Article 1

General Purpose

1.01 It is the intent and purpose of the parties hereto, to promote close cooperation and maintain a constant spirit of goodwill between the employees and management by assuring the continuous, economical and profitable operations of the plants in St. Catharines, thereby enabling employees and the Company to enjoy, so far as economic conditions may permit, security and continuity of employment and to establish a basic understanding and procedure for the determination of wages, hours of work, working conditions and to provide a means for the amicable adjustments of all grievances arising there from.

1.02 In this agreement words importing the singular shall include the plural and vice versa where the context requires. Words importing the masculine gender shall include the feminine where the context requires.

1.03 By mutual agreement any of the terms and conditions in this agreement may be amended during its term in order to continually improve the competitive position of the Company. No amendments will be made unless it has prior approval of the T.P.E.A. Executive, and the Company.

Article 2

Recognition

2.01 The Company recognizes the Association as the sole collective bargaining representative for all employees at its St. Catharines plants with the exception of all salaried employees.

2.02 The terms "employee" and "employees" as used in this Agreement shall mean and include all employees represented by the Association hereunder except where the context clearly indicates a different meaning.

Article 3

Rights of the Association - Officers and Members

3.01 In the temporary absence of the regular representative, the President of the Association may appoint any other representative to deal with a complaint or grievance. In such a case, the Association will notify the Production Coordinator of the department concerned.

3.02 The Company further agrees to recognize committees and representatives of the Association, duly named and elected by the members of the Association in its relations with the bargaining agency in all matters of negotiations and discussion of grievances as provided for by this Agreement. Meetings between Management and the Executive of the Association shall be held at any time as may be mutually agreed upon.

3.03 Any officer, committee member or representative of the Association on shift, after notifying his Production Coordinator, shall be permitted time away from regular duties without loss of pay as may be reasonably required for the following purposes:

- (a) To attend such meetings with Company representatives as are herein provided pertaining to matters relating to this Agreement.

- (b)** To investigate and service grievances in accordance with the terms of the Agreement.
- (c)** To attend any special executive meetings of the Association to a maximum of two (2) hours per week.
- (d)** A member of the Association must obtain permission from his Production Coordinator before leaving his workstation to consult with a representative.
- (e)** Any officer, committee member or representative shall be allowed to converse with any member of the T.P.E.A. at any time providing it does not impede or interfere with the production standard.
- (f)** Any officer, committee member or representative shall be paid for any time if required to perform his Association duties on his off shift.
- (g)** All time charged to the Association business during, before or after his shift shall be authorized by the President of the T.P.E.A. or his alternate and the Human Resources Manager, or his alternate, in order to receive payment.
- (h)** In the event of any transfer of work or the opening of any new facility or operation by the

Company, the Company shall notify the Association of its intended action.

3.04 In order to preserve the continuity of this Collective Labour Agreement, the Company agrees that for the term of the Agreement, in all matters relating to layoffs, decrease of an operation, displacement and job deletion, the Executive Board of the Association, comprising of the officers and the elected representatives, shall have the highest seniority in their respective departments. In the application of such seniority to the layoff procedure in this Agreement the layoff option shall not apply. The combined total number of such officers and representatives for this purpose shall not exceed a reasonable number that shall be mutually agreed to between the Company and the Association. The Company agrees to twelve (12) officers and representatives until April 30, 2016. Effective May 1, 2016, this number of representatives will be reduced to ten (10) officers and representatives for the remainder of the term of this Agreement.

Article 4

Rights of Management

4.01 The Association recognizes the Company's right to hire, retire, dismiss, transfer, promote, demote, or layoff employees. However, in all such cases of hiring, retiring, dismissal, transfers, promotions, demotions or layoffs, the employees shall have the right to appeal through the Association as provided for in the relevant Articles and in the Grievance Procedure of this Agreement.

4.02 Subject to the provisions of this Agreement, it is recognized and agreed that the management of the plants

and the direction and supervision of the employees is vested solely in the Company. Without limiting the generality of this section, the Association also recognizes and agrees that the right to maintain order, discipline and efficiency, to increase or decrease operations, to remove or install machinery or equipment, to introduce new or improved production methods and facilities, determine the quality and quantity of production, to increase or change production equipment, are vested solely in the Company.

Article 5

No Strikes or Lockouts

5.01 It is hereby agreed that, during the length of this Agreement, the Association will not initiate, authorize, sanction, support or engage in any strike, work stoppage, or slowdown of work, and the Company will not lock out any employee or group of employees since this Agreement provides for the orderly and amicable settlement and adjustment of any and all disputes, differences and grievances.

5.02 The words "strike" and "lock out" as used herein are agreed to have the meanings defined for these words in the present Ontario Labour Relations Act.

Article 6

Association Security

6.01 (a) The Company will not interfere with the rights of the employees to become members of the Association. There shall be no discrimination, interference, restraint or coercion by the Company against any employee because of his membership in the Association.

- (b) All present employees shall maintain membership in good standing in the Association during the term of this Agreement and as a condition of employment.
- (c) All new employees hereafter employed, upon completion of the one hundred and twenty (120) calendar days probationary period, shall become and remain members in good standing of the Association during the term of this Agreement as a condition of employment.
- (d) The Association agrees that all employees hereafter employed shall be eligible for and accepted as members of the Association provided that they meet the same requirements uniformly required of all employees for Association membership as a condition of employment.

6.02 The Company agrees to deduct from each employee's pay on the first pay day in each calendar month during the term of this agreement, the regular monthly Association dues and assessments, or an amount equivalent to them levied by the Association in accordance with its Constitution and By-Laws.

6.03 Each employee of the Company, upon hire shall, as a condition of employment, deposit with the Company an authorization card voluntarily signed by such employee and witnessed authorizing the Company to deduct and pay to the Association the Association dues and assessment described above or an amount equivalent to them.

6.04 The dues and assessment so deducted will be transmitted to the President of the Association on or before the 15th day of each and every month along with a list of employees from whom such deductions are made.

6.05 The Company also agrees that it shall deduct from the employees who sign an Association membership card, the amount of the initiation fees set by the Association. This deduction of initiation fees shall be made by the Company upon notification by the Association that the employee has signed an Association membership card. The initiation fees, as prescribed by the Association Constitution, shall be deducted from the employee's wages on the first pay day of the following calendar month and shall be remitted to the President of the Association on or before the 15th day of the calendar month along with a list of the employees from whom such deductions are made.

6.06 It is agreed that the Company shall not be liable in any manner whatsoever for any action taken under the terms of this Article.

Article 7

Grievance Procedure

7.01 In the event of a complaint by an employee who is covered by this Agreement that he has been dealt with contrary to its terms, he may take the matter up as a grievance with the Company within, and not after, fifteen (15) working days of the date of the incident giving rise to the grievance. It is fully agreed by the parties to this Agreement that the presentation of any grievance must conform to the Grievance Procedure. In all cases of grievances arising from the alleged violation of this

Agreement, the Company shall not be liable for damages or compensation unless the grievance has been presented within fifteen (15) working days from the date of the alleged violation.

7.02 The following procedure shall be adhered to in processing grievances:

Step I Verbal Grievance

The aggrieved employee, or group of employees, accompanied by a department representative, will take up the complaint in accordance with Article 7.01 above with the Production Coordinator of the department. The Company and the Association agree that it is the policy and desire of the parties to satisfactorily adjust all such complaints insofar as possible at this level. The Production Coordinator shall give his answer within two (2) regular working days after the day on which he received the complaint. This does not preclude the employee from discussing the complaint with the Production Coordinator without a representative being present prior to initiating a Step I verbal grievance.

Step II

If a satisfactory settlement is not reached at Step I, the grievance shall be entered on a grievance form to be provided by the Company, stating, whenever possible the article or articles of this agreement of which a violation is alleged and the relief sought. The grievance may then be referred by a member of the Grievance Committee or the President of the Association within five (5) working days following the date on which the decision of the Production Coordinator was given, or ought to have been given, as the case may be, to the office of the Manager of Human

Resources or his designate. The Plant Management Committee will convene a meeting within five (5) working days following the date on which the Manager of Human Resources received the grievance. The Plant Management Committee shall consist of four (4) members. Those in attendance for the Association shall be the Grievance Committee, the T.P.E.A. representative from the respective area and the President of the Association. The Plant Management Committee shall give its signed answer in writing within five (5) working days following the date on which the meeting was held.

Step III

If the grievance has not been settled after all of the steps outlined above in the Grievance procedure have been exhausted, it may, by mutual consent of the Company and the Association, be referred to mediation within, and not after, ten (10) working days following the date on which the answer of the Plant Management Committee was given, or ought to have been given, as the case may be.

7.03 If the grievance has not been settled after all of the steps outlined above in the Grievance Procedure have been exhausted, it may be referred to arbitration within, and not after, thirty (30) calendar days following the date on which the answer of the Plant Management Committee was given, or ought to have been given, as the case may be.

7.04 A grievance by an employee concerning any difference arising directly between the Company and the employee may be submitted at Step II of the Grievance Procedure. Such a "direct type" of grievance shall be in the form prescribed in Step I of the Grievance Procedure

and may be instituted within, and not after fifteen (15) working days of the date of the incident giving rise to the grievance.

A "direct type" grievance is defined as a grievance relating to:

- (a) Jury Duty
- (b) Bereavement Pay
- (c) Make-up Pay
- (d) The Pension Plan
- (e) The S.U.B. Plan
- (f) Group Insurance
- (g) Displacement Procedure
- (h) Holiday Pay
- (i) Vacation Pay
- (j) Job Posting
- (k) Standards

7.05 Either the Company or the Association may institute a policy grievance at Step II of the Grievance Procedure. In the case of a Company grievance, it shall be handed to the President of the Association, or in his absence, another officer of the Association. A policy grievance shall be instituted within, and not after, fifteen (15) working days of the date of the incident giving rise to the grievance.

7.06 At any stage of the Grievance Procedure, either party may call in any necessary witnesses who are directly involved in the grievance. Insofar as it is practicable the Company will include the Production Coordinator directly involved with the grievance at the verbal step and at all subsequent steps of the grievance.

7.07 It is fully agreed that if any employee or party to this Agreement fails to lodge his or its grievance within the applicable time limit as set out above, or fails to observe the other time limits for processing his or its grievance, such grievance shall not be dealt with by an Arbitration Board.

7.08 The Company and the Association will honour written requests for reasonable delay in processing grievances. However, should no written request for delay in answering a grievance be made by the Company and no answer be given within the specified time, the Association may, within the specified time, present the grievance at the next step. Should no written request for delay be made by the Association, and the grievance is not presented at the next step within the specified time, the grievance shall be considered to be withdrawn. All time limits specified shall be mandatory.

Article 8

Discharge and Discipline Cases

8.01 (a) The Company shall inform the Association, before or immediately after, suspending an employee. Whenever possible, an Association representative shall be present where such action may be taken. An Association representative shall be present at any meeting where an employee may be disciplined, suspended or discharged. Subject to 10.01 (b), no employee shall be discharged or disciplined without just cause.

(b) Before an employee is discharged for just cause, he will be suspended without pay for a period not to exceed three (3) working days in order to permit time to arrange an investigation. If, as a result of the investigation, it is

determined that the employee should neither be discharged nor disciplined, he will be reimbursed for time lost due to the suspension (with no loss in seniority.)

8.02 In the event that an employee is discharged or suspended from employment for five (5) days or more, the matter shall be taken up at Step II of the Grievance Procedure. Such a grievance shall conform with and be subject to the provisions of Article 7.01 of the Grievance Procedure, including the time limits therein set out and shall be in the form prescribed in Step I.

8.03 In respect of any discharge or discipline grievance, an Arbitration Board may:

- (a) confirm the Company's action,
- (b) uphold the grievance, or
- (c) dispose of the grievance in any manner, which it considers just and equitable.

Article 9

Arbitration

9.01 Where a difference arises between the parties relating to the interpretation, application or administration of this Agreement, including any question as to whether a matter is arbitrable, or where an allegation is made that this Agreement has been violated, either of the parties may, after exhausting the Grievance Procedure established in Article 7, notify the other party in writing of his desire to submit the difference or allegation to arbitration and the notice shall contain the name of the first party's appointee to an Arbitration Board. The recipient of the notice shall, within five (5) days, advise the other party of the name of its appointee to the Arbitration Board. The two (2)

appointees so selected shall, within five (5) days of the appointment of the second of them appoint a third person who shall be the Chairman. If the recipient of the notice fails to appoint an arbitrator, or if the two (2) appointees fail to agree upon a Chairman within the time limit, the appointment shall be made by the Ministry of Labour for Ontario upon the request of either party.

9.02 The Arbitration Board shall hear and determine the difference or allegation and shall issue a decision and the decision shall be final and binding upon the parties and upon any employee affected by it. The decision of the majority shall be the decision of the Arbitration Board but if there is no majority, the decision of the Chairman shall govern. Each party shall pay its own expenses and the expenses of its appointee and the parties shall share equally the expenses and fees of the Chairman.

9.03 The Board shall have no power to alter, amend or modify this Agreement, or to give a decision inconsistent with the terms of this Agreement.

9.04 At any stage of the Grievance Procedure, including arbitration, the conferring parties may have the assistance of the employee or employees directly involved and any necessary witnesses. All reasonable arrangements will be made to permit the conferring parties to have access to the plant to view disputed operations and to confer with the necessary witnesses.

Article 10

Seniority

Definition of Seniority

- 10.01 (a)** The employee will attain seniority standing after one hundred and twenty (120) calendar days within a period of twelve (12) consecutive months and will thereupon be credited with four (4) months' service and become a regular employee. Prior to the expiration of this one hundred and twenty (120) calendar day period, the employee will be considered probationary. All days absent with the exception of 10.01 (c) will be added to the employee's probationary period. There will be no responsibility on the part of the Company to re-employ probationary employees who have been laid off or discharged. The Company will inform the President of the Association before discharging any probationary employees.
- (b)** The Association shall represent all probationary employees for the purposes of collective bargaining in respect to rates of pay, wages and hours of employment pursuant to this Agreement, but the Association shall not represent probationary employees who have been laid off or discharged and who have worked sixty (60) calendar days or less in the plant since the date of the last hiring. The Association may represent probationary employees who have worked more than sixty (60) calendar days at the plant, who claim that their discharge is not for just cause; provided however, that the employee shall be deemed to have continued to be on probation.

- (c) An employee who is separated during his probationary period for an occupational disability arising out of his employment by the Company and who is subsequently reinstated shall be required to complete his probationary period, and upon doing so shall have a seniority date which includes the time he was separated due to such disability, plus one hundred (120) days. There shall be no seniority among probationary employees.

- (d) Students employed as vacation replacements shall be hired from April 15 to September 1. The Company may also hire five (5) students for vacation replacement from September 1 until April 15. All students must be enrolled in a certified college or university and preference will be given to the children of employees. No student shall be allowed more than two (2) terms of employment. Students will not acquire seniority rights nor be given credit toward acquiring seniority rights.

- (e) The Company may use up to a maximum of five (5) students for up to ninety (90) working days and a maximum of two (2) terms per student for absenteeism reasons. Preference shall be given to children of employees. The Company shall supply the Association with a list of student hires on Monday of each week, which will include the name of the student, and the absent employee being replaced along with the number

of days accumulated. Students shall not be hired while employees are on layoff.

Application of Seniority

10.02 In the case of recall, a regular employee shall be credited with all seniority during layoff on the condition that such a recall takes place within thirty-six (36) months from the date of layoff. In such a case, the employee's vacation entitlement/credits will be frozen after twelve (12) months of layoff, for the duration of this layoff option.

10.03 If there is insufficient work to permit regular employees to complete their eight (8) hour shift during their regularly scheduled work week because of machine breakdown or other reasons, regular employees from within the affected department will be retained on the basis of their seniority for the balance of the shift as long as they are qualified to perform the work that is available.

10.04 A regular employee's seniority record will be credited with any time lost because of an occupational injury, personal illness, an accident outside the Company or industrial illness which was incurred during the course of his employment with the Company equivalent to his credited seniority at the time of his injury or illness or thirty-six (36) consecutive months, whichever is greater. (Effective May 1, 1980).

10.05 (a) Except in the case of a decrease in operations where the scheduled work week in the plants is less than forty (40) hours, seniority may be claimed by any employee

whose work week drops to thirty-two (32) hours or less, provided the probationary period has been completed and the employee is qualified to do the work.

- (b) Inventory. All employees will be asked to work on inventory day and guaranteed eight (8) hours time except for those employees who leave voluntarily. Inventory, if held on the weekend, will be pursuant to Article 14.10. The Company does not guarantee eight (8) hours time for inventory on overtime.

10.06 A regular employee's seniority record will be credited with any time lost because of personal leave of absence obtained in accordance with the provisions of this Agreement up to and including thirty (30) calendar days. Any additional seniority credited to an employee who is granted a leave in excess of thirty (30) days must be mutually agreed upon between the Company and the Association.

10.07 (a) Any employee on salary or accepting a salary job or supervision full time, shall not be allowed to return to the bargaining unit. The Association will be notified immediately of any employee who is placed on any of the above jobs.

- (b) Effective May 1, 2015, no employee shall hold a job outside of the bargaining unit (excluding Temporary Supervision or Floor Contact Technician) for more than one hundred and sixty (160) working days during the term of this

Collective Agreement. Any employee who works past the one hundred and sixty (160) working days shall become full-time salary and shall not be allowed to return to the bargaining unit pursuant to Article 10.07 (a) above.

In addition, this article shall be limited to a maximum of twenty (20) employees performing temporary supervision or floor contact technician for a maximum of ninety (90) working days over the term of this Collective Agreement. Any employee accepting a job performing temporary supervision or Floor Contact Technician over the limited twenty (20) shall not be allowed the ninety (90) working days and shall automatically become full-time salary and shall not be allowed to return to the bargaining unit. The Association shall be notified each week of employees on temporary supervision, Floor contact Technician or salary. The onus is on the Company to keep track of any such days. This period may be extended by mutual consent by the President of the Association and the Company. Fire Brigade and Safety representatives shall be exempt from any of the above time restrictions. Any employee who works overtime while performing work outside of the bargaining unit shall be charged with those overtime hours in his own job classification and department including the Fire Brigade and Safety Representatives.

10.08 In the case of a company purchased by THK RHYTHM AUTOMOTIVE CANADA LIMITED whose employees and facilities are moved to the plants in St.

Catharines, the employee's seniority will start at the time the employee's facilities are moved to St. Catharines. This provision may be reviewed and upon mutual consent of the Company and the Association secured at the time of purchase.

Qualifications

- 10.09** (a) As used in this Agreement, the term "qualifications" means such factors relating to job performance as: physical fitness, skill and ability, training and experience, licenses (where required), and past work record with the Company, including such items as attendance, safety, quantity and quality of work.
- (b) The determination of an employee's qualifications is the responsibility of the Company with the understanding that any disagreement with the Company's decision may be taken up as a grievance.
- (c) An employee is considered qualified for his job when he is capable of consistently producing standard quantity and quality of work in a workmanlike manner, can make necessary tool and machine adjustments, and perform the various phases of work called for by the job after a training period of not less than five (5) consecutive working days up to a maximum of twenty (20) working days. The five (5) consecutive working days minimum training period can be reduced if it

is mutually agreed to by the Company and the employee.

Should the consecutive training period be interrupted by circumstances beyond the Company's control, such as machine breakdown, power failure, change in customer requirements, etc., the training period shall continue immediately after the above mentioned circumstances are rectified. The days of interruption shall not be included when calculating the training period. Should an interruption of training last more than two (2) working days, the employee shall be entitled to restart his training period. Should an employee not perform the job for a one (1) year period, he shall be entitled to a new training period. The training period may be reduced if mutually agreed by the employee and the Company.

- (d) When new or modified equipment is introduced, the appropriate training period as outlined in Article 10.09(c) will be provided to the number of employees required for the job.

Notice of Layoff

- 10.10 (a)** Whenever possible, the Company will notify employees as well as the President of the Association of any contemplated layoff in a department at least one week prior to the effective date of such layoff.

- (b) Forty-eight (48) hours' notice (two full working days) will be given to probationary employees as well as regular employees prior to the starting time of their shift before a layoff. In the event that such notice is not given, then such employees shall receive two (2) days' pay in lieu of such notice. This provision will not apply with respect to layoff resulting from matters beyond the Company's control.
- (c) The Company will provide a list of affected job classifications and departments to the Association.
- (d) There shall be a joint meeting held between the President of the Association or, in the event of his absence, another officer of the Association and the Human Resources representative or in his absence another officer of the Company, before a layoff becomes effective and a list of the employees to be laid off shall be given to the Association at that time.

Layoff Procedure (General)

10.11 In the event that it becomes necessary to reduce the workforce in either Schedule I Appendix I or Schedule II Appendix II, probationary employees will be the first to be laid off. All regular employees will be laid off in accordance with the provisions that follow.

Layoff Procedure All Job Classifications
Schedule I Appendix I and Schedule II Appendix II

(a) Definitions:

- (1) Affected job classification is the job classification (per Appendix I and Appendix II) in which a reduction in workforce is required.
- (2) Affected department is the department in which the affected job classification is located and is identified by the normal department number. In the case of Inspection department employees, the affected department shall be the affected assigned area.
- (3) The affected employee shall be the employee regularly employed in the affected job classification at the time the desired work force reduction is required. Employees holding jobs in the affected area through temporary transfer would be returned to their own job classification and department first or last job held through the displacement procedure according to seniority.
- (4) A layoff cycle for an affected job classification in an affected department shall be that period of time required for each employee to exercise a layoff option at least once or for the term of the Collective Labour Agreement, whichever occurs first.
- (5) For the purpose of this agreement, "comparable" shall mean the employee's job classification that he owns, pursuant to Article 11 or job deletion.

(b) Appendix I Schedule I Employees

Extended Layoff

- (1) In the event that it becomes necessary to reduce the work force, the most senior employee in the affected job classification in the affected department shall be given the option of layoff or remaining in the affected job classification.
- (2) In the event that the most senior employee elects to remain in the affected job classification the next most senior employee in the affected job classification will be given the option of layoff or remaining in the affected job classification. This process shall continue until the desired work force reduction is achieved.
- (3) In the event that this process reaches a most junior employee in the affected job classification in the affected department, he may exercise his option to accept an extended layoff or his seniority rights in Schedule I, subject to Article 10.12(a)(5) and his qualifications.

Additional provisions of the extended layoff are outlined in Letters #17 & 31.

Forced Layoff:

1. In the event that this process reaches a most junior employee in the affected job classification in the affected department, he must take the layoff for no more than sixty (60) cumulative days in any consecutive twelve (12) month

period from the last day of his layoff in accordance with the terms of the Collective Labour Agreement. The employee may, however, elect to take another layoff within the twelve (12) month period if he so desires.

2. In the event the Company is in a hiring position, the affected employee in the affected department must exercise his displacement rights within Schedule I prior to any forced sixty (60) day layoff. Active apprentices shall be ineligible for a preferential layoff during their apprenticeship contract.

c) Appendix II Schedule II Employees

1. In the event that it becomes necessary to reduce the work force, the most senior employee in the affected job classification in the affected department shall be given the option of layoff or remaining in the affected job classification.
2. In the event that the most senior employee elects to remain in the affected job classification, the next most senior employee in the affected job classification will be given the option of layoff or remaining in the affected job classification. This process shall continue until the desired work force reduction is achieved.
3. In the event that this process reaches the most junior employee in the affected job classification in the affected department and he wishes not to exercise his option to take an extended layoff, it will then become open to employees plant-wide

on a seniority basis subject to the provisions of the Collective Labour Agreement.

4. In the event that the Company is still unsuccessful in reducing the workforce, the junior employee in the affected job classification in the affected department will displace a junior employee subject to the provisions of the Collective Labour Agreement.

(d) Key Job Classifications

Displacements into “Precision Cold Form Set-up Instructor” or “Precision Cold Form Technician” will not be permitted for a consecutive period of twelve (12) months. Displacements into the other key job classifications in Appendix II will not be permitted for a period of ninety (90) consecutive calendar days due to their special training requirements. The job classifications included under this Article will include the following:

Job Classification	Wage Group
Precision Cold Form Set-up Instructor	17
Precision Cold Form	16
Tool Proveout and Set-Up Instructor (Forge Shops)	15
Heat Treat Operator	14
Paint Complex Technician	14

Tocco Set-Up	13
Inspector I	13
Inspector II	11
Lubrication Service	10
Metalworking Fluid Technician	10

At the time an employee would normally bump into one of the above classifications, that employee will instead bump to the next job classification available to him under the displacement procedure. If ninety (90) consecutive calendar days transpires and the employee is still not recalled to his own job, that affected employee shall exercise his seniority rights at that time and bump into the applicable key job. Furthermore, if the affected employee has lost money as a result of this procedure, he will be reimbursed for all lost monies including overtime experienced over the ninety (90) consecutive work day period. There will be no liability whatsoever should the period of deferred displacement into a key job be less than a full ninety (90) consecutive calendar day period. If it is known that the displacement will equal or exceed ninety (90) consecutive calendar days, then he will be placed on the job immediately. In no event will any employee be laid off because of this deferred displacement procedure.

- (e) In the event that it becomes necessary to reduce the number of apprentices in the work force, the apprentice affected shall immediately displace on a seniority basis employees in Appendix II Schedule II

pursuant to the Displacement Procedure. Laid off apprentices will receive S.U.B. benefits calculated on the basis of the current rate of the last job he performed prior to his apprenticeship.

- (f)** Any employee thus laid off shall remain on layoff for sixty (60) calendar days, subject to the recall provisions of the Collective Labour Agreement. Frequency of layoff could result in a reduction of an employee's pension and/or vacation credits.
- (g)** Before the sixty (60) calendar days have expired and the employee's job classification has not opened up, he must be notified by the Human Resources department. The T.P.E.A. must also be notified by the Company in writing regarding recalls. A senior employee's job classification is considered open when junior employees remain at work in the affected job classification.
- (h)** A layoff will be considered complete when all regular employees on layoff have been recalled. For this purpose Schedule I Appendix I employees and Schedule II Appendix II employees shall be considered separate and distinct groups.
- (i)** An employee not electing to exercise the option to take a layoff shall not have the opportunity to exercise that option in that cycle again until all other employees in the affected job classification in the affected department have had the opportunity to exercise and complete their option in seniority sequence.

- (l) At the conclusion of a layoff cycle in an affected job classification in an affected department, junior employees not required in the affected job classification must exercise the option to remain on layoff in accordance with Article 10.11 (g) above or exercise seniority in accordance with the displacement procedure. Where the employee elects to exercise seniority and the layoff is continuing, the job classification affected by such a displacement will be considered affected for layoff purposes and the provisions of the above layoff procedures shall apply.
- (m) An employee who is recalled from layoff to his own job classification and department, and has not completed his layoff option, may if there is a further layoff in that job classification and department within the terms of this Collective Labour Agreement, complete the remainder of his layoff option or exercise his seniority rights as per the Collective Labour Agreement. An employee who elects to exercise his seniority rights will not be given a further layoff option until the layoff cycle is complete as outlined in Article 10.11 (a)(4) above. Vacation periods occurring during an employee's layoff cycle will not be counted as days laid off. Exceptions to this provision are provided in the recall provisions of the Collective Labour Agreement.
- (n) Employees shall communicate their preference to take the option of layoff to the Company at the beginning of each calendar month by making application to the Human Resources Department.

When a layoff is about to take place, the following procedure will apply in all cases of **extended** layoff:

- (1) The senior employee(s) in the affected job classification and department from the list shall be permitted to exercise his option to take layoff.
- (2) Employees who apply for this layoff option will be permitted to refuse the option of layoff.
- (3) Only employees that have communicated their preference to take the option of layoff to the Company need to be asked for this layoff option.

Displacement Procedure

10.12 An employee displaced from his regular job classification and who elects to exercise his seniority rights pursuant to the displacement procedure and providing that he is qualified to do the work in a satisfactory manner, must exhaust all his seniority claims in the following order:

(a) Department

- (1) An employee must exercise all seniority rights within his department before bumping on a plant-wide basis.
- (2) In a job classification in his own wage group within his own department, which he is qualified to perform, thus displacing the most junior employee in that job classification and wage group.

- (3) An employee exhausting seniority rights in his own wage group will displace the most junior employee in the next lower job classification provided he is qualified to perform the work. If he is unsuccessful he will continue to exercise seniority rights to displace in downward movement the most junior employee in each lower job classification until he is successful, provided he is qualified to perform the work.
- (4) If the affected employee reaches the lowest job classification in a department and is unsuccessful under 10.12 (a) (3), he shall be permitted to exercise his seniority rights by displacing in upward movement, the most junior employee in each higher job classification until he is successful, provided he is qualified to perform the work.
- (5) If the affected employee is unsuccessful under 10.12 (a) (4), he will be entitled to exercise the plant-wide displacement procedure. However, it is understood that employees in Schedule I will be entitled to exercise displacement rights in a higher job classification within Schedule I provided they have previously held the job through job posting. When an employee is displaced from his home department he will exercise his seniority from his job classification and wage group that he owns through job posting.

(b) Plant-Wide

- (1) On a job in his own job classification on a Company-wide basis, which he is qualified to perform, thus displacing the most junior employee in the job classification.
 - (2) On a job in his own wage group on a Company-wide basis, which he is qualified to perform, thus displacing the most junior employee in the wage group.
 - (3) An affected employee exhausting seniority rights in his own wage group will displace the most junior employee in the next lower job classification provided he is qualified to perform the work. If he is unsuccessful, he will continue to exercise seniority rights to displace in downward movement the most junior employee in each lower job classification until he is successful, provided he is qualified to perform the work.
 - (4) If the affected employee reaches the lowest job classification in the plant and is unsuccessful under 10.12 (b) (3) then he shall be permitted to exercise his seniority rights by displacing in upward movement the most junior employee in each higher job classification until he is successful, provided he is qualified to perform the work.
- (c) In the event of a displacement, the employee's wages will be adjusted as of the first full shift in the new job classification.

(d) All manpower changes and allocations resulting from the displacement and recall procedures will be final after fifteen (15) working days after their effective date.

10.14 (a) Should a case arise in the administration of this displacement procedure where there is disagreement over an employee's qualifications, the Company and the Association have agreed that the provisions of Article 10.09 (c) will apply.

(b) In the event an employee is laid off contrary to the provisions of this Agreement, he may within a period not to exceed fifteen (15) working days, arrange for an investigation of his case if he so desires. If as a result of the investigation, it is determined that the employee should not have been laid off, he will be reimbursed for time lost.

10.15 (a) In the event that an operation or department is permanently discontinued, the employees affected will be given preference for work in other departments on comparable jobs in which their qualifications and seniority entitle them. An employee may waive this option and exercise his seniority through the displacement procedure as outlined in Article 10.14. Extended layoff will not be available to employees whose job has been deleted under this Article.

- (b) In the event that an operation or department is reactivated, displaced employees shall have recall rights by virtue of their seniority if they so desire. This then becomes their home department. This option is to be extended for a

maximum period of twenty-four (24) months from the date the operation or department was discontinued. If the employee has received a job through Article 11 they must remain on that job.

Recall Procedure From Displacement and Layoff

10.16 (1) (a) Senior employees completing a sixty (60) day layoff option or forced layoff are considered recalled on the 61st day.

However, the employee will return to work at the beginning of the first work week after the sixty (60) day layoff has expired.

- (b) When an employee's job classification or department opens up, the senior employee from the department on displacement will be recalled to his job classification or department.

(2) When working schedules are increased, the following procedures shall be followed in recalling regular employees from displacements:

- (a) The following procedure in recalling regular employees in reverse order from displacement shall be followed in

sequential order, providing he is qualified to perform the work:

1. To his department to an open job.*
2. To his own job classification and department.
3. To his job classification plant-wide.
4. To any job plant-wide he is qualified to perform.

* An open job is one in which, on seniority basis, an employee is entitled to occupy as a result of 10.16 (2), but for which he does not hold job classification rights pursuant to job posting or job deletion. An open job is not a job, which is vacant and requires a job posting as per Article 11.

- (b) An employee's regular job classification is defined as the highest skilled operation he is qualified to perform and in which he would be working when the department is operating normally.
- (c) Where a temporary job becomes available to which no employee on displacement has recall rights, the most senior employee on indefinite layoff will be recalled, providing he is qualified to perform the duties of that job. An employee thus performing such a temporary job will do so without a reduction in wages. In no event shall this procedure result in the Company being placed in a hiring position while

employees are on layoff. A temporary job is defined as a job that is in addition to normal activities in the Company's operations that is not normally expected to become a permanent part of the Company's operations or is a job created through absenteeism, sickness, vacations or leave of absence.

- 3(a)** Regular employees will be recalled from indefinite layoff on the basis of seniority first. The same procedures shall be followed in sequential order as specified in 10.16(2)(a).
- (b)** Should a case arise in the administration of this recall procedure where there is disagreement over an employee's qualifications, the Company and the Association have agreed that the provisions of Article 10.09 (c) will apply.
- (c)** In no event shall Schedule I Appendix I employees be recalled to fill jobs in Schedule II Appendix II.
- (d)** Employees recalled on the same date to open jobs will be placed on jobs comparable to the job they normally perform by virtue of their seniority.

10.17 Employees are responsible for having the correct address and telephone number on file with the Human Resources department at which the Company may reach

them. Upon being notified to return to work by registered letter, wire, or personal telephone call, employees shall be allowed five (5) working days to report, excluding the notification day, to the Human Resources department for work. Failure to so report to the Human Resources department within this period of time will serve as notice to the Company that the employee has resigned.

10.18 There shall be a joint meeting held between the President of the Association and the Human Resources representative before any recalls are made.

Seniority Lists

- 10.19 (a)** Seniority lists, showing employees' years and months of service with the Company will be posted in both plants and these lists shall establish seniority rating of each employee. In the event that employees have the same number of years and months of service, the employee who was hired the earliest day of the first month of his employment shall be shown as having the greatest amount of seniority and his name shall appear first in the seniority list. Employees hired on the same day and having the same seniority date will be listed in reverse alphabetical order. Employees shall be entitled at any time to review their seniority status.
- (b)** Seniority lists shall be brought up-to-date every six (6) months and at such time a copy of the new list will be given to the Association.

- (c) The Association will be furnished with a daily list showing any new employees or recalls for the previous day.

Termination of Seniority

10.20 Seniority rights shall cease for any of the following reasons:

- (a) If an employee resigns.
- (b) If an employee is laid off for a period in excess of thirty-six (36) consecutive months or if his layoff exceeds his plant seniority, whichever is greater. In no event will an employee be entitled to claim in excess of ten (10) years' seniority as a result of a layoff extending beyond ten (10) consecutive years for purposes of vacation and long service bonus.
- (c) If an employee is discharged for just cause.
- (d) If an employee has been absent for five (5) consecutive working days without having notified the Company directly, unless an explanation reasonable to the Company is given.
- (e) If an employee is laid off and fails to return to work within five (5) working days after having been duly notified to return to work, unless an explanation reasonable to the Company is given.
- (f) If an employee overstays a leave of absence granted by management in writing and does not secure an extension of such leave, unless an

explanation reasonable to the Company is given.

- (g) If an employee retires or is retired. In the case of a disability retirement where an employee recovers from the disability and is able to return to work such employee will be credited with the seniority to which he was entitled at the date on which he commenced his disability retirement.

Article 11

Job Vacancies

11.01 It is the desire of the Company to move regular employees to better paying or more desirable jobs as openings occur. When a permanent vacancy occurs, which is required to be filled by the employer on a full-time basis, a job posting will be placed on the Company's bulletin boards and in the department in which the posted job is located for a period of three (3) working days and will describe the job requirements, the rate of pay, or department and the effective date by which the job is to be filled. Employees receiving a job from a job posting will sign for that job classification and department, and at that time it will become his job classification and department. Displaced Skilled Trades employees may apply and receive a job in Schedule II without loss of recall rights to their job classification in Schedule I. Upon recall to Schedule I, the employee will then relinquish any recall rights to any job in Schedule II. Schedule I employees who receive a job posting in Schedule II may relinquish their recall rights to Schedule I by signing a waiver form at the time of the posting if they so desire.

- (a) All jobs shall be posted within five (5) days of the permanent vacancy.
- (b) Job vacancies will not be posted in the following cases:
 - (1) Temporary jobs.
 - (2) Job vacancies which have been posted in the previous one (1) month unless such a posting has been exhausted in which case a second posting shall be posted and exhausted before hiring from outside.
 - (3) While employees in the job classification in the department in which the vacancy occurs are on layoff or have been displaced.
 - (4) When an apprentice completes his apprenticeship he will be absorbed in his trade without a job posting, subject to his seniority.

11.02 In considering applications from regular employees for job postings, employees with seniority and qualifications will be given consideration on a plant-wide basis in filling such jobs. The senior applicant qualified to perform the job will be selected. Qualifications as applied to job postings shall mean such factors relating to job performance as physical fitness, skill and ability, licenses (where required) and past work record with the Company. Prior to the final selection of the successful job applicant, the Area Manager or appropriate department head, the Manager of Human Resources shall review all applications and communicate their decision to the President of the Association or the appropriate department representative.

11.03 Where a dispute arises in the selection of an applicant for job posting, the provisions of Article 10.09 (c) will apply to the most senior applicant. For job vacancies in Precision Cold Form Set-up Instructor and Precision Form Technician, the trial period will be sixty (60) consecutive working days. In the event the employee fails to meet the requirements of the job during the trial period, he shall be returned to his former job and the job will then be filled by the Company in accordance with Article 11.02 above and from original job applicants.

11.04 A regular employee who is transferred in accordance with this Article will receive the rate of pay for the job at the time of his transfer. He will remain on that job for a period of four (4) months, sixteen (16) months for key job classifications, before he can request a further transfer, unless such an employee is laid off. Exceptions can be made to time beyond four (4) months, sixteen (16) months for key job classifications that he must remain on these special jobs before he can request another transfer. These exceptions however, must be mutually agreed to between the Company and the Association before they become effective. This four (4) month, sixteen (16) months for key job classifications, limitation shall not apply to employees applying for any job openings in Schedule I or any apprenticeship openings.

11.05 The term "transfers" as used in this Article does not apply in the case of an employee who is transferred to a lower rated job when such a transfer is the result of a layoff or a recall as outlined in Article 10 of this Agreement.

11.06 Application for Transfer or Returning to Work Related to Health Reasons

- (a)** A regular employee returning to work after an occupational injury or illness (Compensation), or from Weekly Sick Benefit (including an accident outside the Company), who has completed his benefit coverage of either the maximum of fifty-two (52) weeks, or is ready to return to work but is permanently restricted from performing in his regular job classification which he holds pursuant to Article 11, must produce medical documentation satisfactory to the Company clearly certifying his medical restrictions and his physical inability to perform his job. He will then be entitled to exercise his seniority rights to permanently displace a more junior employee plant-wide to a job he is qualified to perform.
- (b)** If the disabled employee later provides medical documentation satisfactory to the Company, clearly certifying his ability to perform his original job, he will be returned to that job regardless of seniority. The disabled employee shall be required to submit to a physical examination at any time for the purpose of determining his medical condition, whenever such examination shall be requested by the Company or the Association.
- (c)** This procedure does not in any way limit the right of the Company to place disabled

employees on the short term modified work program.

- (d) An employee on permanent disability is defined as one who is unable to perform his regular occupation because of a physical restriction. In order for an employee to qualify for this permanent displacement procedure, he must undergo a medical assessment at an approved medical institution at Company expense to determine the extent of his impairment.
- (e) An employee performing the job of the employee who is absent due to an occupational injury, industrial illness, personal illness or accident outside the plant, will do so on a temporary transfer basis for a period of up to six (6) months (or longer if mutually agreed to by the Company and the Association).
- (f) A regular employee returning to work under this Article whose former job classification has been discontinued will be entitled to exercise his seniority rights pursuant to Article 10.15 (a).

Temporary Transfers

11.07 These are job assignments made for a period of ten (10) weeks or less. When an employee is temporarily transferred to a job carrying a lower rate of pay for the Company's convenience, and while there is work on his own job, he will continue at his present rate of pay. If such a transfer is to a higher rate job, he will be paid the maximum rate of pay for the job. Where practicable, the

senior employee will be given the opportunity to temporarily transfer to higher paying jobs or more desirable jobs within the department. Temporary transfers outside the department will be filled by the employee with the least amount of seniority in the department. Where a temporary job is to be filled by a temporary transfer, an individual employee cannot fill such a job beyond ten (10) weeks unless mutually agreed to by the Company and the Association.

Article 12

Bulletin Boards

12.01 Space on the bulletin boards of the Company will be available for exclusive use of the Association for posting notices pertaining to official Association business such as: notices of meetings, elections, recreational activities and listing of Association officers, etc. Such notices must be signed by the President or Vice-President of the Association. For communication purposes, a copy of such notices will be forwarded to the Manager of Human Resources.

Article 13

Leave of Absence

13.01 Upon the recommendation of the Production Coordinator and approval of the Area Manager and the Manager of Human Resources, an employee may be granted a leave of absence without pay for special circumstances. It is agreed, however, that no employee may engage in other employment while on leave of absence, and that employment elsewhere during such period will automatically terminate the leave of absence, the seniority record, employee benefits and other employment rights with the Company. Applications for

leave of absence will be filed in writing to the employee's Production Co-ordinator. A copy of the request for a leave of absence shall be given to the Association. Thirty (30) calendar days will be the maximum period of time for which a leave of absence will be granted, but extensions of this period may be granted by the Company at its discretion provided satisfactory reasons are presented before the thirty (30) day period expires.

Educational Leave

13.02 (a) An employee with three (3) or more year's seniority may request to attend any accredited Education institution at a secondary or post secondary education level or its equivalent. Such leaves will be provided to employees for a period not to exceed three (3) years on a first-come-first-serve basis, subject to a maximum number to be periodically reviewed by the Company. The employee's seniority will be frozen and all benefits will be suspended as of the date the leave commences. The employee on leave will notify the Company within two (2) weeks of the completion or withdrawal from his education program and the employee will return to work. The employee shall assume the job classification and department of the most junior employee on the seniority list in his schedule, which the junior employee owns through job posting.

The Company reserves the right to terminate the leave and all employment rights of the employee if the employee fails to continue

full-time enrolment in his selected program and fails to return to work. Any job classification vacancy, which is open as a result of an education leave, will be posted as per Article 11.

- (b) The Company will notify the Association of any employee on an educational leave and the amount of time the employee is off. The Association will be notified of any completion or withdrawal from the education program immediately.

Jury Duty

13.03 (a) An employee who is summoned for jury duty or who is subpoenaed as a witness and who by virtue of such duty loses time from work shall receive for each day of such jury duty the difference between the pay lost on that day and the jury fee received.

- (b) In order to receive such payment, an employee must give the Company prior notice that he has been summoned for jury duty or as a witness, and must furnish satisfactory evidence that he reported for or performed jury duty or served as a witness on the days for which he claims such payment. Payment will be computed on an eight (8) hour day at the employee's straight time hourly rate, including cost-of-living but excluding shift or other premiums.

- (c) An employee who is on vacation or holiday and who is summoned for jury duty or who is subpoenaed as a witness will be able to re-schedule those days lost at another time, subject to the same provisions as 13.03(b).

13.04 (a) In the event of the death of an employee's spouse, child, parent, sister, brother, brother-in-law, sister-in-law, mother-in-law, father-in-law, grandchild, the employee will be paid for all regular time lost on the following basis providing the days are taken within seven (7) working days of the death excluding paid days off:

- (1) Up to a maximum of three (3) days pay at his regular straight time rate for eight (8) hours (including cost-of-living) for arranging and/or attending the funeral; or
- (2) One (1) day's pay at his regular straight time rate for eight (8) hours (including cost-of-living) if he does not attend or arrange the funeral.

(b) In the event of the death of an employee's grandparent, son-in-law, daughter-in-law, or spouse's grandparent, the employee will be paid for all regular time lost on the following basis providing the day is taken within seven (7) working days of the death excluding paid days off:

- (c) With respect to 13.04 (a) and 13.04 (b) should a bereavement occur during an employee's vacation or holiday, he will receive his bereavement entitlement at a later date.
- (d) In order for an employee to be entitled to payment under this Article:
 - (1) The employee must provide the Company with proof of death upon request.
 - (2) The claim for payment must be made to the Human Resources department.

13.05 Requests by eligible employees for an unpaid leave of absence for pregnancy leave will be considered and approved subject to the terms and conditions of the Employment Standards Act of Ontario.

Public Office Leaves

13.06 Any bargaining unit employee with at least three (3) years seniority who is elected to public office (Municipal, Regional, Provincial, or Federal) shall apply in writing to the Manager of Human Resources and be granted a leave of absence for the period necessary to fulfill such office. The employee's seniority will be frozen and all benefits will be suspended the date the leave commences. The employee will notify the Company within two (2) weeks of the completion of his term in office. On his return he will displace the most junior employee in the bargaining

unit subject to his seniority and Article 10 of the Agreement.

Military Leave/Peacekeeping Leave

13.07 An employee with three (3) or more years' seniority may apply for a leave of absence without pay for voluntary Military or Peacekeeping duties for a pre-determined period of time to serve in the Canadian Armed Forces. Such leave may be granted for a period of not less than three (3) months and not more than two (2) years. (Subsequent leaves may be granted after twelve (12) months of the completion of a previous leave of absence.) The employee will provide the proper documentation verifying assignment to military duty from the appropriate military branch detailing the amount of time of the leave. The employee's seniority will be frozen and all benefits will be suspended as of the date the leave commences. Subject to seniority, failure to return to work upon completion of the leave will result in the employee's termination of employment.

Article 14

Hours of Work and Overtime

14.01 This Article is intended to set forth the basic schedule of hours upon which weekly production is planned and related overtime premiums paid. It shall not be construed as a guarantee of working hours.

Work Week

14.02 For payroll purposes, the work week shall begin at 11 p.m. Saturday and continue for seven (7) consecutive twenty-four (24) hour days. All wages shall be paid on a weekly basis, being on Thursday of each week.

Hours of Work

14.03 With the exception of three (3) shift operations, the normal hours of work shall not exceed eight (8) hours per shift and forty (40) hours per week beginning 7 a.m. Monday and ending 11 p.m. Friday.

- (a) The normal hours of work for a two (2) shift operation shall not include a paid lunch period with the exception of Friday, in which case a half-hour lunch period will be paid. In no event will an employee working steady days be eligible for a paid lunch period.

14.04 Where a three (3) shift operation is scheduled, the shifts will rotate weekly from 11 pm to 7 am, 3 pm to 11 pm and 7 am to 3 pm and will include a paid lunch.

14.05 Where an increase in work load requires that the Company schedule a two (2) shift operation where formerly there was only one (1) shift, employees who normally perform the work will rotate, unless otherwise mutually agreed upon by the Association and the Company.

- 14.06** (a) Where a department or an operation normally is scheduled for sixteen (16) hours on two (2) rotating shifts and a third shift is required, the following procedure will apply for Plant 1 Operations. Standards

18.01 The Company and the Association recognize that job security and opportunity depend upon constantly improving product quality, and constantly lowering production costs through time-saving methods and equipment. To this end, the parties agree that labour standards will be established fairly and equitably, and in accordance with the principles of a full day's pay for a full day's work without injury to the health or safety of employees.

18.02 Standards now in effect, or subsequently placed in effect, shall not be changed except when justified by changes in tools, grinding wheels, machine feeds and speeds, materials and material handling methods and equipment, product design and stock removal, sequence of operational elements and operations directly affecting other operations. The Company will notify the President of the Association and the affected representatives of its

intent to re-study jobs that may require standard changes as a result of the conditions outlined in this Article.

18.03 The Company agrees that it will establish all standards having due regard for the pace that a man can steadily maintain. The Company further agrees that it will provide in the time standards an adequate allowance for personal time with due regard for the conditions associated with a particular operation.

18.04 The Association also agrees that new production standards will be given a proper and fair trial by regular operators working at the job. In the event that for proper cause, a labour standard becomes a matter of contention and unacceptable to the affected employee, it may become the subject of a grievance. If there is a dispute in such a grievance, the onus is on the Company to justify the change in the standard to the arbitrator or the arbitration board.

18.05 In the event that a new job is introduced which by virtue of its content cannot be placed into an existing classification, or when the content of an existing job is changed to the extent that it no longer falls within an existing classification, the Company will establish a new classification and a rate covering the job in question and will designate it as temporary. The Company will notify the Association in writing of the new classification and rate. The new classification and rate shall be considered as temporary for a period of thirty (30) calendar days following the date of notification to the Association and during this period (but not thereafter) the Association may give the Company written notice of its desire to negotiate the rate of the new classification. The negotiated rate, if

higher than the temporary rate, shall be applied retroactively to the date of the establishment of the temporary classification and rate, unless otherwise agreed upon between the Company and the Association.

If no request is made by the Association to negotiate the rate within the thirty (30) day period, or if no grievance is instituted concerning the new classification and rate within sixty (60) calendar days of the date of written notification to the Association, or in the event that the Company and the Association agree upon a rate for the new classification, as the case may be, the new classification and rate shall become part of this Agreement.

- (a) To attend the funeral of a member of an employee's immediate family

- (c) Due to special circumstances which must receive approval of the Production Coordinator and the Manager of Human Resources.

19.04 At the time a holiday occurs, any employee who is absent and in receipt of Weekly Sick Benefits or Workers' Compensation, shall receive the difference in pay between that which he receives as a Weekly Sick Benefit or Compensation, and that to which he would normally have been entitled for the holiday had he actually been at work.

19.06 Eligible employees who work in the week prior to December 1 and are laid off in a reduction in work force after that date shall, if otherwise eligible, receive pay for each of the holidays in the Christmas holiday period, providing such employees worked the last scheduled work day prior to such layoff.

Article 20

Vacations

20.01 The Company endorses the principle of annual vacations providing opportunity for the healthful rest and recreation of all employees.

20.02 When there is a scheduled vacation period, it is the policy of the Company that as many employees as possible take their vacation during the scheduled vacation period.

20.03 The Company shall determine if there will be a scheduled vacation period each year. The parties agree that they will meet and announce if there will be a vacation period by April 30th.

20.04 In the event that special circumstances require that employees work during the vacation period, the affected employee shall be permitted an alternate vacation period which may not be changed unless mutually agreed to by the employee and the Production Coordinator.

20.05 A vacation may be postponed or rescheduled for a later date in case of illness or other disability occurring prior to or extending into the scheduled date, providing it does not affect the operations of that department.

20.06 A vacation may not be waived by an employee and extra pay received for work during the period except as provided in Article 20.10.

20.07 Vacations may not be postponed from one year to another and made cumulative.

20.08 Employees entitled to more vacation than the scheduled vacation period will have their additional vacation scheduled before November 1. Both parties understand and agree that there may be times when not all vacation requests may be granted for an employee(s). In the event that the Company must limit the number of

employees scheduling vacation for the same day(s), the employee(s) that made the request first will be given preference for the vacation day(s).

b) Vacation requests for the 1st quarter of the year (January, February and March) can be submitted during the last quarter (October, November and December) of the previous year.

Vacation Year

20.09 The period from July 1 to June 30 will be the basis for determining service for vacation purposes.

Vacation Pay

20.10 (a) Employees with one year's service or more, who worked a minimum of 1,300 hours during the period July 1 to June 30 will be entitled to a paid vacation. The basis for computing vacation pay will be the employee's regular straight time hourly rate (averaged over the period from July 1 to June 30 of the vacation year), multiplied by the hours for years of service, as outlined below:

Effective May 1, 2015 the following schedule shall apply:

Yrs. of Service as of July 1st of the Vacation Year	Length of Vacation	Basis for Vacation Pay
6 mo. but less than 1 yr.	1 week	40 hours
1 yr. but less than 5 yrs.	2 weeks	80 hours
5 yrs. but less than 10 yrs.	3 weeks	120 hours
10 yrs. but less than 15 yrs.	4 weeks	160 hours
15 yrs. but less than 25 yrs.	5 weeks	200 hours
25 yrs. and over	6 weeks	240 hours

- (b) (1)** Employees may elect to work all time in excess of two (2) weeks rather than taking time off. In the event that an employee so elects, he shall receive only the amount of vacation pay to which he would otherwise be entitled and in addition pay for time so worked. However, it is agreed that the Company does not guarantee to provide work for such employees and the Company is not obligated to permit an employee to work in accordance with his election unless work is available for the employee and the employee is qualified to perform such work. Employees exercising this election must communicate their preference to the Company no later than the time of the announcement of the annual vacation period by making application to the Human Resources department.
- (2)** All employees must take at least two (2) weeks of their vacation time, providing they are entitled as per 20.10 and have them scheduled no later than November 1st of the vacation year. Employees who have been on layoff in excess of two (2) weeks during the calendar year (with the exception of those on preferential layoff), shall have the option of declining their mandatory vacation entitlement equivalent to their amount of layoff time.

20.11 An employee with less than one year's service, provided he has worked the minimum hours required, will be paid on the basis of forty (40) hours, multiplied by his average straight time hourly rate.

20.12 The term "minimum hours" whenever used in this section shall mean a total of 1,300 hours worked during the vacation year.

20.13 For the purpose only of calculating "minimum hours" worked, hours paid for holidays not worked shall be considered as hours worked.

20.14 Where an employee has failed to work the minimum hours of a vacation year, he shall be entitled to 4% of wages earned for that year. For any employee who is discharged for just cause, he shall be entitled to 4% of wages earned for that year.

20.15 All time lost during the vacation year by a regular employee due to an occupational injury sustained during the course of his regular employment with the Company, and any time lost while in receipt of Weekly Sick Benefits, shall be credited as time worked for vacation pay calculation.

20.16 Employees who take vacation prior to the scheduled vacation period shall have the option of receiving their vacation pay (or a portion of it, if they so elect), the balance to be paid on the last pay before the vacation period if they so elect.

20.17 Employees who take vacation during the vacation period, or after, shall receive their full vacation pay on the last pay prior to the vacation period. An employee who wishes to take some or all of the remaining balance of his vacation entitlement after the vacation period shall have the option to have a portion of his vacation pay withheld by the Company until the employee takes some or all of

his remaining vacation entitlement. The balance owing shall be paid on the last pay day prior to his scheduled vacation, or November 1st, whichever occurs first. An employee not electing the withholding option shall receive their full vacation pay no later than July 1st, of each year.

20.18 Notwithstanding any other provisions of this section, no employee shall receive less vacation time nor less vacation pay than that to which he would be entitled under The Employment Standards Act.

- 20.19 (a)** When fewer than the regular number of employees in the job classification in a department or assigned area are required to work during the vacation period, employees having the greatest amount of seniority may indicate their preference as to whether they wish to work or to take a vacation. If the job is still open, it will be filled by the senior employees in the department who are qualified. If the job still remains open, it will be offered to the senior employees plant-wide as long as they are qualified to do the work.
- (b)** When jobs are available for the vacation period and regular employees normally performing the work are not available and senior qualified employees in the department are not available, or for job openings which no regular employee normally performs, employees wishing to work during the vacation period may indicate their desire to do so to the Human Resources department on a form supplied by the Company. Such

applications must be received not later than one week prior to the beginning of the announced plant shutdown. Employees will be selected on a seniority basis provided they are qualified to perform the available work. It is agreed that the Company does not guarantee to provide work for such employees and is not obligated to permit an employee to work unless work is available.

- c) In the event a regular employee does not have vacation entitlement or has exhausted his vacation entitlement prior to the annual vacation shutdown period, upon application he will be given preference to work the vacation shutdown period ahead of temporary employees, subject to the provisions outlined in Articles 20.19 (a) and (b) and providing he is qualified to do the work available.

23.03 The calculations of the total amount of the full bonus before applying the appropriate percentage shall be made as described in paragraph 23.01, except that his total earnings for the five (5) calendar years immediately prior to his termination shall be used as the basis of the calculation.

23.04 In the event of the subsequent re-employment of a person to whom a payment has been made pursuant to paragraph 23.02, any subsequent payment made to him under this Article and any subsequent Long Service Bonus payable to him shall be reduced by the amount of such payment.

23.05 In the case of death, payment shall be made to the duly appointed legal representative of the employee if there is one, and if not, to the spouse, parents, children, or other relatives or dependents of such employee as the Company in its sole discretion may determine.

Dear Steve:

The following letters were agreed to at the recent collective bargaining negotiations. This shall form part of the Collective Labour Agreement and will be enforceable through the grievance and arbitration procedure.

During recent collective bargaining negotiations between the Association and the Company, the Association expressed concern over the transfer of work out of the Company's plant in St. Catharines to new facilities or operations opened by the Company, or to other facilities or operations owned and operated by THK RHYTHM AUTOMOTIVE CANADA LIMITED, St. Catharines.

The Company is sincerely committed to providing maximum employment opportunities for its St. Catharines employees and as always will continue to strive toward this goal. The Company's policy has not changed with respect to this commitment.

In the event of any transfer of work out of the Company's St. Catharines Plant, the Company agrees to advise the Association promptly and to institute negotiations promptly for the purpose of consummating an agreement

with respect to the move as it may affect employees within the bargaining unit.

In the event a transfer of work out of the Company's plant results in a layoff of Linkage and Suspension Division St. Catharines employees, the Company will give preference over new hires at the plant to which work is transferred to the application of employees of the St. Catharines Plant.

Employees applying for skilled trades must have the required licenses.

Other rights and privileges of affected employees will be determined by negotiations, except that question of representation if any, will be determined by appropriate Government authority.

LETTER #2 ASSOCIATION REPRESENTATIVE TIME OFF THE JOB

510 – 539	=	143 hours
470 – 509	=	135 hours
440 – 469	=	128 hours
410 – 439	=	125 hours
409 or less	=	120 hours (min) Effective May 1, 2015 – April 30, 2016
409 or less	=	105 hours (min) Effective May 1, 2016 – April 30, 2018

LETTERS OF UNDERSTANDING
BETWEEN
THK RHYTHM AUTOMOTIVE CANADA LIMITED
AND
THOMPSON PRODUCTS EMPLOYEES'
ASSOCIATION

Re: Schedule II Job Classifications

This letter shall be in effect from the 1st day of May, 2015 and shall expire on April 30, 2018 and shall form part of the Collective Labour Agreement and will be enforceable through the grievance and arbitration procedure.

This document specifies the job classifications with their respective wage groups. Jobs listed opposite the job classification indicate the job content of that particular classification.

The Association and the Company further agree to the departments listed in this agreement for the purpose of overtime, layoff, displacement and recall.

Both parties understand and agree to the establishment of the job classifications listed herein and to the terms and conditions in this document relating to the changes required to successfully implement the new job classifications.

The Association agrees to work with the Company and the employees to ensure the work centres function as discussed at negotiations in the interest of preserving jobs and creating opportunities for new business.

Effective from May 1, 2015 or date of ratification, the following conditions will apply as outlined:

- 1.** Employees shall continue to perform their current individual jobs within their job classification in their department. Duties will be reassigned on the basis of seniority prior to the job being posted.

- 2.** When a group of individual jobs are directly combined within a job classification in a department to form a work centre, employees shall be selected on a voluntary basis by seniority within the job classification in the department. Under the general direction of the Production Coordinator, Work Centre Technicians shall be responsible for determining individual job selections or job rotation on the shift within the work centre. However, if one or more individual jobs within a work centre are required to operate on an entire shift basis, senior employees on the shift within the job classification and work centre will have preference if they wish to operate the individual job.

- 3. (a)** No employee shall be bypassed for any of his overtime opportunities within his job classification in his department as a result of his qualifications.

(b) Any employee who is eligible to work in his job classification and department shall be allowed to operate his individual job, selected press, upsetter or magnaflux, on overtime providing his individual job, selected press, upsetter or magnaflux is operating.

4. For the purpose of layoff, displacement and recall, the company agrees to recognize all employees within a job classification as being fully trained and qualified.
5. It is understood that for the purposes of layoff (excluding forced layoff), displacement, recall and overtime, that department 5792 shall be recognized separately as Plant I and Plant II.
6. Wages will be adjusted to reflect the status of the new job classification for all employees in that classification.
7. During negotiations the Association and the Company discussed Article 18.05.

Effective May 1, 2015, the Company agrees that it will not combine jobs using the provisions of Article 18.05 or combine existing departments without the Association's agreement and the Association agrees that it will not unreasonably withhold its agreement. This shall expire on April 30, 2018.

8. When a group of individual jobs are directly combined to form a work centre and one individual job is on a three shift basis, all employees in the job classification in the work centre and department will receive a paid lunch.

9. The Company and the Association agree to decrease the following job classifications under the conditions listed in this document.

All employees in General Services will be assigned to Department 5489:

The employees with job rights in the General Labour and Machine Tank Cleaner job classifications on May 1, 2015 will be grandfathered in their existing job classification, but not restricted to an assigned area. Effective May 1, 2015, these two job classifications will be combined to form a General Labour Pool. The grandfathered employees may be included in this pool or remain in their existing job classification. If the employee transfers into the General Labour Pool, he will receive that rate.

Any future openings will be posted for the General Labour Pool only and the employee(s) will be required to perform both General Labour and Machine Tank Cleaner duties.

It is agreed that no less than eight (8) jobs will be available to General Labour Pool employees. Any job openings that occur below the level of eight (8) shall be posted as per Article 11. It is further agreed that economic downturn or loss of area could reduce the number of General labour pool employees required.

Two of the eight employees will be assigned to steady days and the other employees will be required to rotate on all 3 shifts.

Re: Office Cleaner

This letter shall be in effect from the 1st day of May, 2015 and shall expire on April 30th, 2018 and shall form part of the Collective Labour Agreement and will be enforceable through the grievance and arbitration procedure.

This document specifies the terms and conditions of the job classification of Office Cleaner, Department 5489 and shall be the only interpretation given to the Office Cleaner job classification. The Company further agrees this agreement shall not be used in any arbitration hearing regarding outside contracting unless the arbitration hearing involves the job classification of Office Cleaner.

Effective May 1, 2015, or date of ratification by the T.P.E.A. the following terms and conditions shall apply as outlined:

1. Office Cleaner (11-7)

The Company shall maintain a total of two (2) Office Cleaner employees, and shall preserve this number of employees actively on their job classifications. Notwithstanding the above, it is agreed that in the event of economic downturn and/or reduction in the amount of work listed under 11-7 Office Cleaner's Job Duties in this document, the Company could reduce the number

- of Office Cleaners required from the two (2) jobs in this article provided that there is no contracting out of any Office Cleaner work listed or non-listed in this document while there are less than three jobs. The current number of two (2) active employees shall be reduced only upon the retirement or job posting of an Office Cleaner employee.
2. The Office Cleaners will report to the Area Manager in the area that they normally perform the work.
 3. Office Cleaners and the General Labour Pool shall be separate and distinct job classifications. Office Cleaners' job duties shall not be added to unless one of the following job duties are deleted and the addition is equivalent to the deletion and job duties are not from another job classification.
 4. Job duties shall be equally divided into separate areas. A list of the areas' job duties have been delivered to the Association with a list of each Production Coordinator the employee is responsible to report to.
 5. Both parties agree that nothing in this document redefines the arbitrator's interpretation of Letter #8 of the Collective Labour Agreement.
