1.1 Unless otherwise provided, this Agreement covers all Maintenance of Way employees that are members of the USW and for whom rates of pay are provided in Agreements Supplemental hereto.

1.2 The word "employee" used herein shall be understood to mean employees for whom rates of pay are provided in this Agreement or Supplemental Agreement hereto. The use of the word "days" will mean calendar days unless otherwise indicated herein.

1.3 The words "Extra Gang Labourers" used herein shall be understood to mean employees working in temporary extra gangs.

1.4 The use of the masculine gender includes the feminine and vice versa.

1.5 It is agreed by the Company and the Union that there will not be any discrimination or harassment towards an employee based on the employee's age, marital status, race, colour, national or ethnic origin, political or religious affiliation, sex, genetic characteristics, family status, disability, union membership, sexual orientation, gender identity or expression, or conviction for which a pardon has been granted or in respect of which a record suspensions has been ordered.

ARTICLE 2

Hours of Service and Meal Period

2.1 Eight consecutive hours, exclusive of meal period (which shall be one hour unless otherwise mutually arranged) shall, except as otherwise provided, constitute a day's work.

2.2 Regular day shifts shall start at or between 0500 hours and 1000 hours.

2.3 Notwithstanding the provisions of Article 2.2, the starting time for employees not living in hotel, motel, boarding cars, or other mobile units may be established or changed to meet the requirements of the service. When the starting time is to be changed, as much advance notice as possible, but no less than 24 hours notice, shall be given the employees affected and, where practicable, the notice will be posted promptly in a place accessible to such employees. The appropriate Unit Chairperson and the USW President, Local 2004 or designated representative shall be advised of any change in starting time at the same time such notice is given to employees.

2.4 Notwithstanding the provisions of Article 2.2, the starting time for employees living in hotel, motel, boarding cars or other mobile units, or for employees who would ordinarily be accommodated in boarding cars or other mobile units, may be established or changed to meet the requirements of the service. When the starting time is to be changed, as much advance notice as possible, but not later than at the completion of the previous tour of duty, shall be given the employees affected and, where practicable, the notice will be posted promptly in a place accessible to such employees. The USW President, Local 2004 or designated representative shall be advised of any change in starting time at the same time such notice is given to employees.

Starting times will not be changed except where it is necessary to do so to obtain proper productivity and efficiency in the work force.

2.5 Any change in starting time is subject to employees being afforded eight hours' rest between tours of duty.

2.6 Where two shifts are worked, the starting time of each shift shall be established to meet the requirements of the service. The provisions of Articles 2.3 or 2.4, as the case may be, apply in respect of any change of starting time.

2.7 Where shifts are worked in continuous service the second shift relieves the first, the third relieves the second and the first relieves the third; the starting time of the first shift shall be at or between 0600 hours and 0800 hours. The provisions of Articles 2.3 and 2.4 do not apply hereto.

2.8 In changing or establishing starting times, due consideration will be given to the availability of public transportation, when applicable.

2.9

a) The periods of advance notice in respect of changes in starting time contained in Articles 2.3 and 2.4 may, by mutual consent between the employees affected and their immediate supervisor, be reduced in any particular situation to meet local conditions.

b) Upon request from the Foreperson, made with consent of the workers in the gang and with approval of the proper officer of the Company, special arrangements may be made to vary starting times on the first and/or last day of work to permit employees to travel to and from home.

2.10 When eight hours of continuous service are required in regular operations, twenty minutes will be allowed in the fifth or sixth hour of service for a meal without loss of pay when the nature of the service permits.

If required to work overtime for more than three hours, continuous with the completion of an employee's regular tour of duty,

said employee will be allowed twenty minutes for a meal without loss of pay as soon as the nature of the service permits upon the completion of the second hour of overtime. Employees will be given as much advance notice as practicable that overtime will be required.

2.11

- a) Time for employees not living in hotels, motels, boarding cars, or other mobile units, will start and end at designated tool houses, outfit cars or shops.
- b) Assembly points for employees living in Company provided hotels, motels, boarding cars or other mobile units, will be the living accommodation provided. Time for these employees will start and end at the assembly point.
- c) Assembly points for employees who arrange their own "accommodation" in accordance with Article 22.1b) or c), will be determined by the Company and the Union. Assembly points will be designated hotels, motels, tool houses, outfit cars or shops. Time for these employees will start and end at the assembly point.
- d) Travel time in excess of 15 minutes between the assembly point and the worksite will be compensated in accordance with the Collective Agreement. The same principle will apply for return travel from the worksite to the assembly point in accordance with Article 11.10.
- e) Employees who voluntarily elect to travel between the assembly point and worksite in their own vehicles will be paid the same amount as employees outlined in d) above, provided they reach the worksite on time.
- f) Where local conditions necessitate it temporarily, other designated assembly points may be established by mutual agreement between the appropriate representative of the Union and the Company.

2.12 Employees, while assigned to any job and available for service, shall be allowed the minimum number of hours which constitutes a day's work at pro rata rates, for which such number of hours work may be required for each day so assigned, exclusive of rest days and holidays.

ARTICLE 3

Hours of Rest

3.1 Except in cases of emergencies, employees shall not be required to work more than sixteen hours continuously without a rest of eight hours.

ARTICLE 4

Work Week

4.1 The work week for all employees covered by this Agreement, unless otherwise excepted herein, shall be forty hours consisting of five days of eight hours each, with two consecutive rest days in each seven, subject to the following modifications: the work weeks may be staggered in accordance with the Company's operational requirements. This Article shall not be construed to create a guarantee of any number of hours or days of work not provided for elsewhere in this Agreement.

4.2 The term "work week" for regularly assigned employees shall mean a week beginning on the first day on which the assignment is bulletined to work, and for laid-off or unassigned employees shall mean a period of seven consecutive days starting with Monday.

4.3

- a) Various work cycle arrangements may be established by mutual agreement between the proper officer of the Company and the Union. Where such agreement is reached the parties will make a joint application to the Minister of Labour in accordance with the provisions of the Canada Labour Code, if required.
- b) It is understood that the various work cycle arrangements are for the purpose of meeting the Company's operational requirements or to provide employees working long distances from home sufficient time to return home on their rest days. It is also understood that every effort will be made to avoid overtime situations on the last day of the work cycle, unless in the presence of a unavoidable operational necessity outside the supervisory personnel's control or emergency situation.

NOTE: General Holidays for employees working such work cycles will be paid in accordance with the note to Article 10.6.

ARTICLE 5

Assignment of Rest Days

5.1 The rest days shall be consecutive as far as is possible consistent with the establishment of regular relief assignments and the avoidance of working an employee on an assigned rest day. Preference shall be given to Saturday and Sunday, and then to Sunday and Monday, and Friday and Saturday. In any dispute as to the necessity of departing from the pattern of two consecutive rest days or for granting rest days other than Saturday and Sunday, or Sunday and Monday, or Friday and Saturday, it shall be incumbent on the Company to show that such departure is necessary to meet operational requirements and that otherwise additional relief service or working an employee on an assigned rest day would be involved.

Non-Consecutive Rest Days

5.2 In the event that a situation arises which makes it impracticable to assign consecutive rest days to all employees on a particular seniority territory, the following procedure shall be followed.

5.3 All possible regular relief positions shall be established pursuant to Articles 6.1, 6.2 and 6.3.

5.4 Possible use of rest days other than Saturday, Sunday or Monday, where these may be required under this Agreement, to be explored by the parties.

5.5 Other suitable or practicable plans which may be suggested by either of the parties shall be considered and efforts made to come to an agreement thereon.

5.6 If the foregoing does not solve the problem, then some of the relief or extra employees may be given non-consecutive rest days.

5.7 If, after all the foregoing has been done, there still remains service which can only be performed by requiring employees to work in excess of five days per week, the number of regular assignments necessary to avoid this may be made with two non-consecutive days off.

5.8 The least desirable solution of the problem would be to work some regular employees on the sixth or seventh days at overtime rates and thus withhold work from additional relief persons.

ARTICLE 6

Relief Assignments

6.1 All possible regular relief assignments with five days' work per week and two consecutive rest days (subject to Articles 5.2 to 5.8, inclusive) shall be established to perform necessary relief work or to perform relief work on certain days and such types of other work on other days as may be assigned under this Agreement.

6.2 Where situations exist making it impracticable to establish relief assignments in accordance with the above, the proper officer of the Company and the USW President, Local 2004 or designated representative concerned may, by mutual agreement, arrange for relief assignments on such other basis as may be suitable. Consent to such proposed arrangements shall not be unreasonably withheld in cases where otherwise employees would be required to work on assigned rest days or unreasonable travel time would be involved.

6.3 Regular relief assignments may on different days have different starting times, duties and work locations, provided such starting times, duties and work locations are those of the employee or employees relieved.

ARTICLE 7

Training

7.1 Employees taking training under this Article shall be designed as Regular Employee or Trainee as defined in Article 7.1a) and 7.1b) of supplemental Agreements 10.8 and 10.9.

7.2 Regular employees will be required to take training and attempt the qualifying tests in all classifications in which they hold seniority. In instances where employees request that they not be required to take training because of particular circumstances, their case will be reviewed by the USW President, Local 2004 or designated representative or his authorized representative, and proper officer of the Company. In the event such employees do not take training they will not be entitled to the higher rate.

7.3 Regular employees holding seniority in a higher classification who fail to qualify in such higher classification, shall retain seniority in such classification until they relinquish it in accordance with the provisions of the applicable Agreement.

7.4 Notwithstanding the provisions of Article 16.10 of Agreement 10.1, employees may accept promotion by bulletin to a higher classification in order of seniority prior to taking training in such classification. Employees so promoted must complete the training and become qualified within 12 months from the date they are promoted to such higher classification or be returned to their former position and forfeit any seniority acquired through such promotion.

7.5 Regular employees hired prior to **(May 1st, 1981 Bridge and Structure Forces)** and **(January 1, 1978 for Track Forces)** who make written application, are accepted and successfully complete training for promotion must, when their seniority entitle them, accept such promotion. Such employees failing to accept promotion shall only be permitted to use their seniority in their former lower classification to bid on future positions bulletined in the higher classification.

7.6 Employees hired on or **after (May 1st, 1981 Bridge and Structure Forces)** and **(January 1, 1978 for Track Forces)**, who make written application, are accepted and successfully complete training for promotion must, when their seniority entitles them, accept such promotion. Such employees failing to accept promotion shall be released from service, unless otherwise mutually agreed.

7.7 The Company shall determine the order in which employees will receive their training. The selection will be based on seniority order to the extent practicable. However, senior employees who request training shall not lose seniority in a higher classification to junior employees when, through no fault of their own, such senior employees have not had the opportunity to take training and qualify. Until they take training, such senior employees shall, while occupying a position in a higher classification, be paid the rate applicable to qualified employees. Such senior employee will not be laid off when junior employees are working. The number of senior employees receiving the higher rate and/or protected from lay off under this article will not exceed the number of junior employees who have been trained and are working.

7.8 Employees selected for training must attend and actively participate in all training sessions.

7.9 The requirements for qualification in each classification, the training and corresponding tests to be given, will be established by the Company. USW President, Local 2004 or designated representative will be given an opportunity to review written course material to be used in the training program.

7.10 Employees taking training will be required to take the corresponding oral, practical and/or written tests. Trainees who fail a test on the first attempt will be given a second opportunity to pass such test prior to the expiration of two years' cumulative compensated service, unless otherwise mutually agreed. Regular employees who fail a test on the first attempt will be given a second opportunity to pass such test within a reasonable period of time.

7.11 Regular employees who fail twice on any test will be considered for further testing on their own time, and providing that the Company is not put to any expense or undue inconvenience. Such employees desiring further testing must apply in writing to their supervisor requesting an appointment.

7.12 Employees who fail any test and claims they did not have a proper test may appeal the decision under the provisions of Article 18.6 of Agreement 10.1, starting at Step II.

7.13 Employees will not be required to attempt a particular qualifying test without having had an opportunity to receive the appropriate training or be exposed to that aspect of the job.

7.14 Employees will, when required, assist other employees to learn and understand the various aspects of their jobs.

Expenses and Rate of Pay While in Training

7.15 While in training, employees will be paid at the rate of pay they would have received had they not been in training and will be allowed actual reasonable away-from-home expenses necessarily incurred. Time spent travelling, up to a maximum of ten (10) hours each way, will be paid to employees directed by the Company to attend training at an away-from-home location. Should such training be held at a location which is on another Region, then the employees will receive payment for all time travelling to attend such training. The Company will determine the method of travel and payment will be made at the employees' regular rate of pay.

7.16 The Company shall provide each employee taking training with text books and/or other written material required for training which will remain the property of the Company and must be returned on request or on leaving Maintenance of Way service.

Rest Days and Accumulative Time

7.17 As a general rule the rest days for employees engaged in classroom instruction shall be Saturday and Sunday however, when regular rest days or general holidays coincide with the classroom training session, other rest days off will be given without loss of pay.

Vacation

7.18 If, through mutual agreement in writing between the employees and the appropriate Company officer employees' annual vacation are rescheduled to enable them to attend the Training Program, the provisions of Article 25.12 of Agreement 10.1 shall not apply and employees affected shall be granted their vacation at a mutually convenient later date.

7.19 Employees who have successfully passed all tests in a classification shall receive a certificate signed by the District Engineer or, where appropriate, the Director Engineering Services, and the Chief Engineer.

7.20 Employees required to attend a medical examination and/or rule examination on their own time will be compensated an amount not more than eight (8) hours at straight time rate for each day so involved. The employee will also be covered by Rule 22.1.

Training

7.21 Employees who have requested and successfully complete Company sponsored training of three days or more may be required to protect assignments for which training has been provided for a period of nine (9) months.

7.22 Employees who are successful in obtaining a Special License required by the Company to operate equipment will be reimbursed for the costs of obtaining and renewing such license. This provision does not apply to standard motor vehicle operating licenses.

7.23 Employees will be reimbursed for the cost of any medical or optical examination required to obtain or renew a Special License referred to in paragraph 15.8. They will be compensated, up to a maximum of eight (8) hours, from time necessarily lost from regularly scheduled work associated with obtaining the Special License and/or undergoing the medical or optical examination associated with obtaining the Special License.

ARTICLE 8

Overtime and Calls

8.1 Except as otherwise provided, when employees are required to work in excess of eight hours per day, they shall be paid for overtime on actual minute basis at the rate of time and one-half.

8.2 Except as otherwise provided, work in excess of forty straight time hours in any work week shall be paid for at one and one-half times the basic straight time rate, except where such work is performed by an employee moving from one assignment to another, or to or from a laid-off list.

8.3 Except as otherwise provided, employees working more than five days in a work week shall be paid one and one-half times the basic straight time rate for work on such sixth and seventh days worked in any work week, except where such work is performed by an employee due to moving from one assignment to another, or to or from a laid-off list.

8.4 There shall be no overtime on overtime; neither shall overtime hours paid for, other than hours not in excess of eight paid for on holidays or for changing shift, be utilized in computing the forty hours per week, nor shall time paid for in the nature of arbitraries or special allowances such as attending court, deadheading, travel time, etc., be utilized for this purpose, except when such payments apply during assigned working hours in lieu of pay for such hours, or where

such time is now included under existing rules in computations leading to overtime.

8.5 Employees called in case of emergency or a temporary urgency outside of their regularly assigned hours, after having been relieved, shall be paid a minimum of three hours at overtime rates for which three hours of service may be required, but for such minimum shall not be required to perform work other than that of the emergency, and possibly another emergency which might arise subsequent to time of call. If, however, employees are called to commence work less than two hours before regular starting time, the time will be computed continuously with the regular day's work, and the time before the regular starting time shall be paid for at the rate of time and one-half on the minute basis.

An employee who is called by the Company for overtime work pre-arranged or otherwise and accepts the call, will be paid one (1) hour at punitive rates if such call is cancelled prior to his/her leaving home.

8.6 Employees shall not be required to suspend work in regular working hours to equalize overtime.

8.7 All overtime earned shall be shown as a separate item on the pay cheques of employees.

8.8 A record will be kept of overtime worked and regular employees will be called with the purpose in view of distributing the overtime equally to the extent possible subject to the following conditions:

- (a) An employee is already engaged in the work for which overtime is required;
- (b) An employee has the qualifications required to perform the overtime work;
- (c) An employee on duty is immediately available for the overtime work to be performed.
- (d) Provided that the Company's operational requirements are protected at all times, the assignment of overtime shall be allotted on a senior may - junior must basis, subject to employees being qualified for the assignment.

In a case where an employee has missed an overtime opportunity the Unit Chairperson and the appropriate Company Officer will meet in order to arrange for the employee to make up the lost overtime opportunity.

8.9 Employees required to work on regularly assigned rest days shall be paid at the rate of time and one-half.

ARTICLE 9

Employees assigned to Higher-Rated and Lower-Rated Positions

9.1 Employees temporarily assigned to higher-rated positions shall receive the higher rates while occupying such positions.

9.2 Employees temporarily assigned to lower-rated positions shall not have their rates reduced.

ARTICLE 10

General Holidays

10.1 The following general holiday provisions shall be applicable in respect of general holiday entitlement.

10.2 An employee who qualifies in accordance with Article 10.4 shall be granted a holiday with pay on each of the following general holidays. When a general holiday falls on an employee's rest day, such holiday shall be moved to the normal working day immediately following the employee's rest day.

As a consequence of employees' transferring from one province to another, no employee shall be entitled, if qualified, to less than or more than a total of eleven general holidays in any year. Employees who by the nature of their work may be required to work in more than one province, will be granted holidays with pay on the basis of the location of their headquarters, irrespective of where they may actually be working on the holiday in question.

10.3 If, in any province or part thereof, a holiday is more generally recognized than any one of the holidays specified above, the signatories to the Master Agreement dated May 24, 1974 will substitute such holiday therefore in that province or part thereof. If such signatories fail to agree that such holiday is more generally recognized, the dispute will be submitted to arbitration for final decision.

10.4 In order to qualify for pay for any one of the holidays specified in Article 10.2, employees:

- (a) must have been in the service of the Company and available for duty for at least 30 days. This sub-paragraph (a) does not apply to employees who are required to work on the holiday;
- (b) must be available for duty on such holiday if it occurs on one of their work days excluding vacation days.

This sub-paragraph (b) does not apply in respect of employees who are laid off or suffering from a bona fide injury or who are hospitalized on the holiday, or who are in receipt of, or who subsequently qualify for, weekly sickness benefits because of illness on such holiday.

Regularly assigned employees who are required to work on such general holiday shall be given an advance notice of four (4) days, except for unforeseen exigencies of the service in which case they will be notified not later than the completion of their shift or tour of duty immediately preceding such holiday that their services will be required;

- (c) must be entitled to wages for at least 12 shifts or tours of duty during the 30 days immediately preceding the general holiday. This sub-paragraph (c) does not apply to employees who are required to work on the holiday.

Note: Provided that an employee is available for work on the general holiday, absences from scheduled shifts or tours of duty because of bona fide injury, hospitalization, illness for which the employee qualifies for weekly sickness benefits and authorized maternity leave will be included in determining the 12 shifts or tours of duty referred to in Article 10.4 (c).

10.5 A qualified employee whose vacation period coincides with any of the general holidays specified in Article 10.2 shall receive an extra day's vacation with the pay to which the employee is entitled for that general holiday.

10.6 Assigned employees qualified under Article 10.4 and who are not required to work on a general holiday shall be paid eight hours' pay at the straight time rate of their regular assignment. If such employees are temporarily assigned to a higher rated position coincidental with the date of a general holiday, they shall be paid eight hours' pay at the straight time rate of the higher rated position to which assigned.

NOTE: Employees working a cycle other than 8 hours per day will be compensated an equal number of hours for the general holiday when qualified (e.g. 4 days at 10 hours per day).

10.7 Unassigned or spare employees qualified under Article 10.4 who are not required to work on a general holiday shall be paid eight hours' pay at the straight time rate applicable to the position in which such employees worked their last tour of duty prior to the general holiday.

Note: In the application of this Article 10.7 for employees paid on the basis of a specified number of hours per four-week period "eight hours' pay at the pro rata hourly rate" shall be deemed to be a day's pay.

10.8 Employees who are required to work on a general holiday shall be paid, in addition to the pay provided in Article 10.6, at a rate equal to one and one-half times their regular rate of wages for the actual hours worked by them on that holiday with a minimum of three hours for which three hours' service may be required, but employees called for a specific purpose shall not be required to perform routine work to make up such minimum time.

10.9 Where an employee is paid a guarantee of a specified number of hours per four-week period and who works on the holiday, the general holiday with pay specified in Article 10.6 shall be paid in addition to the regular compensation for such four-week period.

10.10 Shifts or tours of duty commencing between 2400 hours midnight on the eve of the general holiday and 2359 hours on the night of the general holiday, both times inclusive, shall be considered as work on that holiday.

10.11 Pump repairers paid on the basis of 179.3 hours per four-week period and qualified under Article 10.7 and who are not required to work on a general holiday shall be paid eight hours at the straight time rate and this time shall be included in making up the 179.3 hours.

Close-Down for Christmas and New Years Holidays

10.12 Where maintenance of way gangs, otherwise continuously employed are closed down for the Christmas and New Year's holidays to allow employees to return to their homes, and where employees so affected are, by mutual arrangement and as a consequence of such close-down, required by the Company to work additional days over and above their normal work week prior to such close-down, the additional days so worked will be recognized as shifts or tours of duty for which the employee is entitled to wages in the application of Article 10.4 (c). ARTICLE 15

Bulletining and Filling Positions

15.1 Bulletined positions may be filled temporarily by an immediately available employee pending the assignment of the successful applicant.

15.2 Any appeal against appointment must be made in writing within twenty-eight days from date of issue of award bulletin covering such appointment.

15.3 Appointments shall be made by the officer issuing the bulletin. Employees will be awarded positions in order of seniority provided they are qualified. The name of the appointees and their seniority number will be included in the award portion of the next bulletin. The successful applicant will be required to assume the position to which appointed within 30 days from the date of the award bulletin unless otherwise specified. This period may be extended by mutual agreement between the USW President, Local 2004 or designated representative and the appropriate officer of the Company, if due to unforeseen circumstances the employee cannot be released to assume the position.

15.4 All vacancies will be advertised. If the position is not required it will be noted on the next bulletin as "not required" in order to provide

a record. Should employees not return to work due to illness or injury for a period of one year, the position, if required, will then be advertised as permanent unless otherwise mutually agreed with the USW President, Local 2004 or designated representative. If such employees return to work after one year, they will be required to exercise their displacement rights.

Employees who are awarded a temporary vacancy will not be subject to displacement except by a senior qualified employee who is unable to hold another permanent or temporary position within their seniority group. When an employee is held on a temporary assignment, under the terms of this Article, this shall, in no way, affect the employee's entitlement to expenses, if otherwise payable.

15.7 Temporary vacancies of less than forty-five (45) days required by the Company to be filled, may be filled by the senior qualified employee immediately available. Employees who do not exercise seniority to such temporary vacancies will not forfeit any seniority. Junior qualified employees immediately available must protect assignments in all instances.

15.8 On gangs where a Safety Representative is required, such responsibilities will be advertised on the bulletin and will be awarded to the employee with the most service under Agreement 10.1 on the gang who indicates an interest for these responsibilities. Such employee will be protected from displacement for the duration of the position awarded.

Note: If the employee cannot fulfill the requirement of the Safety Representative position, through agreement with USW President, Local 2004 or designated representative and Company Officer, the responsibilities will be awarded to the next senior applicant.

In the event that an employee requires more than 3 days training in order to fill/work a position, the provisions of Article 7.21 would apply.

ARTICLE 16

months provision set out in Article 16.2a) does not apply to these employees.

- c) The names of employees shall be placed on the seniority lists immediately after they are accepted for a position covered by this Agreement, and seniority will accrue from such date in the classification in which employed, except that if employed either as Assistant Steel Bridge Foreperson or as Masonry Foreperson, a corresponding seniority date will be accorded to them as Steel Bridge Worker or Masonry Worker respectively.

Probationary Employees

- (d) **Probationary employees** (new hires or employees transferring from another bargaining unit) will not be permitted to exercise their seniority to positions until the completion of their probationary period.

16.3 Employees who have been discharged and are subsequently returned to the service with their former seniority standing, will only be allowed seniority from the date of their return to the service provided they have maintained full union assessment. Employees who are not reinstated with their former seniority standing within one year of the date of their discharge, may only be so reinstated by agreement between the proper officer of the Company and the USW President, Local 2004 or designated representative

16.4

- (a) Seniority lists shall be updated and posted at the headquarters locations of all employees concerned, on or before January 31 of each year. A copy of said list shall also be furnished to the union representatives of the employees.

16.5 The names of employees who have been or are promoted to an official or excepted position with the Company or its subsidiaries will be continued on the seniority lists for the groups from which promoted, and shall retain their seniority rights, and, subject to paragraph 38.1(c) of Article 38, continue to accumulate seniority

while so employed. If released from such official or excepted position, employees promoted to temporary official or excepted positions may return to their former position; employees promoted to permanent official or excepted positions may only displace the junior employee or bid a vacancy in their seniority group on their seniority territory.

16.6 Employees occupying a temporary position who are awarded a permanent position will be required to fill such position immediately following the award unless they have indicated on their application that they will occupy the position on conclusion of the temporary vacancy.

16.7 Probationary employees, if qualified, shall have preference of employment over the engagement of new probationary employees.

16.8 Employees who during the preceding calendar year, have performed no service under any of the Agreements supplemental to Agreement 10.1 may be removed from the seniority list by agreement between the USW President, Local 2004 or designated representative and the proper officer(s) of the Company.

16.9 Employees, covered by Agreements supplemental to this Agreement, shall be promoted within each of their Agreements, on their region, in order of seniority, provided they are qualified.

16.12 Unless otherwise mutually agreed between the proper officers of the Company and the Union, employees who voluntarily leave this agreement to work under another bargaining unit when work is available under this agreement will forfeit all seniority under this Agreement and their name will be removed from any seniority list under which they held seniority.

ARTICLE 17

Staff Reduction, Displacements and Recall to Service

17.1 Not less than four working days advance notice will be given when regularly assigned positions are to be abolished, except in the event of a strike or a work stoppage by employees in the railway industry, in which case a shorter notice may be given.

In the event the positions continue for more than four working days past the effective date of the abolishment, a new written four working day notice will be provided.

17.2 In the event of reduction of staff, senior qualified employees will be retained. Employees laid off, or displaced, will, if qualified, have the right to exercise their seniority on their seniority territory. The USW President, Local 2004 or designated representative concerned will be provided with a list of the positions which have been declared redundant.

17.3 When an employee's regular assignment is abolished or when he/she is displaced from his/her regular assignment while he/she is working on a temporary position he/she will be required to declare his/her displacement rights onto another regular assignment.

17.4

- (a)** Laid-off employees who desire to return to the service when work is available for them must keep the proper officer advised of their address and telephone number, in order that they may be readily located.
- (b)** Except as otherwise provided in Articles 3.8 of Supplemental Agreement 10.3 and Articles 3.13 and 3.15 of Supplemental Agreement 10.8 and Article 3.1 of Supplemental Agreement 10.9, Maintenance of Way employees in USW service order who are on laid off status will be given consideration and provided opportunity for any unfilled vacancies within the Maintenance of Way department prior to the Company hiring any new employees.
- (c)** Maintenance of Way employees who are on laid off status and who are qualified or demonstrate the suitability and adaptability to qualify will be given consideration for any unfilled position or vacancy within the Company prior to the Company hiring any new employees. Only employees who have communicated an interest to the Company for such work

will be considered including employees from other seniority territories.

In these cases, employees may continue to work under the jurisdiction of another union, and maintain their standing on the USW seniority list, provided the employees continue to directly reimburse the USW the appropriate union dues. Failure to pay union dues to the USW will result in forfeiture of the employee's standing on the USW seniority list and their names will be removed from all seniority lists.

In the event employees are recalled to USW service, they will have the opportunity to refuse such recall for up to twelve (12) months from the date they are recalled to a position represented by the USW without loss of USW seniority.

17.5

(a) Employees who are displaced or laid off while on leave of absence due to bona fide illness or injury, or vacation, or other authorized leave of absence, shall be able to utilize this Article 17 upon return to service.

(b) Intentionally left blank

17.6 Except as otherwise provided in Article 15.7 or 17.3, employees displaced or affected by a reduction in staff shall immediately displace a junior employee holding a regular position or a position closer to his residence which is pending bulletin, unless prevented by illness or other cause for which a bona fide leave of absence has been granted. Employees failing to exercise their seniority immediately unless prevented by illness or other cause shall forfeit their seniority under this agreement.

In the application of the above, employees who are unable to hold work in their own classification or group on their seniority territory will be granted up to five (5) unpaid days to report to their new position. Employees who elect not to immediately report to their new assignment may only assume their new position on the first day of a work cycle.

Senior May - Junior Must Rules (Displacements)

17.7 Employees placed in a situation to exercise their displacement rights from a permanent position who decide to displace onto a temporary position within the same classification while permanent positions are available in the same classification will not be permitted to displace a junior employee holding a permanent position in that classification until such time as they re-establish themselves, by bulletin, on a permanent position in that classification.

17.8 Employees placed in a situation to exercise their displacement rights from a temporary position and who do not hold a permanent position in that classification or in the classification in which displacing, will not be permitted to displace onto a permanent

position in that classification until such time as they establish themselves, by bulletin onto a permanent position in those classifications.

17.9 Employees on temporary positions of 45 days or more which come to a completion or when employees are displaced from a temporary position, in a classification in which they hold a permanent position may displace on another temporary position or a pending bulletin position in the same classification or revert to their permanent position.

17.10

- a) In situations where employees voluntarily give up a permanent position by bid in the supplement in which they are working, they will not be able to exercise their displacement rights onto any permanent position in any other supplemental agreement in which they hold seniority prior to establishing a permanent position by bid in that supplemental agreement.
- b) The same principle will also apply in cases of displacements where these employees could have displaced onto a permanent position in the supplemental in which working and decided not to do so. In these cases these employees will be considered as voluntarily giving up a permanent position in the supplemental in which they are working.

17.11 In all cases, employees will not lose their seniority in any classification including in an Employment Security situation.

Sequence of displacements within a supplemental agreement:

17.12 In cases of displacements from permanent positions or the abolishment of permanent positions, employees placed in a situation to exercise their displacement rights should follow the following order to maintain their maximum rights to permanent positions:

- (a) at their home location, on permanent positions in the same classification as the one from which displaced, their being none,
- (b) away from their home location, on permanent positions in the same classification as the one from which displaced, their being none,
- (c) at their home location, on temporary positions in the same classification as the one from which displaced, their being none,
- (d) away from their home location, on temporary positions in the same classification as the one from which displaced, their being none,

- (e) at their home location, on permanent positions in the next lower classification in which they hold seniority, their being none,
- (f) away from their home location, on permanent positions in the next lower classification in which they hold seniority, their being none,
- (g) at their home location, on temporary positions in the next lower classification in which they hold seniority, their being none,
- (h) away from their home location, on temporary positions in the next lower classification in which they hold seniority.

Note: Employees should follow this principle from classification to classification until they reach the lowest classification in which they hold seniority.

17.13 In the event employees choose not to follow the sequence outlined in 17.12 above, Articles 22.2 (e) & (f) will apply. Furthermore, employees who do not displace on permanent positions in lower classification in which they hold seniority will not at any time be able to displace in any higher classifications on a permanent position until they re-establish themselves on a permanent position by bulletin.

17.14 Employees displacing from a temporary position and holding a permanent position in a lower classification will be entitled to displace on any temporary position provided the temporary position is a higher classification to the permanent position held by that employee.

17.15 Employees who wish to protect their entitlement to Employment Security in an Article 8 situation must follow the sequences outlined in Articles 17.12 and 17.14. In addition to the requirements therein, seniority permitting, displace on any permanent position which they can hold within the classification affected, then on any permanent position in any classification downward within the same line of promotion from the one vacating.

Recall to Service

17.16

- a) **For Bridge and Structure Employees, and all Employees Covered by the Track Supplemental Agreement**, when staff is increased or when vacancies of forty-five (45) days or more occur, laid-off employees shall be recalled to service in seniority order, in their respective classifications
- b) **For Steel Bridge and Masonry Employees and employees covered by the Work Equipment Supplemental Agreement**, in addition to 17.16a) above, employees recalled in these classifications will be recalled in seniority order if qualified.

- (c) The initial recall outlined in 17.16(a) and (b) will be done by telephone. Where an employee does not return a telephone call, a registered letter will be sent. Failure to respond to such written recall within fifteen (15) days of the date the employee is notified by registered mail at their last known address shall result in severance of employment relationship, unless satisfactory reason is given. (See the recall process in Appendix V)

17.17

- a) Temporary positions or temporary vacancies of under forty-five (45) days' duration shall be filled by qualified laid-off employees living at or near the work location, provided they are immediately available. Laid-off employees shall not be required to accept recall to vacancies of less than forty-five days when they have steady employment elsewhere. Employees assigned under this article will not be allowed to bid or displace during this assignment and will revert to their previous status at the completion of this assignment.
- b) In the application of Articles 17.16 a) and b) above the Company may fill the position pending the return of recalled employees in accordance with this article 17.17 a).

Note: The Company agrees to provide notice of recall under Article 17.17 to the Union.

17.18An employee who does not hold a permanent assignment at the completion of his temporary assignment, may elect to take layoff provided that there are junior qualified employees available to fill all assignments. This Article will only have application on conclusion of the summer working period between 15 September to 31 December of each year.

17.19A Trackman/Track Maintainer who has been laid off on account of reduction of staff and who is unable to exercise displacement rights in accordance with this Article shall have preference of employment in order of seniority in any extra gangs prior to hiring new employees. Senior employees may and junior employees must return to a position in that classification on their seniority territory when properly notified that such work of an expected duration of forty-five days or more is available to them.

Senior May - Junior Must Rules (Recall)

17.20Senior laid off employees will not be obliged to accept recall from lay off. However, the consequences of a refusal on Employment Security or Lay-off benefits is outlined in Articles 17.21 to 17.24 below.

Recall to a Permanent Job (Article 15.11)

17.21 Employees on Employment Security Status and in receipt of Employment Security benefits may accept recall, in seniority order to a permanent job on the Region. However, if they refuse such recall in seniority order they will forfeit forever their entitlement to the benefits contained in Article 7 and 8 of the Employment Security and Income Maintenance Plan (ESIMP). Unless the recall is for their home location they will maintain their rights to the benefits contained in Article 4 of the ESIMP. They will maintain their seniority in the classification for which they were recalled. However, they will not be entitled to exercise such seniority on a permanent job until such time as they re-establish themselves onto a permanent job by bulletin. In all instances the junior employee holding seniority in the classification must protect the assignment.

17.22 Employees on Laid Off Status may accept recall, in seniority order to a permanent job on the Region. - (iii) when an employee is alleged to have been involved in a major incident;
 - (iv) when an employee is involved in an incident where the need for information and appropriate documentation is required by order, regulation or Company requirements.
- (b) When required to attend a formal investigation, an employee will be given at least 48 hours' notice in writing. The notice will include the date, time, place and subject matter of the hearing.
- (c) Where an employee wishes to have an *accredited representative appear with him at a hearing and such a representative cannot be made available for the time set for the hearing, the employee, either directly or through an accredited representative, may seek a delay in the hearing sufficient for the Union to have an accredited representative made available. 22.6 Employees boarding in Company or contractor's outfits shall not be required to pay for meals while on leave of absence, when absent from outfits on duty or on account of sickness, or when permitted to go home for the weekend and absent for two or more consecutive meals. In the latter case forty-eight hours' written notice must be given to those in charge of outfits of intent to be absent from such meals, otherwise the employee will be charged four dollars (\$4.00) for each meal not taken.

Weekend Travel Assistance

In order to qualify for weekend travel assistance an employee must be required to work away from his home location on a regular basis (a minimum of 5 consecutive days prior to the weekend). If such work is on a permanent position, which has an established Headquarters location, there must be an acceptable reason for the employee not relocating his home to the Headquarters location, such as remoteness of the location or limited housing at the location.

- (e) Any combination of a, b, c, and d above.

22.15 The adequacy of train service where it is considered as a means for weekend travel is of course a very relative matter. Waiting time, travelling time, and the alternatives available must all be considered. This basic criteria are that the means used must be fair and practical, must not interfere with the performance of the work and must not place an unreasonable economic burden upon the railways. Where there is a difference of opinion between an employee and his Supervisor in this regard, the local Union representative or the Regional Chief Steward and the Supervisor should confer in an effort to resolve the difference.

22.16 Where a work location is accessible by road the Company shall be under no obligation to provide assistance when the distance to be travelled is forty miles or less in one direction (eighty miles or less return).

The Company's obligation under this arrangement shall not exceed beyond the limits of the Region on which the employee is working, unless employees go beyond the Region at the request of the Company.

For employees who are granted a mileage expense allowance, payment shall be limited to **3,500** miles (5,631 KM) in any one calendar month. However, under special circumstances, after discussions between the USW Local 2004 President and the Division Engineer, the latter has the flexibility to increase this maximum.

Administration

22.17 Claims for payment under the terms of this arrangement must be made in accordance with Company instructions.

The rescheduled vacation with pay to which he is entitled will be granted at a mutually agreed upon later date.

This Article 25.12 does not apply where rescheduling is a result of an employee exercising his seniority to a position covered by another vacation schedule.

25.13 An employee will be compensated for vacation at the rate of pay he would have earned had he not been on vacation during such period.

25.14 An employee terminating his employment for any reason at a time when an unused period of vacation with pay stands to his credit shall be allowed vacation calculated to the date of his leaving the service, as provided for in Articles 25.1, 25.2, 25.3, 25.4, and 25.5 and if not granted shall be allowed pay in lieu thereof.

Such applicants will have preference over later applicants. Applicants will be advised and the vacation dates allotted will be posted, in February, and unless otherwise mutually agreed, employees must take their vacation at the time allotted.

25.19 Unless otherwise mutually agreed, employees who do not apply for vacation prior to February 1st or who change location and vacation list shall take their vacation at a time to be prescribed by the Company.

Where practicable the employee will be given a two-week written notice of his/her vacation allotment.

(Updated from the same original April 26, 1982 letter)

Montreal, Quebec
August 13, 2008

Mr. John Dinnery
President
USW Local 2004
234 Eglinton Ave East, Suite 507
Toronto, ON

Dear Sir:

This has reference to discussions during current contract negotiations with respect to the railway's proposal regarding the desirability of undertaking special arrangements for an employee who becomes physically disabled during the course of his employment and is unable to perform the regular duties of his assigned position and is unable to exercise his seniority on a position which he is capable of performing.

This letter will confirm our understanding that, in such circumstances, the proper officer of the Company and the General Chairman of the Brotherhood will meet to see if arrangements can be made to provide employment to the employee concerned within the bargaining unit. The parties may by mutual agreement, place a disabled employee on a position that his qualifications and ability allow him to perform, notwithstanding that it may be necessary to displace an able bodied employee in the bargaining unit so as to provide suitable employment. The permanently assigned employee so displaced will be allowed to exercise seniority onto a position within the bargaining unit that he is qualified for and has the ability to perform.

A disabled employee placed on a position shall not be displaced by an able-bodied employee so long as he remains on that position except when a senior employee is otherwise unable to hold a position within his seniority group.

Should the disabled employee subsequently recuperate, he shall be subject to displacement, in which case such employee will exercise seniority rights. When a senior able bodied employee believes that the provisions of this letter will result in undue hardship, the General Chairman may discuss the circumstances with the Company.

The above understanding is to provide guidelines for assisting disabled employees to continue to be employed.

If you are in accord with the above, would you please so indicate below.

Yours truly,

Brotherhood of Maintenance
of Way Employees

For some time now the unions and many people in management have expressed varying degrees of dissatisfaction with the current discipline system. Your Brotherhood's concerns were manifested in contract demands served in recent years which included changes to the discipline and investigation provisions of the Collective Agreements.

During discussions both the Brotherhood and the Company recognized that much of the problem with the current system, i.e. the apparent friction, emanated from the system itself. The parties were interested in exploring ways of lessening the formal aspects of the investigation procedure, and undertook to develop a system that would:

- (a) better define the role of the fellow employee or accredited representative appearing with an employee at an investigation;
- (b) allow the Company to assess a level of discipline without the need for a formal investigation.

While continuing to adhere to the concept of a formal system for employees involved in major situations, the new system contains a procedure that will, under certain circumstances, permit the Company to assess discipline to a maximum level of fifteen demerit marks without the necessity of a formal investigation. It has built-in safeguards which enable an employee to request a formal investigation in the event he is not satisfied with the results of the informal investigation. Any discipline assessed may, as usual, be appealed through the grievance procedure, but commencing at Step II.

The new discipline system will have two separate and distinct procedures. One procedure (Informal) will apply in the majority of cases involving incidents which are considered minor in nature. Minor incidents involving employee infractions are defined as those which would warrant fifteen or less demerit marks in the event the employee is found responsible. The second procedure (Formal) will

apply in more serious situations, i.e. those falling into what might be termed the major category.

The informal procedure is designed to be simple and easily understood. It does away with the need for any formal statement taking and the traditional question and answer format. It is hoped and indeed expected that this new approach will tend to eliminate or at least substantially reduce the apparent friction caused by the formal method.

In response to Brotherhood requests the formal procedure contains changes which have been made on an experimental basis. Our belief, however, is that the informal process will prove to be more advantageous for all concerned and that the need for formal statement taking in future will diminish as the success of the informal process becomes evident.

One of the changes to the formal procedure requested by the Brotherhood dealt with the role of the "fellow employee" appearing at investigations. The Brotherhood wanted this role redefined with the view to expanding his responsibilities at a formal hearing. In fact, the role of the fellow employee has evolved through changes brought about by discussion between the parties and various decisions of Arbitrators throughout the past several years. It is clear that the presence of the fellow employee is not that of a mere observer and that certain rights have now been accepted by the parties. It was therefore agreed, that in the new discipline system, the term accredited representative will be used and the term fellow employee will be dropped. The parties have acknowledged that the additional rights provided the accredited representative will in no way undermine the current procedure which is designed to bring out the facts of the case and to provide for a fair and impartial hearing. It is in the light of this understanding that the Company is prepared to define the role of the accredited representative appearing at a formal investigation as follows:

The employee under investigation may discuss with his accredited representative any questions directly related to and having a bearing on the alleged irregularity under review. However, this practice is not to be abused so as to impede investigation through the employee holding such discussions prior to answering routine questions, such as name, occupation, work location, hours of work, etc. Also, the accredited representative will be permitted to raise questions through the officer conducting the investigation during the course of the investigation. It will be the responsibility of the investigating officer to rule on whether or not such questions are relevant. Whether considered relevant or irrelevant, the question and answer will be recorded.

It is to be emphasized that any advice given by the accredited representative to the effect that the employee under investigation should not answer a relevant question will not be accepted by the officer conducting the investigation. The

investigation will be conducted in a proper and dignified manner and at all times under the control of the person conducting the investigation. The role of the accredited representative as well as the officer conducting the formal investigation will be monitored by the Union/Management Monitoring Committee.

The progress of the new discipline system is to be monitored at the Regional and System levels. The monitoring teams will be comprised as follows:

Regions - System Federation General Chairman, the Regional Chief Engineer and the Manager Labour Relations.

The System Steering Committee comprising the current negotiating groups will continue to meet periodically to monitor the results of the new discipline system, to ensure consistency in application and to adjudicate if necessary, on matters dealing with the overall intent and objectives of the program.

Throughout these discussions, some fear was expressed by both sides that some of the proposed changes would encourage the parties to take advantage of certain situations. The Brotherhood expressed the fear that any loosening of the formal structure where traditional safeguards were removed, as in the proposed informal process, would invite certain supervisors to take advantage of employees who were now stripped of the protection provided by the formal system. Assurances were given that this aspect would be carefully monitored to ensure proper application in line with the principles involved.

On the other hand, some members of management are apprehensive that certain people might misconstrue the instruction of this change as signalling a new laissez-faire approach to discipline and are concerned that performance factors, i.e. accidents, personal injuries, etc., might suffer as a consequence.

In fact, neither of these perceptions is correct. Both the Company and the Brotherhood agree that there must be some form of discipline system. It is, therefore, not a question of whether some action will be taken, but rather a question of the mode or process that will be employed to bring about the desired result in keeping with the philosophy of the Company's discipline policy. The success of the new discipline system will depend to a large extent on the good faith and genuine commitment of those involved. To aid in this endeavour, the Company will provide appropriate training for both Company and Brotherhood (Local) officers directly involved. Brotherhood officers will be paid for such training. In addition, those employees affected by the changes will be apprised of the program jointly by Brotherhood and Management officers and informed of the discipline provisions that will apply to them.

Would you please indicate your concurrence with the foregoing by signing this letter in the space provided below.

Yours very truly,

Mr. John Dinnery
President USW Local 2004

Toronto, ON M4P 1K7

Dear Mr. Dinnery,

This will confirm our understanding concerning the policy to be adopted with respect to employees who, because of severe snow conditions, either report late for work or are unable to report at all.

All employees are expected to make every effort to report for work on time, notwithstanding snow or storm conditions. However, in the circumstances quoted above, it is agreed that employees who arrive late for their assignments, but report prior to the mid-point of their tour of duty, will be paid for the day provided such late arrival is directly attributable to the aforementioned severe snow conditions. Employees who report after the mid-point of their tour of duty will be paid one-half day.

With respect to employees who are unable to report for work due to the aforementioned severe snow conditions, or who report after the mid-point of their tour of duty, it is agreed that notwithstanding the provisions of the collective agreement, such employees may be given the opportunity to work additional hours at straight time rates in order to make up part or all of such lost time. It is understood that such arrangements will only apply insofar as they do not conflict with the provisions of the Canada Labour Code.

The above policy only applies when the proper municipal authorities have requested the public to leave their motor vehicles at home and local public transportation services are not operating due to snowstorms.

Dear Mr. Passaretti:

During national negotiations your Union expressed concern about non-schedule supervisors performing work normally done by employees covered by collective agreements between Canadian National Railway Company and the Brotherhood of Maintenance of Way Employees.

This will confirm the opinion expressed by the Company's representative that the Main function of such supervisors should be to direct the work force and not engage, normally, in work currently or traditionally performed by employees in the bargaining unit.

It is understood, of course, there may be instances where, for various reasons, supervisors will find it necessary to become so engaged for brief periods. However, such instances should be kept to a minimum.

This matter will be brought to the attention of our operating officers.

- 4) Employees in receipt of Employment Security benefits will forever forfeit Employment Security protection.

Employees refusing a recall to a temporary position, they will be advised by the DMC of the following:

- 1) They maintain their seniority in the classification for which recalled
- 2) Job security benefits will be forfeited for the duration of assignment if assignment is at their home location.
- 3) Employees in receipt of Employment Security benefits will forever forfeit Employment Security protection.

At the end of each day a copy of each recall form will be sent to the System Federation General Chairman.

If at the end of the voluntary recall, positions remain unfilled, the DMC will invoke the following procedure and start forcing qualified employees in the following order:

If the recall is for a permanent position:

- 1) In inverse seniority order starting by the junior qualified employee laid off, including employees on Employment Security Status and in receipt of Employment Security benefits on the Region. If positions remain unfilled.
- 2) In inverse seniority order starting by the junior qualified employees working in a lower classification on the Region.

If the recall is for a temporary position:

- 1) In inverse seniority order starting by the junior qualified employee laid off including employees on Employment Security Status and in receipt of Employment Security benefits at the location. If positions remain unfilled.
- 2) In inverse seniority order starting by the junior qualified employee laid off including employees on Employment Security Status and in receipt of Employment Security benefits on the Region, If positions remain unfilled.
- 3) In inverse seniority order starting by the junior qualified employees working in a lower classification on the Region

In the case of a refusal, a three way conference call will be arranged with the employee, the office of the System Federation General Chairman and the DMC to ensure the employee is aware of the repercussion of his/her refusal. The conference call will be registered using a standardized form.

At that time, it should be mentioned to the employee that he/she must accept the assignment and that a refusal would result in the termination of his/her employment with the Company.

Employees will be asked questions such as:

- 1) Is there any valid reasons for not accepting this recall?
(Sun Life, "WCB" and authorized leave of absence)
- 2) Are you aware of the repercussion of your refusal?
- 3) Do you understand that if you do not accept this recall your employment relationship with the Company will be terminated?

At the conclusion of the three way conference call if the employee persists in refusing the recall, unless valid reasons are provided, a registered letter will be sent to the employee's last known address confirming the three way conference call and termination of his/her employment. The DMC will also attach to the letter a copy of the standard forms and pension documents for the employee to complete. A copy of the letter will be sent to the System Federation General Chairman.

Dear Sir:

This concerns the Union's demand associated with Contracting Out Article 33 of Agreement 10.1.

As described by Article 33.3, the Company and the Union are committed to meet at the beginning of each year to review and discuss the Company's plans with respect to Contracting Out for that year. The Union requested that the committee(s) be re-established to meet this commitment and to address issues associated with Contracting Out and/or Contracting In.

The terms and conditions governing the make up and procedures affecting the committee will be modelled on the terms contained in the attached document describing "Outsourcing Protocols".

Yours truly,

(Sgd) Dwight Tays
Chief Engineer

OUTSOURCING PROTOCOLS

General

Whenever the Company must outsource work that is done in-house by Maintenance of Way employees, it is important to inform the Union representative assigned to the territory. This procedure will help the Company to make use of our resources. Accordingly, the escalation procedure will be based on the following structure:

a. Level 1

Except in emergencies, the supervisor as set out in article 33.4 of 10.1 agreement must inform the local USW representative as soon as possible and when possible 30 days before work is to be outsourced. The supervisor will explain why the work is to be outsourced. This exchange of information between the supervisor and the local representative will allow alternatives to be explored.

If the parties do not come to a mutual agreement, the matter will be escalated to Level 2.

b. Level 2

If the matter cannot be resolved at Level 1, the USW Chief Steward may request a meeting with the appropriate Company officer to discuss the outsourcing proposal. If this meeting is unsuccessful and the matter remains unresolved, it will be escalated to Level 3.

c. Level 3

If the matter is unresolved at Level 2, it will be referred to the USW President of the Local and the appropriate Company officer.

Collective agreement

It should be noted that this procedure is intended to make it easier to find alternatives to outsourcing and does not in any way modify the provisions of Article 33 of Collective Agreement 10.1. Consequently, the Union does not waive its jurisdiction on the work in question and the Company shall comply with the provisions of this article.

Dear Sir:

This is with regards to your concerns raised regarding the crediting of service for benefit entitlement under the terms of the ESIMA. Although we cannot agree with your suggestion that employees be given credit for 2 days of cumulative compensated service for the same calendar day, we are open to crediting employees who may work 8 hours on each of their scheduled rest days. Therefore in full and final settlement of your demand the company will credit employees with a day of CCS should they work 8 hours or more on a scheduled rest day.

If you concur please signify your agreement by countersigning below.

OFF REGION ASSIGNMENTS

MEMORANDUM OF AGREEMENT between the Canadian National Railway Company and the United Steelworkers Local 2004 with respect to Off Region Assignments;

At the commencement of each calendar year, the Company shall bulletin specified gangs on each Seniority Territory in accordance with the terms of the collective agreement, indicating that certain specified gangs may be required to travel to, and work on, another seniority territory for temporary periods. If required, up to 7 Special Bulletins may be issued throughout the year. (In keeping with Attachment H of the December 19, 2018 Memorandum of Agreement, the bulletining requirement is suspended from March 1, 2019 until December 31, 2023).

Should there be insufficient applicants for such gangs from any given Seniority Territory, the Senior May - Junior Must provisions to fill such vacancies will apply within that seniority territory so as to complete the necessary number of employees on the gang. When applying the Senior May - Junior Must provisions, a maximum of 100 employees within that seniority territory hired on or after December 31, 2007, will complete the necessary number of employees on the gang. The number of employees that the Company may temporarily move off of each seniority territory shall not exceed 100 per seniority territory in Eastern Canada and 120 employees per seniority territory in Western Canada. The seniority status of employees whose seniority grants them the option to apply or not apply for off-region assignments will not be affected by the implementation of this Memorandum of Agreement with respect to Off Region Assignments.

Employees who were awarded a position on a gang identified above who may be required to work off-territory, will be given first preference for such positions in the next operating season prior to any new applicants being considered.

Employees awarded positions in accordance with this Agreement must remain on such positions until their completion, and will not be subject to displacement, however they will be allowed to bid on a subsequent Off Region Special Bulletin. Upon the termination of the positions, employees will be returned to their original position and seniority Territory without loss of seniority.

The use of Off Region Gangs will not permit the Company to invoke the exceptions of Article 33.1 (2) to justify contracting out.

An employee working in another seniority territory will be allowed transportation expenses as outlined in Article 21.11 of Agreement 10.1, to and from his place of residence to the work location once per work cycle. Where it is cost effective, the company may, at its discretion, provide air transportation rather than mileage expense.

When a general holiday specified in Article 10 of Agreement 10.1 falls on a day which does not coincide with an employee's rest days, it may with the approval of the President of Local 2004, or his designate, the Company may move and grant the holiday to coincide with the employee's rest days.

When such substitution takes place the employees will be compensated at the straight time rate for work performed on the day originally designated as the general holiday. When employees are required to work on the day to which the general holiday was moved, they shall be compensated in accordance with Article 10.8 of Agreement 10.1.

Unless otherwise mutually agreed, the Off Region gang will assume the work cycle of the seniority territory where the work is being performed.

The Parties agree that no gangs shall work away from their seniority territory while there are sufficient qualified employees laid off on the territory where the work is required.

APPENDIX IX

August 14, 2008

Mr. John Dinnery
USW Local 2004 President
234 Eglinton Ave. East, Suite 507
Toronto, ON M4P 1K7

Dear Mr. Dinnery,

The following are general guidelines under which boarding cars will be supplied to employees working under the provisions of Agreements 10.3 and 10.8 only. These are guidelines which will apply in addition to the considerations already provided by the terms of Article 22.1 of Agreement 10.1.

In establishing general guidelines, it is necessary to accept the basic premise that employees will normally maintain their permanent residence in proximity to where they work on a permanent basis. This they would do ordinarily of their own accord and is a personal responsibility over which the Company has no interest or control.

However, due to the nature of our operations, there are circumstances which require employees to work at locations that are not in reasonable proximity to their permanent residence. It is in circumstances such as these, over which the employee has no control, that it would be expected the Company assume responsibility for providing some form of accommodation to the employee.

These circumstances involve situations as follows:

- 1) where employees are required to move frequently from one work location to another or whether they may be required to work in remote locations where living accommodations are not available;
- 2) where employees, through the exercising of seniority rights, are required to work away from their permanent residence under circumstances where they would not normally be expected to relocate; or
- 3) where employees would be permanently relocating, but where there may be a temporary period of time where some form of accommodation would be warranted before the permanent relocation is made.

It is under the three foregoing circumstances that accommodation may be provided by the Company in the form of boarding cars.

In the case of Item 1 above, boarding cars or some form of accommodation will always be provided to employees when required to work away from their permanent residence.

In making this commitment for Items 2 and 3 however, there may be times when boarding facilities are not available and no assistance will be provided. In such instances, the Company Officer concerned will, upon request, discuss the problem with the Brotherhood Representative involved. In any event it should be understood that the final determination as to where and when boarding cars will be supplied will continue to rest with Company Officers on the Regions.

One of the problems you pointed out in our discussions, concerns the situation where the Company issues bulletins advertising positions at locations where boarding accommodations are not supplied. This practice is not acceptable to the Brotherhood because employees who would normally require boarding accommodation have no way of knowing if accommodation will be supplied when they are required to exercise their seniority rights to one of these locations.

At times employees have been supplied with boarding accommodation at these locations even though the latest bulletin indicated that boarding accommodations would not be provided. This practice will continue to apply where practicable, depending on the availability of boarding cars.

Labour Relations, North America

APPENDIX X
(Formerly archived "Understandings")

UNDERSTANDINGS

With the exception of the following understandings contained in Agreement 10.1, all previous understandings between the Company and the United Steelworkers Union are null and void.

No. 1 - ARTICLE 2.1

Question:

How are employees to be paid when twenty minutes is taken for lunch?

Answer:

If a man took twenty minutes in his lunch hour he would be paid for 40 minutes at time and one-half rate. If, however, twenty minutes is taken for lunch during regular working hours there would be no loss of pay, and he would be allowed time and one-half if required to work through the regular lunch hour.

No. 2 - ARTICLE 11.2

Question:

If an employee had been instructed to relieve a Foreman at Point B, would he be entitled to the Foreman's rate of pay while travelling to and from Point B?

Answer:

Unless he was voluntarily exercising his seniority rights, he would be paid under Article 11.2 of Agreement 10.1 at his regular rate until he assumed the duties of Foreman at Point B and he would be paid in accordance with the same clause at Foreman's rate when travelling from Point B to resume his regular duties.

No. 3 - ARTICLE 14.3

Question:

What is meant by the term "service" as contained in Article 14.3 of Agreement 10.1?

Answer:

Date of entry into service as a Maintenance of Way Employee under this Agreement.

No. 4 - ARTICLE 16.9

Question:

Should a person who left the service of his own accord be required, upon re-employment, to serve the probationary period as stipulated in

the supplementals before receiving the minimum rate established by the schedule?

Answer:

The object of the probationary period is to secure a qualified person for the service. Therefore if the experience of an applicant meets the requirements of this Article he is, if employed, entitled to the minimum schedule rate.

No. 5 - ARTICLE 18.2

Question:

When an employee is dismissed from the service of the Company and later reinstated in a lower classification, can he displace any junior employee or only fill a vacancy?

Answer:

It was considered that, generally speaking, this question should be automatically decided by the terms under which the man returns to the service of the Company. This is a question which would best be determined by the representatives of the Union and the Local Officers of the Company who would have full particulars with respect to the case.

Generally speaking, they should be guided by the principle that the return of an employee to the service of the Company, who has been dismissed or demoted for cause, should not be permitted to displace other employees.

THE RAILWAY ASSOCIATION OF CANADA

Mr. C. Smith
Vice-President
Brotherhood of Maintenance
of Way Employees
115 Donald Street
Winnipeg 1, Manitoba

Referring to your discussion today with Mr. J.C. Anderson, Vice-President, Industrial Relations, CP Rail, in which you expressed the concern on the part of some members of your General Committee as to the manner in which the Railways intend to apply the new starting time rules agreed to in the Memorandum of Settlement signed on February 18, 1970.

We are prepared to advise the line officers that the purpose of the flexibility in starting times is to permit them to establish or adjust starting times which will enable a particular work force to function in the manner that will achieve higher productivity. It was realized by all concerned at the negotiations that maintenance and construction work on the Railways' facilities must, to the extent possible, be performed at times when conditions permit the undertaking to be progressed in the most efficient and productive manner and the purpose of the rule is to meet these conditions. There is no intention whatever that starting times be changed as you put it to suit the personal desire or convenience of any Company officer. Starting times will not be changed except where it is necessary to do so to obtain proper productivity and efficiency in the work force.

The foregoing is consistent with the application of starting time flexibility in the other collective agreements in the railway industry.

One of the Article III demands submitted by the Brotherhood of Maintenance of Way Employees was to reduce the period of time employees may be required to work before being allowed an opportunity to eat. The provisions of the Collective Agreement to which the Brotherhood referred were Articles 2.10 and 22.1.

The concern expressed by the Union in relation to the application of Article 2.10 related to situations where employees who are allowed a twenty-minute-meal period are required to work without being permitted their meal period in the fifth or sixth hour of service. Their concern in relation to Article 22.1 related to situations where employees who are called to work outside of their regular working limits are required to work longer than 6 hours without food in circumstances where overtime is required.

While they recognized that in emergency situations, circumstances may necessitate some minor delays in obtaining meals, they indicated concern in those situations when the delays were such that the result was protracted periods without food.

After discussing this demand, the Union agreed to the retention of these rules in their present form on the understanding that their concerns would be brought to the attention of those responsible for the organization of work in the above situations. The Union was told that you would be requested to ensure that an opportunity for meals would be provided as indicated.

One of the proposals made by the Associated Non-Operating Unions in the recent negotiations was that when, in the application of the applicable grievance procedure, a decision was not rendered by the designated officer of the Company the claim will be paid or in the case of a grievance not involving a time claim the grievance would be allowed.

During negotiations the Union representatives explained that the major problem was that some designated officers were not complying with the intent of the grievance procedures. They specifically mentioned that cases not involving monetary claims were not dealt with within the specified time limits; also very brief replies were being given by the Supervisors without dealing with the points raised by the Union Representative in his letter.

We undertook to remind you of the importance of dealing with all grievances within the prescribed time limits. It is appreciated that there may be an unusual case that cannot be handled within the time limits. In such instances, you should request an extension of time limits from the appropriate Union Representative. In addition we expect that the appropriate Supervisor will state his reasons for declination in relation to the statement of grievance submitted by the Union Representative.

Would you please see that this matter is brought to the attention of all Supervisors and that grievances directed to them are handled in accordance with the provisions of the applicable Wage Agreement.

Such transportation expenses may include flying by schedule airline where necessary. Consideration will be given to special cases.

Gentlemen:

During Article III negotiations, the Brotherhood explained that their demand with respect to Article 3.1 of Agreement 10.1 was submitted for two reasons.

Firstly, they expressed a concern that employees were required to work at wrecks and derailments without accommodation being provided. Consequently, employees had no place to rest other than the vehicles which were used to transport them to the work site.

Secondly, they expressed a concern that employees at wreck or derailment sites were not being provided with the same standard of meals as employees represented by other Unions.

This will confirm our commitment that instructions will be issued to Field Officers to ensure that employees who are called to work at wrecks or derailments will be provided with the same standard of accommodation and meals that is being provided to employees represented by other Unions.

The Company will also undertake to communicate this commitment to their respective Regional Officers that are responsible for dispatching employees to work at wrecks and derailments.

Gentlemen:

During the last round of National Negotiations both parties agreed to meet during the closed period of the Agreement with the view to reduce and modernize the number of classifications presently in use in collective agreement 10.1.

From August 18th to 20th, 1998 the parties met in Toronto to discuss various closed period commitments including the one mentioned above. During our discussions it was agreed that a list of classifications currently not in use would be created and placed as an appendix to Agreement 10.1.

This list of classifications would contain the title of the classification, the supplemental agreement under which it was governed and the January 1, 1997 rate of pay of the classification. Should a classification contained in this list be required in the future, it will be re-activated under the same supplemental agreement as it previously was and the rate of pay will be re-constructed from the 1997 rate of pay to the date of re-activation.

Attached for your information is a list of classifications which, with this letter, will form part of the newly created appendix XVII to be attached to agreement 10.1.

If you agree that the above properly reflects the content of our discussions, would you please so indicate by signing and returning a copy of the letter and its attachments to the undersigned.

Dear Mr. Housch:

With reference to the letter you sent to Richard Dixon dated September 2, 1998 outlining the questions you raised with us at our meeting in July, I wanted to personally respond to you on behalf of CN.

First, with reference to your question regarding the possibility of the merger with IC impacting on CN's existing trans-continental trackage north of the Great Lakes, I stated that there was no risk at all as our Canadian transcontinental route is the linch pin of our network and that this will remain an integral part of CN's operations.

Secondly, you asked if the new routing through Chicago could cause a shift in our focus with resulting reductions in manpower on the trackage north of the Great Lakes. As you know we continue to look for ways for controlling our costs and making the most of our various assets; therefore I would not have been in a position to predict the future in terms of what the staffing levels would have been on this trackage had we not purchased the Illinois Central. What I can say is that there will be no layoffs on our Northern Ontario routing as a direct result of the IC merger and we will continue to maintain this trackage to the standards we have set in order to provide excellent service to our customers.

Lastly, you raised your concern about the long term viability of the DWP. As I stated and Michael Sabia reinforced, the DWP will become an even more important link into the Chicago area.

It is clear that with the assistance of you and your members CN can cross this important cross roads in its history to become the pre-eminent railroad in North America. Your members have been instrumental in the history of CN and it is our hope that the merger with Illinois Central will enhance our relationship.

Also, this confirms that the above letter will form part of the Collective Agreement.

Yours truly,

(Sgd) J.T. McBain

Gentlemen:

During the process of incorporating the Senior May - Junior Must Memorandum of Agreement signed on May 12, 1999, into Agreement 10.1 and its supplements, there were items which required modification to maintain consistency with the language of collective agreement and a small number of items which did not properly fit into existing Articles.

One notable example being the objectives of the Senior May - Junior Must concept worked out by both parties.

These objectives are:

- 1) To increase the stability of employees
- 2) To introduce a mechanism for employees to work closer to home,
and
- 3) To contain expenses incurred by the Company.

To accomplish these objectives the rules negotiated in the Memorandum of Agreement, have been incorporated and where possible, identified in the collective agreement.

The BMWE and the Company have over the past few years attempted to simplify and streamline the collective agreement. To continue this process, it was agreed that the "Questions and Answers" in the green covered booklet would not be reproduced in the collective agreement. These items are in the green booklet distributed in June 1999.

Should there be any issues which arise as a result of the incorporation of these rules into the collective agreement or as a result of the Application of these rule, the parties have committed to meet on a regular basis to resolve them on the basis of the original intent of the Senior May - Junior Must Agreement in line with the above objectives.

Your truly,

R Dixon
