Concerning

The Acquisition of New Client Contracts and the Potential Impact of the
Collective Agreement

Both the Employer and the Union recognise that the nature of the Employer's business requires that from time to time the employer enter into contracts with clients which are unique in nature under which certain terms and conditions of employment as set out in this collective agreement may not apply.

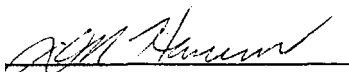

It is recognised that Commissionaires Ottawa, in pursuing new business, will attempt to negotiate terms and conditions that are compliant with existing conditions of the collective agreement. However, in the event that this **is** not possible, the employer agrees to inform the union as soon as possible of such a contract and both the employer and the union agree to enter into negotiations solely to integrate the contract into the collective agreement. Such negotiations may include discussions concerning wages. These negotiations in no way are to be construed as a re-opener pursuant to Article 37.

For greater clarity negotiations will cover how to integrate the newly acquired client contract into the collective agreement.

The intention of this Memorandum is to allow the Employer to compete with competitors in pursuing business for which the Commissionaires Ottawa is suited.
