When work is so performed, an employee is considered as having a multiple assignment to the jobs which he is regularly required to perform.
- 6.26 The Company and the Union will agree on a list of jobs to which an employee may receive a multiple assignment. This list may be added to or subtracted from by agreement between the Parties.
- 6.27 An employee having a multiple assignment shall be paid the applicable standard hourly rate for all time worked in each classification comprising the job.

- 6.32 If an employee with an out of line differential is transferred or assigned to another job and under the terms of this agreement a lower standard hourly rate is applicable, then the out of line differential shall be terminated.
- 6.33 If such employee referred to in 6.31 and 6.32 shall be returned to the job for which the out of line differential was established, the out of line differential shall be reinstated except as it may have been reduced or eliminated by 6.34.

- 6.37 If the change in job content results in a lower classification of a job any incumbent of such job at the date of such lower classification, shall receive an out of line differential equal to the difference between the standard hourly rate for the job before such change and the standard hourly rate thereafter. Such out of line differential shall be in addition to any other out of line differential an incumbent then has and shall be governed by the provisions of this Section.
- 6.38 Should the Company and the Union C.W.S. Committee be unable to agree upon the description and classification, the following shall be the procedure:

 - (a) The Company will prepare a record of such change to supplement the original job description and classification.
 - (b) Such record will be submitted by the Company to the Union C.W.S. Committee. It shall not be necessary for the Union C.W.S. Committee to indicate its agreement with such record. If he is appointed to the job in the new division, he will be transferred by the Company in accordance with the provisions of Clause 7.13 (b) of the Basic Agreement. Any such training shall be carried out in accordance with the provisions of the "Employee Training Program".

An employee displaced from a job in accordance with 16.03(b) above will be given preferential consideration for a vacancy in a Trade or Craft Apprenticeship or Assigned Maintenance Training Program, provided that the employee has the prerequisite qualifications as established by the Company.

For the purposes of this Clause 16.07, the provisions of the "Employee Training Program" relating to rates of pay for such training shall not apply during the period that an employee is entitled to a benefit under Clause 16.05 hereto.

16.08 (a) The Company will notify the Union in writing as soon as possible in advance of any technological change which may cause a displacement of employees from their jobs.

- (b) There will be a Union Technological Change Committee not to exceed four (4) employees, one (1) of whom will be the Union Presidentor his delegate, the other three (3) employees as selected by the Union. The Company Committee will consist of the Plant Manager and the Human Resources Manager or their delegates and two (2) other Company representatives.
- (c) Meetings between the two (2) Committees will be convened once every three (3) months at a mutually convenient date and time and more frequently on urgent matters as the case may be requested by either party. Time spent at such meetings by employees on such Union Committee will be paid at their average hourly rate during the preceding pay period.
- (d) The purpose of such meetings will be to review any technological change and matters which may arise out of such Technological Change as it applies to employees. In advance of such meeting, the parties will establish an agenda of matters to be discussed.
- (e) The Company will provide, as soon as practicable, the estimated time frame for the implementation of any technological change and will advise as to the number of employees potentially affected. Such estimates will be refined by the Company from time to time in subsequent meetings.
- (9) The Company will each year furnish the Union with a statement showing the net worth of the Technological Change Account and the amounts paid from the account during the preceding year.
- 16.09 In the event any major technological change which will affect a substantial number of employees is introduced during the terms of this agreement, the Company will meet with the Union six (6) months in advance of such implementation so as to review the application of the Technological Change Program with respect to the affected employees.

To this end, it is proposed that a committee be established when required **so** as to ensure an equitable administration of the Technological Change Program under such circumstances. It is acknowledged that such committee will have the authority to amend by mutual agreement of the committee, where appropriate,

the eligibility provisions of 16.03 and specifically 16.03(b). In this regard, the committee will consider the eligibility of employees who have been regularly performing jobs which are eliminated due to a technological change but who are not permanent incumbents of such jobs. For this purpose, an employee who had worked on such job(s) for at least one thousand and forty (1040) hours during the year immediately preceding such elimination, will be considered for an appropriate maintenance of benefit.

SECTION 17 TERMINATION

17.01 This agreement shall be in effect until July 31, 2008, and shall thereafter continue for a further period of one (1) year unless during the one hundred and ten (110) day period immediately preceding the expiration date, either party shall give written notice to the other that it desires revision or termination of this agreement at its expiration date. Where notice of revision is given, negotiations shall commence during the ninety (90) day period immediately preceding the expiration date.

Signed this 1st day of December 2005.

ITEM 9 LETTER OF AGREEMENT RE: CONTRACTING OUT

The parties recognize the seriousness of the problems associated with Contracting Out of work both inside and outside, and have accordingly agreed as follows:

The following provisions shall be applicable to all Contracting Out issues subject to, and arising on or after the effective date of this Agreement.

The Company and the Union agree to establish a Contracting Out Committee which will meet quarterly, or more often if required, to discuss issues of mutual concern relative to contract work. The purpose of such meeting will be to discuss and review with the Union Contracting Out Committee the particulars of the contracting out situation as follows:

In addition to the above, the Chairman of the Union Contracting Out Committee may, at any time, discuss as necessary with the Manager - Operations questions relative **to** contract work for the purpose of clarification.

In the event that an employee is laid off work in accordance with the provisions of the Basic Agreement, the Company will not contract out, subsequent to his layoff, and during his period of entitlement to recall, the work that such former employee previously performed, is qualified to perform or can be trained in a reasonable period of time to perform.

The parties primary objective shall **be** to minimize contract work through the use of the bargaining unit workforce.

None of the provisions of this Item commit the Company to any capital expenditure other than as it deems necessary (i.e. Buildings, machinery, mobile equipment).

ITEM 10 LETTER OF AGREEMENT RE: COST OF LIVING ALLOWANCE

- Effective with the first pay period following the release of the Consumer Price Index (1971 = 100 Base) for July, 2005, when compared to the Consumer Price Index (1971 = 100 Base) for April, 2005, for each thirty (30) cent increase, a cost of living allowance of one (1) cent per hour will be paid.
- Effective with the first pay period following the release of the Consumer Price Index (1971 = 100 Base) for each of the following months, when compared to the Consumer Price Index (1971 = 100 Base) for the respective months as shown below, for each thirty (30) cent increase, a cost of living allowance of one (1) cent per hour will be paid:
 - (i) October, 2005 compared to July, 2005
 - (ii) January, 2006 compared to October, 2005
 - (iii) April, 2006 compared to January, 2006
 - (iv) July, 2006 compared to April, 2006
 - (v) October, 2006 compared to July, 2006
 - (vi) January, 2007 compared to October, 2006
 - (vii) April, 2007 compared to January, 2007
 - (viii) July, 2007 compared to April, 2007
 - (ix) October, 2007 compared to July, 2007
 - (x) January, 2008 compared to October, 2007
 - (xi) April, 2008 compared to January, 2008
 - (xii) July, 2008 compared to April 2008
- Any increase in the cost of living allowance payable, as calculated above will be added to any cost of living allowance payable in the previous quarter. Any such allowance will be paid for straight time

- hours worked only and will not be paid for overtime hours, premiums or used as a basis *for* calculation of overtime.
- 4. Cost-of-living allowance payments made to an employee shall not be included for purposes of calculating an employee's vacation and statutory holiday pay entitlement. Hours not worked even though compensated in accordance with a specific provision of this Agreement and deemed to be hours worked for other purposes shall not be considered to be hours worked for the purpose of this provision. Cost-of-living allowance calculations will be made quarterly, in the middle of the month immediately following completion of each calendar quarter.
- It is the objective of the parties to roll cost-of-livingallowance soft floats into the Base Rate subject to the combined financial performance of Parkdale/Burlington Works during the life of the contract. Roll-ins shall be tied to performanceas

measured by the Basic Agreement Income Sharing Plan (I.S.P.) as identified in New Item Letter of Agreement Re: Income Sharing Plan for Bargaining Unit Employees.

In any quarter in which I.S.P. is paid to Parkdale Works, the year to date cost of rolling in the amount of the soft float will be deducted from the year to date I.S.P. earned payment and the soft float will be rolled into the base rate.

If the cost of rolling in the **soft** float in any quarter exceeds the I.S.P. for that quarter, the **soft** float will be rolled in only to the extent that the year **to** date cost of the roll-in can be met by the year to date I.S.P. payment. The remainder shall continue **to** be paid as a **soft** float.

Soft float shall be defined as year to date cost-of-living allowance payments not rolled into the Base Rate and paid for all hours worked. It shall not include hours paid but not worked and it is not included in overtime premium pay calculations.

Roll-in shall be defined as cost-of-living allowance payments added to base rates.

 Any cost of living allowance soft float accumulated under this Basic Agreement for the period August 1, 2005, to July 31, 2008, shall be rolled into the base rate upon ratification of the next Basic Agreement July 31, 2008.

- 7. The continuance of the cost of living allowance shall be contingent upon the availability of the relevant monthly Statistics Canada Consumer Price Index in its present form and calculated on the same basis as the Index for August 1, 1993 (1971 = 100 Base). No adjustment retroactive or otherwise shall be made in the Index by Statistics Canada during the term of this Agreement.
- 8. Any decrease in the cost of living allowance calculated from comparisons of the Consumer Price Indices in any of the quarterly periods specified in paragraph2 shall reduce the next accumulated cost of living allowance, payable under paragraph3 above, effective at the times specified in paragraph2.

ITEM 11 LETTER OF AGREEMENT RE: EMPLOYEE TRAINING PROGRAMME

The Company has always recognized the importance of providing training opportunities for employees **so** that they could improve their skills and advance to jobs of greater responsibility and higher pay.

Now, because of changing conditions, and in particular, changing technology, new approaches to and expansion of employee training are required. The Company has, therefore, agreed with the Union to expand and enlarge its efforts to provide training opportunities for employees **so** that they can equip themselves for advancement.

It is mutually recognized that there are many complicated practical problems involved and enlargement of training opportunities must, therefore, be approached on an experimental basis and on the understanding that certain procedures or methods may not work satisfactorily and might have to be changed from time to time, and others tried.

On this basis the Company has agreed with the Union to expand the scope of opportunities for training, and the parties agree to co operate to this end as follows:

Apprenticeship

If practical and subject to operational requirements, the training of journeymen through apprenticeship will be increased by enroling

 $additional \, apprentices \, in \, existing \, Apprentice \, Programmes.$

Trade or Craft

The existing procedure is that trade or craft employees, other than graduates from the Apprentice Programmes, are required to take trade tests in all cases before being upgraded. It is agreed that henceforth the qualifications required for upgrading toward a higher rate will be determined by supervisory assessment. If supervision determine that the employee does not have the necessary qualifications for advancement, the results of the determination will be discussed with the employee and suggestions as to how qualifications might be improved will be made, and ways and means of carrying out such suggestions will be explored with the employee.

If the employee does not agree with the determination made, he may request and shall receive a trade test.

Production

The Company is prepared to increase training opportunities for employees in addition to the current normal training already being accomplished. Such training will take place as follows:

An employee who wishes to move to a different line of work within his own division may apply in writing to the Operations Manager for the necessary elementary training. If the employee has the basic qualifications for such training, he will be accepted for training in order of seniority at such time as may be determined by the Division Manager. To the extent that it is practicable, the employee and the Chief Steward will be told when he might expect the training to commence. If he is successful in such training in a reasonable period of time his qualifications will be posted and he will return to his previousjob pending a permanent vacancy.

Rates of pay for such training will be in accordance with the learner provisions of the Basic Agreement.

No employee will be trained for more than one (1) job, but if after one (1) year the employee has not been permanently assigned to the job for which he was trained, he may request to be trained for some other job or given a refresher period on the original job. Similarly after an employee has been permanently assigned to a job for which he received training

under these provisions he may request training for some other job after one (1) year following his assignment.

If the employee is unsuccessful in such training, he may request to be trained in some other job in line with his qualifications.

Other Occupations

The Company will explore the possibilities of improving training opportunities for assigned maintenance, service groups and other occupations not specifically referred to in this programme.

Trainee Requirements

An employee who receives training on production or other occupations will be required to:

- (a) Complete the prescribed number of learner periods.
- (b) Apply for any posted job vacancy in the job for which he has been successfully trained.

Technological Change

Both parties recognize the importance of lessening as much as reasonably possible the effects of technological change upon the job security and the earnings of employees older in service who may be displaced from their jobs as a result of such change. If any such employee incurs any substantialloss of earnings because of lack of training, the Company will give special consideration to retraining him with a view to attaining as closely as possible the job classification level which he held before displacement.

Outside Educational Courses Tuition Reimbursement Programme

The Company proposes to increase its promotion of this programme whereby employees are encouraged to improve their vocational development in the Company through educational courses. Where the employee attends such a course with the advance approval by the Company, he will be reimbursed to the extent of one half (1/2) of the regular tuition fees upon evidence that he has satisfactorily completed the course. Where the Company instructs the employee to take a course as part of his job duties, all expenses will be paid by the Company. Extension courses offered by accredited universities, high schools, technical training centres, and professional associations are eligible. To be approved by the Company, the course must be of a type that can

reasonably be expected to improve the performance and development of employees in relation to their careers in the Company but is not required to be wholly vocational.

Governmental Training Assistance & Educational Programmes

The Company will explore the feasibility of providing programmes of instruction facilitate any required upgrading of basic educational qualifications. Various levels of government have in recent years increasingly concerned themselves with industrial training. The Company commits itself to investigating the various training facilities of the Ontario and Federal Departments of Governments and utilize such facilities and services to the extent that it is practicable. In addition, the Company will continue to explore the feasibility of making additional programmes of instruction available to employees in order to upgrade of basic educational or trade qualifications.

In view of the experimental nature of this programme, it is understood it does not constitute part of the Basic Agreement. While differences of opinion and mutual problems will be discussed by the Company with the representatives of the Union from time to time, at the request of either party, it is agreed that nothing herein shall be subject to the Grievance Procedure nor shall it be arbitrable.

The Company commits itself in good faith to endeavour to solve the many complex problems of training. While this programme is to be regarded as experimental and thus subject to change as the result of experience, it is understoodthat such portions as may be found to be practicable and mutually acceptable will be incorporated in the next and subsequent Basic Agreements.

Company Posted Training Opportunities

- When the Company deems the need for training on a job, an opportunity to train for such job vacancy will be posted and filled considering a) service b) physical fitness. Where factors a) and b) are relatively equal, factor a) shall govern.
- If there are no applicants to the "Training Vacancy", nothing herein shall preclude the Company from assigning the junior employee in the division who is occupying a lower job class to the training vacancy after canvassing junior employees and discussing the circumstances with the Union.

- If the Company trains an employee for other than a permanent job vacancy, nothing herein shall preclude his right to return to his former job upon completion of his training period.
- 4. Employees shall not be considered for training vacancies more than once (1) per calendar year unless agreed to between the parties.
- 5. An employee appointed to a training vacancy will be required to complete the training on the essential duties of the job.
- An employee appointed to a training vacancy will be required to apply for any vacation relief vacancy or permanent vacancy in the job description for which he has been trained during the current and subsequent calendar year.

ITEM 12 LETTER OF AGREEMENT RE: TEMPORARY TRANSFERS

The Company will not require an employee to return to his original job for one (1) shift solely to circumvent the time provisions of Clause 7.13.

ITEM 13 LETTER OF AGREEMENT RE: WIRE MILL CREWING

With regard to wire drawing and nail cuttingjobs, the Company will not change the composition of job assignments on any given shift even though on such shift there may be short temporary conditions such as machine downtime. However, in the event of urgent operational requirements, the Company may change the composition of job assignments upon discussion between the Division Head and Chief Steward.

In establishingjob assignments, the Company will give full consideration to the practical size of the work area on each job assignment and will avoid, where possible, assigning machinesto an operator outside of a contiguous line of machines.

The Company will provide the Union with lists of job assignments for wire drawing and nail machine jobs. These crewing of job assignments will be in accordance with the Basic Agreement and this letter. The Company will give the Union as much notice as possible of any changes or additions to the listed job assignments.

ITEM 14 LETTER OF AGREEMENT RE: EMPLOYEE'S SERVICE FOR RECALL PURPOSES

The following example confirms the understanding between the Company and the Union with regard to the interpretation of service for recall purposes:

The issue is best demonstrated by the following examples:

Employee A - Company Start Date – January 1, 1977 Employee B - Company Start Date - April 1, 1977 On January 1, 1980, A and B were laid off indefinitely. "A" was recalled to work on July 1, 1981 and was laid off July 31, 1981.

In accordance with the terms of the Basic Agreement, 'A" was given credit for the first twelve (12) months of his layoff. The result was an adjusted Company Start Date for 'A" of July 1, 1977 (i.e. he received no credit for the layoff from January 1 to June 30,1981).

On November 1, 1981, there was an increase in operations which required the recall of one employee either "A" or "B".

'A" – Adjusted Company Start Date – July 1, 1977 "B" – Company Start Date – April 1, 1977

It is clear from this example that 'A" would suffer a real inequity if his adjusted company start date were compared directly to "Ebb's company start date. Such a comparison would reverse the relative seniority position of the two employees.

The key consideration in such a comparison must be the amount of accumulated service rather than a relative start date which does not necessarily reflect an employee's service for "recall purposes".

In determining a laid off employee's service for recall purposes, the comparison should be the amount of service between the employee's (adjusted) company start date and his last date of layoff.

Service for Recall Purposes

EmployeeA: July 1, 1977 to July 13, 1981 = 49 months EmployeeB: April 1, 1977 to January 1, 1980 = 33 months It is clear from the above calculations that "A" continues to have more service and is the employee who should be recalled.

ITEM 15 LETTER OF AGREEMENT RE: TOOL ALLOWANCE

The Company will determine and supply those tools required by an apprentice enrolled in a Trade or Craft apprenticeship course and an employee receiving training under an Assigned Maintenance Training Programme, where the total cost of such tools equals or exceeds one hundred and fifty dollars (\$150).

An individual whose employment is terminated prior to or within three (3) years following the successful completion of his apprenticeship course or training programme will be required to reimburse the Company fifty percent (50%) of the cost of such tools. The Company will also pay fifty percent (50%) of the cost of a required tool which is broken in the performance of normal duties by a Trade and Craft or Assigned Maintenance employee where the total cost of the tools required by such employee equals or exceeds two hundred (\$200) and where the cost of the broken tool exceeds ten dollars (\$10) up to a total annual cost of one hundred and fifty dollars (\$150). The broken tool must be submitted at the time the employee obtains a replacement tool.

Where, in accordance with the above provisions, the Company requires an employee to purchase metric tools, the Company agrees to subsidize the cost of such tools less any government rebate to which the employee may be entitled.

The Company will determine, select, order, and make available as it considers necessary, such tools for purchase by Trade and Craft and Assigned Maintenance employees.

ITEM 16 LETTER RE: PERSONS HIRED FOR VACATION RELIEF

Notwithstandingthe provisions of Section 7 of the Basic Agreement, persons hired for summer relief will not acquire service and may be terminated by the Company at any time. It is agreed that the termination of a person hired for vacation relief will not be subject to the grievance

and arbitration procedures.

In addition, persons hired as summer relief will not be eligible to participate in the Group Insurance Program.

In the event that a former employee with recall rights is hired as vacation relief, it shall be understood that his hiring is not the result of a permanent vacancy under clause 7.10, and therefore he will not be considered to have been recalled under the provisions of Section 7. Such former employee will be eligible to participate in the Group Insurance Plan, notwithstanding the other provisions of this Letter, as of his hiring date under this Letter. In the event that he is subsequently recalled and rehired under clause 7.11, his service shall include service during any period of employment as vacation relief.

Notwithstanding the terms of this Item, where former employees with recall rights to other plants are hired as vacation relief, it will be the policy of the Company that they are eligible to participate in the Group insurance Program as of their hiring date as vacation relief.

In the event that a vacation relief employee is hired under the terms of clause 7.02 in the same calendar year, such employee shall accumulate continuous service from the date of hiring as a vacation relief employee in that calendar year, less the period of layoff.

It is understoodthat persons hired for vacation relief will be limited to the week beginning the first Sunday in June to the week beginning the third Sunday in September unless mutually agreed between the parties. Persons hired for vacation relief may be required for training prior to the first Sunday in June provided there are no employees on layoff.

ITEM 17 LETTER OF AGREEMENT VACATION RELIEF VACANCIES

(1) Where it can be determined that a vacancy exists for the purpose of "Vacation Relief, notice of such vacancy will be posted and filled in accordance with 7.10 (a). Any employee in the Division concerned may apply in writing to his supervisor within such three (3) working days.

Only fully qualified applicants will be considered for Service Division postings.

- An employee appointed to a "Vacation Relief" vacancy will be required to:
 - (i) Fill any "vacation relief" vacancy and/or long term absences in the job description to which he is appointed for the calendar year in which he is required for vacation relief.
 - (ii) Apply for any posted permanentjob vacancy in the job description for which he is assigned as "vacation relief" in the calendar year, if he has to be trained for the job.
 - (iii) Complete the prescribed number of learner periods.
- (3) It is agreed and understood that an employee may not hold more than one (1) "vacation relief" assignment for a calendar year but may apply for any new occupation vacation relief vacancy not previously posted for that calendar year.
- (4) When a "vacation relief" job is no longer required by the Company, the employee appointed to such job will return to the job on which he is a permanent incumbent.
- (5) While occupying a "vacation relief" job, an employee may apply for a permanent vacancy in accordance with the relevant provisions of the Basic Agreement. For the purpose of consideration for a permanent job vacancy, he will be considered as currently occupying the job on which he is a permanent incumbent.
- (6) An employee who is temporarily transferred while occupying a "vacation relief" job will be paid in accordance with Clause 6.45. For the purpose of Clause 6.45 his "regular job" will be the job on which he is a permanent incumbent.
- (7) For the purpose of point (6) above, an employee is a permanent incumbent of a job which he is occupying as a result of:
 - (i) Appointment to a permanent vacancy
 - (ii) Transfer in lieu of layoff
 - (iii) Permanentlytransferred

ITEM 18 LETTER OF AGREEMENT RE: MULTIPLE ASSIGNMENT

The following are the jobs to which an employee may receive a multiple

assignment as of August 1, 1996:

Multiple Assignment Job A

No.14 Tractor Operator Hi Lift J.C.9 No.24 Utility Man - Service J.C.5

It is understoodthat if the Company cancels any multiple assignments because of the conditions under which they were established being changed or discontinued, or by mutual agreement under the provisions of 6.26 of the Basic Agreement, new multiple assignments may be substituted, provided that there is prior discussion with the Union and provided further that such new multiple assignments are established consistent with and conforming to the principles on which the above multiple assignments were based. However, it is understood that the number of multiple assignments in effect at any one (1) time shall not exceed five (5) without the consent of the Union.

The above confirms our agreement regarding multiple assignments.

ITEM 19 LETTER OF AGREEMENT RE: SCHEDULING REQUIREMENTS

In the event that the Company is unableto satisfy its requirements for overtime where six (6) or seven (7) day operations are required the Company will discuss the scheduling requirements with the Union and explain the reason for such requirements with a view to finding a satisfactory solution. In the event a solution cannot be found, the Company will implement an alternate solution such as the hiring of temporary employees including students. Such temporary employees will not be entitled to the payment of overtime rates solely by reason of working on Saturday or Sunday.

ITEM 20 12 HOUR SHIFT AGREEMENT

IMPLEMENTATION AND APPLICATION

This letter sets out the conditions under which the parties agree to implement schedules **of** working hours, designated as the "T" schedule or "X" schedule and attached hereto as Appendix "A" and "B" respectively, applicable only to employees assigned to operations scheduled for one hundred and sixty-eight (168) hours per week or one hundred and sixty (160) hours per week.

It is understood that the Company may implement a schedule which is not identical to the schedule set out in Appendices "A" or "B", however, such schedule will be similar in pattern to these attached schedules and this letter will apply to such similar schedules.

It is understood that this Agreement covers all employees who are working schedules in the same pattern as the "T" Schedule or "X" Schedule. The provisions of the Basic Agreement will apply to employees who work eight (8) hour shifts.

The Company may institute schedules under this Agreement for a six (6) month trial period. At the conclusion of such trial period, in order for the scheduleto continue, the Company and Union will jointly canvass or conduct a vote of employees affected by the schedule to determine whether they wish to continue the twelve (12) hour shift schedule, requiring the consent of sixty (60) percent of the affected employees to confirm the continuation of the schedule.
