THE ELECTRICAL POWER SYSTEMS CONSTRUCTION ASSOCIATION

(hereinafter called the "EPSCA")

**on behalf of Ontario Power Generation Inc, Bruce Power LP,
Hydro One , Portlands Energy Centre and
all other contractors performing work in the
Electrical Power Systems Sector**

and the

**UNITED ASSOCIATION OF JOURNEYMEN AND APPRENTICES
OF THE PLUMBING AND PIPE FITTING INDUSTRY OF THE
UNITED STATES AND CANADA**

(hereinafter called the "Union")

WHEREAS EPSCA is formed to represent all Employers engaged in construction industry work in the Electrical power systems sector in collective bargaining and on their behalf enter into collective agreements covering those of their employees in the bargaining unit as hereinafter defined; and

WHEREAS the Union is affiliated with the American Federation of Labour - Congress of Industrial Organizations and the Canadian Labour Congress and has in its membership competent, skilled and qualified journeymen and apprentices to perform work coming within the trade and craft jurisdiction; and

WHEREAS EPSCA and the Union desire to mutually establish and stabilize wages, hours and working conditions for journeymen and apprentices employed by Employers within the electrical power systems sector of the construction industry, and further, to encourage closer cooperation and understanding between EPSCA and the Union to the end that a satisfactory, continuous and harmonious relationship will exist between the parties to this Agreement;

NOW THEREFORE, EPSCA and the Union mutually agree that the working conditions as set out below shall be applicable throughout the Province of Ontario.

Article 1

RECOGNITION

- 1.1 EPSCA recognizes the Union as the exclusive bargaining agency for a bargaining unit as defined in Article 1.3 engaged in
- (i) all construction industry work under the responsibility of a construction unit* of the Ontario Power Generation Inc, Bruce Power LP, Hydro One or Portlands Energy Centre and;
 - (ii) all Major** construction industry work which is tendered/contracted for an operating unit of Ontario Power Generation Inc, Bruce Power LP, Hydro One or Portlands Energy Centre and;
 - (iii) work performed by a construction unit of Ontario Power Generation Inc, Bruce Power LP, Hydro One or Portlands Energy Centre for any operating unit of either company where it has been determined by that operating unit that there does not exist internally the expertise or current staff to perform the work.

This work shall be performed in the Province of Ontario on Ontario Power Generation Inc, Bruce Power LP, Hydro One or Portlands Energy Centre property for the bulk power system. The work encompasses:

- construction of new facilities
- additions to existing facilities
 - modifications
 - rehabilitation
 - reconstruction of existing facilities

For the purpose of clarity, the bulk power system comprises generating stations, hydraulic works, heavy water facilities, transmission lines (voltages over 50 kV) and transmission stations, microwave and repeater stations save and except the building of commercial-type office facilities at urban locations remote from operating facilities.

- 1.2 The Union recognizes EPSCA as the sole and exclusive collective bargaining agency for all of the Employers covered by this Agreement, and in all matters pertaining to the administration of this Collective Agreement.

* ***See Letter of Understanding - Construction Unit***

** ***The definition of Major described in (ii) above and any issues arising out of the interpretation of Major shall be dealt with in an attached Letter of Understanding.***

- 1.3 The term "employee" shall include all foremen, subforemen, journeymen and apprentices of the Employers as identified in Article 1.1 above. "Subforemen" are working foremen who exercise supervisory responsibility and who may use the tools of the trade.
- 1.4 The term "Employers" shall include individual members of EPSCA and any company, partnership, sole proprietorship, joint venture, contractor, subcontractor or any Employer engaged in the work as defined in Article 1.1 above.
- 1.5 Notwithstanding the provisions contained in this Article, this Agreement does not alter existing practices operative between individual Employers and the Union with respect to general foremen and subforemen.
- 1.6 EPSCA and the Union agree that the use of nomenclature is meant to refer to both genders.

Article 2

EXECUTIVE COMMITTEE

- 2.1 To advance harmonious relations between EPSCA, the Employers, the Union, and the employees, EPSCA and the Union shall each appoint an Executive Committee. The Executive Committee of EPSCA shall consist of the Board of Directors and Officers of EPSCA. The Executive Committee of the Union shall consist of the Senior Representatives of the Union and the Accredited Union Representatives.

The Committee shall meet together quarterly or upon request of either Committee to review matters associated with the administration and application of this Agreement. It will be the intent of both Committees to implement the standardization of this Agreement and all of its provisions wherever employees are working in the Province as well as deal with issues related to non-compliance with Articles in the collective agreement.

The parties will exchange dates in December of each year in order to schedule dates for Executive meetings in the following year.

- 2.2 Executive Committee minutes will be kept regarding the formal business conducted at these meetings, detailing those items discussed. The minutes must have the joint approval of the Executive Committee.
- 2.3 In recognition of matters that may arise during the extended duration of this Collective Agreement, the Executive Committee may deal with any issues brought forward by the parties that represent a significant change. Any alterations or modifications to this Agreement must be mutually agreed to by the parties.

Article 3

ACCREDITED UNION REPRESENTATIVES

- 3.1 The Senior Representative of the Union will designate Local Union representatives as Accredited Union Representatives to handle the day-to-day administration of this Agreement and grievances on the basis of not more than two representatives from the Union for each Major Project and suitable number for the Construction and Services Division. The Union will notify EPSCA in writing of the names of such Union representatives, or alternates in the event of illness or unavailability, so that they may be issued identification cards to permit entry to the site. Upon entering the job site, such representatives after identifying themselves to the EPSCA representative and the authorized representative of the Employer, will be free to observe the progress and conduct of the work and to conduct normal Union business. The Union undertakes that these representatives will not hinder or interfere in any way with the said work.
- 3.2 An Accredited Union Representative may be appointed by the International Representative to be his designate in all matters requiring the involvement of the International Representative.

The International Representative will inform EPSCA of the name of such designate prior to his involvement.

Article 4

UNION STEWARDS

- 4.1 The Accredited Union Representative shall inform the appropriate EPSCA representative in writing of the names of all stewards as they are appointed and when they cease to act as stewards. A steward shall exercise his duties only in respect to employees of his Employer. A steward shall obtain permission from his immediate supervisor before leaving his work area for Union business. Such permission shall not be unreasonably denied.

The Accredited Union Representative shall inform the appropriate EPSCA representative in writing of the name of one steward who will be responsible for the conducting of business at the Project level. The Chief Steward shall be supplied by the Employer with a list of employees hired and discharged. He shall receive a copy of all correspondence related to disciplinary matters issued to the employee. The Chief Steward and the Accredited Union Representative shall be notified of all layoffs a minimum of one day in advance.

4.2 In the event of a work stoppage or threat of a work stoppage or any other employee activity prohibited by this Agreement, affected stewards, in keeping with their responsibilities, as it is incumbent upon all Union representatives, shall immediately take all reasonable action to ensure that the prohibited action of the employees is prevented or stopped.

4.3 The Union shall be given written notice before a steward is released or transferred by the Employer and under normal conditions the steward will be the last employee retained by the Employer in a layoff situation, provided the steward is able to perform the work required in Management's opinion.

The Accredited Union Representative may appoint one (1) Alternate Chief Steward, to perform Chief Steward duties only when the regular Chief Steward is absent from work. The Alternate Chief Steward will not be laid off until the manpower on-site is reduced to ten (10) UA members or less, unless by mutual consent between the accredited Union Representative and the Accredited EPSCA Representative.

4.4 The Chief Steward will be informed of all scheduled overtime. Where practical, a steward shall be given the first opportunity to work the overtime providing he is qualified to perform the work.

Article 5

ADVANCE NOTICES

5.1 EPSCA will advise the Union of all new construction work coming under the scope of this Agreement for the construction field forces of the Employers.

Upon request, EPSCA will convene a prejob conference before work commences to discuss the preliminary details of the proposed work to be performed and to establish conditions in accordance with this Agreement for the Project.

Article 6

WORK ASSIGNMENT

6.1 The Jurisdiction of the Union shall be that jurisdiction established by Agreements between International Unions claiming the work or decisions of record recognized by the AFL-CIO for the various classifications and the character of work performed.

6.2 In recognition of the Union's jurisdictional claims, it is understood that the assignment of work and the settlement of jurisdictional disputes with other Building Trades organizations shall be adjusted in accordance with the procedure established by the Plan for the Settlement of Jurisdictional Disputes in the Construction Industry, or any successor agency of the Building and Construction Trades

Department. When a jurisdictional dispute exists between unions and upon request by the United Association, the Employer shall furnish the U.A. Director of Canadian Affairs a signed letter from a duly authorized official of the company on Employer stationery, stating whether or not the Union was employed on specific types of work on a given project. The Employer agrees to consider evidence of established practices within the construction industry generally when making jurisdictional assignments.

- 6.3 A markup process will be utilized when an Employer intends to perform work on a project site.*The purpose of this markup process is to indicate to the union the work which is planned to be carried out by the Employer in order to minimize the potential for jurisdictional disputes.
- 6.4 When work is performed on a project site* and it meets the following criteria: same employer, same work, same project site*, the markup process will not be required. This procedure shall not preclude the Union's right to contest previously disputed work. The EPSCA Office will send out a "notification of work" along with a copy of the original minutes of mark-up meetings to the Local Unions prior to work commencing.
- 6.5 When an Employer has work that is less than a three week duration and there are ten (10) or fewer employees covered by the EPSCA Collective Agreements employed on this specific work, the Union will be notified of the scope of work and the Employer's proposed work assignments. The Unions will have two (2) weeks from the date of notification to submit jurisdictional claims and supporting evidence to the Employers for consideration. The Employer will notify the Union of the final work assignment prior to commencement of the work.

* For the purposes of this Section, Lines and Stations, Nanticoke, Lambton, Lakeview/Hearn, BPND, Pickering, Darlington, Lines and Stations and the 5 Electricity Production Zones are each considered individual project sites

- 6.6 All work that does not meet the criteria set out in sections 6.4 or 6.5 will be reviewed and assigned at a markup meeting.

EPSCA will provide written notice to the Union as far in advance as possible of markup meetings. The Union may attend these markup meetings, and every effort will be made to settle questions of jurisdiction before the work is expected to commence.

The Employer who has the responsibility for the work shall make a proposed assignment of the work involved. The Employer shall be responsible for providing copies of proposed assignments to the Union. The Employer will specify a reasonable time limit for the Union to submit evidence of its claims. The Employer will evaluate all evidence submitted and make a final assignment of the work involved. This final assignment will be in accordance with the procedural rules established by the Plan for the Settlement of Jurisdictional Disputes in the

Construction Industry. The Employer will advise the Union of the final assignments prior to the work commencing.

EPSCA will record the proposed assignments and jurisdictional claims and forward a copy of them within fifteen (15) working days to the United Association Canadian Office and Accredited Union Representative.

Upon request, the employer shall supply the UA Canadian Office and Accredited Union Representative with a copy of the evidence submitted by the other Union(s) involved along with drawings and/or prints plus a description of the work or process in dispute from a qualified representative of the Employer.

- 6.7 The parties recognize that circumstances may arise, particularly with discovery and emergency work, where the process set out above may not be practical or possible. However, reasonable effort will be made by the Employer to adhere to the jurisdiction of the United Association.

Assignments made with respect to the work referred to in 6.7 above shall not be subject to jurisdictional disputes providing it is limited to two hours duration and a maximum of two employees and limited to the movement of uninstalled tools and/or materials. Nothing in this article will set practice or precedent and cannot be relied upon as evidence for future assignments.

6.8 Jurisdictional Disputes

The International Representative of the Union will advise EPSCA in writing of his intent to submit a jurisdictional dispute to the Plan for the Settlement of Jurisdictional Disputes in the Construction Industry and will identify in detail the work in question. In the event that the International Office of the Union elects not to file with the Plan for the Settlement of Jurisdictional Disputes in the Construction Industry, EPSCA and/or the Contractor agree to file the dispute at the Plan for the Settlement of Jurisdictional Disputes in the Construction Industry at the request of the UA Director of Canadian Affairs. The decision of the Plan for the Settlement of Jurisdictional Disputes in the Construction Industry will be final and binding to the parties to this Agreement.

- 6.9 There shall be no sit down or work stoppage because of jurisdictional disputes.

- 6.10 In the event that the Plan for the Settlement of Jurisdictional Disputes in the Construction Industry fails to render a decision within sixty (60) days of the disputed assignment or if the said Plan is unable to convene and issue decisions or if the Union is unable to refer the dispute to the Plan, EPSCA and the Union shall have recourse to the Ontario Labour Relations Board for a decision.

- 6.11 In the event the building trades in the Province of Ontario are successful in establishing a Provincial Impartial Jurisdictional Disputes Board, EPSCA and the

Union agree to meet and discuss implementation of procedures set forth by said Board.

Article 7

UNION SECURITY

- 7.1 The Employers agree that all employees under this Agreement will be members of the Union and will maintain such membership in good standing as a condition of employment.
- 7.2 At the request of the Union, a checkoff system of Union dues will be instituted and made operative for the duration of this Agreement. All deductions will be based on hours paid. The Employers will supply full checkoff lists of employees subject to checkoff at regular intervals, and agree to collect monthly for the Union dues payable to the Union. The Employers will transmit the monies so collected to the designated officials of locals of the Union. The Union will indemnify EPSCA and the Employers for any liability arising from the deduction of dues as requested by the Union.
- 7.3 Any changes in dues will be confirmed by the International Representative to EPSCA before such changes are put into effect.

Article 8

EMPLOYMENT

- 8.1 (a) For the purposes of this Section, a geographic area will be established for each Major Project and geographic areas for the Construction and Services Division. The size of these geographic areas will be dependent upon the location of the work.
- (b) The boundaries of the geographic areas will be jointly established at pre job conferences.
- 8.2 An office will be established by EPSCA, or by the Employer with the approval of EPSCA, for each Major Project and the Construction and Services Division. A purpose of this office will be to coordinate employment as specified in this Section.
- 8.3 EPSCA, or the Employer with the approval of EPSCA, and the Union will exchange the names of their representatives in each of the areas described in Section 8.1 (a), who will be responsible for cooperating in the referral and employment of reliable and competent Union members.

- 8.4 EPSCA, or the Employer with the approval of EPSCA, will notify the Union of future manpower requirements of all employees coming within the scope of this Agreement.
- 8.5 (a) Where key tradesmen are required, Employers reserve the right to employ and transfer two (2) key tradesmen to a project site. The key tradesmen will be considered name hires in accordance with Section 8.6 (b).
- (b) An Employer reserves the right to transfer employees within the geographic area of the Local Union between projects covered by this collective agreement.
- (c) Pickering/Darlington

The Employer may elect to transfer existing employees (to a maximum of five from each Local union) under the EPSCA Agreement from site to site. The Employer will notify the Local Union Business Manager as to which employees will be eligible for transfer. Employer will notify the locals prior to transfer. Best efforts will be made to balance the number of transfer hours between the two locals. Stewards will not be adversely affected by any transfer. Key men will be allowed as per Article 8.5 (a). Foremen and subforemen will be allowed as per Article 9.

On contract anniversary date (May 1st) each year, the Employer shall review the man-hours worked in the previous year with the Executive Committee. The Committee shall have the authority to adjust the transfer provisions based on the man-hours worked and base load of work performed, in addition the Executive Committee shall have the authority to suspend these provisions should the workload not merit transfers or should a Contractor abuse these provisions. At no time during this agreement will the Executive Committee have the authority to increase the transfer provisions to greater than ten (10). The Business Manager of Local 46 and Local 401 (or their delegate) shall be a member of the Executive Committee. The Local Union Business Manager may increase the transfer provisions (above the agreed number) on a temporary basis as they see fit. Members previously dispatched to a project will not be laid off to accommodate such transfers.

(d) All Locals

The Employer may elect to transfer employees sector to sector within a Local Union jurisdiction. The Employer will notify the Local Union prior to such transfer. The employees must be members of the Local Union. Key men will be allowed as per Article 8.5 (a). Foremen and subforemen transfers will be allowed as per Article 9. Stewards will not be adversely affected by any such transfer. Members previously dispatched to a project will not be laid off to accommodate such transfers. Employees transferred under this Article will count as name hires and form part of the 50% provision.

8.6 The employment of tradesmen and apprentices, excluding key tradesmen, shall be carried out on the following basis and sequence:

- (a) The Employer may elect to:
 - (i) hire employees currently on Recall (see Section 8.6 (e) Recall and Statement of Understanding #4 - Application of Recall - Nuclear Sites only)
OR
 - (ii) request union members from the Local Union,
OR
 - (iii) transfer employees as per Article 8.5
OR
 - (iv) hire a combination of employees from (i) and (iii) above.

- (b) The EPSCA office, or the Employer's office, with the approval of EPSCA, will request the appropriate Local Union office for tradesmen and apprentices required. The Union will furnish security cleared workmen prior to furnishing other workmen, providing access to security clearance is made available to all members. The Employer shall have the right to determine competency and qualifications and to reject any new applicant and to discharge and discipline any employee for just and sufficient cause.

The Employer shall not discriminate against any employee by reason of his membership in the Union or his participation in its lawful activities.

The Employer shall have the right to request Union members from that local Union having jurisdiction for the geographic area by name, in writing, who shall be issued a referral slip by the local Union. The number of employees so requested shall not exceed fifty percent (50%) of the employees supplied to the job by the local Union, subject to the local Union being able to supply. This ratio shall not be exceeded at any point during the project.

- (c) Local Union members who are resident in the Province of Ontario will be referred by the Union for employment through the EPSCA office, or the Employer's office, with the approval of EPSCA. As much as their out-of-work list will permit, the Union will supply members on a fanout basis from the project or work location.

The Employer will either hire such persons or substantiate their reasons in writing for not doing so.

- (d) When the supply of local union member tradesmen and apprentices has been exhausted and additional tradesmen and apprentices are required, Employers may transfer employees in their employ in the local union geographic area (no sectoral restriction), prior to contacting the International Representative

for the trade concerned in order to determine whether Union tradesmen and apprentices are available outside of the local union. The United Association will co-operate in providing employment to such union tradesmen and apprentices on the basis that they be supplied from the nearest location where they are available.

- (e) RECALL (Nuclear Sites Only- Does not apply to New Build) - An Employer may recall former Local Union employees and key tradesmen, for a period of forty five working days from the last date of the employee's layoff provided the employee has not been employed elsewhere.

If an Employer chooses to bypass employees who are eligible for Recall, the Employer forfeits the rights to recall those bypassed employees. (Also see Statement of Understanding #4 - Application of Recall – Nuclear Sites Only.)

- (f) The Employer agrees to hire and employ only members of the United Association when available on all work within the jurisdiction of the Union. Such employees as a condition of their employment shall continue to maintain their membership in the United Association. No one will be employed unless they are in possession of a referral slip from the Local Union office. All employees in possession of a referral slip from the Local Union shall register with the EPSCA office on site prior to commencing work. Where possible on Generation Projects, the EPSCA office will make available a list of names of any new hires at the earliest convenience which may be reviewed by the union steward.

Notwithstanding Article 7.1 - Union Security, if, upon request, the Local Union or the United Association is unable, within three (3) full working days, to supply journeymen, including journeymen with special skills, EPSCA may secure journeymen from other available sources.

- (g) Re-employment of UA members as required by the Workplace Safety and Insurance Board shall not be a violation of the collective agreement nor be subject to the provisions of Article 8.

8.7 Should it be necessary to reduce the working forces on the job, the Employer shall lay off or terminate his employees in the following sequence:

- (i) potential members
- (ii) travel cards
- (iii) Local Union members

It is recognized that the remaining employees must be capable of performing the work remaining to be done.

8.8 Construction Radiation Protection Assistant (R.P.A.) is a Construction Trades

Person (Greenman) who has achieved the full radiation qualification via (i) the approved Bruce Power LP and Ontario Power Generation Inc. Training Program, (ii) has successfully completed the construction R.P.A. training and checkouts, and (iii) has performed R.P.A. functions while under supervision of a fully qualified Construction R.P.A. to the satisfaction of the Construction Site Safety Officer and the Station Health Physics Unit.

The Employer will select for Greenman training only those employees who are members of the Local Union for the Project.

R.P.A. will be paid the appropriate equivalent foreman's rate when performing an R.P.A. function and will report to the Site Safety Unit. An R.P.A. is a "qualification" and not a "trade function" irrespective of union or trade affiliation.

- 8.9 In the case of a recall to work, Employers reserve the right to recall qualified Greenmen (Atomic Radiation Workers) in sequence from the out-of-work list to the location from where they were laid off. Recalled Greenmen will perform sufficient Greenman work to maintain their skill level.
- 8.10 The employer may transfer employees between the Pickering and Darlington sites during outages or emergency situations on mutual consent between the Unions.
- 8.11 An employee who voluntarily terminates their employment with an Employer on an EPSCA site shall not be entitled to be referred to another Employer on the same site for a period of thirty (30) calendar days.

Article 9

FOREMEN AND SUBFOREMEN

- 9.1 It is understood that foremen and subforemen hold key positions in the relationship between the Employers and the Union. Both parties agree that every effort should be made to recruit and retain foremen and subforemen who have a high degree of efficiency in the performance of their jobs and in the handling of their men. Recognizing the responsibilities involved in being a supervisor and a member of the Union, the Employers and the Union will make every effort to minimize problems that may arise which concern the relationship between the foremen and subforemen, the Employers and the Union. In a situation where a crew is established on a shift and is comprised of five (5) or less UA members, including the foreman, the foreman may work with the tools of the trade. There shall be no more than two (2) subforemen per foreman, per crew.
- 9.2 The parties recognize the responsibilities of foremen and subforemen to discharge their managerial duties. If the Union feels that the foreman or subforeman is not discharging his managerial duties in a manner that is fair and equitable, or if an

Employer feels that the Union is interfering with the foreman or subforeman in the performance of his managerial duties, the Employer or the Union may refer the problem to the Executive Committee for resolution. If the matter cannot be resolved by the Executive Committee, the grievance procedure may be invoked by either party.

- 9.3 The selection and retention of foremen and subforemen will be the responsibility of the Employers. When making appointments to the foreman and subforeman level, the Employers will give consideration to those journeyman they presently employ on site.
- 9.4 In the interest of efficiency and productivity, the Employer shall have the right to move foreman and subforemen from construction site to construction site.
- 9.5 The foremen's differential shall be the higher of the differential paid in the locality by Employers under Agreement with the Union for construction work of a related nature of \$3.00 per hour (increase to \$3.50 on May 1, 2007). The subforemen's differential shall be 50 percent of the foremen's differential.
- 9.6 The rates of pay for all foremen and subforemen covered by this Agreement will be set out in the wage schedules attached hereto.
- 9.7 No Foreman or subforeman shall be appointed or permitted to act as a Steward.
- 9.8 Travel card subforemen shall be laid off before local union subforemen.

Article 10

FABRICATION CLAUSE

- 10.1 All piping at the option of the Employer shall be fabricated or bent on the job site or in a shop.
- 10.2 Where the word "shop" is used in this Article it shall be defined as a qualified pipe fabrication shop under agreement with the United Association or one of its Local Unions.
- 10.3 The United Association and its affiliated Local Unions reserve the right to refuse to handle, erect or install fabricated piping sent to the job that has not been fabricated in a shop.
- 10.4 Both the Union and the Employer acknowledge that exceptions may arise where the Employer is required to install component parts of an industrial piping system such as skid mounted vessels, pumps, driers, exchangers, etc, (but excluding pipe and piping formations between such components). Prior to commencement of this work where the Employer is required to install such components and if the matter cannot

be mutually resolved between the Employer and the Union, it shall be immediately referred to a permanent review panel consisting of three members appointed by the Union and three members appointed by the Employer.

This panel shall establish its own terms of reference which will include provisions for a final and binding settlement on such matters contained herein, including situations where non-competitive bidding has occurred.

Article 11

PIPE HANGERS AND PIPE SUPPORTS

- 11.1 All pipe supports and pipe hangers made of structural shapes only which can be fabricated from drawings or specifications prepared by the responsible designing engineering company or companies are not covered by this Agreement. Such pipe supports and pipe hangers shall be shipped to the job unattached and erection shall be covered by the terms of this Agreement.
- 11.2 All hanger rods, pipe supports and pipe hangers which require field dimensions for fabrication by the Employer on or off site are covered by this Agreement.
- 11.3 All catalogue items such as clamps, U-bolts, etc, may be purchased from any sources at the option of the Employer. Erection of such items shall be covered by the terms of this Agreement.

Article 12

NON-DESTRUCTIVE TESTING

- 12.1 For on site work where the Employer is responsible for and has control over non-destructive testing or sublets such work, this work shall be performed in accordance with an agreement acceptable to the Union, or under the Quality Control Council of Canada Agreement.

Article 13

TAGGING

- 13.1 Where the Employer is responsible for the initial identification tagging of valves and instruments in "situ", the affixing of such tags shall be performed by a member of the United Association.

Article 14

APPRENTICESHIP AND TRAINING PROGRAMS

- 14.1 It is recognized and agreed that in order to update the skills of tradesmen and registered apprentices covered by the terms of this Agreement all Employers shall pay into the United Association Canadian Training Trust Fund eight cents (8¢) per hour for each hour worked by its employees under the terms of this Agreement.
- 14.2 Employers shall pay into operative local apprenticeship or training funds the amounts set out in the wage schedules attached hereto.
- 14.3 The Union agrees to supply pertinent information regarding the fund(s) to EPSCA.
- 14.4 The responsibility for selecting and employing the required numbers of apprentices and the administration of the local apprenticeship system shall be governed by the terms and procedures established by the Joint Local Union Training Committees.
- 14.5 EPSCA will identify as far in advance as possible its training needs and communicate those needs to the Local Training Committee. EPSCA agrees to co-ordinate with the Local Union the specialized training required to accommodate new technology and new methods with the intent to utilize local union members wherever practical.

In the interest of expediting the procedure, the parties shall process grievances in the following manner:

The processing of EPSCA grievances shall begin at the Second Step. EPSCA may submit either policy or specific grievances. The Union may also institute policy grievances at this Step. Such policy or specific grievances shall be submitted within thirty (30) days of the alleged grievous act.

35.6 TIME LIMITS

The time limits as to both documents and procedure set out in the above sections shall be complied with by the parties to this Agreement provided, however, that the parties may mutually agree in writing in respect to an extension or waiver of any of the time imposed. Where no answer is given within the time limits specified in the grievance procedure, the employee concerned, the Union or EPSCA shall be entitled to submit the grievance to the next step of the grievance procedure. Any grievance not processed within the time limits specified in the grievance procedure shall be deemed to have been settled and ineligible for arbitration.

35.7 Alleged unjustified termination, discharge, suspension or disciplinary action may be grieved beginning at First Step.

35.8 In order to advance harmonious relations between EPSCA and the Union, it is the intention of the parties to fully exhaust the provisions set forth in this Article for the resolution of disputes concerning the interpretation or application of particular clauses of this Agreement prior to submitting such disputes or alleged violations to a third party for resolution.

35.9 GRIEVANCE FACILITIES

EPSCA shall provide the necessary facilities for all grievance meetings.

Article 36

ARBITRATION

36.1 If any dispute about the interpretation or application of particular clauses of this Agreement or about an alleged violation of this Agreement cannot be settled through the grievance procedure outlined in Article 35, the matter may be submitted within thirty (30) days of its failure of settlement by grievance procedure by either EPSCA or the Union to a Board of Arbitration for adjudication. The party desiring to submit the dispute to arbitration shall notify the other party in writing of its desire and the notice shall contain the name of the first party's nominee to an arbitration board. The recipient of the notice shall, within five (5) working days, inform the other party of the name of its nominee to the arbitration board. The two nominees so selected shall, within ten (10) working days of the appointment of the second of them, appoint a third person who shall be the Chairman. If the recipient of the

notice fails to appoint a nominee, or if the nominees fail to agree upon a Chairman, the appointment shall be made by the Minister of Labour for Ontario upon request of either party. The arbitration board, when selected or appointed, shall proceed as soon as practicable to hear and determine the dispute and it shall issue a decision which is final and binding upon the parties and upon their respective members. The decision of a majority is the decision of the arbitration board, but if there is no majority, the decision of the Chairman governs.

- 36.2 The arbitration board shall have no power to add to or subtract from or modify any of the terms of this Agreement. The arbitration board shall not substitute its discretion for that of the parties except where the board determines that an employee has been discharged or otherwise disciplined for cause when this Agreement does not contain a specific penalty for the infraction that is the subject matter of the arbitration. In such cases, the arbitration board may substitute such other penalty for the discharge or discipline as to the arbitration board seems just and reasonable in all circumstances. The arbitration board shall not exercise any responsibility or function of the parties. The arbitration board shall not deal with any matter not contained in the original statement of grievance filed by the party referring the matter to arbitration.
- 36.3 In arbitration proceedings, each party shall pay the fees and expenses of its nominee, whether appointed by the party or by the Minister of Labour for Ontario, and the fees and expenses of the Chairman shall be shared equally by the parties.
- 36.4 The time limits as to both documents and procedure set out in the above sections shall be observed by the parties to this Agreement provided, however, that the parties may mutually agree in writing in respect to an extension or waiver of any of the time limits imposed.

APPENDIX B – 7 Day Coverage

When working under the provisions of this appendix, all conditions listed below will supersede those contained in the main agreement. Where this appendix is silent the appropriate Article in the collective agreement applies.

This shift schedule is intended for work of at least five (5) weeks in duration, however, it is recognized that unforeseen circumstances may require the cancellation of this schedule.

If in the transition onto or off this 7 day shift schedule an employee would receive less than 40 paid hours in a pay period, the employee shall receive the difference between the total paid hours for that pay period and 40 hours pay. This does not apply to those employees who are laid off during or at the end of the schedule.

The employee(s) shift schedule consists of four consecutive shifts (day, afternoon, or night) followed by four scheduled days off. Shift overlap may be required.

Shift work may be established by the employer to provide seven days per week work coverage, on a two or three ten (10) hour per day shift basis. When this occurs, a specific shift arrangement will be established by the employer detailing the shift schedule to be worked.

Notice Provision

If this shift schedule is to be used for work on a “planned outage”, the employer will provide the Union with two (2) weeks notice prior to the implementation of these shift provisions.

Shift Provisions

Day Shift

Regularly scheduled hours of work per shift Monday to Friday inclusive shall be paid at straight time hourly rates.

Afternoon Shift

Regularly scheduled hours of work per shift Monday to Friday inclusive shall be paid at straight time hourly rates plus a shift differential of one-fifth of the straight time hourly rate.

Night Shift

Regularly scheduled hours of work per shift Monday to Friday inclusive shall be paid at straight time hourly rates plus a shift differential of one-fifth of the straight time hourly rate.

All Shifts

Regularly scheduled hours of work on Saturday, Sunday, Statutory and Recognized Holidays shall be paid at two times the straight time hourly rate. Recognized Holidays will be observed on the actual day on which the holiday occurs or as declared by legislation.

The rate for the shift will be based on the day in which the shift begins.

An unpaid lunch period of one-half hour shall be allowed to be taken no later than five hours after the commencement of a shift.

For employees working regularly scheduled hours, two fifteen (15) minute rest periods will be allotted at a time and location directed by the employer for employees to rest.

It may be necessary, from time to time, to vary the established shift arrangements. When this occurs, a revised shift arrangement will be established.

Overtime Rates

This is to clarify that overtime will be paid in accordance with Article 24 –Overtime Rates.

APPENDIX C – 7 Day Coverage – Nuclear Sites Only

The implementation of this Appendix is contingent on EPSCA and the Millwrights agreeing to comparable rates for regularly scheduled hours on Saturday and Sunday on 7 day coverage. This agreement shall become effective immediately upon such agreement between EPSCA and the Millwright Regional Council of Ontario. In the 30 day period immediately following the date this Appendix becomes effective, the union shall have the option to put forth other alternatives that will provide savings at least equivalent to those that would result from the implementation of this Appendix and EPSCA will consider all such alternatives. Failure to agree to an acceptable alternative will result in the continued application of this Appendix.

If EPSCA provides an incentive to the Millwright Regional Council of Ontario to obtain the agreement of this Appendix within the Millwright Agreement, then EPSCA shall make available the same incentives to the unions that have become bound to this Appendix. This “me too” is effective only for the duration of the collective agreement and will expire on April 30, 2020.

When an employee is assigned to, and working as a member of, a composite crew with one or more employees working under the Carpenter Collective Agreement who is also working under provisions of the applicable 7 Day Coverage of the Carpenter Collective Agreement (7 Day Coverage), he or she shall receive the same premium pay treatment as the Carpenter for regular scheduled hours for Saturday and Sundays.

The above paragraphs do not change the existing language in the 7 Day Coverage Appendix for non-Nuclear sites.

APPENDIX C

7 DAY COVERAGE – Nuclear Sites Only

This shift schedule is intended for work greater than four (4), eight (8) day cycles (32 days) in duration, however, it is recognized that unforeseen circumstances may require the cancellation of this schedule.

If in the transition onto or off this 7-day shift schedule an employee would receive less than 40 paid hours in a pay period, the employee shall receive the difference between the total paid hours for that pay period and 40 hours pay. This does not apply to those employees who are laid off during or at the end of the schedule.

The employee(s) shift schedule consists of four consecutive shifts (day, afternoon, or night) followed by four scheduled days off. Shift overlap may be required.

Shift work may be established by the employer to provide seven days per week work coverage, on a one, two, or three shift per day basis. When this occurs, a specific shift arrangement will be established by the employer detailing the shift schedule to be worked.

The employer will provide the Union with seven (7) calendar days' notice prior to the implementation of these shift provisions.

First Shift (Day Shift)

Regularly scheduled hours of work of ten (10) hours per shift Monday to Friday inclusive shall be paid at straight time hourly rates.

Second Shift (Afternoon Shift)

Statutory and Recognized Holidays shall be paid at two times the straight time hourly rate. Recognized Holidays will be observed on the actual day on which the holiday occurs or as declared by legislation.

The rate for the shift will be based on the day in which the shift begins.

An unpaid lunch period of one-half hour shall be allowed to be taken no later than five hours after the commencement of a shift.

For employees working regularly scheduled hours, two fifteen (15) minute rest periods will be allotted at a time and location directed by the employer for employees to rest.

It may be necessary, from time to time, to vary the established shift arrangements. When this occurs, a revised shift arrangement will be established.

Overtime will be in accordance with the provisions of the collective agreement.

STATEMENT OF UNDERSTANDING NO. 1

It is recognized and agreed by the Electrical Power Systems Construction Association and the United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada that Ontario Hydro directly (not through EPSCA) employs X-Ray Technicians who are covered by a collective agreement to the Canadian Union of Public Employees. This will confirm that it is not the intention of the U.A. to interfere with such Technicians who may be assigned to perform their work on Ontario Hydro projects.

APPLICATION OF RECALL
Nuclear Sites Only

Example # 1

Twenty (20) employees are laid off; assume that five (5) of those employees had been previously name hired :

- Employer wishes to hire 12
- Employer has option to Recall all or portion of the twelve (12) from the original twenty (20) or hire from the out-of-work list (using 50% name hire) or a combination thereof on the following basis

Combination

- assume twelve (12) employees needed
- assume twenty (20) on Recall (ten (10) name hired)
- Employer elects to Recall eight (8) from the twenty (20) on Recall as follows:
 - Four (4) name recalled (previously dispatched employees)
 - Four (4) previously name hired employee on Recall list

Employer elects to staff the remaining four (4) from the out-of-work list as follows:

- two (2) referred from the Union
- two (2) name hired

Loss of Recall

An Employer loses right to Recall employees whenever the Employer hires from the out-of-work list.

In Example #1 above, the Employer loses Recall of the eight (8) employees not selected since the out-of-work list was used.

Example # 2

There are twenty (20) employees on Recall, however the Employer chooses to bypass the employees on Recall and hires two (2) employees form the out-of-work list. By doing so the Employer forfeits Recall to the twenty (20) employees.

RE: BOARD/ TRAVEL AT NORTHERN SITES

For major OPG construction projects in remote parts of the Province:

Major construction project is defined as a large scale, temporary, site-specific scope of work that may entail maintenance work or the ongoing operation of the generating station.

EPSCA, the Union and OPG will review, on a project by project basis, the board and travel and initial/return travel provisions to determine if they are adequate.

Considerations include location of the work, availability of accommodation, travel time, etc.

The review will be conducted as part of the pre-bid information process (i.e. prior to awarding the final contract).

If special funding is found to be unnecessary, the collective agreement provisions will apply.

Should situations arise where there is a disagreement regarding application of this clause or the definition of "Major OPG Construction", the matter will be referred to the Executive Committee for resolution.
