination.

The purpose of this Policy and Procedure is to allow the CAW and Lear Corporation Canada Ltd. the opportunity to address and resolve internal problems related to the objective of achieving a harassment free workplace. This Policy and

Procedure in no way precludes the complainant's right to seek action under the applicable Human Rights legislation.

The parties also agree to communicate this information about the Procedure to the workforce through local union newsletters, bulletin board notices and company publications.

VIOLENCE AGAINST WOMEN

During the current negotiations the parties discussed the concern that women sometimes face the situations of violence or abuse in their personal life that may affect their attendance or performance at work. The parties agree that when there is adequate verification from a recognized professional (i.e. doctor, lawyer, professional counselor), a woman who is in an abusive or violent personal situation will not be subjected to discipline without giving full consideration to the facts in the case of each individual and the circumstances surrounding the incident otherwise supportive of discipline. This statement of intent is subject to a standard of good faith on the part of the Company, the Union and affected employees, and will not be utilized by the Union or employees to subvert the application of otherwise appropriate disciplinary measures.

WOMEN'S ADVOCATE

As a result of discussions during the current negotiations, the parties recognize that female employees may sometimes need to discuss with another woman matters such as violence or abuse at home, workplace harassment or other such personal issues. They may also need to find out about specialized resources in the community such as counselors or women's shelters to assist them in dealing with these and other issues.

For this reason the parties agree to recognize the role of women's advocate in the work place. The trained, appointed female advocate representative will meet with female members as required, discuss problems with them and refer them to the appropriate community agency when necessary.

The Woman's Advocate representative will participate in an annual training program. The Company will be responsible for wages. The Union will be responsible for per diem expenses.

A minute of silence will be observed in memory of women who have died due to acts of violence. The moment of silence will be observed each year

on December 6 at 11 am. Should December 6 fall on a non-production day, the moment of silence will be observed on a day mutually agreed upon with the intent of having the least impact on plant operations. Flags will be flown at half staff to mark this occasion.

#18 - New Program Launch

In order to stabilize our work force and optimize our success on new product launches, the parties agree to the following procedure:

- The Company and Union will agree on the placement of any new product to a separate department and will simultaneously agree to attach this temporary department (launch department) to an existing department for the purpose of job posting, overtime and indirect support during the start up period
- The Company will post the required positions for the launch department to employees in the 'attached' department first and then in accordance with Article 9.08.
- To expedite the training of employees in the launch department, the Company may permit eligible employees posting into this launch department to complete their trial period and then be returned to their home department pending the ramp up of production. This will enable the Company to pre-qualify the required number of employees in advance.
- Employees accepted on this job posting will not be permitted to post to another area for a period of 6 months from the date of their full time transfer into the launch department unless mutually agreed otherwise
- Overtime will be distributed to those employees who are within the launch department first. If additional employees are required, the Company will distribute this overtime in accordance with Article 11.10 to the 'attached' department.

Upon conclusion of the launch, the parties will determine whether the launch department will be combined with the attached department or whether this newly created department will remain as a separate department.

#19 – Labour Standards

It is the objective of the Company to establish and maintain fair and equitable labour standards for all manufacturing operations. Total reliance on the stop watch for work measurement makes it difficult to achieve this objective. Also, in order that the Company can be assured that the output of new tools and equipment will satisfy customer delivery and cost requirements, determining labour standards before installation has become essential.

To support the above objectives and needs, the Company and Union agree to co-operate to establish the use of predetermined time standards. To facilitate this change a Union/Management implementation team will be formed, comprised of the Union Time Study Representative, (2) Union Representatives to be selected by the Union, one (1) non-incentive employee, one (1) Production Supervisor and one (1) member of the Industrial Engineering Department.

The goal of this program is to adopt the use of a mutually agreed upon system of predetermining time standards on all new operations when practicable.

The Company agrees to assume the cost of all orientation and training costs associated with the transition.

#20 – Repayment of Unemployment Insurance Disability Insurance Benefits

An employee that received an Unemployment Insurance Disability Benefit, and such employee is required to repay a portion of such benefit to Revenue Canada.

The Company agrees to reimburse the employee the portion that had to be repaid after taxable income is recalculated and known to the Company.

#21 - Employees on a Modified Work Plan

It is agreed that the Company may utilize employees who are on a modified work plan on jobs within the bargaining unit. Their restrictions will be on file in the medical centre and will be accessible to authorized personnel only and will be confidential. When utilizing employees under this letter, the parties agree that there will be meaningful discussion between the Company and Union. The parties agree employees will be placed only on open jobs other than jobs outlined in 9.07 (i) unless their seniority permits.

#22 – Mig Welder Training

The Company and the Union have mutually agreed to establish a MIG Welder Training Program. Employees successfully completing such training will be given preference on MIG welder openings over other employees except for other qualified MIG welders.

Openings for such training shall be filled by a combined departmental posting in those departments which employ MIG welders. The remaining positions, if any, will be filled by a Bargaining Unit posting.

The posting must indicate that successful trainees will receive preference for future MIG postings.

Future MIG vacancies will be filled through the normal job posting procedure. The departmental posting will be restricted to qualified MIG welders.

Any employee trained under a program implemented by the Company prior to October 28, 1987 will not be given preference on MIG welder openings until the Company implements a new training program.

#23 – Sub-Contracting Skilled

The following procedure will be applied whenever the Company contemplates subcontracting work normally and historically performed by skilled trades employees:

- 1. Prior to any job being subcontracted out, the Company will determine the general nature and scope of the work that is being contemplated as well as the estimated trades and workforce involved, the approximate dates within which the work is to be performed and why the service of outside contractors is being contemplated at such time**
- 2. The Company will provide the Union with a copy of the bid(s) presented from outside contractors which detail the requirements for such work. This may include the number of hours per trade required and the timing that such work is to be complete.**
- 3. The Union will then have the opportunity to propose alternatives that demonstrate their ability to accomplish this work within the time limits prescribed while maintaining the normal maintenance requirements of the plant. Any alternative proposed must include a detailed plan to complete the work competitively and within the time limits and may not obligate the Company to increase their supervisory workload to accomplish this work.**
- 4. In the event that the Union has proposed an acceptable alternative to perform the work in-house and the Company elects to sub-contract this work regardless, the Company will be obligated to offer an amount of**

- overtime hours equal to that of the hours being subcontracted to the affected skilled trades classification.**
- 5. If the Skilled Trades Representative takes on too much work and the work cannot be completed as per the agreement, then the Company may outsource such remaining work.**
 - 6. Available hours can be a maximum of 12 hours per day, seven days a week.**

In the event that the normal maintenance requirements to maintain the plant increases during a period where work was retained inside vs. outsourced, the work that cannot be completed within the agreed upon time frame will be re-evaluated by the parties in accordance with this letter.

#24 – Emergency Release Program

1. An emergency release program will be in place within one (1) year of signing the agreement. This will include, at the Company's expense:

- (i) Training to all maintenance personnel to be able to fully participate in any emergency.
- (ii) A proper signaling system throughout the plant, audible to everyone in the plant.
- (iii) A proper tool cart containing all necessary equipment to perform the duties of the response team.
- (iv) Have an annual drill simulated as realistic as possible involving all members of the response team. The exercise will be observed and evaluated by all members of the Joint Health, Safety and Environment Committee.

- (vi) The Joint Health, Safety and Environment Committee will be involved in the emergency release program.

#25 - Containers

The Company will buy new containers or keep all present containers in good repair at all times. The Company will make every effort to ensure that the vendors understand the problems attendant with crates and co-operate in taking corrective action.

#26 – Consolidation of Department and Classifications

During the course of negotiations, the Company discussed with the Union the consolidation of departments, the deletion of redundant classifications, and the combining of classifications.

The Company agrees that when contemplating such actions the Union will be notified and the matter discussed prior to such move. Consideration will be given to

Union recommendations in facilitating such moves to minimize the impact or and disruption affecting employees.

#27 – Drug Testing

During the 1990 negotiations, the Company and the Union had comprehensive discussions regarding the issue of employee substance abuse. In this regard, the parties agreed that the consumption of certain drugs and/or alcohol may impair an employee's health and endanger his/her safety, or that of fellow employees and the public at large. As worker health and safety are of paramount concern to the Company and the Union, the parties are committed to improving the well-being of employees and maintaining a safe workplace through the effective implementation of the Employee Assistance and Substance Abuse Program.

During these negotiations, the parties also discussed at length the issue of mandatory drug and alcohol testing the workplace. In recent years, this issue has been the subject of considerable public debate and a number of legal cases in various jurisdictions. The parties agreed that the debate and case law in this area is still evolving and it is yet unclear whether such testing will be unconditionally supported by the courts.

Some governments have also introduced mandatory drug and alcohol testing laws for specific job functions. These laws recognize the concerns of a number of these legislators regarding the adverse effects of substance abuse on families, the workplace and the general public.

The parties acknowledged that as a public gains a broader understanding of the costs and dangers associated with substance abuse, other governments may also introduce such laws and apply them more broadly.

Prior to any introduction of such legislation in Canada, the Company will not introduce drug testing into the workplace.

#28 – Skilled Trades Employment Levels

Effective January 1, 2005, the Company agrees to maintain 10% of the total active plant population in skilled trades classifications. This percentage will be reduced by .2% for each skilled trades employee who retires thereafter until the earlier of a 1% reduction or January 1, 2006. Thereafter, the Company agrees to maintain 9% of the total active plant population in skilled trades classifications.

#29 – Tool Room Equipment

The Company will maintain in good repair the tools and equipment necessary to support the need and operation of the tool room.

#30 – Arbitration Commissioner Style

As an alternative to the regular arbitration procedure the parties shall have the option of mutually agreeing to refer a grievance to a grievance commissioner in the following manner:

The Company and the Union will meet to determine a person to act as an arbitrator, and he/she shall be known as a grievance commissioner.

The purpose of the grievance commissioner will be to settle grievances which the Company and the Union desire to be settled in a expeditious, effective, and summary manner. The Company and the Union will meet to determine which grievances shall be dealt with in this alternative method to arbitration and the facts of each individual grievance shall be agreed upon prior to the hearing(s).

The grievance commissioner's decision shall not constitute a precedent for present or future cases.

The commissioner's decision shall be consistent with the provisions of the agreement, and shall be confined to the grievance referred to him/her.

The Company and the Union shall equally share the expenses of such arbitrator(s) in accordance with the Collective Agreement.

The Company and the Union will each present their own case, using only the predetermined facts which were mutually agreed upon between the parties, otherwise the grievance(s) will be set aside to a future date.

The grievance commissioner shall render a decision based on the above facts presented by the parties. Such decision can be given at the time of the hearing, but no later than seven (7) days after the conclusion of the hearing. Either party can request a written decision, along with a brief explanation for such decision.

#31 - Lates

It is agreed that employees who are habitually late for work will be disciplined as follows:

Tenth Occurrence	-	Verbal Warning
Eleventh Occurrence	-	Written Warning
Twelfth Occurrence	-	Final Warning

Thirteenth Occurrence	-	Suspension
Fourteenth Occurrence	-	Discharge

It is agreed that all lateness violations will remain in effect for a period of not more than twelve (12) months from the date of such warning or suspension. It is further agreed that once a warning or suspension has expired that all related offenses will be reduced in status accordingly.

The Company will provide four (4) copies of a list including all employees with five (5) lates or more. This list will be updated and issued to the plant committee weekly.

#32 – Layoff and Recall – Combined Class

The Company and Union agree that job classifications 100, 110 will be combined for all purposes of layoff and recall except for clause 9.21.

#33 – Off Site Assignments

When selecting employees for off-site assignments where it is unknown or unlikely that overtime will be required, employees will be selected by seniority from the affected classification first then from the classification of the Company's choosing provided they are able to satisfactorily perform the work to be done. If it is known that overtime will be required, the Company agrees to use clause 11.10 provided the employee(s) are able to satisfactorily perform the work to be done. Employees will be paid 200% for any off-site assignment work.

The Company reserves the right to disqualify employees for offsite assignments after meaningful discussion with the union.

#34 - Shift Start-up Procedure

During negotiations the parties agreed to implement a shift start-up procedure similar to that currently used in department 31. This letter is intended to outline the guidelines for applying this type of procedure to the welding departments. Employees who are not required to work on their job ownership or who maintain classification rights only will be assigned to work through a fair and reasonable daily rotation utilizing the following guidelines:

1. In a designated location, each department will post a list which identifies for the current day (Monday to Sunday) the jobs within each classification and the employee assigned, by badge number. This list will be available a minimum of 15 minutes prior to the start of each scheduled shift. The shift supervisor on the shift will be responsible for the assignments.
2. In the event of an absence, the company may reassign an employee(s) within the classification to fill the vacancy. This will also apply to vacancies created by an employee being transferred on a TWA in accordance with Article 9.07.

Any changes to the procedures of the program which have direct impact on hourly participants and the Union will first be discussed with the Union.

The Company agrees to provide and discuss a schedule of all Six Sigma projects with the Union.

#36 – Continuous Improvement/Kaizen

During negotiations, the Company and the Union discussed their continuing commitment to **Kaizen / Continuous Improvement** initiatives. These initiatives explore the principles, concepts, and applications of continuous improvement as it relates to our total business in such areas as customer satisfaction, quality, manufacturing processes, housekeeping, culture, costs and people. The Company and the Union recognize the need for continuous improvement to maximize all

facets of our business to meet the ever-increasing competitive business pressures and reach our objective of being a premier supplier.

The Company will select employees who are directly related to the specific **Continuous Improvement** objective, including the opposite shift employees when applicable, to participate in **these initiatives**. To facilitate **these** programs, the parties agree to modify the provisions of Article 11.10 in order to allow participants to work overtime **provided that this does not deprive any employee of bargaining unit work**.

In addition, improvements, which directly impact incentive standards will be recognized as per Article 14.07. The parties further acknowledge that participants will be recognized as an exception under Article 20.03. A Union Representative is entitled to participate in **Continuous Improvement** sessions. **The selection of Continuous Improvement** facilitator's may include but not be limited to local facilitators who will also have responsibility for ensuring continuity in the program

The challenges of the future and the success of this program is directly linked to a mutual cooperation and involvement of the parties in the program

2.01 Life and Accident Death and Dismemberment Insurance

a) The Company will enter into a contract of group life insurance with an Insurer or Insurers insuring each employee and pensioner as follows:

Active Employees	\$50,500.00	\$51,000.00
Retired Employees	\$6,000.00 (paid up)	

This insurance will take effect on the day the employee or pensioner first becomes eligible to participate, or if not actively at work at that time then on the day he/she returns to active work on full time and completes one day.

The insurance in respect of an employee automatically converts to a paid up policy in the amount specified above upon retiring. The insurance in respect of a pensioner shall automatically terminate upon the date he/she dies.

(b) If any employee, before attaining the age of 65 years or retiring and while insured hereunder, becomes totally disabled and presumably will thereafter during life be unable to engage in any occupation or employment for wage or profit, the Company will cause the Insurer upon proof thereof to the satisfaction of the Insurer to continue his/her life insurance in force during such time he/she remains totally disabled at the full amount thereof until his/her normal retirement date as defined in the Pension Plan and thereafter the amount of life insurance coverage will be reduced to **\$6,000.00** (paid up).

(c) The Company will enter into a contract of group insurance with an Insurer or Insurers insuring each employee for Accidental Death and Dismemberment Insurance in the amount of **\$36,000.00** effective January 1, **2005**, and **\$36,500.00 effective January 1, 2006**. Such insurance shall be payable in a lump sum in the event the death of an employee falls within three hundred and sixty-five days as the result of a bodily injury caused, directly and independently of all other causes, by external violent and accidental means. Such insurance shall likewise be payable in the event an employee suffers certain losses as are set forth below in the schedule of losses. If loss of life results from accidental bodily injuries caused solely by employment with the Company, and results solely from an accident in which the cause and result are

unexpected and definite as to time and place, the total amount payable shall be two (2) times the principles sum of Accidental Death and Dismemberment Insurance.

- d) The policy of a group life insurance shall provide that a person within 31 days after the later of:
- (a) the date of termination of his/her employment while insured, or
 - (b) the date of termination of his/her insurance if such insurance has been continued under 2.01 (d) of this Part:

shall have the privilege (herein called the Conversion Privilege), of obtaining, without medical examination, an individual policy of life insurance upon written application made to the Insurer and payment of the first premium therefor, within said 31 day period. The amount of such policy may not exceed the amount of life insurance in force under the group policy with respect to the life of such person upon the first date the privilege can be exercised: the policy may be on any of the Regular Life and Endowment Plans; premium shall be based upon the age of the person at the time of conversion for the Class of risk to which he/she belongs. During the 31 day conversion period, notwithstanding the termination of life insurance under the plan, the Insurer will maintain group life insurance in force with respect of the said person and if the Conversion Privilege is exercised the individual policy will take effect upon the expiration of the said 31 day period.

e) Optional Group Life Insurance

The company will, effective January 1, **2005**, enter into a contract of Optional Group Life Insurance with an Insurer or Insurers which will afford each seniority employee an opportunity to purchase additional Life Insurance for himself/herself and his/her dependents, provided however that 30 or more employees participate in the Plan.

Eligibility

Each seniority employee in active employment with the Company on the effective date of the plan will be eligible to participate, or if not at work on that day then on the first of the month following his/her return to active employment. Each new or re-hired employee will be eligible to participate on the first of the month following his/her attaining seniority under the Collective Agreement.

4.02 The Company may enter into a contract or contracts with an Insurer or Insurers to provide all or any of the benefits described herein, and such Insurer will be subject to all the provisions and limitations as set forth in this Insurance Plan. The Company may from time to time amend, terminate, reinstate, and/or substitute any such contract or contracts providing the said schedule of benefits is equal to the negotiated level of benefits.

4.03 Every employee, and retired employee shall, when required by the Company, complete any application or questionnaire relating to the number, sex and age of himself/herself and his/her dependents or for exemptions or the facts pertaining to a claim for benefit presented to him/her by an Insurer or the Company.

4.04 The Insurer shall issue or cause to be issued a certificate to each employee eligible for benefits which will describe the benefits and privileges provided hereunder by said Insurer.

The employee shall be deemed to accept all the benefits and privileges thus described and all the liabilities and obligations except the liability and obligation to pay the premium, fee, or other

regular charge of the Insurer except as otherwise provided and the other terms of this plan, including Part II.

- 4.05 The Company shall have the right, and an employee claiming payment for disability shall afford an opportunity for examination of the employee or his/her dependent by a physician appointed by it, when and as often as it may reasonably require while a claim for benefits is pending.

4.06 Disability Dispute Resolution Process

The Company and the Union wish to see weekly indemnity and long term disability claims processed in a fair and expedient manner. The following provisions will be implemented effective January 1, 1999.

(a) If a dispute shall arise pertaining to this Insurance Plan and such dispute does not involve a difference of opinion between two legally qualified physicians, the dispute shall be handled in the following manner:

(1) the employee, the Union and the Company shall review the matter;

(2) if agreement is not reached at such meeting, the Union may present a grievance commencing at Step III of the Grievance Procedure described in the Collective Agreement and such grievance shall be discussed within five (5) working days from the date the grievance was submitted to the Company; unless it is mutually agreed to extend the period.

(3) if the matter is not resolved at Step III of the Grievance Procedure, the arbitration provisions of the Collective Agreement may be invoked.

(b) If a dispute shall arise involving a difference of opinion between two legally qualified physicians, the dispute shall be handled in the following manner:

1) Notice of Denial or Suspension or while being processed or delayed, of Disability Benefits:

i) The Insurance Carrier will contact an employee's attending physician directly when requiring additional medical information to ensure there is no undue delay in processing claims.

ii) In the event the Company or Insurance Carrier wishes to challenge any claim which meets the basic criteria of being under the active and continuous care of a legally licensed physician and who is following the treatment prescribed by that physician, then it shall pay the claim pending sending the employee to a physician of their choosing.

iii) The Company or Insurance Carrier will provide an employee on disability leave with advance notice of intention to suspend benefits. No suspension of benefits will take place

provided the employee is continuing to be treated by a legally licensed physician until the procedure in (2) below has been followed.

iv) The Union's Benefits Representative will receive a copy of all correspondence related to any intended denial, or suspension.

(2) Dispute Resolution Process

Where there is a dispute between two (2) physicians on the ability of the employee to return to work, the dispute shall be handled in the following manner:

i) The employee shall continue on disability claim during the period of dispute to a maximum of four (4) weeks.

ii) The Company will instruct the carrier to provide the physicians with a physical demands analysis. The physicians will be asked to discuss the case by phone to see if there is agreement.

iii) If the physicians still disagree, the Union and the Company shall review the matter and refer to a predetermined examiner (i.e. general practitioner, specialist) for a third party independent medical examination (IME). The IME shall be binding.

iv) The Company will give the employee 72 hours advance written or verbal notice of the scheduled third-party examination.

c) Conditions in the Dispute Resolution Process

During the Dispute Resolution Process as described in Section (2) above, the following will apply:

i) The examination report (both verbal and written) will include a statement of "able to work", "not able to work" or "able to work with restrictions".

ii) The written notification of results to the employee determined to be "able to work" or "able to work with restrictions" will include instructions to report to the plant physician to inform him/her of the employee's status.

d) Termination of Disability Benefits

Where the employee has completed the Dispute Resolution Process as described above and it is determined that the employee is "able to return to work", disability benefits shall terminate as of the date of the examination or if later, the date the results are made available to the employee.

e) Modified Work

The availability of modified work will not be a factor in terminating an employee's disability claim. If the employee is able to return to work with restrictions but such work is not available or the employee does not have the seniority to qualify for the position, the employee will remain on disability.

f) Cost of Medical Note

Where the Company or the Insurance Carrier requires a medical note, including but not limited to a third party IME, the Company shall cover the cost of the note.

If the employee must travel more than 20 kilometers (one way) for a medical examination required by the Company or the carrier, the Company shall reimburse the employee at the rate of twenty-six cents (\$0.26) per kilometer.

- 4.07 The establishment of this plan shall not give any employee any additional right to be retained in the employment of the Company; and each employee shall remain subject to discipline, discharge or layoff to the same extent as if such plan had not been put into effect.
- 4.08 The plan is subject to such amendment from time to time as may be necessary to meet the requirements of any applicable federal or provincial laws, orders or regulations, and the relevant provisions of the Insurance Act of Ontario shall be deemed to apply except to the extent that such provisions may be waived or are superseded by the express provisions of this plan. Any changes pertaining to this sub-section will be discussed with the Union prior to implementation.
- 4.09 Payment of claims shall be made with due regard to the times and manner in which payments of claims of the types provided in this plan are customarily paid in Ontario. Any notice or payment directed to an employee shall be deemed to be properly delivered or tendered when mailed, postage prepaid, to the most recent address of the employee shown upon the records of the Company.
- 4.10 To assist the Insurer in the proper adjudication and processing of claims, the Company and/or the Insurer may establish claims control procedures. Such procedures will be meaningfully discussed with the Union prior to adoption.

PART V - TERM OF PLAN

- 5.01 The Company has entered into this plan on condition that the whole of the premiums, costs and expenses it incurs in fulfillment hereof shall be and shall continue to be allowed by government tax authorities as a proper deduction in computing income taxable under the provisions of The Income Tax Act or any other applicable tax laws now in effect or as hereafter amended or adopted. In the event the relevant government tax authorities refuse to allow such deduction or withdraw their approval of such deduction, this plan shall terminate on the effective date of such refusal or withdrawal or upon the expiration of thirty days after the Company shall first have been advised by such tax authorities of such refusal or withdrawal of approval, whichever is later. During such thirty day period, the parties will meet for the purpose of negotiating any modification

or changes required in order to obtain such approval of such tax authorities, provided, however, the Company during such thirty day period shall not be required to pay premiums, costs or expenses arising out of this plan which it is not entitled to deduct as an expense before taxes under the provisions of the Income Tax Act and any other applicable tax laws now in effect or hereafter amended or adopted, any payment of benefits shall be discontinued to a like extent.

- 5.02 If at any time hereafter a federal or provincial government passes legislation which directly or indirectly has the effect of providing benefits similar to one or more of the benefits described in the plan for which the employees as a class shall be eligible, or the benefits provided under the Ontario Health Insurance Commission for Ontario Health Insurance Plan coverage for residents of Ontario as published at the date hereof by changed, this plan shall automatically be revised for the purpose of integrating any federal or provincial government plan with this plan upon the expiration of thirty (30) days after the proclamation of such statute or change or on the date such statute or change comes into effect, whichever is later.

During such thirty day period or such longer period as may reasonably be required to carry out such integration, the Company will take such steps as may be necessary or desirable to terminate any duplication of benefits and to assure that the aggregate of the statutory benefits so provided and the benefits provided under the plan shall approximate in kind and money value the benefits provided under the plan before said statutory enactment or change providing this can be done without additional cost to the Company.

- 5.03 If at any time it shall be necessary or appropriate to make any revision of this plan pursuant to Section 5.01 of this Part, the Company may make such provisions retroactively or otherwise with the consent of the Union. The making of such revision shall be the subject of immediate negotiation between the Company and the Union. In such negotiations the Company and the Union shall recognize that the Collective Bargaining Agreement then in effect was executed in the expectation that the Insurance Plan, or one with substantially equivalent benefits, without additional cost to the Company, would be and remain in effect during the term of this plan and of any renewal thereof theretofore made.

- 5.04 This plan constitutes a full settlement of all demands of the Union for Life Insurance, Optional Group Life Insurance, Accidental Death and Dismemberment Insurance, Transition and Bridge Benefits, Semi-Private Hospital Care, Weekly Indemnity Benefits, Extended Disability Benefits, and Extended Health Care Benefits including a Drug Plan, Audio/Visual Care and Dental Plan, Legal Services Plan, and a Pay Continuance Benefit Plan, Supplemental Unemployment Benefit Plan and a Severance Pay Benefits Plan for the duration of this plan and during the term hereof or any renewal hereof.

- 5.05 Subject to the foregoing, this plan shall continue in full force and effect in respect of all benefits, at least until the 31st day of December, **2007**. If no notice be given as provided in the following paragraph, then this plan shall be extended from year to year thereafter. The last day of the original period or of any extended period being referred to as the termination date.

- 5.06 Either the Union or the Company may give to the other a written notice of its desire to modify or intention to terminate this plan at least sixty days prior to the termination date. In such event,

negotiations will commence forty-five days prior to the termination date unless otherwise mutually agreed. The termination of this plan shall not have the effect of automatically discontinuing the payment of benefits insofar as it affects the benefits payable with respect to disabilities which were suffered or incurred prior to the date of termination.

PART VI - LEGAL SERVICE PLAN

A Legal Service Plan to be jointly administered as part of the existing C.A.W. legal service plan in effect with General Motors of Canada and funded at the rate of \$0.09 per straight time hour worked effective January 1, 1991.

PART VII PROVISION FOR COORDINATION OF BENEFITS UNDER THIS POLICY WITH OTHER BENEFITS

7.01 (a) Benefits Subject to this Provision:

All of the benefits provided under this Appendix "A" are subject to this provision.

(b) Definitions:

(1) "Plan" means any plan providing benefits or services for or by reason of medical or dental care or treatment, which benefits or services are provided by (i) group insurance or any other arrangement of coverage for individuals in a group whether on an insured or uninsured basis, or (ii) hospital service or hospital expense indemnity organizations, medical service or medical expense indemnity organizations, medical service or medical expense indemnity organizations or any other pre-payment coverage, or (iii) any coverage for students which is sponsored by, or provided through, a school or other educational institution.

The term "Plan" shall be construed separately with respect to each policy, contract or other arrangement for benefits or services and separately with respect to that portion of any such policy, contract, or other arrangement which reserves the right to take the benefits or services of other plans into consideration in determining its benefits and that portion which does not.

(2) "This Plan" means those portions of this policy which provides the benefits that are subject to this provision.

(3) "Allowable Expense" means any necessary, reasonable, and customary item of expense at least a portion of which is covered under at least one of the plans covering the person for whom claim is made.

When a plan provides benefits in the form of services rather than cash payments, the reasonable cash value of each service rendered shall be deemed to be both an allowable expense and a benefit paid.

(4) "Claim Determination Period" means calendar year, but if a person is not eligible for benefits under this plan during all of a calendar year, then the Claim Determination Period for such person as to that year shall be the total period thereof during which he/she was eligible for benefits.

(c) Effect on Benefits:

(1) This provision shall apply in determining the benefits as to a person covered under this plan for any Claim Determination Period if, for the allowable expenses incurred as to such person during such Claim Determination Period, the sum of

(i) the benefits that would be payable under this plan in the absence of this provision, and

(ii) the benefits that would be payable under all other plans in the absence therein of provisions of similar purpose to this provision, would exceed such allowable expenses.

(2) As to any Claim Determination Period with respect to which this provision is applicable, the benefits that would be payable under this plan in the absence of this provision for the allowable expense incurred as to such person during such Claim Determination Period shall be reduced to the extent necessary so that the sum of such reduced benefits and all the benefits payable for such allowable expenses under all other plans, except as provided in Item (3) of this Section C, shall not exceed the total of such allowable expenses. Benefits payable under another plan include the benefits that would have been payable had claim been duly made therefore.

(3) if -

(i) another plan which is involved in Item (2) of this Section C and which contains a provision coordinating its benefits with those of this plan would, according to its rules, determine its benefits after the benefits of the plan have been determined, and:

(ii) the rules set forth in Item (4) of this Section C would require this plan to determine its benefits before such other plan, then the benefits of such other plan will be ignored for the purposes of determining the benefits under this plan.

(4) For the purpose of Item (3) of this Section C, the rules establishing the order of benefit determination are:

(i) a plan which covers a person other than as a dependent is deemed to pay its benefits before a plan which covers such person as a dependent;

(ii) a plan which covers a person as a dependent of an insured employee with the earlier day and month of birth in the calendar year is deemed to pay its benefits before a plan which covers that person as a dependent of an insured person with the later day and month of birth:

(iii) when rules (i) and (ii) do not establish an order of benefit determination, the benefits of a plan which has covered the person on whose expenses claim is based for the longer period of time shall be determined before the benefits of a plan which has covered such person the shorter period of time.

(5) When this provision operates to reduce the total amount of benefits otherwise payable as to a person covered under this plan during any Claim Determination period, each benefit that would be payable in the absence of this provision shall be reduced proportionately, and such reduced amount shall be charged against any applicable benefit limit of this plan.

d) Right to Receive and Release Necessary Information

For the purposes of determining the applicability of and implementing the terms of this provision of this plan or any provision of similar purpose of any other plan, the insurance company may, without the consent of or notice to any person, release to or obtain from any other insurance company or other organization or person, any information with respect to any person which the insurance company deems to be necessary for such purpose. Any person claiming benefits under this plan shall furnish to the insurance company such information as may be necessary to implement this provision.

e) Facility of Payment

Whenever payments which should have been made under this plan in accordance with this provision have been made under any other plans, the insurance company shall have the right, exercisable alone and in its sole discretion, to pay over to any organization making such payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision, and amounts so paid shall be deemed to be benefits paid under the plan and, to the extent of such payments, the insurance company shall be fully discharged from liability under this plan.

f) Right of Recovery

Whenever payments have been made by the insurance company with respect to allowable expenses in a total amount which is, at any time, in excess of the maximum amount of payment necessary at that time to satisfy the intent of this provision, the insurance company shall have the right to recover such payments, to the extent of such excess, from among one or more of the following, as the insurance company shall determine; any persons to or for or with respect to whom such payments were made, any other insurance companies, any other organizations.

KITCHENER PLANT

hereinafter called the "Company"

- and -

NATIONAL AUTOMOBILE, AEROSPACE,
TRANSPORTATION AND GENERAL
WORKERS
OF CANADA (CAW) AND ITS LOCAL UNION
NO. 1524,

hereinafter collectively called the "Union".

WITNESSETH:

The parties hereto agree as follows:

PART A

1.01 Continuation and Amendment of the Plan

(a) This Agreement covering the Supplemental Unemployment Benefit Plan attached as Part B, the Automatic Short Week Benefit Plan attached as Part C, and the Insured Supplemental Unemployment Disability Benefit Plan attached as Part D, hereinafter referred to as the Supplemental Unemployment

Benefit Plan, the Automatic Short Week Benefit Plan, and the Insured Supplemental Unemployment Disability Plan, shall become effective on January 1, **2005**.

(b) The Company shall maintain the Plans for the duration of this Agreement, except as otherwise provided in, and subject to the terms of, the Plans.

(c) The fiscal year of the Plans and of the Fund shall be the calendar year ending on the 31st day of December in each year.

1.02 Termination of the Supplemental Unemployment Benefit Plan Prior to Expiration Date.

In the event that the Plan shall be terminated in accordance with its terms prior to the expiration date of this Agreement the monies in the fund shall be used for payments and administrative costs associated with the plan. If any monies remain they will revert to the Company and be utilized in a manner acceptable to the parties.

In the event that the Plan shall be terminated in accordance with its terms prior to the expiration date of this Agreement so that the Company's obligation to contribute to the Plan shall cease entirely, the parties thereupon shall negotiate for a period of 60 days from the date of such termination with respect to the use which shall be made of the money which the Company otherwise would be obligated to contribute under the Plan. If no agreement with respect thereto shall be reached at the end of such period, there shall be a general wage increase of \$.28 per hour if the Plan is terminated in **2005** or after, to all hourly rated employees then in the Bargaining Units for which the Union is the exclusive bargaining agent.

1.03 Obligations During Term of This Agreement

(a) During the term of this Agreement, neither the Company nor the Union shall request any change in, deletion from or addition to the Supplemental Unemployment Benefit Plan, the Automatic Short Week Benefit Plan, the Insured Supplemental Unemployment Disability Benefit Plan or this Agreement, or be required to bargain with respect to any provision or interpretation of such Plans or this Agreement; and during such period no change in, deletion from or addition to any provision, or interpretation, of such Plans or this Agreement nor any dispute or difference arising in any negotiations pursuant to Section 1.02 of this Agreement shall be an objective of, or a reason or cause for, any action or failure to act, including, without limitation, any strike, slowdown, work stoppage, lockout, picketing or other exercise of economic force, or threat thereof, by the Union or the Company.

(b) Upon the Plans becoming effective all employees will be advised promptly in writing of the terms of the Plans and all persons who later become employees will be advised promptly in writing of the terms of the Plans. All employees will be advised periodically of their contingently accrued credits or will be given access to such information on request.

1.04 Term of Agreement; Notice to Modify or Terminate

This Agreement and the Plans shall continue in effect until December 31, **2007**. They shall be renewed automatically for successive 1 year periods thereafter unless either party shall give written notice to the

other at least 2 months prior to December 31, **2007** (or any subsequent anniversary date) of its desire to amend or modify this Agreement and the Plans as of one of the dates specified in this section (it being understood, however, that the foregoing provision for automatic 1 year renewal periods shall not be construed as an endorsement by either party of the proposition that 1 year is a suitable term for such an agreement). If such notice is given, this Agreement and the Plans shall be open to modification or amendment on December 31, **2007**, or the subsequent anniversary date, as the case may be. If either party shall desire to terminate this Agreement, it may do so on December 31, **2007**, or any subsequent anniversary date by giving written notice to the other party at least 2 months prior to the date involved. Anything herein which might be construed to the contrary notwithstanding, however, it is understood that termination of this Agreement shall not have the effect of automatically terminating the Plans.

Any notice under this Agreement shall be in writing and shall be sufficient, if to the Union, if sent by mail addressed to the President of the National Automobile, Aerospace and General Workers of Canada (CAW), 205 Placer Court, North York, Ontario, or to such other address as the Union shall furnish to the Company in writing; and if to the Company, to the Manager of Industrial Relations, Lear Canada, Kitchener Plant, 530 Manitou Drive, Kitchener, Ontario, or to such other address as the Company shall furnish to the Union in writing.

1.05 Governmental Rulings

(a) The Plans shall not be effective prior to receipt by the Company of rulings from Canadian governmental authorities or legislative amendments permitting supplementation as defined in the Plans and prior to receipt by the Company from the appropriate governmental authorities of a ruling, satisfactory to the Company, holding that the Plans are acceptable as a Supplemental Unemployment Benefit Plan under the provisions of government legislation.

(b) The Company shall apply promptly for the rulings described in Section 1.05 (a).

(c) Notwithstanding any other provision of this Agreement or of the Plans, the Company, with the consent of the Union, may, during the terms of this Agreement, make revisions in the Plans not inconsistent with the purposes, structures, and basic provisions thereof which shall be necessary to obtain or maintain any of the rulings referred to in Section 1.05 (a) of this Agreement or in Section 7.02 of the Supplemental Unemployment Benefit Plan. Any such revisions shall adhere as closely as possible to the language and intent of the provisions outlined in the Plans.

1.06 Miscellaneous

Notwithstanding the provisions of the Supplemental Unemployment Benefit Plan, the provisions of Article 4, Application and Determination of Eligibility for Regular Benefits and Appeal Procedures, and Article 5, Administration of the Plan, shall, to the extent practicable, be equally applicable under the Automatic Short Week Benefit Plan, and the Insured Supplemental Disability Benefit Plan.

1.07 This Agreement shall become operative on January 1, **2005**.

In witness whereof, this Agreement is executed on behalf of each party by its duly authorized representatives on the date first appearing above.

PART B

SUPPLEMENTAL UNEMPLOYMENT BENEFIT PLAN

ARTICLE 1

ELIGIBILITY FOR BENEFITS

1.01 Eligibility for a Regular Benefit

An employee shall be eligible for a Regular Benefit for any week beginning on or after January 1, **2005**, if with respect to such week he/she:

- (a) was on a qualifying layoff, as described in Section 1.02, for all or part of the week;
or
- (b) received an Employment Insurance Benefit; or was ineligible for an Employment Insurance Benefit only for one or more of the following reasons:
 - (i) the employee did not have prior to layoff a sufficient period of employment or sufficient earnings, covered by Employment Insurance;
 - (ii) exhaustion of his/her Employment Insurance Benefits rights;
 - (iii) the week was an Employment Insurance "waiting period" immediately following a week for which he/she received an Employment Insurance Benefit or occurring within less than 52 weeks since his/her last Employment Insurance "waiting period";
 - (iv) he/she was serving an Employment Insurance "waiting period" while temporarily laid off out of line of seniority pending an adjustment of work force in accordance with the terms of the Collective Agreement; provided, however, that this Section 1.01 (b) (iv) shall not apply to model change, plant rearrangement or inventory layoffs;
 - (v) he/she was serving the second week of an Employment Insurance "waiting period", except as expressly covered in 1.01 (b) (iii) above;
- (c) has met any registration and reporting requirements of an employment office of the Employment Insurance Commission;
- (d) had to his/her credit a Credit Unit or fraction thereof;

- (e) did not receive an unemployment benefit under any contract or program of another employer (and was not eligible for such benefit under a contract or program of another employer with whom he/she had greater seniority than with the Company);
- (f) was not eligible for an Automatic Short Week Benefit;
- (g) qualified for a Regular Benefit of at least \$2.00; and
- (h) has made a Regular Benefit application in accordance with procedures established by the Company hereunder and, if he/she was ineligible for an Employment Insurance Benefit only for the reason set forth in Section 1.01 (b) (ii), is able to work, is available for work, and has not failed; (i) to maintain an active registration for work with the government employment service; (ii) to do what a reasonable person would do to obtain work, and (iii) to apply for or to accept available suitable work of which he/she has been notified by the government employment service or by the Company.

1.02 Conditions with Respect to Layoff

- (a) A layoff for purposes of the Plan includes any layoff resulting from a reduction in the work force or temporary layoff or model change layoff, including a layoff resulting from the discontinuance of a plant or an operation, and any layoff occurring or continuing because the employee was unable to do the work offered by the Company although able to perform other work in the plant to which he/she would have been entitled if he/she had sufficient seniority.
- (b) An employee's layoff for all or part of any week shall be deemed qualifying for Plan purposes only if:
 - (i) such layoff was from the Bargaining Unit;
 - (ii) such layoff was not for disciplinary reasons, and was not a consequence of:
 - (1) any strike, slowdown, work stoppage, picketing (whether or not by employees), or concerted action, at a Company plant or plants, or any disputes of any kind involving employees, whether at a Company plant or plants or elsewhere.
 - (2) any fault attributable to the employee,
 - (3) any war or hostile act of a foreign power (but not government regulations or controls connected therewith),
 - (4) sabotage or insurrection, or
 - (5) any act of God; provided, however, that this Section 1.02 (b) (ii) (5) shall not apply to the first 2 weeks of layoff resulting from such cause;

(iii) with respect to such week the employee did not refuse to accept work offered by the Company which he/she had no option to refuse under the provisions of the Collective Agreement;

(iv) with respect to such week the employee was not eligible for, and was not claiming:

(1) any statutory or Company accident or sickness or any other disability benefit (except a benefit which he/she received or could have received while working full time), or

(2) any Company pension or retirement benefit; and

(v) with respect to such week the employee was not in military service or on a military leave.

(c) If an employee is ineligible for a benefit by reason of Section 1.02 (b) (ii) or Section 1.02 (b) (iii) with respect to some but not all of his/her regular work days in a week, and is otherwise eligible for a benefit, he/she shall be entitled to a reduced benefit payment as provided in Section 2.01 (b).

1.03 Appeal From Denial of Employment Insurance Benefit

(a) With respect to any week for which an employee has applied for a benefit and for which he/she has been denied an Employment Insurance Benefit, and the denial is being protested by the employee through the procedure provided therefor under Employment Insurance, and the employee is eligible to receive a benefit under the Plan except for such denial, the payment of such benefit shall be suspended until such dispute shall have been determined.

(b) If the dispute shall be finally determined in favour of the employee, the benefit shall be paid to him/her if he/she had not exhausted Credit Units subsequent to the week to which the Employment Insurance Benefit in dispute is applicable.

1.04 An employee shall have no vested right to benefits under this plan except if all eligibility conditions are met.

ARTICLE 2

AMOUNT OF REGULAR BENEFITS

2.01 Regular Benefits

(a) The Regular Benefit payable to an eligible employee for any week beginning on or after January 1, **2005**, shall be the lesser of:

(i) an amount which, when added to his/her Employment Insurance Benefit and Other Compensation, will equal 75% of his/her weekly straight-time pay, or

(ii) \$125.00 for layoffs occurring on or after January 1, **2005**. For layoffs occurring on or after January 1, **2005** for any week with respect to which the employee is not receiving an Employment Insurance Benefit because of a reason listed in 1.01 (b), the benefit will be \$200.00.

- (b) An otherwise eligible employee entitled to a benefit reduced because of ineligibility with respect to part of the week, as provided in Section 1.02 (c) (reason for layoff or eligibility for a disability, pension or retirement benefit), will receive 1/5 of a Regular Benefit computed under Section 2.01 (a) for each work day of the week for which he/she is otherwise eligible, provided however, that there shall be excluded from such computation any pay which could have been earned for hours made available by the Company but not worked on days for which he/she is not eligible for a benefit under Section 1.02 (c).
- (c) Notwithstanding the provisions in this section 2.01, in order to maintain governmental approval, the combined weekly level of Employment Insurance Benefits, Supplemental Unemployment Benefits and other earnings will not exceed 95 percent of the employee's normal weekly earnings.

2.02 Employment Insurance Benefit and Other Compensation

- (a) An employee's Employment Insurance Benefit and Other Compensation for a week means:

(i) the amount of Employment Insurance Benefit received or receivable by the employee for such week; plus

(ii) all pay received or receivable by the employee from the Company (including holiday payment except as provided in Section 2.02 (a) (v) and, the amount of any pay which could have been earned, computed, as if payable, for hours made available by the Company but not worked after reasonable notice has been given to the employee, for such week; provided, however, that if the hours made available but not worked are hours which the employee had an option to refuse under the Collective Agreement, such hours shall not be considered as hours made available by the Company; and provided, further, that if wages or remuneration are received or receivable by the employee from employers other than the Company and are applicable to the same period as hours made available by the Company but not worked, only the greater of, (a) such wages or remuneration from other employers in excess of the amount disregarded as earnings by the Employment Insurance Commission, or (b) any amount of pay which could have been earned, computed, as if payable, for hours made available by the Company but not worked, shall be included; and provided further, that any pay received or receivable by the employee for a shift which extended through midnight shall be allocated;

- (1) to the day on which the shift started if he/she was on layoff with respect to the corresponding shift on the following day,

(2) to the day on which the shift ended if he/she was on layoff with respect to the corresponding shift on the preceding day, or

(3) according to the pay for the hours worked each day, if he/she was on layoff with respect to the corresponding shifts on both the preceding and the following days;

and in such event, the maximum Regular Benefit amount shall be modified to any extent necessary so that the employee's Regular Benefit will be increased to offset any reduction in his/her Employment Insurance Benefit which may have resulted solely from the Employment Insurance Commission's allocation of his/her earnings for such a shift otherwise than as prescribed in this proviso; plus

(iii) all earnings, as defined under the Employment Insurance Act, received or receivable from other employers in excess of the amount disregarded as earnings by the Employment Insurance Commission for such week excluding such wages or remuneration which were considered in the calculation under Section 2.02 (a) (ii); plus

(iv) the amount of all other benefits in the nature of compensation or benefits for unemployment, received or receivable under any municipal, provincial or federal laws for such weeks; plus

(v) vacation pay received or receivable under the provisions of Article 13 of the Collective Agreement, of which an amount equal to 40 hours of such vacation pay, or such lesser amount as may be received or receivable, shall be considered compensation applicable to the first week of Company designated vacation; the second 40 hours of such vacation pay, or such lesser amount as may be received or receivable, shall be considered compensation applicable to the second week of Company designated vacation, the third 40 hours of such vacation pay, or such lesser amount as may be received or receivable, shall be considered compensation applicable to the third week of Company designated vacation; and vacation pay for any other scheduled vacation shall be considered compensation applicable to the week during which such vacation is taken.

However, where an employee has applied for and received vacation time under the provision of Article 13.08 of the Collective Agreement, an amount equal to 40 hours of such vacation pay shall be considered compensation applicable to each week of vacation granted under Article 13.08 of the Collective Agreement and any remaining vacation pay will be allocated according to the normal provisions of this Section 2.02 (a) (v).

- (b) If the Employment Insurance Benefit received by an employee for an Employment Insurance week shall be for less, or more than a full Employment Insurance week (for reasons other than his/her receipt of wages or remuneration for such Employment Insurance week):

- (i) because he/she has been disqualified or otherwise determined ineligible for a portion of his/her Employment Insurance Benefit for reasons other than those set forth in Section 1.01 (b), or
- (ii) because the Employment Insurance week for which the benefit is paid includes a portion of the Employment Insurance "waiting period", or
- (iii) because of an underpayment or overpayment of a previous Employment Insurance Benefit,

the amount of the Employment Insurance Benefit to which he/she otherwise would have been entitled for such Employment Insurance week shall be used in the calculation of "Employment Insurance Benefit and Other Compensation" for such Employment Insurance week.

- (c) The Employment Insurance Benefit in any week during, the period covered by the "advance payment" will be deemed to be that part of the "advance payment" applicable to that week.
- (d) Under the provisions of Article 2 in calculating the amount of the Regular Benefit otherwise payable for a week during which an employee has served an Employment Insurance "waiting period" or for which he/she has received an Employment Insurance "advance payment", the calculation shall include all wages or remuneration (as defined under the Employment Insurance Act) in excess of an amount equal to 25% of the employee's Employment Insurance Benefit rate received or receivable by the employee from other employers for such week.

2.03 Insufficient Credit Units for a Regular Benefit

If an employee has to his/her credit less than the full number of Credit Units required to be cancelled for the payment of a Regular Benefit for which he/she is otherwise eligible, he/she shall be paid the full amount of such Regular Benefit and all remaining Credit Units to his/her credit shall be cancelled.

2.04 Effect of Low Credit Unit Cancellation Base

Notwithstanding any of the other provisions of the Plan:

- (a) If the CUCB for any week, with respect to an Employee, shall be \$51.00 or more but less than \$126.00, any Regular Benefit payable to the Employee for such week shall be reduced by 20%, but in no event to less than \$5.00 by reason of such reduction.
- (b) If the CUCB for any week, with respect to an Employee, shall be less than \$51.00, no Regular Benefit for such week shall be paid to the Employee for such a week.

2.05 Regular Benefit Overpayments

- (a) If the Company or the Board shall determine that any Regular Benefit paid under the Plan should not have been paid or should have been paid in a lesser amount (as the result of a subsequent disqualification for Employment Insurance Benefits or otherwise), written notice thereof shall be mailed to the employee receiving such Regular Benefit and he/she shall return the amount of overpayment to the Trustee, provided, however, that no such repayment shall be required if the cumulative overpayment is \$3.00 or less, or if notice has not been given within 120 days from the date the overpayment was established or created, except that no such limitation shall be applicable in cases of fraud or willful misrepresentation.
- (b) If the employee shall fail to return such amount promptly, the Trustee shall arrange to reimburse the Fund for the amount of overpayment by making a deduction from any future Regular Benefits (not to exceed \$10.00 from any 1 Regular Benefit except in cases of fraud or willful misrepresentation) otherwise payable to such employee or by requesting the Company to make a deduction from monies payable by the Company (including, without limitation, Automatic Short Week Benefits) to such employee (not to exceed \$20.00 from any 1 pay cheque except in cases of fraud or willful misrepresentation), or both. The Company is authorized to make such deduction from the employee's compensation and to pay the amount deducted to the Trustee.

2.06 Withholding Tax

The Trustee shall deduct from the amount of any Regular Benefit as computed under the Plan any amount required to be withheld by the Trustee or the Company by reason of any law or regulation, for payment of taxes or otherwise to any federal, provincial or municipal government.

2.07 Payments in respect of guaranteed annual remuneration or in respect of deferred remuneration or severance pay benefits are not reduced or increased by payments received under this part.

ARTICLE 3

CREDIT UNITS AND DURATION OF BENEFITS

3.01 General

Credit Units shall have no fixed value in terms of either time or money, but shall be a means of determining eligibility for and duration of Regular Benefits.

3.02 Accrual of Credit Units

- (a) For work weeks commencing on or after January 1, **2005**.

Credit Units shall be credited at the rate of one-quarter (1/4) for the first eighteen months of employment and one-half (1/2) of a Credit Unit for each workweek for which the employee:

- (i) receives any pay from the Company;

(ii) was absent from work because of occupational injury or disease incurred in the course of such employee's employment with the Company and on account of such absence he/she received Workplace Safety & Insurance Board benefits while on Company-approved leave of absence.

(b) For the purposes of accruing Credit Units under this section:

(i) all hours represented by pay in lieu of vacation shall be counted as hours in the workweek covered by the pay day as of which payment in lieu of vacation was made, and

(ii) back pay shall be considered as pay for any workweek or workweeks to which it may be allocatable, and

(iii) hours represented by vacation pay received by an employee shall be allocated as follows: 40 hours, to the first week of the applicable vacation period established by the Company as provided in Article 13 of the Collective Agreement; hours in excess of 40 but less than 80, if any, to the second week of such vacation period; hours in excess of 80 but less than 120, if any, to the third week of such vacation period; and hours represented by vacation pay for any other scheduled vacation shall be allocated to the week during which such vacation is taken. Such vacation week or weeks shall be designated a work week or workweeks for the purposes of this section.

(c) No employee may have to his/her credit in the aggregate at any one time more than 52 Credit Units.

(d) No employee shall be credited with any Credit Units prior to the first day as of which he/she, (i) has at least 1 year of seniority, and (ii) is on the active employment rolls in the Bargaining Unit (or was on such rolls within 30 days prior to such first day). As of such day he/she shall be credited with Credit Units based upon his/her workweeks while he/she is an employee after September 23, 1970, and subsequent to his/her seniority date.

(e) An employee who has Credit Units as of the last day of a week shall be deemed to have had them during all of such week.

(f) At such time as the amount of any Regular Benefit overpayment is repaid to the Fund, except as otherwise provided in the Plan, the number of Credit Units, if any, theretofore canceled with respect to such overpayments of benefits shall be restored to the employee, except to the extent that such restoration would raise the number of his/her Credit Units at the time thereof above 52, and except as otherwise provided with respect to the Credit Unit forfeiture under Section 3.03.

3.03 Forfeiture of Credit Units

An employee shall forfeit permanently all Credit Units with which he/she shall have been credited if he:

- (a) incurs a break in seniority; provided, however, that if an employee has incurred a break in seniority by reason of his/her retirement under the total and permanent disability provisions of the Retirement Pension Plan established by agreement between the Company and the Union and shall subsequently have his/her seniority reinstated, his/her Credit Units previously forfeited shall again be credited to him/her as of the date his/her Seniority is reinstated. The procedure in (a) will also apply to an employee terminated, and subsequently reinstated through the grievance procedure.
- (b) is on layoff from the Bargaining Unit and has not been recalled on or before the date on which his/her seniority ceases in accordance with Article 9.16 (c) of the Collective Agreement, except that if on that date he/she is receiving benefits, his/her Credit Units shall not be forfeited until he/she ceases to receive benefits; or
- (c) willfully misrepresents any material fact in connection with an application by him/her for benefits under the Plan.

3.04 Credit Unit Cancellation on Payment of Regular Benefits

- (a) The number of Credit Units to be canceled for any benefit shall be determined in accordance with the following table:

Under such procedures an employee applying for a Regular Benefit shall be required to appear personally to register as an applicant and to supply needed information at the time of, or prior to, making his/her first application following layoff. No application for a Regular Benefit shall be accepted unless it is submitted to the Company within 60 calendar days after the end of the week with respect to which it is made; provided, however, that if the amount of the employee's Employment Insurance Benefit is adjusted retroactively with the effect of establishing a basis for eligibility for a Regular Benefit or for a Regular Benefit in a greater amount than that previously paid, he/she may apply within 60 calendar days after the date on which such basis for eligibility is established.

(b) Application Information

Applications filed for a Regular Benefit under the Plan shall include:

- (i) in writing any information deemed relevant by the Company with respect to other benefits received, earnings and the source and amount thereof, dependents and such other information as the Company may require in order to determine whether the employee is eligible to be paid a Regular Benefit and the amount thereof; and
- (ii) with respect to a Regular Benefit, the exhibition of the employee's Employment Insurance Benefit cheque or other evidence satisfactory to the Company of either
 - (1) his/her receipt of or entitlement to an Employment Insurance Benefit or
 - (2) his/her ineligibility for an Employment Insurance Benefit only for one or more of the reasons specified in Section 1.01 (b) provided, however, that in the case of Employment Insurance Benefit ineligibility by reason of the period worked in the week or pay received from the Company or otherwise (Section 1.01 (b) (iii)), Employment Insurance evidence for such reason of ineligibility shall not be required.

Employment Insurance Benefits shall be presumed to have been received by the employee on the date of the cheque as set forth on the cheque or on the satisfactory evidence referred to in the preceding paragraph.

(iii) An employee may make application for a Regular Benefit without exhibiting the satisfactory evidence referred to in 4.01 (b) (ii) above if such evidence is unduly delayed and such delay is outside the control of the employee except that no benefit shall be paid until such satisfactory evidence is received by the Company.

4.02 Determination of Eligibility

(a) Application Processing by Company

When an application is filed for a Regular Benefit under the Plan, and the Company is furnished with the evidence and information required, the Company shall determine the employee's entitlement to a Regular Benefit. The Company shall advise the employee of the number of Credit Units cancelled for each Regular Benefit payment and the number of Credit Units remaining to the employee's credit after such payment.

(b) Notification to Trustee to Pay

If the Company determines, or the Board on an appeal determines that a Regular Benefit is payable from the Fund, the Company shall deliver prompt written notice thereof to the Trustee to pay such Regular Benefit.

(c) Notice of Denial of Regular Benefits

If the Company determines that an employee is not entitled to a Regular Benefit, it shall notify him/her promptly, in writing, of such determination, including the reasons therefor

(d) Union Copies of Determinations

The Company shall furnish promptly to the Union members of the Board a copy of all Company determinations of Regular Benefit ineligibility or overpayment.

4.03 Appeals

(i) An employee may appeal from the Company's written determination with respect to the payment or denial of a Regular Benefit by filing a written appeal with the Board on a form provided for that purpose.

(ii) Such written appeal shall be filed with the designated Company representative within 30 days following the date of mailing of the determination appealed. With respect to appeals that are mailed, the date of filing shall be the postmarked date of the appeal. No appeal shall be valid after such 30 day period.

(iii) Appeals shall specify the respects in which the Plan is claimed to have been violated, and shall set forth the facts relied upon as justifying a reversal or modification of the determination appealed from.

(iv) The handling and disposition of each appeal to the Board shall be in accordance with regulations and procedures established by the Board. Such regulations and procedures shall provide that in situations where a number of employees have filed applications for Regular Benefits under substantially identical conditions, an appeal may be made to the Board with respect to one of such employees, and the decision of the Board thereon shall apply to all such employees.

(v) The employee or the Union members of the Board may withdraw any appeal to the Board at any time before it is decided by the Board.

(vi) There shall be no appeal from the Board's decision. It shall be final and binding upon the Union, its members, the employee or former employee, the Trustee, and the Company. The Union shall discourage any attempt of its members to appeal, and shall not encourage or co-operate with any of its members in any appeal, to any court or labour board from a decision of the Board, nor shall the Union or its members by any other means attempt to bring about the settlement of any claim or issue on which the Board is empowered to rule hereunder.

(vii) The employee shall be advised, in writing, by the Board of the disposition of any appeal.

(c) Regular Benefits Payable After Appeal

In the event that an appeal with respect to entitlement to a Regular Benefit is decided in favour of an employee, the Regular Benefit shall be paid to him/her; provided, however, that if such Regular Benefit required Credit Unit cancellation the Regular Benefit shall be paid only if he/she did not exhaust Credit Units after the week of the Regular Benefit in dispute.

(d) Meaning of Term "Employee" with Respect to Appeal Provisions

With respect to the appeal provisions set forth under this Section 4.03 only, the term "employee" shall include any person who received or was denied the Regular Benefit in dispute.

5.02 Board of Administration of the Plan

(a) Composition and Procedure

(i) There shall be established a Board of Administration of the Plan consisting of 6 members, 3 of whom shall be appointed by the Company (hereinafter referred to as the Company members) and 3 of whom shall be appointed by the Union (hereinafter referred to as the Union members). Each member of the Board shall have an alternate. In the event a member is absent from a meeting of the Board, his/her alternate may attend, and, when in attendance, shall exercise the powers and perform the duties of such member. Either the Company or the Union at any time may remove a member appointed by it and may appoint a member to fill any vacancy among the members appointed by it. The Company and the Union each shall notify the other in writing of the members respectively appointed by it before any such appointment shall be effective.

(ii) The members of the Board will, when required, appoint an impartial chairperson, who shall serve until requested in writing to resign by 3 members of the Board. In the event that the members of the Board are unable to agree upon such Chairperson, a Chairperson shall be provided in the same manner as that used for appointment of umpires to hear appeals at Step 4 of the Grievance Procedure established by the Collective Agreement. Decision of the Board shall be by a majority of the votes cast.

(iv) The Board shall not maintain any separate office or staff, but the Company and the Union shall be responsible for furnishing such clerical and other assistance as its respective members of the Board shall require. Copies of all appeals, reports and other documents to be filed with the Board pursuant to the Plan shall be filed in duplicate, 1 copy to be sent to the Company members at the address designated by them and the other to be sent to the Union members at the address designated by them.

(b) Powers and Authority of the Board

(i) It shall be the function of the Board to exercise ultimate responsibility for determining whether an employee is eligible for a Regular Benefit under the terms of the Plan, and if so, the amount of such Regular Benefit. The Board shall be presumed conclusively to have approved any initial determination by the Company unless the determination is appealed as prescribed in Section 4.03 (b).

(ii) The Board shall have jurisdiction:

(1) to hear and determine appeals by employees pursuant to Article 4;

(2) to obtain such information as the Board shall deem necessary in order to determine such appeals;

(3) to prescribe the form and content of appeals to the Board and such detailed procedures as may be necessary with respect to the filing of such appeals;

(iii) In ruling upon appeals, the Board shall have no authority to waive, vary, qualify, or alter in any manner the eligibility requirements set forth in the Plan, the procedure for applying for Regular Benefits as provided therein, except that the Board may waive the 60 day time limit specified in 4.01 (a) where delay in filing a claim was due to unusual circumstances or any other provision of the Plan; and shall have no jurisdiction other than to determine, on the basis of the facts presented and in accordance with the provisions of the Plan,

- (1) whether the appeal to the Board was made within the time and in the manner specified in Section 4.03 (b).
- (2) whether the employee is an eligible employee with respect to the Regular Benefit claimed, and, if so,
- (3) the amount of any Regular Benefit payable.
- (iv) The Board shall have no jurisdiction to act upon any appeal not made within the time and in the manner specified in Section 4.03 (b).
- (v) The Board shall have no power to determine questions arising under the Collective Agreement, even though relevant to the issues before the Board. All such questions shall be determined through the regular procedures provided therefor by the Collective Agreement, and all determinations made pursuant to such Agreement shall be accepted by the Board.
- (vi) Nothing in this Article shall be deemed to give the Board the power to describe in any manner internal procedures or operations of either the Company or the Union.

5.03 Determination of Dependents

- (a) In determining an employee's dependents for purposes of Regular Benefit determinations, the Company (and the Board) shall be entitled to rely upon the official form filed by the employee with the Company for income tax withholding purposes; and the employee shall have the burden of establishing that he/she is entitled to a greater number of withholding exemptions than he/she shall have claimed on such form.

5.04 To Whom Regular Benefits are Payable in Certain Conditions

Regular Benefits shall be payable hereunder only to the employee who is eligible therefor, except that if the Board shall find that such employee is deceased or is unable to manage his/her affairs for any reason, and such Regular Benefit payable to him/her shall be paid to his/her duly appointed legal representative, if there be one, and if not, to the spouse, parents, children or other relatives or dependents of such employee as the Board in its discretion may determine. Any Regular Benefit so paid shall be a complete discharge of any liability with respect to such Regular Benefit. In the case of death, no Regular Benefit shall be payable with respect to any period following the last day of layoff immediately preceding the employee's death.

5.05 Non-alienation of Regular Benefits

No Regular Benefit shall be subject in any way to alienation, sale, transfer, assignment, pledge, attachment, garnishment, execution, or encumbrance of any kind other than an authorization for check-off of Union dues and any attempt to accomplish the same shall be void. In the event that the Board shall find that such an attempt has been made with respect to any such Regular Benefit due or to become due to any employee, the Board in its sole discretion may terminate the interest of such employee in such Regular Benefit and apply the amount of such Regular Benefit to or for the benefit of such employee, his/her spouse, parents, children or other relatives or dependents as the Board may determine, and any such application shall be a complete discharge of all liability with respect to such Regular Benefit.

5.06 Applicable Law

The Plan and all rights and duties thereunder shall be governed, construed and administered in accordance with the laws of the Province of Ontario, except that the eligibility of a person for, and the amount and duration of, Employment Insurance Benefits shall be determined in accordance with the Employment Insurance Act of Canada.

ARTICLE 6

FINANCIAL PROVISIONS AND REPORTS

6.01 Establishment of Fund

The Company shall maintain, in accordance with the Plan, a Fund with a qualified Canadian trust company or companies selected by the Company as Trustee. The Company's contributions shall be made into the Fund, the assets of which shall be held, invested and applied by the Trustee, all in accordance with the Plan. Regular Benefits shall be payable only from the Fund. The Company shall provide in the Trust Agreement that the assets of the Fund shall be held in cash or invested only in obligations issued or guaranteed by the Canadian Government, irrespective of the rate of return, or the absence of any return, thereon, and without any absolute or relative limit upon the amount that may be invested in any one or more types of investment. The Trustee shall not be liable for the making or retaining of any such investment or for realized or unrealized loss hereon whether from normal or abnormal economic conditions or otherwise.

6.02 Company Contributions

(a) Amount and Timing

Effective January 1, **2005**, the Company shall make contributions to the Fund from time to time, as required to maintain the Fund at a level sufficient to pay the Regular Benefits and any Plan expenses then due and payable. The Company shall have the sole and absolute discretion to make additional contributions from time to time, however, in respect to any calendar month, the Company shall not make any contribution that would result in the value of the Fund exceeding the Maximum Funding of the Fund for that month.

(b) Effect of Withholding

If the Company at any time shall be required to withhold any amount from any contribution to the Fund by reason of any federal, provincial or municipal law or regulation, the Company shall have the right to deduct such amount from such contribution and to pay only the balance to the Fund.

6.03 Maximum Funding

(a) The Maximum Funding of the Fund shall be determined for each calendar month by multiplying the Average Full Benefit Rate by 16 and this result by the sum of

- (i) the number of employees on the active employment rolls, and
- (ii) the number of persons laid off from work who are not on the active employment rolls but who have Credit Units;

both numbers being determined by the Company as of the latest date for which the figures are available prior to the first Monday in the month for which the Maximum Funding is being determined.

(b) (i) The Average Full Benefit Rate for the purpose of determining Maximum Funding shall be computed monthly and shall be the sum of the following;

- (1) the amount determined by dividing the sum of all Full Benefits paid during the 12 months immediately prior to the month next preceding the month for which Maximum Funding is being determined by the number of such benefits. However, if there exists an agreement between the Company and the Union to suspend Plan benefit payments for a certain period of time, then the 12 month period, for the purpose of the calculation of the amount of benefits paid under this sub-section, shall be the last 12 month period during which benefits were payable or might have been payable from the Plan had any eligible layoffs occurred;

(2) 50% of the Average Weekly Amount of Contributions paid by the Company to provide the insurance coverage under Part III (6) of the Insurance Plan forming Exhibit "A" of the Collective Agreement.

(ii) A Full Benefit shall mean a Regular Benefit which has not been reduced because of Employment Insurance and Other Compensation as defined in Section 2.02 (a) but shall not include a benefit payable under Article 1.01 (b) (ix) or 1.01 (b) (xi).

(iii) The Average Weekly Amount of Contributions shall be the average monthly payment made during the 12 months immediately prior to the month next preceding the month for which Maximum Funding is being determined, divided by $4 \frac{1}{3}$. Such average monthly payment shall be determined by dividing the sum of all monthly payments made during the period for which the compensation is made by the number of such payments.

6.04 Financial SUB Credits

(a) General

Financial SUB Credits shall be a means of determining the level of Regular Benefits. One Financial SUB Credit shall be notionally equal to one (1) dollar.

(b) Maximum Financial SUB Credits

In respect to any calendar month, the number of Maximum Financial SUB Credits shall equal the Maximum Funding of the Fund for that calendar month.

Notwithstanding any other provision of the Plan, no Financial SUB Credits shall be allocated to the SUB Accounts in excess of the Financial SUB Credits that would raise the total of the Monthly SUB Account Levels for all SUB Accounts up to the Maximum Financial SUB Credits for the particular month and no Financial SUB Credits shall be allocated to the SUB Accounts for any calendar month in which the total of the Monthly SUB Account Levels for all SUB Accounts is equal to or in excess of the Maximum Financial SUB Credits for the particular month.

(c) Operation of the SUB Accounts

(i) On and after January 1, **2005**, there shall be three SUB Accounts: SUB Account A, SUB Account B and SUB Account C. To SUB Account A shall be allocated Financial SUB Credits equal to the value of the Fund's Account A assets at December 31, **2004** and 80% of subsequent Financial SUB Credits allocated pursuant to Section 6.04 (d) as adjusted by Section 6.04(e). To SUB Account B shall be allocated the Financial SUB Credits equal to the value of the Fund's Account B assets at December 31, **2004** plus 10% of subsequent Financial SUB Credits allocated pursuant to Section 6.04(d) as adjusted by Section 6.04(e). To SUB Account C shall be allocated Financial SUB Credits equal to the value of the

Fund's Account C assets at December 31, **2004** plus 10% of subsequent Financial SUB Credits allocated pursuant to Section 6.04(d) as adjusted by Section 6.04(e).

- (ii) The individual SUB Accounts shall be reduced as follows. SUB Account B shall be reduced with respect to Regular Benefits paid only to Employees who have attained 10 but less than 20 years of seniority as of the last day of the week for which the Regular Benefit is to be paid. SUB Account C shall be reduced with respect to Regular Benefits paid only to Employees who have attained 20 years of seniority as of the last day of the week for which the Regular Benefit is to be paid. Regular Benefits paid to all eligible employees (regardless of years of seniority) will be taken into account in reducing SUB Account A. When the Financial SUB Credits in SUB Account A are exhausted, then only Employees who have attained 10 or more years of seniority as of the last day of the week for which the Regular Benefit is to be paid shall be paid a benefit, but only to the extent there are Financial SUB Credits remaining in SUB Account B. When the Financial SUB Credits in SUB Account B are exhausted, then only Employees who have attained 20 or more years of seniority as of the last day of the Week for which the Regular Benefit is to be paid shall be paid a benefit, but only to the extent there are Financial SUB Credits remaining in SUB Account C.
- (iii) Each SUB Account shall, on a monthly basis, be credited with additional Financial SUB Credits at a reasonable rate of notional interest based on the balance of Financial SUB Credits standing to the SUB Account in the previous month. For the purpose of this provision, a reasonable rate of notional interest shall be the monthly average Scotia Capital 91-day Treasury Bill rate for the twelve month period ending in the previous month.

(a) Allocations to SUB Accounts

With respect to each of the pay periods which begins within a calendar month subsequent to December **2004**, for which the aggregate Monthly SUB Account Credit Levels for all of the SUB Accounts is less than the Maximum Financial SUB Credits, the Company will allocate a total number of Financial SUB Credits equal to the amount determined by multiplying

- (i) \$0.29 by the total number of regular hours worked, and
- ii). \$0.435 by the total number of "time and one half" overtime hours worked, and
- (iii) \$0.58 by the total number of "double time" overtime hours worked,

by Employees for such pay period, but not in excess of the amount necessary to raise the aggregate Monthly SUB Account Levels for all of the SUB Accounts up to the Maximum Financial SUB Credits for such month.

(e) Adjustment in Financial SUB Credits

(i) The total number of Financial SUB Credits allocated to the SUB Accounts, as determined under Section 6.04 (d), shall be reduced by:

- (1) The amount of Automatic Short Week Benefits paid by the Company in the relevant period in respect to Employees in the Bargaining Unit;
- (2) 50% of all premiums and subscription charges that shall have been paid by the Company in the relevant period to provide the insurance coverage for laid off employees under Section Part III (6) of the Insurance Plan forming Exhibit "A" of the Collective Agreement;
- (3) all expenses paid from the Fund pursuant to Article 6.10; and
- (4) any expenses paid directly by the Company pursuant to Section 6.10(c).

(ii) If Financial SUB Credits are not required to be allocated to a SUB Account for any period, or if the Financial SUB Credits allocated are less than the number of Financial SUB Credits to be offset under Section 6.04 (e) (i), then any subsequently allocated Financial SUB Credits shall be reduced by the amount not previously offset against Financial SUB Credits. Any such amount not previously offset against credits shall be deducted from the appropriate Monthly SUB Account Level in determining CUCB and whether the aggregate Monthly SUB Account Levels for all SUB Accounts equals or exceeds the Maximum Financial SUB Credits.

(iii) If as of the close of business on December 31, of **2005** and each subsequent calendar year thereafter, the total Monthly SUB Account Levels for all SUB Accounts is less than the Maximum Financial SUB Credits for December of the particular year, the number of Financial SUB Credits determined under sub-section 6.04 (d) with respect to the pay period relating to December 31 of that year shall be increased by the amount, if any, by which the total amount of Automatic Short Week Benefits paid in the particular calendar year exceeds the amount determined by multiplying seven (7) cents by the total number of hours for which Employees received pay from the Company during that particular calendar year, but not to exceed the amount necessary to increase the aggregate Monthly SUB Account Levels to 100% of the Maximum Financial SUB Credits.

(f) Monthly SUB Account Level

A Monthly SUB Account Level shall be determined for each of the SUB Accounts for each calendar month, commencing with January **2005**. The Monthly SUB Account Level, in respect to a SUB Account, shall be equal to the number of Financial SUB Credits in the particular SUB

Account at the end of the prior month, plus the net Financial SUB Credit adjustments for the month, with respect to the SUB Accounts as determined pursuant to Sections 6.04 (c), (d) and (e).

6.05 CUCB (Credit Unit Cancellation Base)

- (a)
 - (i) The CUCB for each employee with less than 10 years of seniority as of the last day of the week for which the Regular Benefit is to be paid shall be determined for each calendar month in the following manner: The current Monthly SUB Account Level of SUB Account A, as of the close of business on the Friday preceding the first Monday of such month, shall be divided by the number which is the sum of employees on the active employment rolls and other persons used in determining Maximum Funding for such month.
 - (ii) The CUCB for each employee with 10 or more years of seniority but less than 20 years of seniority as of the last day of the week for which the Regular Benefit is to be paid shall be determined for each calendar month in the following manner: Add the number calculated in Section 6.05 (a) (i) with respect to the employee (determined as if the employee had less than 10 years of seniority) to the following amount: the current Monthly SUB Account Level for SUB Account B, as of the close of business on the Friday preceding the first Monday of such month, divided by the number which is the sum of Employees on the active employment rolls and other persons used in determining Maximum Funding for such month who have attained 10 years of seniority but less than 20 years of seniority as of the last day of the week for which the Regular Benefit is to be paid.
 - (iii) The CUCB for each employee with 20 or more years of seniority as of the last day of the week for which the Regular Benefit is to be paid shall be determined for each calendar month in the following manner: Add the number calculated in Section 6.05 (a) (ii) with respect to the employee (determined as if the employee had attained 10 years of seniority but less than 20 years of seniority) to the following amount: the current Monthly SUB Account Level for SUB Account B, as of the close of business on the Friday preceding the first Monday of such month, divided by the number which is the sum of Employees on the active employment rolls and other persons used in determining Maximum Funding for such month who have attained 20 years of seniority as of the last day of the week for which the Regular Benefit is to be paid.
- (b) The CUCB for any particular month shall be applied to each of the pay periods beginning within such month; provided, however, that whenever the CUCB for any particular month is less than \$126.00, the CUCB shall be applied only to the first pay period beginning within such month, and thereafter there shall be determined a CUCB for each pay period until the CUCB for a particular pay period equals or exceeds \$126.00. When the CUCB for a particular pay period equals such amount, such CUCB shall be applied to each pay period until a CUCB for the following calendar month shall be applicable. The CUCB for a particular pay period shall

be determined on the basis of the Monthly SUB Account Level as of the close of business on the Friday preceding such pay period.

6.06 Finality of Determination

No adjustment in the Maximum Funding or the CUCB shall be made on account of any subsequently discovered error in the computations, unless such adjustment is practicable. Any adjustment made shall only be prospective in effect, unless such adjustment would be substantial in the opinion of the Company

6.07 Liability

- (a) The provisions of these Articles 1 through 8 constitute the entire Plan. The provisions of this Article 6 express, and shall be deemed to express, completely each and every obligation of the Company with respect to the financing of the Plan and providing for Regular Benefits. The Company shall not be obligated to make up, or to provide for making up, any depreciation, or loss arising from depreciation, in the value of the securities held in the Fund, and the Union shall not call upon the Company to make up, or to provide for making up, any such depreciation or loss.
- (b) The Board, the Company, the Trustee, and the Union, and each of them, shall not be liable because of any act or failure to act on the part of any of the others, and each is authorized to rely upon the correctness of any information furnished to it by an authorized representative of any of the others.
- (c) Notwithstanding the above provisions, nothing in this section shall be deemed to relieve any person from liability for willful misconduct or fraud.

6.08 No Vested Interest

No person shall have any right, title or interest in or to any of the assets of the Fund or in or to any Company contribution thereto.

6.09 Reports by the Company

6.10 Regular Benefit Cheques Not Presented

ARTICLE 7

MISCELLANEOUS

7.01 Purpose of Plan and Status of Employees Receiving Regular Benefits

(a) Purpose of Plan

It is the purpose of the Plan to supplement the Employment Insurance Benefits and not to replace or duplicate them.

(b) Status of Employees Receiving Regular Benefits

Neither the Company's contributions nor any Regular Benefit paid under the Plan shall be considered a part of an employee's wages for any purpose. No employee who receives any Regular Benefit shall for that reason be deemed an employee of the Company during such period, and he/she shall not thereby accrue any greater right to participate in, accrue credits or receive benefits under any other employee benefit plan to which the Company contributes than he/she would if he/she were not receiving such Regular Benefit.

7.02 Effect of Revocation of Federal and Provincial Government Income Tax Ruling

In the event that any rulings which have been or may be obtained by the Company holding that any contributions to the Fund shall constitute currently deductible expense under the Canadian Income Tax Act or similar legislation, (if any) whether federal or provincial, as now in effect or as it may be hereafter amended shall be revoked or modified in such manner as no longer to be satisfactory to the Company, all obligations of the Company under the Plan shall cease and the Plan shall thereupon terminate and be of no further effect (without in any way affecting the validity or operation of the Collective Agreement), except for the purposes of disposing of the assets of the fund as set forth in Section 7.04 (b).

7.03 Supplementation of Employment Insurance Benefits

No Weekly Supplemental Benefit shall be payable under the Plan unless it shall have been established to the satisfaction of the Company by administrative rulings from Canadian governmental authorities or by amendments of the Employment Insurance Act, that supplementation shall continue to be permitted.

7.04 Amendment and Termination of the Plan

- (a) So long as the Agreement shall remain in effect, the Plan shall not be amended, modified, suspended, or terminated, except as may be proper or permissible under the terms of the Plan or the Agreement. Upon the termination of the Agreement, the Company shall have the right to continue the Plan in effect and to modify, amend, suspend, or terminate the Plan, except as may be otherwise provided in any subsequent agreement between the Company and the Union.
- (b) Upon any termination of the Plan, the Plan shall terminate in all respects except that the assets then remaining in the Fund shall be used to pay expenses of administration and to pay Regular Benefits to eligible employees for a period of 1 year following termination, if not sooner exhausted. The Plan provisions with respect to the effect of a low CUCB on the payment of

benefits shall not be applicable. At the expiration of such 1 year period, the parties shall endeavor to negotiate a program for the orderly disposition of any remaining assets of the Fund for employee benefits not inconsistent with the purpose of the Plan.

- (i) during such week he/she performed some work for the Company or received some jury duty pay or crown witness pay or bereavement pay from the Company or received only holiday pay from the Company for that week except that he/she must have worked the last regularly scheduled shift immediately preceding such holiday; but had less than 40 compensated or available hours;
 - (ii) he/she had at least 1 year of seniority as of the last day of such week; and
 - (iii) he/she was on a qualifying layoff, as described in Section 1.02 of the Supplemental Unemployment Benefit Plan for some part of such week, or he/she was ineligible as defined under the Collective Agreement for pay from the Company for all or part of a period of jury duty or crown witness duty or bereavement during the week and during all or part of such period he/she would otherwise have been on a qualifying layoff under this Plan.
- (b) No application for an Automatic Short Week Benefit shall be required of an employee. However, if an employee believes himself/herself entitled to
- (i) an Automatic Short Week Benefit for a week which he/she does not receive on the date when such Automatic Short Week Benefits for such week are paid, or
 - (ii) an Automatic Short Week Benefit in an amount greater than he/she received,
- he may file written application therefor within sixty (60) calendar days after such date in accordance with procedures established by the Company. An employee shall forfeit permanently all Credit Units with which he/she shall have been credited under the Supplemental Unemployment Benefit Plan if he/she willfully misrepresents any material fact in connection with any such application.
- (c) An Automatic Short Week Benefit payable for a week shall be in lieu of any other benefit under the Supplemental Unemployment Benefit Plan for that week.

Section 2 Automatic Short Week Benefit Amount

- (a) The Automatic Short Week Benefit payable to an eligible employee for any week beginning on or after January 1, **2005**, shall be an amount equal to the product of the number by which 40 exceeds his/her compensated or available hours, computed to the nearest tenth of an hour, multiplied by the lesser of:

- (b) Notwithstanding any other provisions of this Plan:
 - (i) If the CUCB for any week shall be \$51.00 or more but less than \$126.00, any Automatic Short Week Benefit shall be reduced by 20% but in no event to less than \$5.00 by reason of such reduction.
 - (ii) If the CUCB for any week shall be less than \$51.00, no Automatic Short Week Benefit shall be paid at any time.
- (c) The Company shall deduct from the amount of any Automatic Short Week Benefit as computed under this Plan any amount required to be withheld by the Company by reason of any law or regulation, for payment of taxes or otherwise to any federal, provincial or municipal government.

Section 3 Method of Payment

Automatic Short Week Benefits shall be payable by the Company.

Section 4 Company Determination of Eligibility

The Company shall promptly determine the employee's eligibility for an Automatic Short Week Benefit, and the Automatic Short Week Benefit shall be paid or denied in accordance with such determination. If the Company determines that an employee is not entitled to an Automatic Short Week Benefit with respect to the week for which application for an Automatic Short Week Benefit is made, it shall notify him/her promptly, in writing, of the reason(s) for the determination.

Section 5 Overpayment

- (a) If the Company or the Board determines that any Automatic Short Week Benefits paid under this Plan should not have been paid or should have been paid in a lesser amount, written notice thereof shall be mailed to the employee receiving such Automatic Short Week Benefit(s) and he/she shall return the amount of the overpayment to the Company; provided, however, that no such repayment shall be required if the cumulative overpayment is \$3.00 or less or if notice has not been given within 120 days from the date the overpayment was established or created, except that no such limitation shall be applicable in cases of fraud or willful misrepresentation.
- (b) If the employee shall fail to return such amount of overpayment promptly, the Company shall arrange to reimburse the Trustee for the amount of overpayment by making a deduction from any future Automatic Short Week Benefits (not to exceed \$10.00 from any 1 Automatic Short Week Benefit except in cases of fraud or wilful misrepresentation) otherwise payable to such employee by the Company or by making a deduction from monies payable by the Company (including, without limitation, Regular Benefits) to such employee (not to exceed \$20.00 from any 1 pay cheque except in cases of fraud or wilful misrepresentation), or both. The Company is authorised to make the deduction from the employee's compensation as provided under this sub-section and to pay the amounts deducted to the Trustee.
- (c) If the Company determines that an employee has received an Automatic Short Week Benefit for any week for which he/she has received an Employment Insurance Benefit, the amount of such Automatic Short Week Benefit, or a portion of such benefit equivalent to the Employment Insurance Benefit, whichever is less, shall be treated as an overpayment in accordance with this section.
- (d) The Company may adjust for any overpayments or underpayments in the amount of an Automatic Short Week Benefit at the same time as related adjustments are made with respect to any wages for the same work week. Such Automatic Short Week Benefit adjustments shall be shown on the pay statement or other equivalent record given to the employee. Such pay statement or equivalent record shall constitute a determination which may be appealed in accordance with the procedure outlined in Section 4.03 of the Supplemental Unemployment Benefit Plan.

Section 6 Reports by the Company

- (a) Within ten (10) working days after the commencement of each production month, the Company shall furnish to the Union a statement showing the number and amounts of Automatic Short Week Benefits, if any, paid by the Company during each week of the preceding month.
- (b) The Company shall furnish promptly to a Union member of the Board a copy of all Company determinations of Automatic Short Week Benefit ineligibility or overpayment.

Section 7 General

- (a) The provisions of these Sections 1 through 9 constitute the entire Automatic Short Week Benefit Plan (hereinafter referred to as the Plan) and express each and every obligation of the Company with respect to the provision of Automatic Short Week Benefits.

The Board, the Company, and the Union, and each of them, shall not be liable because of any act or failure to act on the part of any of the others, and each is authorized to rely upon the correctness of any information furnished to it by an authorized representative of any of the others.

Notwithstanding the above provisions, nothing in this section shall be deemed to relieve any person from liability for willful misconduct or fraud.

- (b) No question involving the interpretation or application of the Plan shall be subject to the Grievance Procedure provided for in the Collective Agreement.

Section 8 Amendment and Termination of the Plan

So long as the Agreement of which this Plan is a part shall remain in effect, the Plan shall not be amended, modified, suspended or terminated, except as may be proper or permissible under the terms of the Plan or the Agreement. Upon termination of the Agreement, the Company shall have the right to continue this Plan in effect and to modify, amend, suspend or terminate this Plan, except as may be otherwise provided in any subsequent Agreement between the Company and the Union.

23 less than 24 years	41,000	51,000
24 less than 25 years	43,000	53,000
25 +	45,000	55,000

4. Severance Pay benefits will be inclusive of legislated severance pay.
5. Acceptance of Severance Pay benefits will sever the employee's seniority.
6. Employees who accept Severance Pay benefits shall be granted an additional 1.9 years of credited service under the hourly employee's Pension Plan.

Partial Plant Closing

In the event of a permanent job loss due to the discontinuance of a product (such as W-car, L-car, etc.) or ship item (Front Seat Back, Sport Back) , but not reductions related strictly to volume decreases , employees with five (5) or more years of seniority will be eligible for benefits under the Partial Plant Closing.

As of January 1, 1996 the Company has accumulated one hundred fifty-eight (158) credits and will accumulate one full credit for each new job introduced thereafter. New jobs shall not include volume increases on current jobs. The Partial Plant Closing provisions outlined below will not take effect until all credits accumulated from the introduction of new jobs are exhausted.

Where a new job is introduced, the number of credits will be established in the following manner:

- a) Three (3) months after the first production shipment the Company and the Union will attempt to determine whether the optimum number of jobs for credit has been reached. If the parties mutually agree that the optimum level has not been attained, a further re-evaluation date will be set.
- b) If a significant change or event takes place which results in a fluctuation in volume of 20% or more, the parties will review and establish a new credit reserve for that job.

When products or ship items are discontinued, which result in job loss, the credit reserve from the introduction of new jobs above will be applied against the total number of jobs affected by the layoffs. For jobs now in place (January 1996), the number of jobs affected by a product discontinuance or reductions other than volume, will be determined by establishing who would have been affected if the reduction took place approximately six months prior to the date of the last shipment of the product.

Benefits under the Partial Plant Closing shall be payable as follows:

1. Employees with over thirty (30) years of service and less than fifty-five (55) years of age will first be offered by inverse seniority, retirement without an actuarial reduction but will not be eligible for severance pay.
2. Employees with at least five (5) years of seniority who are on layoff as a result of a partial plant closing will be entitled to exercise their option to receive severance pay in accordance with the Partial Plant Closing schedule and conditions outlined in the Severance Pay Plan above.

Within one (1) year of layoff, an eligible employee must make application in writing for benefits under the Partial Plant Closing portion of this plan or he/she will forfeit such benefit.

If an eligible employee is recalled for 30 calendar days or more it will cancel eligibility entitlement for partial plant closure benefits.

Problems will be resolved within the spirit and the intent of the program.

WHEREAS:

The Company and the Union have agreed that the Agreement Concerning Pension Plan between the parties dated January 16, 1985 and the Pension Plan being Schedule "A" thereto, both as heretofore amended shall be further amended so that, effective **January 1, 2005**, the said Agreement and Plan shall read as hereinafter set forth, provided that acceptance, approval and registration of the said Agreement and Plan as so amended are obtained and continued thereafter as required by Article II hereof.

WITNESSETH:

The parties hereto agree as follows:

ARTICLE I - DEFINITIONS

As used herein:

Section 1.01

- a) "Plan" means the Pension Plan negotiated and agreed to by the Company and the Union set forth in Schedule "A" hereto.
- b) "Qualified Actuary" means an independent actuary selected by the Company who is a Fellow of the Canadian Institute of Actuaries.
- c) "Future Service Cost" means an amount computed by a qualified actuary to fully fund the cost attributable to service after June 30, 1968 (referred to in the Plan as "Future Service") on the basis of the benefit structure in effect at the time such service is rendered.
- d) "Lump Sum Past Service Cost" with respect to the benefit structure of the Plan means an amount computed by a Qualified Actuary which would fund the cost attributable to service before July 1, 1968 (referred to in the Plan as "Past Service") if paid in a lump sum on July 1, 1968, and with respect to each subsequent revision in the benefit structure of the Plan which shall substantially affect the cost of funding the Plan means an amount computed by a Qualified Actuary which would fund the cost of such revision attributable to service before the effective date thereof (whether "Past" or "Future" Service within the meaning of Article III of the Plan) if paid in a lump sum on such effective date.
- e) "Past Service Effective Date" with respect to the original Lump Sum Past Service Cost of the Plan means July 1, 1968 and with respect to the additional Lump Sum Past Service Cost attributable to each revision in the benefit structure of the Plan which shall substantially affect the cost of funding the Plan means the effective date of such revision.

ARTICLE II - GOVERNMENTAL APPROVAL

Section 2.01

- a) The obligation to establish and maintain the Plan as herein provided is subject to the requirement that acceptance by the Minister of National Revenue of such Plan and any amendments thereto as a "registered pension fund or plan" as defined in the Income Tax Act entitling the Company to deduct its contributions under the Income Tax Act or any other applicable tax laws in Canada, as such laws are now in effect or are hereafter amended or enacted, is obtained and that such acceptance is continued thereafter. The obligation to establish and maintain the Plan as herein provided is subject also to the requirement that the Plan is accepted for registration under the Pension Benefits Act, R.S.O. 1990 and any other applicable laws now or hereafter enacted and that such acceptance and registration is continued thereafter. The Company shall submit the Plan and any amendments thereto and such supporting information in connection therewith as may be required for the purpose of obtaining such acceptance and registration.
- b) In the event that any revision in the Plan is necessary to obtain such acceptance and registration, such revision shall be a matter for further negotiation between the parties. In negotiating any such revision the parties shall adhere as closely as possible to the intent of the Company and the Union as expressed in this Agreement and in the Plan.

ARTICLE III - PENSION TRUST FUND

Section 3.01

- a) The Company agrees that during the term of this Agreement it will from time to time make contributions to a trust fund (hereinafter called the "Pension Trust Fund") in an aggregate amount which, together with its contributions heretofore made, shall be sufficient, based on estimates made by a Qualified Actuary, to fund the Future Service Cost, the Lump Sum Past Service Costs, and experience deficiencies if any, in accordance with the provisions of the Pension Benefits Act, R.S.O. 1990.
- b) Nothing herein shall be deemed to prevent the Company from making contributions towards the Lump Sum Past Service Costs greater than those required under this section, nor shall a greater contribution in any year be construed to reduce any Maximum Funding period established in the Pension Benefits Act, R.S.O. 1990 as amended from time to time. The Company shall not be obligated to make additional payments to the Pension Trust Fund to make up deficiencies in any year caused by depreciation in the value of the securities in the Pension Trust Fund resulting from abnormal conditions, except as may be required under the provisions of the Pension Benefits Act,

R.S.O. 1990.

- c) The Company shall cause the Union to be furnished annually with a statement certified by a Qualified Actuary that the amount of the assets of the Pension Trust Fund is not less than the amount then required by sub-section (a) of this section to be in the Pension Trust Fund.

ARTICLE IV - DURATION OF AGREEMENT

Section 4.01

During the period from **January 1, 2005 to December 31, 2007**, neither party shall demand any change in this Agreement or in the Plan (except as otherwise provided in Article II above), nor shall either party be required to bargain with respect to this Agreement or the Plan, nor shall a change in or addition to this Agreement or the Plan be an objective of or be stated as reason for any strike or lockout or other exercise of economic force or threat thereof by the Union or the Company.

ARTICLE V - SENIORITY

Section 5.01

The seniority of an employee who retires under the Plan shall be deemed to have ceased for the purposes of applying any Collective Agreement, except to the extent that the right of any employee retired for total and permanent disability to reinstatement without loss of seniority shall be preserved by the provisions of any such Agreement relating to leaves of absence due to disability.

If an employee on either normal or early retirement shall be re-employed by the Company, he shall be considered, during such period of re-employment as an employee without seniority rights for any purpose of tenure or retention of, or advancement in, employment on any particular job; but shall be treated on the basis of the seniority he had at the time of retirement for purposes of applying the eligibility rules applicable to paid holidays and vacations with pay, it being understood that while working in the Bargaining Unit covered by any such Collective Agreement, he shall be considered an employee covered by such Collective Agreement except in the respects indicated above.

It is understood that attainment of automatic retirement age shall not, in and of itself, terminate any rights provided by a Collective Agreement to be recalled to work or to be reinstated at the expiration of an approved leave of absence before actual retirement under the Plan, even though the employee may be subject to automatic retirement immediately upon his return to employment.

ARTICLE VI - TERMINATION

Section 6.01

- a) This Agreement and the Plan shall continue in effect until the 31st day of December, **2007**.
- b) This Agreement and the Plan shall be automatically renewed for successive one year periods unless either party shall, two months prior to the date of expiration (or to any subsequent anniversary date), give written notice to the other party of its desire to amend or terminate this Agreement or the Plan.
- c) If such notice is given prior to the 31st day of October, **2007**, then unless otherwise mutually agreed this Agreement shall continue in effect until the Collective Agreement between the parties dated the **16th day of December, 2007** shall be terminated as therein provided.
- d) The foregoing provision for automatic renewal for periods of one year shall not be construed as an endorsement by either party of the proposition that one year is a suitable term for such an agreement.
- e) Anything herein which might be construed to the contrary notwithstanding, however, it is understood that termination of this Agreement shall not have the effect of automatically terminating the Plan.
- f) Any notice under this section shall be in writing and shall be sufficient, if to the Union, if sent by registered mail addressed to the President of The National Automobile, Transportation & General Workers Union of Canada (CAW), 205 Placer Court, Willowdale, Ontario, or to such other address as the Union shall furnish to the Company in writing; and if to the Company, if sent by registered mail addressed to the Manager of Human Resources, Lear Corporation, 530 Manitou Drive, Kitchener, Ontario, or to such other address as the Company shall furnish to the Union in writing.

Section 3.01 - Crediting of Service

- a) An Employee who retired under the Plan shall be credited with his future service as provided in Section 3.03. He shall also be credited with his past service as provided in Section 3.02 if:
 - i) he was in employment on July 1, 1968;
 - ii) not having been in employment on July 1, 1968 he subsequently was reinstated in employment without his seniority rights having ceased, or;
 - iii) he is entitled to credit for past service following a transfer from other employment under the provisions of Section 3.04.
- b) No future or past service shall be credited with respect to any period of employment preceding a cessation of his seniority rights which occurred subsequent to July 1, 1968 and which was not caused by his retirement under the Plan; provided, however, that:
 - i) an Employee meeting the age and service conditions for a deferred vested pension benefit under Section 4.04 of the Plan at the time when his seniority rights shall cease on or after July 1, 1968, shall have in lieu of the benefits for which he is eligible under Section 4.04 such future and past service as would have been used in the computation of such deferred vested pension benefit credited to him upon his again acquiring seniority rights (or his being rehired on or after July 1, 1968) prior to the commencement of such benefits; and
 - ii) an Employee whose seniority rights shall cease on or after January 1, 1968, shall, upon proper application, have the future and past service that was creditable to him at the time

his seniority rights ceased credited to him upon again acquiring a seniority date prior to commencing to receive benefits under the Plan.

For the purpose of the Plan, an Employee's seniority rights shall be considered to have ceased when they have ceased within the meaning of the Collective Agreement in effect when such cessation of seniority rights occurs. The provisions of Clause (ii) of the first sentence of this sub-section (b) shall not be applicable to any Employee who shall have retired prior to July 1, 1968, except as provided under the Prior Plan.

Section 3.02 - Past Service

Past service shall be computed to the nearest quarter year and shall be credited at the rate of:

- a) one year for each year of the Employee's seniority as of July 1, 1968 (as computed pursuant to Section 8 of the Pension Plan for Bargaining Unit employees, as in effect on June 30, 1968); plus
- b) in the case of an Employee transferred into the Bargaining Unit from other employment by the Company prior to July 1, 1968, without seniority credit for his service prior to such transfer, one year for each year of additional seniority he would have if the seniority provisions referred to in (a) above were applied to his service with the Company preceding the date of such transfer.

Section 3.03 - Future Service

- a) Future service shall be credited to an Employee at the following respective rates for each 12 month period subsequent to June 30, 1968 and prior to the end of the month in which he attains age 65, or his prior retirement:
 - i) one year for each 12 month period in which the Employee receives pay from the Company for 1,700 or more hours;
 - ii) a proportionate credit to the nearest one-tenth of a year for each 12 month period in which the employee receives pay from the Company for less than 1,700 hours.
- b)
 - i) For the purpose of computing hours for which an Employee receives pay from the Company under this section, an Employee who, after January 1, 1985, shall be absent from work because of occupational injury or disease incurred in the course of his employment and who, on account of such absence receives Worker's Compensation, shall receive future service credit based on 40 hours per week during such absence provided that no Employee shall be credited with service under this section after his employment has been terminated, and no Employee shall be credited with service for any week during such absence in which he has obtained other employment while on the leave of absence.
 - ii) An Employee who, after December 31, 1981 shall be absent from work by reason of layoff or because of a disability covered by the weekly indemnity part of the insurance plan, shall be credited with 40 hours for each complete calendar week of such absence during such year in addition to any other hours credited provided that such Employee shall have received pay from the Company during that year for at least 170 hours, and provided further, that if such layoff or sick leave continues after that year he shall be credited with 40 hours for each complete calendar week of absence after that year provided that such Employee shall have received pay from the Company during that year for at least 170 hours, not to

exceed 1530 hours of credit for all such absence commencing with the calendar year in which the layoff or disability occurred.

- iii) an Employee with 10 or more years of seniority who is absent from work by reason of layoff, shall receive additional credited service of 40 hours for each complete week of layoff up to a maximum of 1700 hours of credit. This applies to employees who will have received the current maximum of 1530 hours of credit, and who continue to be absent thereafter due to such layoff.
 - iv) For the purpose of computing hours for which an Employee receives pay from the Company under this section, an Employee who, after December 20, 1990, shall be absent from work because of maternity or parental leave, as defined in the Ontario Employment Standards Act, shall receive future service credit based on 40 hours per week during such absence provided that no Employee shall be credited with service under this section after his employment has been terminated, and no Employee shall be credited with service for any week during such absence in which he has obtained other employment while on the leave of absence.
- c) In addition to the hours provided for above, an Employee shall receive future service credit based on hours:
- i) in periods during which he shall have been engaged in the business of, or working for, his Union local while on approved leave of absence requested by such local; and
 - ii) in periods during which he shall have held a position on the staff of the National Union while on approved leave of absence requested by the Union.

Such hours, for the purpose of this paragraph shall be counted at the rate of 40 hours per week for any period during such leave. Such periods of leave shall be unlimited provided the Employee qualifies as a "loaned employee" under the Income Tax Act.

- d) If an Employee who retired under the Plan or was retired under the Plan for reasons other than total and permanent disability is re-employed, such Employee shall not accumulate any additional creditable service on or after July 1, 1968 by reason of such re-employment.

Section 3.04 - Transfer Into Bargaining Unit

An employee outside the Bargaining Unit who shall, after July 1, 1968, transfer into the Bargaining Unit, and who shall retire under the provisions of this Plan shall be credited upon retirement with:

- i) his creditable service for the period following his transfer into the Bargaining Unit, plus;
- ii) either such creditable service as he would have been entitled to for the period prior to such transfer had he remained in and retired while in employment outside the Bargaining Unit under a retirement pension plan of the Company applicable to such employees, including him, with the effect that his retirement benefit under the Plan shall be computed as if the creditable service under both (i) and (ii) above had been attributable to employment in the Bargaining Unit, or, if he has not been under a retirement pension plan of the Company, such creditable service as he would have been entitled to for the period prior to such transfer had he been in employment in the Bargaining Unit during such period; it being

understood, however, that there shall be no duplication of creditable service for the same period of time, under seniority provisions or otherwise.

Section 3.05 - Purchase of Credited Service

The Company agrees that Employees will be allowed to purchase additional service credits for service prior to **January 1, 2005**. The maximum service that may be purchased is the difference between the Employee's service based on seniority date and their credited service. Employees may not purchase service for which they have already earned pension credit under any other plan.

In order to purchase additional service credits for service prior to **January 1, 2005**, Employees must make application during a two month period during **2005**, as specified by the Company. Members will have ninety (90) days, immediately following the cost being provided by the Company, to pay for these additional service credits into the Pension Trust Fund.

The cost of the additional service credits will be determined by the Plan actuary using assumptions agreed to by the Union, in a manner that is cost neutral to the Company. The employee will pay all costs directly.

ARTICLE IV - RETIREMENT

Section 4.01 - Normal Retirement

- a) An Employee shall be deemed to have reached normal retirement age on his 65th birthday.
- b) An Employee who shall retire at any time upon or after reaching normal retirement age shall be eligible for a normal retirement benefit as provided in Article V of the Plan.

- i) that he is totally disabled by bodily injury or disease so as to be prevented thereby from engaging in any regular occupation or employment with the Company, and;
 - ii) that such disability will be permanent and continuous during the remainder of his life.

It is provided however that the Spouse may elect to receive a lump sum payment equal to the Commuted Value at the date of death of any pension accrued from January 1, 1987 to the date of death in accordance with Section 5.01 and the survivor benefit otherwise payable will be reduced accordingly.

- b) If an Employee dies on or after December 31, 1986 with an entitlement to a deferred retirement benefit, and prior to his retirement date, and is not eligible for a survivor's benefit in accordance with Section 4.06(a) there shall be payable to the surviving Spouse or, if none, his named beneficiary, or, if none, his estate, a lump sum payment. In the event that the Employee's designated Spouse dies before the date on which the first pension benefit is payable, the survivor provisions will be automatically cancelled.

Where the Employee and his designated Spouse have waived the survivor provisions and the Employee dies before the date on which the first pension benefit is payable, the survivor provisions will be automatically implemented.

In the event the Employee's designated Spouse dies or, they are divorced by court decree, the terms of which do not expressly prohibit cancellation of the survivor annuity; or in the case of a common law relationship, terminate their cohabiting and residing together; after the date on which the first pension benefit is payable, such Employee may cancel the survivor benefit election and have his monthly basic pension benefit plus the temporary Special Allowance, if any, restored to the amount payable without such election, effective the first day of the third month following the month in which the Company receives (i) evidence satisfactory to the Company of the Spouse's death, or (ii) such Employee's written revocation of the election because of divorce or termination of their cohabiting and residing together, on a form approved by the Company and, if applicable, accompanied by evidence satisfactory to the Company of a final decree of divorce unless it is a

violation of applicable law or court decree.

The percentage to be used shall be 5% if the Employee's age and the age of his Spouse do not differ by more than five (5) years (the age of each determined as being the age at his or her birthday nearest the date on which the first payment of such Employee's benefit shall be payable). Such percentage shall be decreased by 1/2 of 1% for each year in excess of five (5) years up to 15 years that the Spouse's age exceeds the Employee's age, and shall be increased by 1/2 of 1% for each year in excess of five (5) years ~~ten (10) years~~ if the employee retires on or after **January 1, 2005**) that the Spouse's age is less than the Employee's age. The Retired Employee shall not receive any additional creditable service as a result of such Employment and his monthly benefits shall not be adjusted in any way with regard to such Employment upon subsequent cessation of Employment. This Section 5.10 is not applicable to a Retired Employee on disability retirement who recovers and returns to work.

Section 5.11 - Maximum Benefits

Notwithstanding anything contained herein to the contrary, at retirement, termination of Employment prior to retirement, upon marriage breakdown, or on termination of the Plan, the total amount of annual annuity (payable at Normal Retirement Date) to which an Employee shall be entitled under the Plan and any other registered pension plan sponsored by the Company, shall not exceed the lesser of (a) and (b):

- (a) 2 percent of the Employee's highest average indexed Compensation, and

Such maximum benefits are inclusive of any amounts paid out to the Employee's Spouse as a result of marriage breakdown.

For the purpose of determining an Employee's maximum pension, highest average Indexed Compensation shall be the average of the Employee's total indexed Compensation for the three (not necessarily consecutive) non-overlapping 12-month periods of highest indexed Compensation. The indexed Compensation of an Employee means the Compensation received by the Employee in a year adjusted to reflect increases in the average wage to the year of pension commencement, as defined under the Income Tax Act.

In no event will the amount of temporary benefits payable prior to age 65 be greater the sum of the maximum Old Age Security and Canada Pension Plan benefits which would be payable if the Employee were age 65, reduced if a Employee is less than age 60 at pension commencement by 0.25% for each month between the commencement date and the Employee's attainment of age 60. The maximum supplemental retirement benefit is also reduced, on a prorated basis, if the Employee has less than ten years of Credited Service. Notwithstanding the foregoing, in no event shall the annual amount of total retirement benefits payable to the Employee prior to the attainment of age 65 exceed:

- (a) \$1,722.22 or any defined benefit maximum permitted by the Income Tax Act, multiplied by years of Credited Service, plus
- (b) 1/35 of 25% of the average of the YMPE (or Earnings if less) for the 3 years immediately preceding retirement, multiplied by years of Credited Service, to a maximum of 35 years.

Section 5.12 - Benefits Prior to January 1, 1988

Anything to the contrary in the Plan notwithstanding, the amount of any benefit payable on and after January 1, 1985 and prior to December 31, 1987, shall be determined on the basis of the applicable provisions of the Plan in effect on January 1, 1985 subject to the provisions of the Act as applicable for the calendar year 1987.

If such person shall attempt to, or shall assign, charge, anticipate, give as security or surrender his benefits under the Plan or any part thereof, or if by reason of his bankruptcy or other event happening at any time such benefits would devolve upon anyone else or would not be enjoyed by him, then the Board in its discretion may terminate his interest in any such benefit and hold or apply it to or for the benefit of such person, his Spouse, children or other dependents or any of them in such manner as the Board may deem proper.

- b) No benefit payable at any time under the Plan is capable of surrender or commutation except as expressly provided herein and does not confer upon any Employee, personal representative or dependent, or any other person, any right or interest in the benefit capable of being surrendered or commuted.

- b) When the Company and Union members of the Board are deadlocked on an issue concerning the administration of the benefit structure of the Plan, then the Board shall appoint an impartial chairman who shall serve until such time as he may be requested to resign by three members of the Board. The impartial chairman shall be considered a member of the Board with power to cast the deciding vote.

Section 7.02 - Function

Section 7.03 - Jurisdiction of Board of Administration

The Board shall decide all such questions in accordance with the terms of the Plan and all such decisions of the Board shall be final and binding upon the Company, the Union, the employees and the beneficiaries or claimants under the Plan; provided, however, that the Board shall accept as final:

- i) the definition of Bargaining Unit as referred to in Article I above;

Section 7.04 - Powers

- a) The Board shall have such powers as are necessary for proper administration of the Plan, including the following:
 - i) To adopt and prescribe regulations and procedures to be followed by Employees in filing applications for benefits, and for the furnishing and verification of evidence and proofs necessary to establish Employees' rights to benefits under the Plan.

 - iii) To develop procedures for the establishment and verification of creditable service of Employees and, after affording Employees an opportunity to make objection with respect thereto, to establish such facts conclusively in advance of retirement.
 - iv) To obtain from the Company, from the Union and from Employees such information as shall be necessary for proper administration of the Plan.

Except on matters with respect to which the Plan itself specified otherwise, decisions of the Board shall be by a majority of the votes cast.

Section 7.06 - Compensation and Expenses

The Company and Union members shall serve without compensation from the Pension Trust Fund. The Company shall be responsible for the compensation of the Company members; the Union members of the Board who are Employees having regular Company duties to perform shall be permitted such absence from their regular Company duties as may be necessary for the performance of their duties as members of the Board and shall be compensated by the Company for time so lost from their regular Company duties. The Company and the Union each shall be responsible for the expenses of any expert or advisor selected by its members but not by the Board as such. The expense, if any, of the impartial chairman shall be borne in equal shares by the Company and the Union and the shares shall be paid direct to the impartial chairman by each. The Company shall contribute from time to time, but not less frequently than monthly, such amounts as are not less than those certified by the Actuary as required to provide the pension benefits accruing to Employees during the current year pursuant to the Plan and to make provisions for the proper amortization of any initial unfunded liability or experience deficiency in accordance with the requirements of the Act. No Employee shall make or be required to make any contribution to the Pension Trust Fund. The Pension Trust Fund shall be used to pay benefits as provided in the Plan as specifically authorized from time to time by the Board by procedures established pursuant to Article VII of the Plan and communicated to the Company; such benefits shall be payable only from the Pension Trust Fund. The fees and expenses of the Trustees shall be payable from the Pension Trust Fund.

All costs, charges and expenses incurred in establishing and administering the Plan shall be paid from the Fund unless first paid by the Company.

Any overpayment of a contribution by the Company shall, at the request of the Company, and with the consent of the Pension Commission of Ontario and any other appropriate regulatory authority, be refunded or paid to the Company, provided that the request is made in accordance with the Act and the Income Tax Act.

So long as the Agreement shall remain in effect, the Plan shall not be amended, modified, suspended or discontinued except as to such extent as may be proper or permissible under the Agreement.

Upon the termination of the Agreement, the Company shall have the right to continue the Plan in effect and to amend, modify, suspend or discontinue the Plan, except as may be otherwise provided by any subsequent agreement between the Company and the Union.

Notwithstanding the foregoing, it is hereby stipulated that (a) the Plan may be amended at any time to reduce the benefits provided in respect of an Employee; and (b) a contribution made under the Plan by the Company may be returned to the Company; to whatever extent necessary to avoid the revocation of the registration of the Plan. Any such amendments will require the consent of both the Company and the Union.

Section 9.02 - Disposition of the Pension Trust Fund

- a) In the event of discontinuance of the Plan, the assets then remaining in the Pension Trust Fund, after providing for the fees and expenses of the Trustee, shall be allocated subject to the provisions of any applicable legislation, to the extent that they shall be sufficient, for the purpose of paying benefits (based on creditable service to the date of discontinuance of the Plan) in the following order of precedence:
- i) To provide their retirement benefits to Employees who shall have retired under the Plan, former Employees who shall be receiving deferred vested pension benefits and Employees who have made an application, which is subsequently approved for a disability retirement benefit under the Plan prior to its discontinuance, to retired or former Employees or surviving Spouses with respect to such Employees who shall have elected a survivorship option under Section 4.06 (b) of the Plan, or to surviving Spouses eligible to receive benefits under Section 4.06 (a) of the Plan, without reference to the order of retirement.
 - ii) To provide normal retirement benefits upon Normal Retirement to Employees aged 65 or over on the date of discontinuance, without reference to the order in which they shall have reached normal retirement age.
 - iii) To provide deferred vested pension benefits to those former Employees eligible therefore who are 65 or over on the date of discontinuance of the Plan but who have not made application for the same, provided they make written inquiry to the Board regarding their interests within one year after the date of discontinuance of the Plan, without reference to the order in which they shall have reached the age of 65.
 - iv) To provide normal retirement benefits upon Normal Retirement to Employees who have met the eligibility requirements for Regular Early Retirement under Section 4.02 (a) of the Plan, on the date of discontinuance without reference to the order in which they shall have reached the age of 65.
 - v) To provide deferred vested pension benefits to those former Employees who would be eligible therefore upon timely application and who have attained age 60 or over but less than 65 on the date of discontinuance, provided they make written inquiry to the Board regarding their interest within one year after the date of discontinuance of the Plan, without reference to the order in which they shall reach the age of 65.
 - vi) To provide normal retirement benefits upon Normal Retirement to Employees less than age 60 and whose combined years of age (to the nearest 1/12) and creditable service shall total at least 60 on the date of discontinuance, without reference to the order in which they shall reach Normal Retirement age.
 - vii) To provide deferred vested pension benefits to those former Employees who would be eligible therefore upon timely application and who on date of discontinuance of the Plan are age 50 or over but less than 60, provided they make written inquiry to the Board regarding their interests within one year after the date of discontinuance of the Plan, without reference

to the order in which they shall reach the age of 65.

- viii) To provide normal retirement benefits upon Normal Retirement to Employees below the age of 50 not provided for in (vi) on the date of discontinuance, without reference to the order in which they shall reach normal retirement age.
 - ix) To provide deferred vested pension benefits to those former Employees who would be eligible therefore upon timely application and who on date of discontinuance of the Plan are below the age of 50, provided they make written inquiry to the Board regarding their interests within one year after the date of discontinuance of the Plan, without reference to the order in which they shall reach the age of 65.
- b) Deferred vested pension benefits shall be provided to a former Employee as set out in Clauses (iii), (v), and (vii) of Section 9.02 (a) only if such former Employee makes written inquiry regarding his interest within one year after the date of discontinuance of the Plan except, however, that such benefits shall be provided to the extent required by any applicable legislation to such former Employee who Terminated his Employment after December 31, 1964 and after he had attained age 45.
- c) If, after having made provision in the above order of precedence for some but not all of the groups listed above, the assets then remaining in the Pension Fund are not sufficient to provide completely for the benefits for persons in the next group, such benefits shall be provided for each person in such group on a pro-rata basis.
- d) Such allocation shall be accomplished through either;
- i) continuance of the Pension Trust Fund or a new trust fund, or
 - ii) purchase of insurance annuity contracts; provided, however, that the Board upon finding that it is not practicable or desirable under the circumstances to do either of the foregoing with respect to some or all of the groups listed above, may, with the unanimous consent of all of its members, provide for some allocation of a part or all of the assets of the Pension Trust Fund other than the continuance of a trust fund or the purchase of insurance annuity contracts with respect to any or all of such groups; provided, however that no change shall be effected in the order of precedence and basis for allocation above established.
- e) Anything in the Plan which might be construed to the contrary notwithstanding, however it shall be impossible at any time prior to the satisfaction of all liabilities with respect to Employees under the Plan for any part of the corpus or income of the Pension Trust Fund to be used for, or diverted to, purposes other than for the exclusive benefit of the Employees.

- f) The employees of the Company responsible for the day-to-day administration of the Plan shall use ordinary care and diligence in the performance of their duties, but no such employee shall be personally liable by virtue of contract, agreement, bond or other instrument made or executed by him or on his behalf as an employee of the Company nor for any loss unless resulting from his own gross negligence or wilful misconduct.

LETTER OF AGREEMENT: REDUCTION OF MONTHLY SUPPLEMENTARY PENSION

It is understood that there will be no reduction in any monthly supplementary pension due to the receipt or eligibility for an early retirement pension under the Canada Pension Plan and/or the Quebec Pension Plan, to age 65.

LETTER OF AGREEMENT: STANDARDS FOR APPLICATION OF PROVISIONS REGARDING RETIREMENT AT THE OPTION OF THE COMPANY OR UNDER MUTUALLY SATISFACTORY CONDITIONS.

Section 4.02 (b) of the Pension Plan provides that an Employee may be retired early at the option of the Company or under mutually satisfactory conditions providing he is eligible. In either case, the following standards have been adopted by the Company as a guide in the application of these provisions.

Standards:

- a) An Employee who is unable to work efficiently by reason of permanent disability:

The retirement must be in the best interest of the Company. It is also intended to benefit Employees who are unable to work efficiently by reason of permanent disability. It contemplates that the efficiency of operation will be improved by reason of the retirement which may be the case in any of the following situations:

- 1) The Employee is no longer physically or mentally capable of performing his work in an efficient and satisfactory manner.
- 2) The Employee, though still capable of performing his work satisfactorily, is prevented by chronic physical illness or physical disability (less than total) from working regularly to the extent that efficiency of operation is interfered with.
- 3) The Employee's condition, based on medical evidence satisfactory to the Company, is such that, although able to perform the duties of his job efficiently and satisfactorily, he would thereby be jeopardizing his health or that of fellow Employees.
- 4) The Employee is on disability leave or is laid off because he is unable to do the work offered by the Company efficiently and satisfactorily although able to perform efficiently and satisfactorily other work in the plant to which he would have been entitled if he had had sufficient seniority, and his condition, based on medical evidence satisfactory to the Company, is expected to be continuous until his normal retirement age.

- b) An Employee who is laid off:

Retirement at the option of the Company or under mutually satisfactory conditions will be available to an Employee who is laid off.

- i) as a result of a plant closing or discontinuance of operations; or

- ii) whose layoff appears to be permanent, and in either case has not been offered suitable work by the Company in the same labour market area.

LETTER OF AGREEMENT: REDUCTIONS IN PENSIONS DUE TO REVENUE CANADA RULES

The parties agree that if an Employee's or surviving Spouse's total pension benefit is reduced because of the application of Revenue Canada Rules then the Company agrees to pay such Employee or surviving Spouse a monthly payment equal to the amount of such reduction. By mutual agreement of the Company and the Employee, the monthly payment may be paid annually in advance or converted to an Actuarial Equivalent lump sum.

The determination of the Actuarial Equivalent of the reduction shall be made using the calculation basis similar to those specified in the Canadian Institute of Actuaries Recommendations for the Computation of Transfer Values from Registered Pension Plans (effective September 1, 1993).

The parties also agree to pay to an Employee a supplemental retirement benefit at age 65 equal to \$10.35 per month multiplied by the number of his years of Credited Service at retirement up to a maximum of \$310.50; reduced by the amount of any Canada Pension Plan entitlement. The maximum years of credited service shall be 30 and if the Employee was a member of another pension plan of the Company, the maximum benefit from all plans shall not exceed the maximums herein and the benefit shall be pro-rated over all plans.

LETTER OF AGREEMENT: Early Retirement Window

The Company agrees that the pension plan will be amended effective **January 1, 2005** and each subsequent January 1 up to and including **January 1, 2007** in order to provide an early retirement window to members with or who will attain thirty (30) or more years of credited service during the calendar year. Such early retirement window will allow members with thirty (30) or more years of credited service to retire with the Temporary Special Allowance regardless of age.

Members will have 60 days beginning January 1 of each year to choose whether or not to retire during that year. Members may elect to retire at the end of any month up to and including December 31 of the applicable year.

The Company agrees to provide each member who retires between **January 1, 2005 and December 31, 2007**, a one time lump sum payment calculated at **\$766.67** per year of service to a maximum of 30 years. This lump sum payment will not exceed \$23,000 and will be payable on his/her retirement date.
