APPENDIX 5

JOINT STATEMENT OF POLICY GOVERNING THE PREPARATION AND APPLICATION OF JOB DESCRIPTIONS

(Reference – Section 27.02)

1. Introduction

Job Descriptions govern the classification of employees and their work assignment. It is therefore necessary that there be clarity and consistency in the preparation, interpretation and application of Job Descriptions and the following basic principles have accordingly been agreed to and adopted.

2. Job Titles

Each occupation into which an employee may be classified is referred to by a Job Title. The Job Title, though indicating as clearly as possible the general nature of the work performed, serves only as a distinguishing reference and is not to be taken as a statement of job content.

3. Job Description

A Job Description has the following objectives:

- (a) It must set out the results of accurate observation of the job and of correct analysis of its elements in such a way that a proper understanding of the whole job is presented; work which may normally and regularly be required of an employee in the classification must be contained in the description either explicitly or by unmistakable implication;
- (b) It must distinguish the given job from all other jobs; to do this the elements or particular combination of elements, which identify the occupation, or grade of the occupation must be recognized and clearly stated;
- (c) It must describe the work or types of work which establish the 'level of difficulty';
- (d) It should clearly convey its intended meaning to all who are concerned in its use – it must therefore be written in clear, simple, consistent terms.

4. Glossary

(a) Words, terms and phrases must consistently bear the same meaning every time they are used in, or in reference to, Job Descriptions. A Glossary of agreed definitions accompanies and is part of this Statement of Policy.

Words not defined in the Glossary bear their meaning as in common usage, and in disputed meanings Webster's New Collegiate Dictionary shall govern.

- (b) Words, etc., for which special definitions are provided in the Glossary must never be used in any other sense.
- (c) Revisions and additions to the Glossary will be mutually agreed both as to content and application.

5. General Assumptions

(a) Generally accepted industrial or Company Shop practice is assumed in writing Job Descriptions and does not require to be spelled out.

(b) Where an operation or a machine is referred to in the singular such reference does not limit or restrict the description to call for the performance of a single operation of a single machine.

(c) When expressions such as those listed below, or references to similar incidental work, appear in a Job Description it is understood that they do not involve work of a higher 'level of difficulty' than is otherwise implied in the Job Description in which they occur.

'Perform rework'

'Fabricate and assemble shop aids'

'Prepare sketches'

'Lay out'

6. Company-Wide Application

If the same job exists in more than one Department of the Company the same Job Description shall be provided for the job in each Department.

7. Classification of Employees and Work Assignment

- (a) An employee will be classified on the basis of the work that they normally and regularly perform; they are correctly classified if the distinguishing elements in the Job description for their classification are recognizable in the work normally and regularly assigned to them
- (b) An employee is not necessarily required to perform all the work contained in the Job Description for their classification, provided they are doing the work that distinguishes the classification.
- (c) A Job Description will not necessarily describe in detail all the tasks or duties normally performed by all the employees or by every individual Employee classified thereunder; if a task or duty is unmistakably implied in the Job Description it may be part of an employee's normal and regular work assignment.
- (d) An employee may occasionally be required to perform work not contained in the Job Description for their classification, provided it is related to their normal work; such work must not be made their permanent work assignment without review of their classification.
- (e) The highest 'level of difficulty' of work normally assigned to an employee governs his classification; intermittent work must therefore be considered part of an employee's normal and regular work assignment if they are required to perform it every time it occurs, even though at infrequent or irregular intervals. However, work assignments, which are irregular in nature, are not a proper basis for classification. If such a work assignment is of more than one (1) shift in duration, the employee will be paid the highest rate properly applicable to the work or the rate for their regular classification, whichever is the higher.
- (f) The Company's right to assign work as it deems proper and necessary is not restricted and an employee has not the right to refuse whatever work is assigned to them. If they think it is work, which under their classification should not be assigned to him, they have the right to present a grievance to this effect under the grievance provisions of the Collective Agreement.
- (g) An employee may not claim classification on the basis of performance of unassigned work.
- (h) As part of the upgrading procedure an employee may occasionally perform some of the work of higher-rated jobs under close guidance and instruction in order to qualify for advancement.

SUPPLEMENT TO APPENDIX 5

JOINT STATEMENT OF POLICY

– PARAGRAPH 4

GLOSSARY OF TERMS USED IN DESCRIPTIONS

ADAPTS – means to utilize for other purposes than originally intended.

AS REQUIRED – means performance of work operations if and when such are necessary as long as they are within the level of difficulty described.

ASSISTS (or HELPS) – means to help or aid other employees in the performance of certain work but not to exceed the level of difficulty set forth in the job description as per their classification. The assisting worker is not expected to work wholly independently, but rather co-operatively and, further, is entitled to and should receive the guidance and instruction considered usual and normal under such circumstances.

CAPACITY – as used with regard to the operation of machine tools and fabrication machines means the full utilization of the particular category of tools and equipment specified in accordance with custom and current operating and maintenance practices throughout the plant. It is recognized that the above will not necessarily include every machining or fabrication operation for which any particular type of equipment was designed by the machine tool or fabrication machine manufacturer.

CHECK, CONTINUITY – means to check electrical circuits for the flow of electrical current or to check hydraulic or other pressure lines for flow and absence of leaks. Continuity checks are made without ships' power and are accomplished by means of visual check or standard techniques.

CHECK, FUNCTIONAL – means to determine or ascertain whether a unit of or portion of a system performs the function for which it is intended and whether rework or alteration is required.

CHECK, OPERATIONAL – means making a complete final check of an entire completed independent system or a major unit thereof to determine if it is operating properly. Examples include a complete electrical system, hydraulic system, surface control system or the engine controls. It implies as necessary a thorough knowledge of the shop theory involved.

CHECK, VISUAL – means detecting with the naked eye, or with such aids as mirrors, obvious defects and imperfections; its use implies sufficient knowledge and familiarity on the part of the worker to make the required identification. Such check would uncover incomplete assembly (missing parts or operations), visible surface cracks, badly driven rivets and similar conditions.

FAMILIARIZATION – is the ability to know the infrastructure supporting the skill, i.e. location of tools, drawing process, procedures etc. and is not training.

FOLLOW THROUGH MACHINING OPERATIONS – means the worker specifies the necessary machining operations on first-off parts and checks to see that they are being carried out correctly.

HAND TOOLS – includes those portable tools used by hand by the workman in the normal performance of duties and tasks of the occupation in which he works.

HOLDING FIXTURES – refers to tooling designed to hold the work so that machining, installations, assembly or layout operations are facilitated.

IMPROVISE – means to contrive or make use of makeshift tooling and/or methods to meet immediate needs or requirements.

INCIDENTAL TO THE WORK – means directly related to and essential to the assigned work but not involving a higher level of difficulty than is determined by the job description.

JOB STANDARD – means the quantity and quality of work output turned out by a competent journeyman (or equivalent) employee.

MAINTAIN SET-UP – as referred to in Operator, Grinder 'B' classification means dressing the wheel and making the allowance necessary to compensate for the thickness of material removed from the stone. In other classifications it includes work of a similar level of difficulty; such as replacing worn or damaged tools, etc.

MAY when used as the first word of a sentence or phrase means that the function is performed by some of the personnel holding the classification or that the function is occasionally performed.

PRODUCTION OR SHOP AIDS – are devices initiated and made by the worker to facilitate work operations, increase production or reduce elements of fatigue or strain. Such devices are usually simple but ingenious in nature.

RUNNING MAINTENANCE – means minor repairs and adjustments, which do not involve stripping the machine or shutting down for a long period; such as adjustment of points and clutches, replacement of belts, hoses, etc.

TACK WELDING – as applied to the Millwright classification is defined as follows:

Applications of a sufficient quantity of weld to hold the particular structure or assembly in place so that the Millwright can move from that particular part of his work and proceed with their job using the same technique so that the flow of work is uninterrupted. This system of course would only be used when a Welder is not available, or where it is not practical for the Welder and Millwright to interchange positions for the tack weld.

WHEN REQUIRED – means that the work operation, function or job duty is usually and normally performed after or as a direct result of an order or request from recognized supervisory personnel and/or means that it is required infrequently or when exceptional circumstances exist.

ORAL INSTRUCTIONS – means job direction given by the spoken word as distinct from written direction.

TRAINEE – means a person who by virtue of past experience and/or education has demonstrated an ability to learn or adapt, but who has not gained the skills required for his proposed classification.

SUPPLEMENT TO APPENDIX 5

JOINT STATEMENT OF POLICY

The exercise of the Conversion Privilege shall be in lieu of all other benefits under the group policy and the converted policy shall be issued on receipt of an application on the insurer's form during the lifetime of the employee and while the group policy is in force.

8. TOTAL AND PERMANENT DISABILITY BENEFIT

If due proof shall be furnished to the insurer that any employee insured under the group policy has while such insurance on such employee is in full force and effect, become wholly and permanently disabled by bodily injury or disease, and has been, is, and will be permanently, continuously and wholly prevented thereby from performing any work for compensation or profit, or from following any gainful occupation, the insurer will on receipt of such proof pay in full settlement of all obligations in connection with such employee under the group policy, the amount of insurance effective on his life at the date on which such disability commenced, in one sum or in instalments, as the Employer may elect. Payment to such employee or any person to whom the insurer may pay in the event of the death of such employee shall be a valid discharge of any amount payable on account of such

total and permanent disability. No payment under this provision shall be made unless formal claim therefore shall be made while the group policy is in full force and effect not later than three months after the cessation of payment of premiums in respect of such employee.

Provided always that notwithstanding proof of disability may have been accepted by the insurer as satisfactory, the employee, if payment by instalments shall have been elected, shall as often as required furnish satisfactory proof of the continuance of such disability. If the employee shall fail to furnish such proof, or if he shall so far recover as to be able to engage in any gainful occupation then no further instalments shall be paid but insurance on the life of such employee may be then revived under the group policy but shall be limited in amount to the value of the instalments then remaining unpaid at three and one half per cent interest.

Without prejudice to any other cause of disability, the entire and irrecoverable loss of the sight of both eyes, or the total and permanent loss of use of both hands, or of both feet, or of one hand and one foot, shall be considered as total and permanent disability within the meaning hereof.

The employee shall not be covered for total and permanent disability during any period for which he/she receives or is eligible to receive Weekly Indemnity benefits under the group insurance program, Appendix 9 herein or Long Term Disability benefits, Appendix 11 herein.

The Total and Permanent Disability Benefit is alternative to and not in addition to the Death Benefit. Consequently if a claim shall have been admitted under the Disability Benefit, no payment shall be due on the subsequent death of the employee other than the value of any of the instalments not yet paid.

This Appendix 10 is a summary of the principal features of the Life Insurance Plan, but the group policy is the governing document. In the event of any variation between the information in this Appendix 10 and the provisions of the policy, the latter will prevail.

LONG TERM DISABILITY INSURANCE

(Effective 1/1/85)

Commencement and Duration of Benefits

First benefit is payable after

- 1) Weekly Indemnity and,
- 2) U.I.C. sickness and accident benefits have expired.

An employee will continue to receive LTD payments for as long as his/her disability continues, but not beyond an employee's 65th birthday or early retirement date should an employee exercise this option, for a period not exceeding 193 weeks.

LTD benefits will be paid for the first two years following commencement of payments, if an employee is unable to perform his/her regular work. After two years, LTD benefits will continue as long as disability prevents an employee from performing any work for which he/she is or can become reasonably suited by education, training or experience, but not beyond an employee's 65th birthday or early retirement date should an employee exercise this option.

Amount of Monthly LTD Benefit

Effective January 1, 2009; the plan will provide a monthly benefit, before co-ordination with other income, of \$2,200.00 per month.

LTD Insurance payments will be reduced by any amount payable from

- Workers Compensation or similar program
- Other employers (excluding 50% of earnings during the first 24 months of rehabilitative employment)
- Any other government or company sources.

It is further provided that total income from all sources including LTD benefit under this plan and rehabilitative employment income cannot exceed an employee's pre-disability income.

Rehabilitation Feature

As an incentive to encourage an employee to return to gainful employment, prior to full recovery after a total disability, certain work may be performed without forfeiting benefits under this program. This plan allows an employee to receive increased income in connection with work performed in an approved rehabilitation program. The LTD Insurance shall be co-ordinated with only 50% of the earnings received during the first 24 months of rehabilitative employment provided an employee's total income during a rehabilitative program does not exceed his/her pre-disability income.

Other Benefit Provisions and Limitations

- To qualify for LTD benefits, an employee need not be confined to home, but must be under the continuous care and personal attendance of a physician (M.D.)
- This plan provides coverage for disability resulting from an accident or from sickness (except certain mental disorders). While the plan does cover absence from work due to psychosis (i.e. a serious mental disease or derangement) for which continuous treatment is received from a physician who is certified in psychiatry, it does not cover absence from work due to any other mental illness, such as psychoneurosis, emotional disorders, personality problems, behavioral disorders or anxiety reactions.
- This plan does not provide benefits for disability resulting from pregnancy, intentionally self-inflicted injury, war or injury sustained while working for another employer or while committing or attempting to commit an assault or crime.

Successive Disabilities

Successive absences from work are considered to be in the same period of disability unless separated by

- 1) six months of active full-time work or
- 2) One full month of work and due to wholly different causes.

Work performed under a rehabilitation program will not be considered in determining successive periods of disability.

Conversion Privilege

In the event of termination of employment, an employee may apply for an individual LTD policy (one of the standard conversion policies offered by the insurer) without taking a medical examination. Application must be made within one month of the ex-employee commencing a new job and the new job must commence within six months of the date of his/her termination with the Company.

This Appendix 11 is a summary of the principal features of a plan which will be purchased from an insurer and which will be effective on January 1st, 1985 and which will be applicable to all employees actively at work on that date and shall specifically

include employees receiving Weekly Indemnity benefits under the existing coverage provided by the Weekly Indemnity clause of the group insurance program described in Appendix 9 herein.

This Appendix 11 is a summary of the principal features of the plan, but the group policy shall be the governing document. In the event of any variation between the information in this Appendix 11 and the provisions of this policy, the latter will prevail.

CO-ORDINATION OF BENEFIT

Re: Weekly Indemnity, Long Term Disability and Life Insurance Programs.

(a) Commencement of disability (WI Benefits) prior to an employee's 60th birthday. Such employees will if the disability is prolonged, qualify for benefits in the following sequence:

30 Weeks	WI
15 Weeks	U.I.C.
22 Weeks	WI
193 Weeks	LTD

If totally and permanently disabled at the end of this 5-year period, such employee would also qualify for TDB benefits (Life Insurance Program).

Furthermore, during the 5-year period, the employee would be granted leave of absence and would therefore qualify for other Company paid benefits, i.e. O.H.I.P., Dental, Semi-Private Coverage, Drugs, etc.

(b) Commencement of disability (WI Benefits) subsequent to an employees 60th birthday.

If at the end of or during the combination period of WI Benefits/U.I. Benefit, an employee is pronounced by his medical authority as being Totally and Permanently Disabled, this employee shall make one of the following options which once made shall be irrevocable:

(i) At the expiry date of the WI Benefit, the employee waives rights to claim LTD Benefits and will be supplied with appropriate documentation to apply for Permanent Disability Benefit (Life Insurance). Upon approval of such application by the insurance company, such employees employment shall be terminated and all other benefits shall terminate at the end of the month in which employment is terminated - Exception: A qualified employee may apply to have Company non-contributory pension benefit paid on the basis of early retirement with the amount of the benefit reduced in accordance with the terms and conditions of the plan. An application for early retirement pension benefits subsequent to termination of employment following approval of a claim for Total & Permanent Disability shall not be construed to be early retirement as defined in Article 34:00 paragraph (b).

(ii) At the expiry date of the WI benefit, the employee waives rights to the Total and Permanent Disability benefit (Life Insurance) and will then qualify for LTD benefits during the duration of his/her disability and upon reaching retirement age shall be retired in the normal manner. During the period of disability an employee shall be granted leave of absence and shall qualify for benefits as described in Paragraph (a).

Prior to the completion of the waiver document, the employer and the Union shall jointly undertake to ensure that the employee is fully apprised of the condition that would apply following his/her decision.

Acceptance of benefits through the LTD program shall not prevent an employee from making application for Disability Benefits, if qualified, from the I.A.M. Labour/Management Pension Plan.

Nothing herein shall preclude employees from exercising an option of recall in accordance with Article 13:11 (b).

- This Committee to consist of: Co-ordinator Training Officer
 - Local 717T Two (2) members
 - Management Two (2) members

- The seniority, layoff and recall clauses of the Collective Agreement are to reflect the intent of this letter of clarification.

EMPLOYEE ACCOMMODATION

Where the Company is required to accommodate an employee's disability under the Ontario Human Rights Code or is participating in the rehabilitation of an employee returning to work from an absence covered by the Workers' Compensation Act, the parties agree to cooperate to the best of their ability to facilitate such accommodations and the Company, notwithstanding any provisions of this Agreement, may adjust its working forces to so accommodate or rehabilitate such an employee. In such cases the following shall apply:

- (a) The employee shall have an obligation to keep the Company and the Union informed at all times of the nature of their disability or injury, the treatment they are receiving and the expected prognosis for recovery.
- (b) The employee shall cooperate with the Company and the Union in reporting for the modified work promptly and, in the event they are unable to perform the modified work, shall immediately provide the Company and the Union with a satisfactory medical report explaining the inability to perform the modified work and the nature of the employee's work restrictions;
- (c) Each employee has the obligation of attending work regularly and predictably. Where an employee is unable to attend work because of illness or injury, the employee must notify the Company, per identified company procedures, as soon as possible and in any event, prior to the commencement of their shift. The Company may grant leave of absence to employees by reason of illness or injury. The Company may request the employee to provide a doctor's certificate or other substantiating proof. This certificate shall consist of a physical demands checklist, an estimated return to work date and any work restrictions with a view to the Company providing modified work. The employee will be notified of this requirement in advance of the absences. When the employee submits a doctor's certificate, a photocopy will be returned to the employee. Any cost associated with this request will be borne by the Company up to a maximum of \$35.00 and shall be reimbursed upon receipt of proof of payment.
- (d) Both parties agree that employees who suffer physical or mental impairment as a result of injury or illness of such nature that it prevents them from performing the work they could normally perform shall receive the opportunity to be rehabilitated and/or accommodated, where possible, in order to perform meaningful work consistent with their ability, experience and training, providing they do not thereby displace an employee with greater seniority.
- (e) An employee returning to work with modifications shall in all cases provide written certification from their physician to the Company medical department one week prior to their return to work if possible but not less than twenty four (24) hours in any case. This certification shall describe the condition and the restrictions that shall apply.  - (2) the employee's classification
 - (3) within the plan
- (g) On return to work, consideration will be given to modifications to the job or the provisions of technical aids, restraining and/or reorganization of the work in question.
- (h) The Company may refuse to return an employee to modified duties where it determines that appropriate modified duties are not available or where the Company is of the opinion that the employee's return to work poses a risk of re-injury to the employee or poses a risk to others.
- (i) Should an agreement not be reached, the Company and the Union agree that the medical findings of the Company's physician and the employee's physician shall be forwarded to a clinic or a third physician mutually agreeable to both parties for decision. LAYOFF AND RECALL

The Company and the Union agree to the following in regards to the application of Article 13.06.

All Union Officials who have "Top Seniority" as defined in Article 13.06 shall continue to maintain such status until the Company is notified otherwise. The present practice is for any change in such status to occur in January of any year.

Included in the Union's notification of those Union Officials who have "Top Seniority" as defined in Article 13.06 will be the effective date.

Union Officials who have "Top Seniority" as defined in Article 13.06 will not assume such "Top Seniority" until the effective date in the Union's notification to the Company.

An employee who is not on layoff status and is elected or appointed to a position that will have "Top Seniority" as defined in Article 13.06, but is subsequently laid off prior to the effective date of assuming that position will not acquire such "Top Seniority" until that effective date.

An employee who is on layoff status and is elected or appointed to a position that will have "Top Seniority" as defined in Article 13.06 and is still on layoff status upon the effective date of assuming that position will only acquire such "Top Seniority" when their natural seniority will allow for their recall from layoff. If two (2) or more Union Officials are in the same Occupational Group, their natural seniority shall determine the order of recall between them.

Achieving Excellence System

The main goal of the Achieving Excellence System (AES) Program is to improve the company's competitiveness, while giving us the opportunity to ensure the employment security. It requires a total commitment for all the employees.

In case of difficult business conditions, the partners will investigate all possible alternatives to assess the need to eliminate jobs and re-assign the affected employees.

This agreement is based on the principle that every employee both union and management will demonstrate their willingness to continually improve their skills and competencies. Orenda Aerospace agrees to provide training and education to employees so that they have the opportunity to capitalize on their skills and competencies.

With regard to the Achieving Excellence System (AES) the parties agree to implement it in pilot departments. They will enable innovation, development and implementation of the continuous improvement concepts.

The two (2) parties agree to discuss the conclusions based on the best practices and to negotiate the required modifications of the present collective agreement. Thus, these modifications will reflect the evolution of roles, responsibilities and further improvement of the tasks.

Working Committees on Classifications and Joint Statement of Policy.

The parties confirm their commitment to hold at least one meeting of the committee on classifications per year upon ratification of this collective agreement in the interest of studying and recommending the changes required to the classifications (and their associated functions) to meet operational requirements.

The committee on classifications will be composed of not more than two (2) union representatives, two (2) company representatives, and as needed, a representative of each classification affected by the changes. The latter will be chosen by mutual agreement.

The proposed changes will either be accepted or rejected on the basis of the majority of votes cast by the employees holding the concerned classifications and who took a vote. The vote will be conducted by secret ballot. The vote will be held in the workplace within ten (10) days of the presentation.

The committee on classifications will present its recommendation for joint approval to the manager of human resources and to the president of local lodge 717T. Within thirty (30) days of this approval, the union and the employer will jointly present the changes as well as the terms and conditions to the employees holding the concerned classifications.

With respect to the above-mentioned, the parties agree to jointly establish a list of priorities to be dealt with by the committee on classifications over the six months following the ratification of the collective agreement.

LETTER OF UNDERSTANDING #5

VOLUNTARY EXIT PLAN

Effective September 15, 2008, the Company will offer the voluntary exit package described below to employees employed at the date of ratification that have a minimum of twenty (20) years of service and are 55 years of age or older.

Effective September 15, 2009, the Company will offer the voluntary exit package to employees employed at the date of ratification who have a minimum of twenty (20) years of service and are 55 years of age or older.

Effective September 15, 2010, the Company will offer the voluntary exit package to employees employed at the date of ratification who have a minimum of twenty (20) years of service and are 55 years of age or older.

In the event that an employee who is accepted for a package is in receipt of WI, LTD, or WSIB benefits, the employee shall discontinue his/her claim and shall have no right to re-apply for such benefits once the salary continuance period has concluded.

These packages will be available to eligible employees from September 15th to December 15th (the election period) in each of the above referenced years, and will be subject to a maximum number of acceptances in each year as specified by the Company prior to commencement of the election period. An employee whose application is declined must re-apply the following year if the employee still wishes to terminate employment. The offering of the voluntary exit package each year does not, in itself, constitute an offer to create a binding obligation upon application by an employee.

Each year the package will consist of:

Wages/Salary: Salary continuance (to a maximum of \$45,000 gross) less any statutory deductions paid on a weekly basis (40 hours) or until the employee reaches the age of 65.

Pension: Payment to the pension plan for a maximum of one year at the contribution rate in effect on the employee's last day of work or until the employee reaches the age of 65.

Benefits: Payment of Health, Dental, Vision, Life and AD&D premiums for a maximum of two years or until the employee reaches the age of 65.

Third year of benefits will be payment of 80% Healthcare coverage and Dental (\$75 deductible applies to the employees and eligible dependents) or until the employee reaches the age of 65. Third year of benefits do not include Vision, Life and AD&D coverages.

The Company will endeavor to accommodate the wishes of employees who have been accepted for voluntary exit from employment as to departure dates, however for legitimate business reasons the Company shall have the right to determine the departure date.

Employees who are accepted for the voluntary exit program will be deemed to have voluntarily left the employment of the Company on completion of their last shift worked.

At the conclusion of the election period each year, the Company will review the applications received for voluntary exit packages and will consider a number of factors pertinent to the applicants in deciding which employees will be accepted for a voluntary exit package. These factors will include, but are not limited to, the following:

- Seniority of the applicant;
- Skill(s) possessed by the applicant;
- The need to replace (or not) the applicant; and
- The availability of replacement skills in the Company's industry.

All employees who have applied for a voluntary exit package will be advised as to whether their application has been accepted or declined. All decisions relative to the voluntary exit program, including any decisions as to a particular employee's departure date, shall not be made the subject of a grievance since all such decisions related to the voluntary exit program do not represent a difference between the parties.
