OF THE THIRD PART

WHEREAS the Employer's business involves
nondestructive testing and the employment of persons
skilled and qualified to perform the same, and

WHEREAS the nature of the work and the size
and scope of the Employer's business requires that persons
employed by the Employer be available to perform work
where and when such work may be requested by owners
and contractors: and

WHEREAS the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada, and the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, Forgers and Helpers, (hereinafter referred to as the "affiliated Unions") wish to negotiate and administer this Agreement through the Council and for that purpose have constituted the Council and empowered it to act as agent for each and both of them; save and except for the Province of Newfoundland, and

WHEREAS the Employer recognizes for the purposes of this Agreement the formation by the affiliated Unions of the Council and agrees to deal with the Council as the agent of the affiliated Unions in negotiating and administering this Collective Agreement: save and except for the Province of Newfoundland. and

WHEREAS the Employer recognizes the Newfoundland Unions as the sole bargaining agent for all Nondestructive Testing Employees employed by the Employer in the Province of Newfoundland, and

WHEREAS the parties hereto desire that persons trained to perform nondestructive testing work may be admitted to the appropriate affiliated Union, and that the said affiliated Union should have jurisdiction over such persons: and

WHEREAS the work of the Employer is carried out in many places in Canada so that it is essential that the Employer's personnel be available to work promptly when required throughout Canada.

NOW THEREFORE this Agreement witnessed, and the parties aforementioned hereto mutually covenant and agree together as follows:

Note: The express terms of this **agreement** are modified by the Appendices A, B, C, D, E, F and G which are hereby made a part of this Agreement. Where there is a **conflict** the provision of the Appendix takes priority.

ARTICLE 1 • RECOGNITION

1.01 The Employer recognizes the Council as the sole and exclusive bargaining representative for all Nondestructive Testing Technicians, Trainees and Helpers in the employ of the Employer within the scope of this Agreement save and except office and sales staff, and persons above the rank of working supervisor.

102 Owners and/or shareholders shall be considered employees when performing work covered by the collective agreement and, as such, shall join one of the affiliated unions and be paid all terms and conditions of the collective agreement.

The minimum contributions of any employer to the pension fund, training fund, administration fund, field dues, union dues, health and welfare fund and all other required payments shall be based on a minimum of one hundred seventy-three (173) hours per month working time for at

least one (1) employee. There must be at least one full time employee.

"Employee" means any person working within the scope of this agreement whether probationary or not, and whether working on unchargeable time or not and all hours worked by such employee within the scope of this agreement shall be counted for the purposes of all remissions required including regular dues, working dues, pension, training fund, administration fund and Health and Welfare.

- 1.02 The affiliated Unions agree with each other and with the Council and the Employer to maintain the Council composed of the affiliated Unions for the purposes of this Agreement and to be governed by the terms of this Agreement and by all lawful settlements of disputes and grievances made by the Council. The affiliated Unions further agree to delegate, and they do hereby delegate, to the Council all their rights as bargaining agent for employees of the Employer who come within the scope of this Agreement and agree not to withdraw such delegation of rights. The Council accepts the delegation of rights and responsibilities of negotiating and administering this Agreement.

ARTICLE 2 - SCOPE

- 2.01 (a) This agreement shall apply in respect to all nondestructive testing work performed by the

employer or by any person, firm or corporation, owned or financially controlled by the employer in Canada. For greater certainty, this clause shall be construed to mean any business, undertaking or a part that has been sold, leased, transferred or merged with another business, undertaking or part of it or otherwise disposed of so that the control, management or supervision of it would pass to a purchaser, lessee transferee or person acquiring it or where an employer may operate a business, venture or undertaking which is in a related or associated business and is under the common control and direction of one or more parties, either directly or indirectly. The broadest possible construction shall be placed upon it, so as to achieve the intended purpose of curtailing spin-offs or successor employers.

Nondestructive Testing is defined as follows:

Radiography including x-ray, gamma ray, fluoroscopy, real time

Ultrasonics including automated, immersion, contact.

Magnetic Particle Inspection - All industrial forms.

Liquid Penetrant Inspection - All industrial forms.

Eddy Current including Remote Field Testing and Electro Magnetic Inspection.

PMI for material sorting,

together with future technological replacements and advancements in these methods, but does not include visual inspection, destructive testing, stress relieving or material characterization.

- (b) This definition of nondestructive testing does not prohibit the Council from organizing and seeking certification for employees of the employer engaged in other types of work. If the Council or one of its' affiliated unions gains certification or written voluntary recognition for the employees of an employer performing any such functions. The employer will negotiate rates for such employees and include them under this agreement for that employer.
- (c) If the employer assigns persons covered by this agreement to perform work which is not within the scope of the agreement, all terms and conditions of the agreement shall apply. However that assignment does not bring the work within the scope of the agreement. Such work is "chargeable" unless it falls within the specific definition of unchargeable time.

This scope clause may differ in some regions. See Appendices for **complete scope for** each region.

Atlantic, Prairie And Central Region

8b/17

6.03 The normal shifts shall be as follows:

- (d) On work performed on site as part of new construction or revamp work covered by an on-site building trades agreement, where an employee is required to work on one (1) shift for more than five (5) days, if the employee's shift is changed, from one shift to another shift, with less than twenty-four (24) hours' notice he shall be paid at the applicable overtime rate for the first shift worked on the new schedule.

Time and one-half (1-112) shall be paid for the first two (2) hours per day and on the first twelve (12) hours on a fifth

working day, with double time (2x) thereafter. In such cases where a recognized holiday falls during a flexible work week overtime shall be paid after thirty (30) hours worked. (Saturday and Sunday as per the Collective Agreement.)

ARTICLE VII - OVERTIME

7.01 (a) Overtime work performed shall be paid for under the following provisions:

The overtime rate shall also be double (2x) time where the work is performed in a fabrication shop or industrial plant in which the regular employees are paid double (2x) time for all overtime.

- 7.02 If an employee is required by the Employer to return to work before an eight (8) hour break occurs, he will be paid the applicable overtime rate.
- 7.03 Maximum overtime rates not to exceed one and one-half (1-1/2) times regular rates on field pipeline work of a duration greater than three (3) days except on a pipeline built under the United Association Pipeline Agreement for Canada if that agreement should be amended to provide double (2x) time for overtime.
- 7.04 When an employee works more than ten (10) hours, a free meal (hot when possible) and beverage will be provided by the Employer immediately after the conclusion of ten (10) hours, and at each four (4) hour intervals thereafter. The employee shall be allowed a thirty (30) minute meal break and shall be compensated at the applicable rate of pay.

9d

It has been agreed that Article 7.04 does not apply to pipeline work or to work where an employee has been told prior to his dispatch to a job that the hours of work will exceed ten (10) hours per

day and the employee and the Employer have agreed to an allowance in lieu of expense and meal allowance claims.

When such meals are not provided the employee so affected shall receive a meal allowance in the amount of, seventeen dollars and fifty cents (\$17.50) in lieu of such meal but will be entitled to have a coffee break.

**ARTICLE IX - EXPENSES, TRAVEL AND STANDBY
TIME**

9.01 When an employee is required to report for work in the Employer's shop he shall not receive any compensation for the time spent in travel to and from his residence.

9.02 When an employee *is* required to report for work to a job away from the Employer's shop and the job is located in an area where the employee can commute daily between his normal place of residence and the job, he shall be paid his applicable rate of pay for the time spent in commuting. In all such cases, the time spent in travelling shall be measured as follows:

- (a) Where a fixed travel time allowance has been negotiated for the project between the owner or general contractor and the Boilermakers or the United Association, the greater of those shall be paid provided it is known before the NDT bids are submitted.

(b) In all other cases as follows:

- (i) from the Employer's shop to which he was assigned on hire provided that with respect to a construction project for the purposes of this clause the shop must have been established one (1) year before the job was contracted or
- (ii) from the municipal office in the municipality in which the employee is domiciled, whichever is the lesser.

Where the Employer does not have a local shop, the travel time shall be paid from the employee's home.

9.03 When an employee is required to report for work to a job away from the Employer's shop and the job is located in an area where the employee cannot reasonably commute daily to his normal place of residence, he shall be paid his regular rate of pay for the time spent in travelling as follows:

- (a) **Move-in and Move-Out** – at the commencement and conclusion of his work on the project, for travelling time from the employer's shop or agreed point of hire, as the case may be, to a maximum of eight (8) hours per day on a combination of air and taxi transportation. This travel time shall be considered as time worked and overtime rates shall apply where applicable.

- (b) **Daily Travel** – he shall travel to and from the assigned living accommodation on the Employer's time.

When an employee is moving the Employer's vehicle or is being paid mileage allowances to drive his own vehicle to and from a job site the time spent in travel shall be considered as time worked.

11/26/0
9.04 A standby day is a day for which work was scheduled but not performed at the direction of the customer. The employee shall be paid five (5) hours' pay at the applicable rate for a standby day where approved in writing by the customer; provided that where an employee is required to remain at the work site and that requirement is approved in writing by the customer, the day shall be a regular work day and not a standby day even though no work is performed. An employee shall not be entitled to payment under both Article 9.04 and Article XI.

9.05 Employees will be reimbursed for travel expenses to and from the Employer's shop to the job site as directed on the following basis:

Public Transportation:

- at reasonable actual cost substantiated by receipt

Employee's car:

- thirty-bo cents (\$0.32) per kilometre.

No employee shall be discharged for refusing to drive his own vehicle for transportation from the Employer's shop to the job site.

The on-site offices or trailers shall not be considered as the Employer's shop except for jobs where employees are being paid living expenses according to Article 9.06 or 9.07.

9.06 Room, board and travel expenses for an employee who cannot reasonably return daily to his normal place of residence shall be paid as follows:

- (a) Where camp accommodation is provided, no subsistence allowance will be paid to any employee.
- (b) Where no camp accommodation is available, the Employer shall provide room and board as follows:
 - (i) in a customarily acceptable hotel or commercial lodging; or
 - (ii) a minimum subsistence allowance will be paid of ninety dollars (\$90.00) per day

The employee may elect (ii) instead of (i) provided he makes communication arrangements satisfactory to the Employer and provided that does not increase the Employer's travel time liability.

(c) On pipeline projects not covered by APPENDIX "F", Article 9.06 will apply.

- 9.08 Notwithstanding the provisions of Articles 9.02 and 9.03(b) on pipeline projects the time of the shift shall start when the men leave the warehouse for the job site and shall end at quitting time on the job site; however the lunch period shall be excluded. Should the trip to the warehouse at the end of the shift exceed one-half (1/2) hour the Employer shall pay the equivalent of one-half (1/2) hour at straight time rates for each thirty (30) minutes or portion thereof travelling in excess of thirty (30) minutes.
- 9.09 At no time will an employee be required to use his own money to provide his own room and board when working away from his normal place of residence on the direction of the Employer.
- 9.10 Notwithstanding the express provisions of Article 9.02 and 9.03 employees when being compensated for the time spent in travel (company or employee's vehicle) shall receive pay computed on straight time rates and the travel time shall not be counted for the purpose of computing overtime. Providing that after a day in which the total hours of work and travel exceed twelve (12) hours, the employee shall either stay overnight or be paid time and one-half (12) for return travel hours. The employee has the right to refuse to drive after twelve (12) hours in day.

ARTICLE XI - REPORTING FOR WORK

11.01 An employee reporting for work at the scheduled starting time, unless notified the previous day not to report, and for whom no work is available shall receive four (4) hours' pay at the applicable rate. An employee who is only paid four (4) hours' pay for each of three (3) scheduled days may, commencing with the third day, request and be granted his termination papers.

11.02 An employee reporting for work and commences work and is then sent home by the Employer during his first half shift shall receive not less than four (4) hours' pay for the period spent at work.

An employee who has completed the first half of his shift and reports for work and commences work on the second half of his shift and is then sent home by the Employer shall receive not less than eight (8) hours' pay for the entire shift. This paragraph does not apply to work in fabrication shops.

ARTICLE XII - RECOGNIZED HOLIDAYS

12.01 (a) The holidays shall be as follows:

- (c) If an additional holiday with pay is declared by the Federal or Provincial Government the floater shall be observed on that day.

- 12.02 If any of the said holidays falls on other than a working day then the holiday will be celebrated on what would otherwise be the preceding or following working day subject to the customer's requirements.
- 12.03 The employees who work on any of the above-noted holidays shall be paid the overtime pay required by Article 7.01.

ARTICLE XIII - VACATION PAY

employee, will be paid each pay period), or upon layoff or termination in accordance with Article 14.02.

- 13.02 The vacation time shall be taken at a time or times mutually agreed between the employee and the Employer.

15.01 - Industry Training Fees and Upgrading

- 701

 2. CGSB Application and Examination Fees and CWB Certification Fees.
 3. Training and upgrading to qualify for the CGSB and CWB examinations.
 4. or any other expense approved by the Trustees as set out in the Trust Agreement.

The employee does not need the approval of the employer in order to qualify for any of the above, but must apply to and receive approval from the Fund trustees in advance.

It is agreed that at some future date, the Trustees may recommend an increase or a decrease in the contribution rate to cover changes in costs or needs covered by this trust fund. Should this occur the employer agrees to adjust the rate accordingly. Trustees shall ensure that monies paid out are in relation to submissions on a company/personnel basis.

16.06 - Pension
